State/Union Territory	Tripura	Total Geographical Area (km²)	76.504	City Category	Small City

DEMOGRAPHIC PROFILE

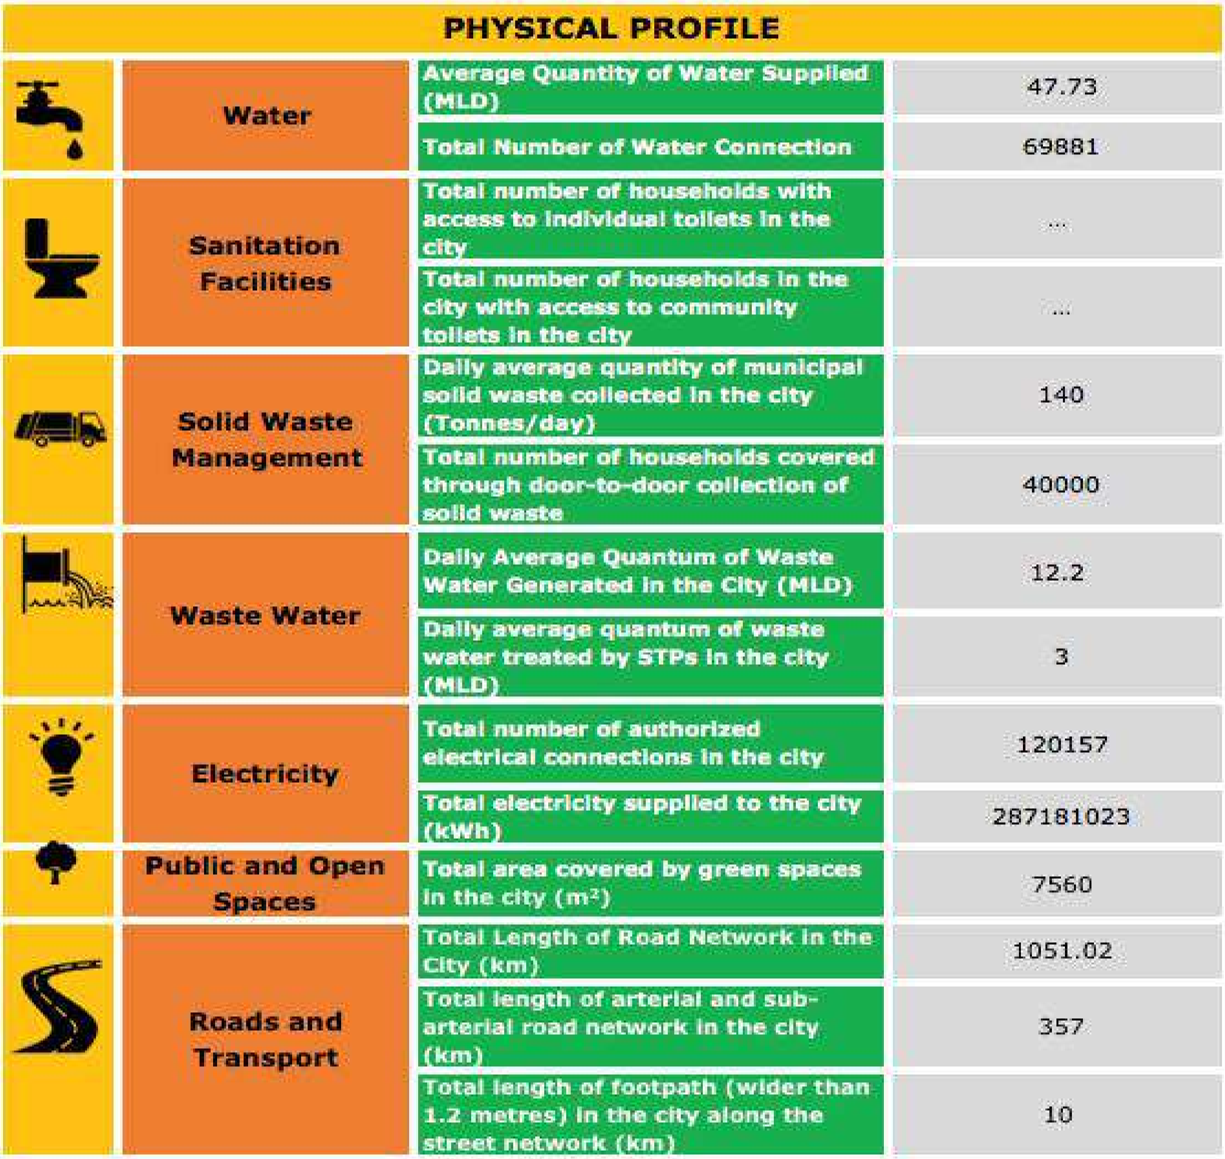
Total Population	400004
Total Number of Households	120363

SOCIAL PROFILE

Education	Total Number of Schools	160
	Total Enrolment (Class 1 to 5)	30538
Health	Total Number of In-patient Beds	2313
	Total Health Workforce	2005
Safety and Security	Total Strength of Police Force	497
	Total Number of CCTV Cameras	62
Heritage Sites	Total Number of Heritage Sites	3

ECONOMIC PROFILE

Total Population in Working Age Group	174383
Total Number of Industries	1
Total Number of Commercial Enterprises	15752
Total Number of Hotels	71
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	13015.35
Total VAT Collection in FY 2016-17 (INR Lakhs)	77902.38



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	47.73
	Total Number of Water Connection	69881
Sanitation Facilities	Total number of households with access to individual toilets in the city	...
	Total number of households in the city with access to community toilets in the city	...
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	140
	Total number of households covered through door-to-door collection of solid waste	40000
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	12.2
	Daily average quantum of waste water treated by STPs in the city (MLD)	3
Electricity	Total number of authorized electrical connections in the city	120157
	Total electricity supplied to the city (kWh)	287181023
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	7560
Roads and Transport	Total Length of Road Network in the City (km)	1051.02
	Total length of arterial and sub-arterial road network in the city (km)	357
	Total length of footpath (wider than 1.2 metres) in the city along the street network (km)	10

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various ‘Category Sub-Indexes’ and a composite ‘City Liveability Index’ will be developed for each city.

3.1. Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	Category	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open	8.1 Per capita availability of green spaces

Pillars of Comprehensive Development	Category	Indicators
	Spaces	8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System

Pillars of Comprehensive Development	Category	Indicators
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollu-	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	Category	Indicators
	tion	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2. Scoring and Computing Category Indices of Liveability

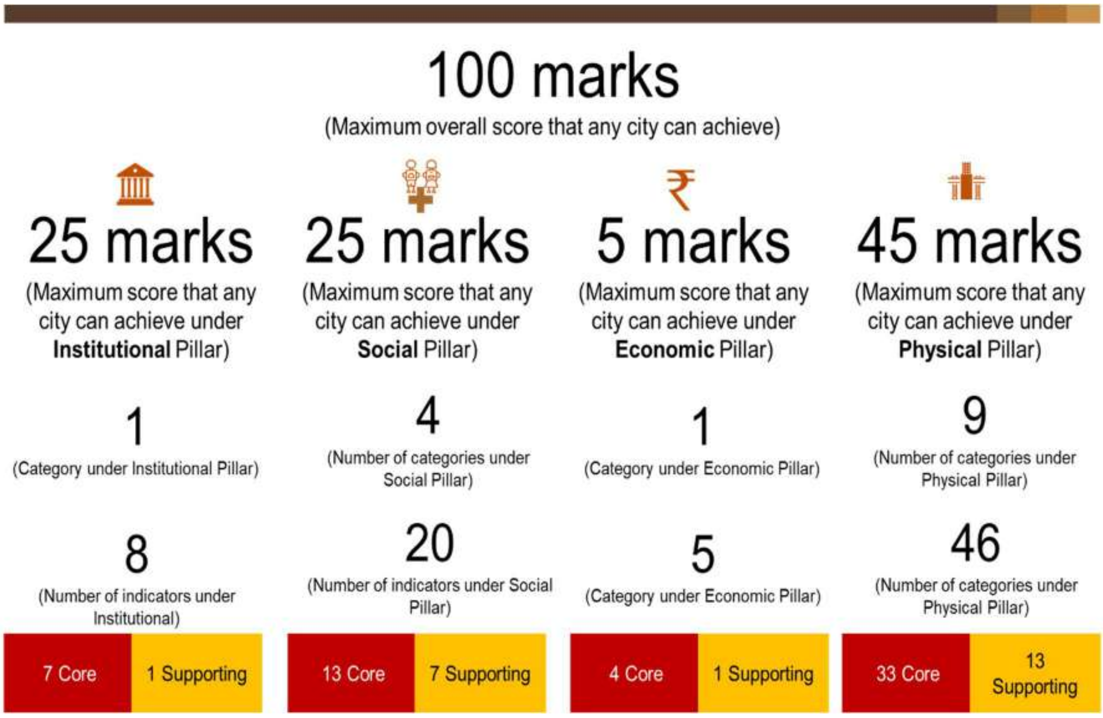
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3. Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4. Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicatorvalueforthecity - indicatorvaluefortheworstperformingcity}{benchmark - indicatorvaluefortheworstperformingcity}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1. Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2. Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions

on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Agartala Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Public Work Section, Agartala Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Public Work Section, Agartala Municipal Corporation
Urban Local Body	For Heritage sites related data	Agartala Municipal Corporation
Urban Local Body	For Ecological sites related data	Agartala Municipal Corporation
Urban Local Body	For Housing related data	Agartala Municipal Corporation
Urban Local Body	For Building plan related data	Building Plan Section, Agartala Municipal Corporation
Urban Local Body	For Roads related data	Public Work section, Agartala Municipal Corporation
Urban Local Body	For Solid waste management related data	Solid Waste Management Section, Agartala Municipal Corporation
Urban Local Body	For IT services related data	IT Section, Agartala Municipal Corporation
Urban Local Body	For Vendor committee related data	Agartala Municipal Corporation
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Tripura State Pollution Control Board
Development Authority	Building Infrastructure	Building Plan Section, Agartala Municipal Corporation
	Construction planning	Building Plan Section, Agartala Municipal Corporation

	Green Building	Building Plan Section, Agartala Municipal Corporation
	Rain water harvesting	Building Plan Section, Agartala Municipal Corporation
	Universal Design Principle	Building Plan Section, Agartala Municipal Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Tripura State Electricity Corporation Limited
State Disaster management authority		District Disaster management Office
State Education Department		District Education Department
State Health Department	Health care professionals	Health Section, Agartala Municipal Corporation
	Citizen Services	Health and Family welfare department
	Disease Prevalence	Health and Family welfare department
	Health Infrastructure	Health and Family welfare department
State Renewable Energy Development Agency		Tripura Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Sales and commercial Taxes department
Town and Country Planning Department	Land Use	Planning department, Tripura
Traffic and Police Department		State Police department
Transport Authorities	Buses	Tripura state road transport corporation
	Registered Vehicles	Tripura state road transport corporation
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3. List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 3 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

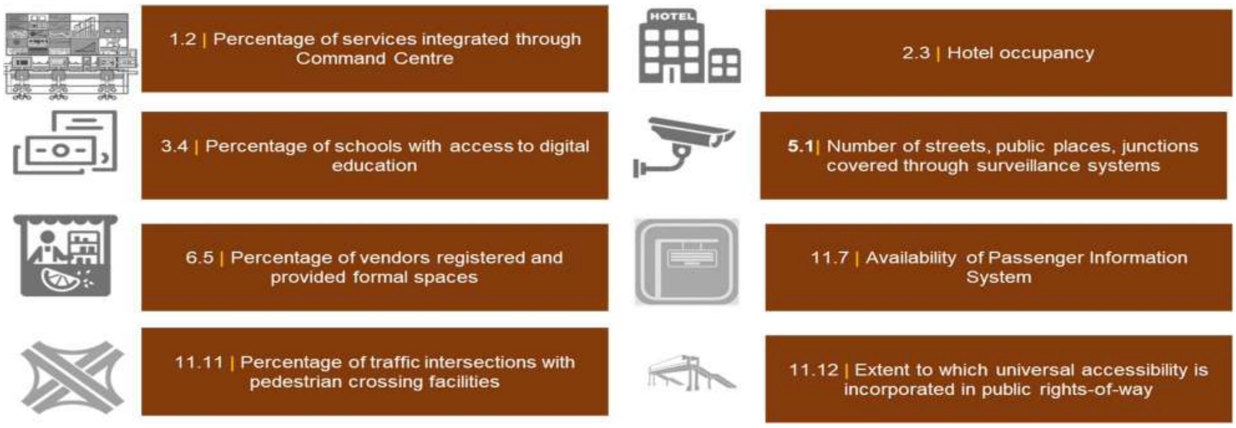
Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	0
DISCOM/Electricity Department	0
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	3
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	0
Transport Authority	0
Disaster Management	0
Urban Local Body	0
Total	3

* The count of documents is based on first round of submission.

4.4. Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:



1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

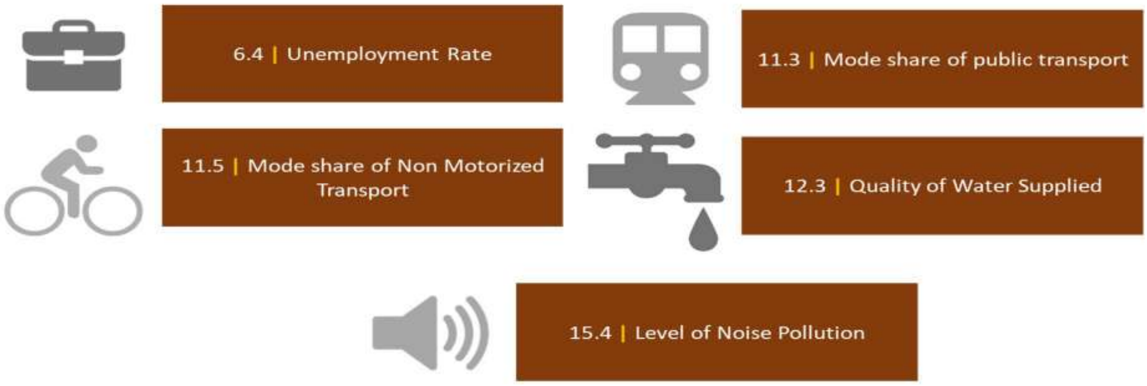
6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.



6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5. Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**69.71**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	0.75
	1.1c trade license	1
	1.1d solid waste management	0

Indicator No: 1.5	**Tax collected as percentage of tax billed**	**91.7**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	4446.83
Denominator	Total demand raised for the year	4849.54
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**28.36**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	1802.78
Denominator	Total O&M cost for providing water supply services during the year	6356.04
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**12.43**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	6645.69
Denominator	Total expenditure (revenue and capital accounts) in the same year	53450.51
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward**	**6.67**

	Committees/ Area *Sabhas*	
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	4
Denominator	Total number of wards	60
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites re-stored/preserved/brought under adaptive reuse	NA
Denominator	Total number of historic buildings/sites identified	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	NA
Denominator	Total number of ecologically important sites identified in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**71**
Description	Average Occupancy rate of Hotels	71
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	22977.52
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**4**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	4
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**98.25**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	63941
Denominator	Total population in the age group of 6-14 years	65079
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**102.8**
Formula:	*Numerator / Denominator*	

Numerator	Total female enrolment in primary and secondary schools (public and private	32628
Denominator	Total female population in the age group of 6-14 years	31738
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**34.02**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	28104
Denominator	Total number of teachers available for primary grades (public and private schools)	826
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**28.29**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	73
Denominator	Total number of schools	258
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**88.05**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	88.0540304160328
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**92.09**
Formula:	*Product of ratios of students passing successive grades*	

	(between grades 6 to 8) in 2016-17	
Numerator	Percentage	144475426
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**39.92**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	1774
Denominator	Total population of the city	444352
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**12.74**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	566
Denominator	Total population of the city	444352
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**15.3**
Description	Total response time for health-related distress calls received in the city	15.3
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	3859
Denominator	Total population of the city	444352

Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.17**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	752
Denominator	Total population of the city	444352
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**2.7**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	36
Denominator	Total length of road network in the city	1332.84
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1673.67**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	7437
Denominator	Total population of the city	444352
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**2**

Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	149
Denominator	Total crimes recorded in the same year	7437
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**51.76**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	230
Denominator	Total population of the city	444352
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**22.8**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	4811.37
Denominator	Total VAT/GST collection during preceding year	211.0259
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**5.27**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	10.35

Denominator	Total Professional Tax collection during preceding year	196.24
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-23.18**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-682
Denominator	Number of construction permits during preceding year	29.42
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	13721
Denominator	Total labour force in the city	65079
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**141.86**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	2308
Denominator	Total number of vendors in the city	1626.975

Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**13.19**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	9789
Denominator	Total number of slum and EWS households in the city	742.19
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**11.33**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	9874332630096
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.22**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	96842.49
Denominator	Total population of the city	444352
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.34**
Formula:	*Numerator / Denominator*	

Numerator	Total area of public and recreational places (sq.m.)	153020.85
Denominator	Total population of the city	444352
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**12.95**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	20640000
Denominator	Total area of the city (total area of all land uses)	159350000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	444352
Denominator	Area allocated for residential land use (in hectares)	20640000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**75.17**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	217406
Denominator	Total number of households in the city	289235

Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	351827
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	
Description	Total number of sustained electrical interruptions in a year	**4747**
Unit	Number	4747
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.58**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	131124
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	814
Denominator	Total energy consumption from all sources	1395530543

Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.32**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1633964.58333333
Denominator	Total quantum of water and waste water handled during the period	3960
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	7591275
Denominator	Total number of street light installations	28935
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.7**

Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1395530543
Denominator	Total population of the city	444352
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.24**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	55
Denominator	Total area of the city (sq.km)	159.35
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.7**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	310
Denominator	Total population of the city	444352
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	NA
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	1332.84
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**	**To be computed**
Description	Mode share of non-motorised transport	NA
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**To be computed**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	19
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	1.289
Denominator	Total length of road network in the city	2665.68
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	0
Denominator	Total number of junctions/ intersections on major roads in the city	332
Unit	Percentage	
Benchmark	100%	

Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**11.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	37
Denominator	Total number of public right-of-way areas in the city	335
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**74.19**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	214596
Denominator	Total number of households in the city	289235
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**281.31**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	125
Denominator	Total population of the city	444352
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	35
Denominator	Total number of samples tested for water quality	35

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**30.4**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	38
Denominator	Quantum of water put into the distribution system (mld)	125
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**50.12**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	92897
Denominator	Total number of water connections in the city	185349
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**10.99**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	248
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	2256
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**121.04**
Formula:	*Numerator / Denominator*	

Numerator	Total number of properties with access to individual and/or community toilets	301721
Denominator	Total number of properties in the city	249264
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**105.76**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	263619
Denominator	Total number of properties in the city	249264
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**7.27**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	7
Denominator	Total waste water generated in the city per day	96.28
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**195.71**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	13.7
Denominator	Total waste water received at treatment plants per day	7
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**1.36**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	18.062
Denominator	Total length of road network in the city	1332.84

Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**99.99**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	298003
Denominator	Total number of households and establishments in the city	298046
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	520
Denominator	Total quantum of MSW generated in the city	520
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**1.42**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	221.84
Denominator	Average MSW generated in the city (tons per month)	15600
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration	Data Unavailable

	over 24 hours of SO2	
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	4
Denominator	Total number of noise samples	6
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	Data Unavailable
Denominator	Total number of samples tested	Data Unavailable
Unit	Percentage	
Benchmark	100%

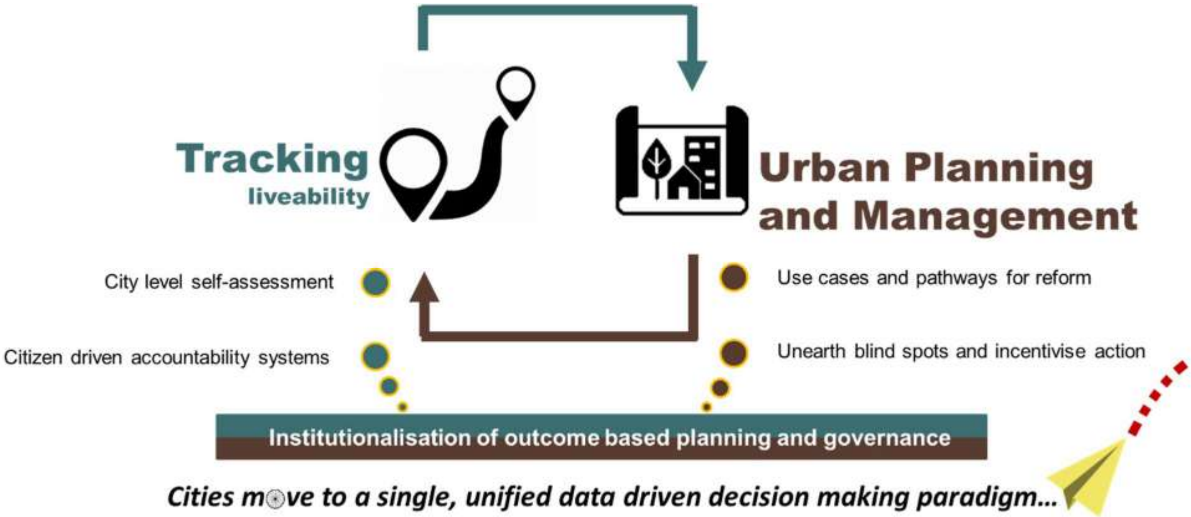
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



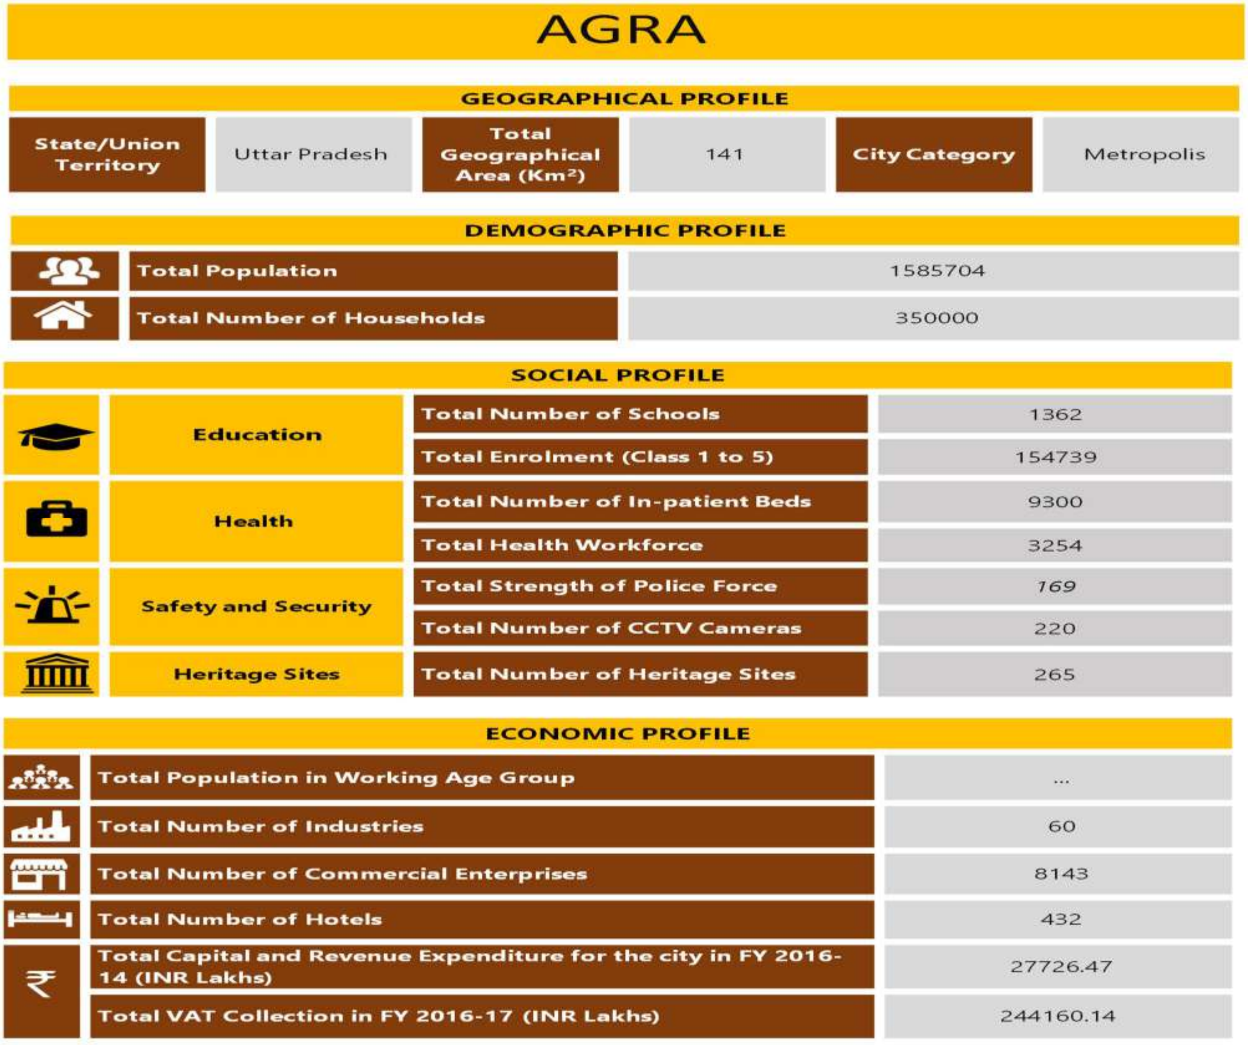
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AGRA

GEOGRAPHICAL PROFILE

State/Union Territory	Uttar Pradesh	**Total Geographical Area (Km²)**	141	**City Category**	Metropolis

DEMOGRAPHIC PROFILE

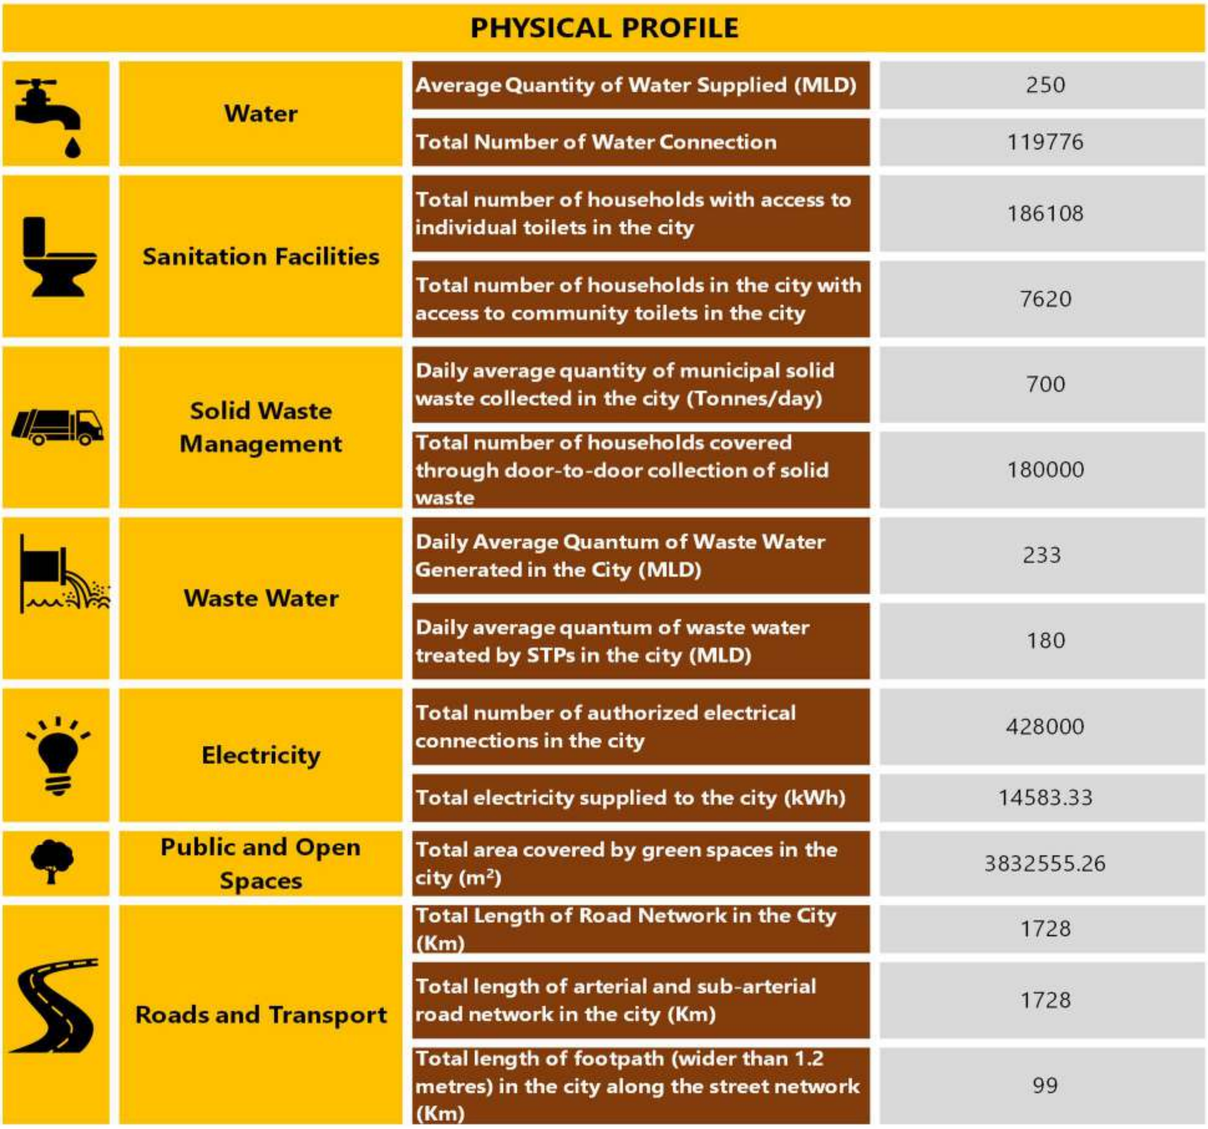
Total Population	1585704
Total Number of Households	350000

SOCIAL PROFILE

Education	**Total Number of Schools**	1362
	Total Enrolment (Class 1 to 5)	154739
Health	**Total Number of In-patient Beds**	9300
	Total Health Workforce	3254
Safety and Security	**Total Strength of Police Force**	*169*
	Total Number of CCTV Cameras	220
Heritage Sites	**Total Number of Heritage Sites**	265

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	60
Total Number of Commercial Enterprises	8143
Total Number of Hotels	432
Total Capital and Revenue Expenditure for the city in FY 2016-14 (INR Lakhs)	27726.47
Total VAT Collection in FY 2016-17 (INR Lakhs)	244160.14



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	250
	Total Number of Water Connection	119776
Sanitation Facilities	Total number of households with access to individual toilets in the city	186108
	Total number of households in the city with access to community toilets in the city	7620
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	700
	Total number of households covered through door-to-door collection of solid waste	180000
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	233
	Daily average quantum of waste water treated by STPs in the city (MLD)	180
Electricity	Total number of authorized electrical connections in the city	428000
	Total electricity supplied to the city (kWh)	14583.33
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	3832555.26
Roads and Transport	Total Length of Road Network in the City (Km)	1728
	Total length of arterial and sub-arterial road network in the city (Km)	1728
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	99

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various ‘Category Sub-Indexes’ and a composite ‘City Liveability Index’ will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases

Pillars of Comprehensive Development	Category	Indicators
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

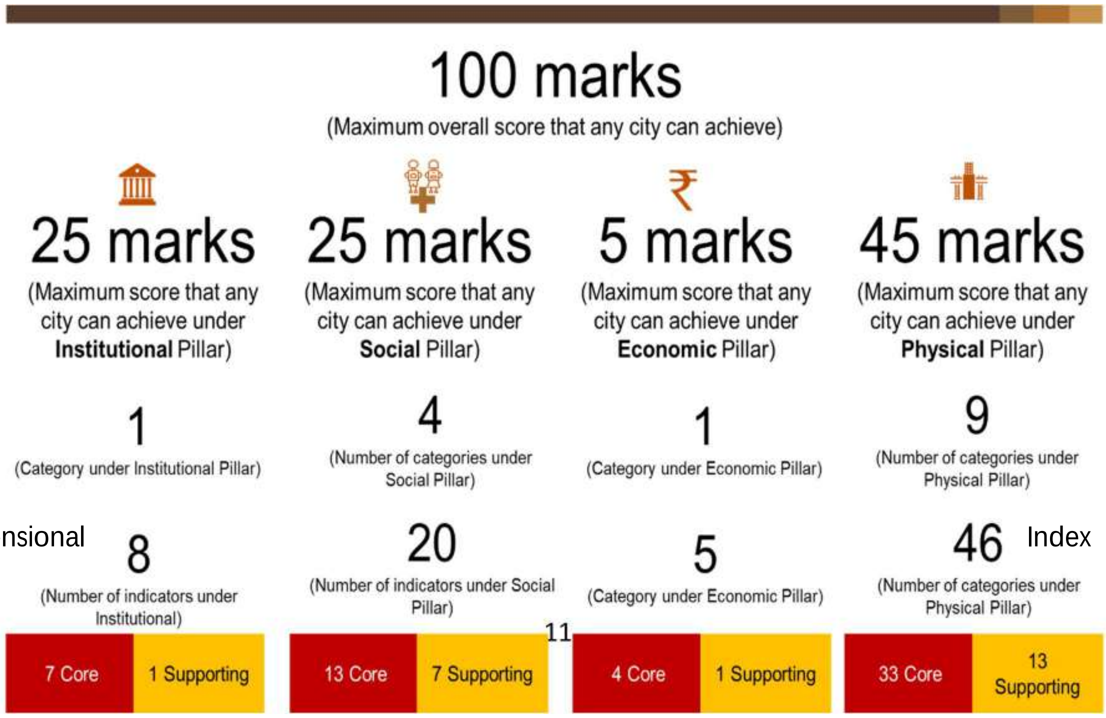
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5

13 Supporting

Dimensional Index

Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission

of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3: Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department, Agra Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Park and Recreation, Agra Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Water supply office, Agra Municipal Corporation
Urban Local Body	For Heritage sites related data	Heritage and tourism department
Urban Local Body	For Ecological sites related data	Ecological section
Urban Local Body	For Housing related data	Housing section
Urban Local Body	For Building plan related data	Development Authorities
Urban Local Body	For Roads related data	Roads section, Agra Municipal Corporation
Urban Local Body	For Solid waste management related data	Solid waste management section, Agra Municipal Corporation
Urban Local Body	For IT services related data	Agra Smart city limited
Urban Local Body	For Vendor committee related data	Agra Municipal Corporation
Urban Local Body	Any other departments involved	

Designated data owners	Subcategories	Data owners at city level
	in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Water supply office
Development Authority	Building Infrastructure	Development Authorities
	Construction planning	Development Authorities
	Green Building	Development Authorities
	Rain water harvesting	Water supply department
	Universal Design Principle	
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Discom/Electricity board
State Disaster management authority		Agra Municipal Corporation
State Education Department		State Education Department
State Health Department	Health care professionals	State Health Department
	Citizen Services	
	Disease Prevalence	
	Health Infrastructure	
State Renewable Energy Development Agency		
State Sales / Commercial Taxes Department		
Town and Country Planning Department	Land Use	Town and country planning department
Traffic and Police Department		
Transport Authorities	Buses	Transport Authorities
	Registered Vehicles	Transport Authorities
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 16 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

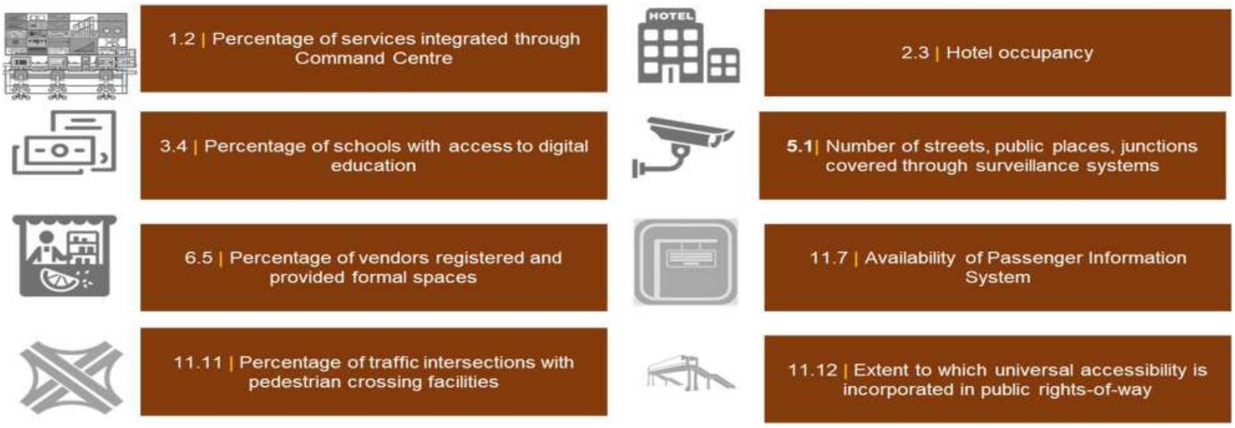
Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	7
DISCOM/Electricity Department	0
Traffic and Police Department	3
Development Authority	0
Pollution Control Board	0
State Renewable Energy Department	2
Town and Country Planning	0
State Health Department	1
Transport Authority	1
Disaster Management	0
Urban Local Body	1
Total	15*

* The count of documents is based on first round of submission.

4.4 Data Verification

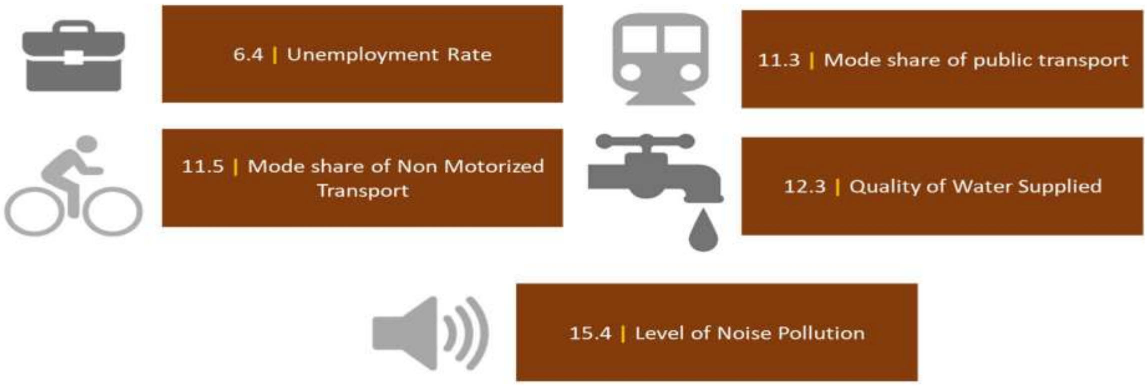
A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:



1.2 | Percentage of services integrated through Command Centre
HOTEL
2.3 | Hotel occupancy
3.4 | Percentage of schools with access to digital education
5.1 | Number of streets, public places, junctions covered through surveillance systems
6.5 | Percentage of vendors registered and provided formal spaces
11.7 | Availability of Passenger Information System
11.11 | Percentage of traffic intersections with pedestrian crossing facilities
11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.



6.4 | Unemployment Rate
11.3 | Mode share of public transport
11.5 | Mode share of Non Motorized Transport
12.3 | Quality of Water Supplied
15.4 | Level of Noise Pollution

4.5 Physical Audit

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	**Indicator title**
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**65.53**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	0.75
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	1

	1.1i professional tax	0
	1.1j information	0.769230769
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.333333333
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**50**
Description	Services integrated through an integrated or a singular operations command centre	10.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**2.4**
Description		
Sub Indicators	1.3a Building plan	0.001413628
	1.3b Birth/Death Certificate	0.000186247
	1.3c water supply	0
	1.3d solid waste management	0.011999717
	1.3e property tax	0.000842448
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	9.20727E-05
	1.3i information	0.002402718
	1.3j electricity	0.175233645
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.4	**Average delay in grievance redressal**	**0**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**98.93**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	2530.56
Denominator	Total demand raised for the year	2558
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**88.92**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	5161.53
Denominator	Total O&M cost for providing water supply services during the year	5804.9
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-5.49**
Formula:	*Numerator / Denominator*	

Numerator	Total capital expenditure during a year	-3803.41
Denominator	Total expenditure (revenue and capital accounts) in the same year	69318.05
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	100
Denominator	Total number of wards	100
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**3.77**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	10
Denominator	Total number of historic buildings/sites identified	265
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	3
Unit	Percentage	
Benchmark	100%	

Indicator No: 2.3	**Hotel Occupancy**	**25.71**
Description	Average Occupancy rate of Hotels	25.71428571
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	6.41
Denominator	Total budget of the ULB (capital and revenue)	27726.47
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**20**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	20
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**59.73**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	208965
Denominator	Total population in the age group of 6-14 years	349837
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**58.12**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	92308
Denominator	Total female population in the age group of 6-14 years	158827
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**61.9**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	154739
Denominator	Total number of teachers available for primary grades (public and private schools)	2500
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	0
Denominator	Total number of schools	1362
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**41.25**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	41.25085184
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**57.43**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	349646672

Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**58.65**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	9300
Denominator	Total population of the city	1585704
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**20.52**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	3254
Denominator	Total population of the city	1585704
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**22**
Description	Total response time for health-related distress calls received in the city	22
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**3.43**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	54353
Denominator	Total population of the city	1585704
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	331
Denominator	Total population of the city	1585704
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**12.73**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	220
Denominator	Total length of road network in the city	1728
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**721.13**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	11435
Denominator	Total population of the city	1585704
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**10.2**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1166
Denominator	Total crimes recorded in the same year	11435
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size	

	classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**87.15**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	1382
Denominator	Total population of the city	1585704
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**5.77**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	9380.73
Denominator	Total VAT/GST collection during preceding year	1624.7974
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	0
Denominator	Total Professional Tax collection during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-13.55**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number	-63

	of permits during preceding year)	
Denominator	Number of construction permits during preceding year	4.65
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	70066
Denominator	Total labour force in the city	349837
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**4.82**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	1140
Denominator	Total number of vendors in the city	23630
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**49.02**
Formula:	*Numerator / Denominator*	

Numerator	Total number of slum and EWS households covered through formal/affordable housing	72035
Denominator	Total number of slum and EWS households in the city	1469.49
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**5.49**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	252136342263904
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**2.42**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	3832555.26
Denominator	Total population of the city	1585704
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**2.74**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	4352075.71
Denominator	Total population of the city	1585704
Unit	Square metres (sq.m.)	

Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**4.58**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	6455200
Denominator	Total area of the city (total area of all land uses)	141000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1585704
Denominator	Area allocated for residential land use (in hectares)	99238000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**112**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	392000
Denominator	Total number of households in the city	350000
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	428000
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**8**
Description	Total number of sustained electrical interruptions in a year	8
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	60
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	6280
Denominator	Total energy consumption from all sources	14583.33
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.32**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1221308.083
Denominator	Total quantum of water and waste water handled during the period	12900
Unit	kWh per million litres	

Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	2555000
Denominator	Total number of street light installations	38700
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	29983.81
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	

Numerator	Total energy consumption (for all uses) in the city	14583.33
Denominator	Total population of the city	1585704
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.43**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	96
Denominator	Total area of the city (sq.km)	141
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.26**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	406
Denominator	Total population of the city	1585704
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	3
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0.52**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	9
Denominator	Total length of road network in the city	1728
Unit	Percentage	
Benchmark	>=50	

Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**33.33**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	3
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	9
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	3
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**3.57**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	1
Denominator	Total number of signalised intersections in the city	28
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	59

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total available on-street parking spaces in the city	59
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**2.86**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	99
Denominator	Total length of road network in the city	3456
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**62**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	31
Denominator	Total number of junctions/ intersections on major roads in the city	50
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**1.71**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	7
Denominator	Total number of public right-of-way areas in the city	409
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**32.7**
Formula:	*Numerator / Denominator*	

Numerator	Total number of households with direct water supply connection	114451
Denominator	Total number of households in the city	350000
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**157.66**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	250
Denominator	Total population of the city	1585704
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	24134
Denominator	Total number of samples tested for water quality	24134
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	250
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**4.45**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of metered water connections	5325
Denominator	Total number of water connections in the city	119776
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**7.83**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	48
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	613
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**129.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	247774
Denominator	Total number of properties in the city	192000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**92.66**

Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	177901
Denominator	Total number of properties in the city	192000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**77.25**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	180
Denominator	Total waste water generated in the city per day	233
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**156.67**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	282
Denominator	Total waste water received at treatment plants per day	180
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**61.34**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	1060
Denominator	Total length of road network in the city	1728
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**63.66**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	228000
Denominator	Total number of households and establishments in the city	358143
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**98.31**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	700
Denominator	Total quantum of MSW generated in the city	712
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**31.57**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	6630
Denominator	Average MSW generated in the city (tons per month)	21000
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**4.25**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	4.25
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	

Indicator No: 15.2	**Concentration of NO2 - air pollution**	**23**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	23
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**193.25**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	193.25
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	0
Denominator	Total number of noise samples	96
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	348
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

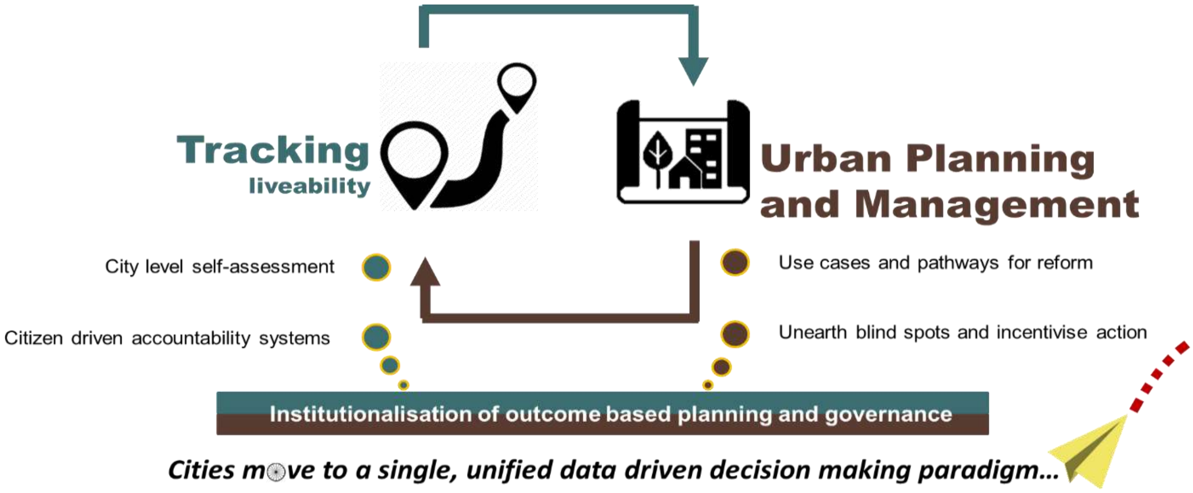
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



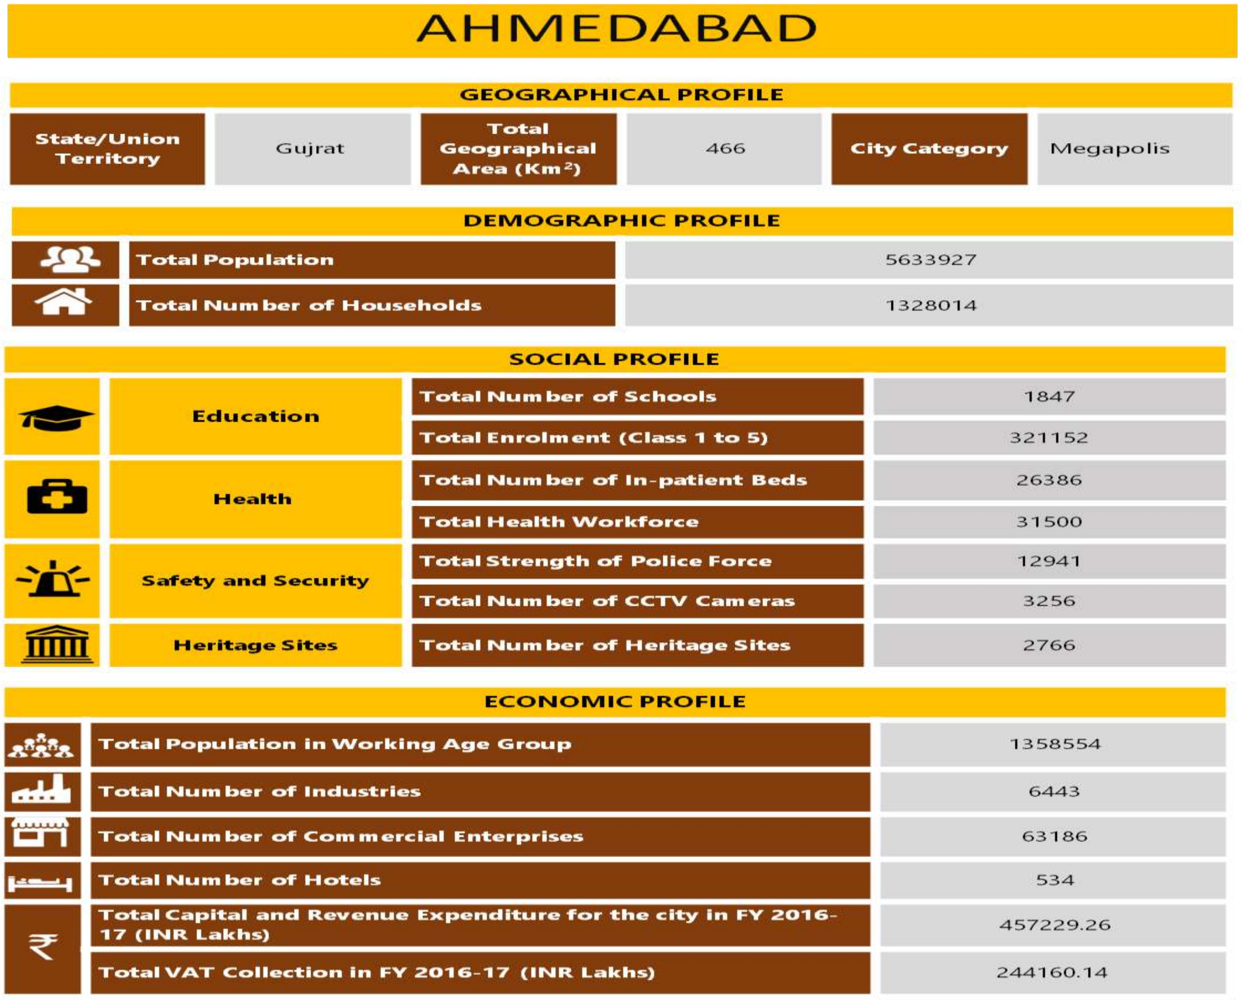
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AHMEDABAD

GEOGRAPHICAL PROFILE

State/Union Territory	Gujrat	**Total Geographical Area (Km²)**	466	**City Category**	Megapolis

DEMOGRAPHIC PROFILE

Total Population	5633927
Total Number of Households	1328014

SOCIAL PROFILE

Education	**Total Number of Schools**	1847
	Total Enrolment (Class 1 to 5)	321152
Health	**Total Number of In-patient Beds**	26386
	Total Health Workforce	31500
Safety and Security	**Total Strength of Police Force**	12941
	Total Number of CCTV Cameras	3256
Heritage Sites	**Total Number of Heritage Sites**	2766

ECONOMIC PROFILE

Total Population in Working Age Group	1358554
Total Number of Industries	6443
Total Number of Commercial Enterprises	63186
Total Number of Hotels	534
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	457229.26
Total VAT Collection in FY 2016-17 (INR Lakhs)	244160.14

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	1150
	Total Number of Water Connection	980726
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	1309487
	Total number of households in the city with access to community toilets in the city	38198
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	3893
	Total number of households covered through door-to-door collection of solid waste	1433337
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	800
	Daily average quantum of waste water treated by STPs in the city (MLD)	651
Electricity	**Total number of authorized electrical connections in the city**	1818130
	Total electricity supplied to the city (kWh)	7017640000
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	26335200
Roads and Transport	**Total Length of Road Network in the City (Km)**	2470
	Total length of arterial and sub-arterial road network in the city (Km)	520
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	730

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases

Pillars of Comprehensive Development	Category	Indicators
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Mr. Amish Shah, Chief Accounts Officer
Urban Local Body	For Park and Recreation Related Questions	Mr. Jignesh Patel, Director, Parks and Garden
Urban Local Body	For Water Supply and Drainage related questions	Jagdish A. Patel,(I/C) C.E (WRM),General Manager (SRFDCL)
Urban Local Body	For Heritage sites related data	P K Vasudevan Nair, Deputy GM of Heritage Cell
Urban Local Body	For Ecological sites related data	
Urban Local Body	For Housing related data	Harpalsinh M. Zala Add. City Engineer, Housing Project, Slum Networking Project
Urban Local Body	For Building plan related data	Rajesh G Patel,TDO BPSP
Urban Local Body	For Roads related data	Hitesh Contractor,Additional City

Designated data owners	Subcategories	Data owners at city level
		Engineer
Urban Local Body	For Solid waste management related data	Harshadrai Solanki, Director, Solid Waste Management & Conservancy Services
Urban Local Body	For IT services related data	Yatindra Naik (Physical)Manager,E-governance
Urban Local Body	For Vendor committee related data	
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Jagdish Patel, City Engineer Girish Patel, In-charge, city and country planning
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Ms. Darshna Patel,Environment Engineer
Development Authority	Building Infrastructure	Rajesh G Patel,TDO BPSP
	Construction planning	Rajesh G Patel,TDO BPSP
	Green Building	Rajesh G Patel,TDO BPSP
	Rain water harvesting	Rajesh G Patel,TDO BPSP
	Universal Design Principle	Rajesh G Patel,TDO BPSP
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Naimesh Panchal, AM Customer Service, Torrent Power Dipak H Suthar,Add. Chief Engineer (Electrical)(Street Light & Project) Devang Darji, Power and DISCOM
State Disaster management authority		M.F.Dastoor Chief Fire Officer
State Education Department		Dr. Lagdhir Desai, Administrative Officer, Edu. Dept. Dr. Ashwin Trivedi, Assistant Administrative Officer, School Board
State Health Department	Health care professionals	Dr. Bhavin Solanki, Medical Officer of Health (I/C)
	Citizen Services	Dr. Bhavin Solanki, Medical Officer of Health (I/C)
	Disease Prevalence	Dr. Bhavin Solanki, Medical Officer of Health (I/C)
	Health Infrastructure	Dr. Bhavin Solanki, Medical Officer of Health (I/C)

Designated data owners	Subcategories	Data owners at city level
State Renewable Energy Development Agency		Discoms / Electricity Board Devang Darji, Add. Chief Eng. Electricity
State Sales / Commercial Taxes Department		Dipak Trivedi, Assessor and Tax Collector (professional Tax) Debashish Banerjee, Assessor and Tax Collector (Prop.Tax),
Town and Country Planning Department	Land Use	Girish Patel, Country and City Palnning
Traffic and Police Department		P.A.Patel, Addl. City Engineer Police Commissioner office, Ahmedabad
Transport Authorities	Buses	1) Deepak Trivedi, General Manager (Operations), Ahmedabad Janmarg Limited (BRTS) 2) RajendraPrasad Pandey Dy. Transport Manager, AMTS
	Registered Vehicles	
	Sub urban rail transport	
	Mono Rail Authority	
	Tramways	
	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 60 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of

	Documents
Sales and Commercial Taxes	1
State Education Department	1
DISCOM/Electricity Department	1
Traffic and Police Department	1
Development Authority	1
Pollution Control Board	2
State Renewable Energy Department	1
Town and Country Planning	1
State Health Department	1
Transport Authority	1
Disaster Management	1
Urban Local Body	48
Total	60

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc.,

and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	39.94
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0.333333333
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	0.5
	1.1j information	0.692307692
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	109.52
Description	Services integrated through an integrated or a singular operations command centre	23
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	27.48

Description		
Sub Indicators	1.3a Building plan	4.26259E-08
	1.3b Birth/Death Certificate	0.00185408
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	0.005993284
	1.3f professional tax (RC)	0.523371732
	1.3g professional tax (EC)	0.044774846
	1.3h complaints/ grievance redressal	NA
	1.3i information	0.034266685
	1.3j electricity	1.313286729
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	0.07
Description		
Sub Indicators	1.4a water supply	0.5
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	95.44
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	99751.97
Denominator	Total demand raised for the year	104515.92
Unit	Percentage	

Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	279.47
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	13475.34
Denominator	Total O&M cost for providing water supply services during the year	4821.78
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	34.97
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	371935.73
Denominator	Total expenditure (revenue and capital accounts) in the same year	1063731.1
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	100
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	48
Denominator	Total number of wards	48
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**3.51**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	97
Denominator	Total number of historic buildings/sites identified	2766
Unit	Percentage	
Benchmark	100%	

Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	NA
Denominator	Total number of ecologically important sites identified in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.31**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	1422.94
Denominator	Total budget of the ULB (capital and revenue)	457229.26
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**366**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	366
Unit		

Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**52.56**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	508522
Denominator	Total population in the age group of 6-14 years	967501
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**54.56**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	236110
Denominator	Total female population in the age group of 6-14 years	432772
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**229.89**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	321152
Denominator	Total number of teachers available for primary grades (public and private schools)	1397
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**14.78**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	273

Denominator	Total number of schools	1847
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**80.43** 80.42610338
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**87.88** 3950954275
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**46.83**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	26386
Denominator	Total population of the city	5633927
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**55.91**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	31500

Denominator	Total population of the city	5633927
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**10**
Description	Total response time for health-related distress calls received in the city	10
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.25**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	13924
Denominator	Total population of the city	5633927
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.18**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	10157
Denominator	Total population of the city	5633927
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**131.82**
Formula:	*Numerator / Denominator*	

Numerator	Total number of CCTV cameras installed	3256
Denominator	Total length of road network in the city	2470
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**690.9**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	38925
Denominator	Total population of the city	5633927
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**5.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1960
Denominator	Total crimes recorded in the same year	38925
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**5.09**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	287
Denominator	Total population of the city	5633927
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**-49.82**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-242433.86
Denominator	Total VAT/GST collection during preceding year	4865.94
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**28.75**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	3663.76
Denominator	Total Professional Tax collection during preceding year	12741.99
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-2.48**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-57
Denominator	Number of construction permits during preceding year	22.96
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	40364

Denominator	Total labour force in the city	967501
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	42981
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**2.46**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	10186
Denominator	Total number of slum and EWS households in the city	4136.3
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**120.21** 5.18183E+15
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	

Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**4.67**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	26335200
Denominator	Total population of the city	5633927
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.9**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	5084856
Denominator	Total population of the city	5633927
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**56.27**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	262200000
Denominator	Total area of the city (total area of all land uses)	466000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	5633927
Denominator	Area allocated for residential land use (in hectares)	302700000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**106.23**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	1410807
Denominator	Total number of households in the city	1328014

Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	1818130
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**240**
Description	Total number of sustained electrical interruptions in a year	240
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	23
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	19475199
Denominator	Total energy consumption from all sources	7017640000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.28**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	15506201.08
Denominator	Total quantum of water and waste water handled during the period	54030
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.09**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	54343453
Denominator	Total number of street light installations	148870
Unit	kWh per light installation	

Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	13393
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	9228537.73
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.11**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	7017640000
Denominator	Total population of the city	5633927
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.7**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	3908.8

Denominator	Total area of the city (sq.km)	466
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.28**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	1553
Denominator	Total population of the city	5633927
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	22
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**2.87**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	70.77
Denominator	Total length of road network in the city	2470
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**56.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	9
Denominator	Total number of major transport interchanges in the city	16
Unit	Percentage	
Benchmark	>=75	

Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	2.5
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**8.81**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	141
Denominator	Total number of major interchanges in the city	16
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	206
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1237.75
Denominator	Total available on-street parking spaces in the city	0
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**14.78**
Formula:	*Numerator / Denominator*	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Total length of footpaths (wider than 1.2 m) available in the city	730
Denominator	Total length of road network in the city	4940
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**113.11**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	509
Denominator	Total number of junctions/ intersections on major roads in the city	450
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**7.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	1705
Denominator	Total number of public right-of-way areas in the city	21654
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**102.41**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	1360000

Denominator	Total number of households in the city	1328014
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**204.12**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	1150
Denominator	Total population of the city	5633927
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	1917
Denominator	Total number of samples tested for water quality	76874
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**10.43**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	120
Denominator	Quantum of water put into the distribution system (mld)	1150
Unit	Percentage	
Benchmark	Less than 15%	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 12.5	Percentage of water connections covered through meters	**0.12**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	1155
Denominator	Total number of water connections in the city	980726
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**60.35**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	1496
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	2479
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**78.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	1538082
Denominator	Total number of properties in the city	1954994
Unit	Percentage	

Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**98.2**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	1919899
Denominator	Total number of properties in the city	1954994
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**85**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	680
Denominator	Total waste water generated in the city per day	800
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**99.88**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	650.2
Denominator	Total waste water received at treatment plants per day	651
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**32.39**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	800

Denominator	Total length of road network in the city	2470
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**136.06**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	1892862
Denominator	Total number of households and establishments in the city	1391200
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	3893
Denominator	Total quantum of MSW generated in the city	3893
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**23.92**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	27933
Denominator	Average MSW generated in the city (tons per month)	116790
Unit	Percentage	

Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**12.94**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	12.94
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**28.62**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	28.62
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**112**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	112
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	0
Denominator	Total number of noise samples	51
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**97.21**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	64591

Denominator	Total number of samples tested	66448
Unit	Percentage	
Benchmark	100%

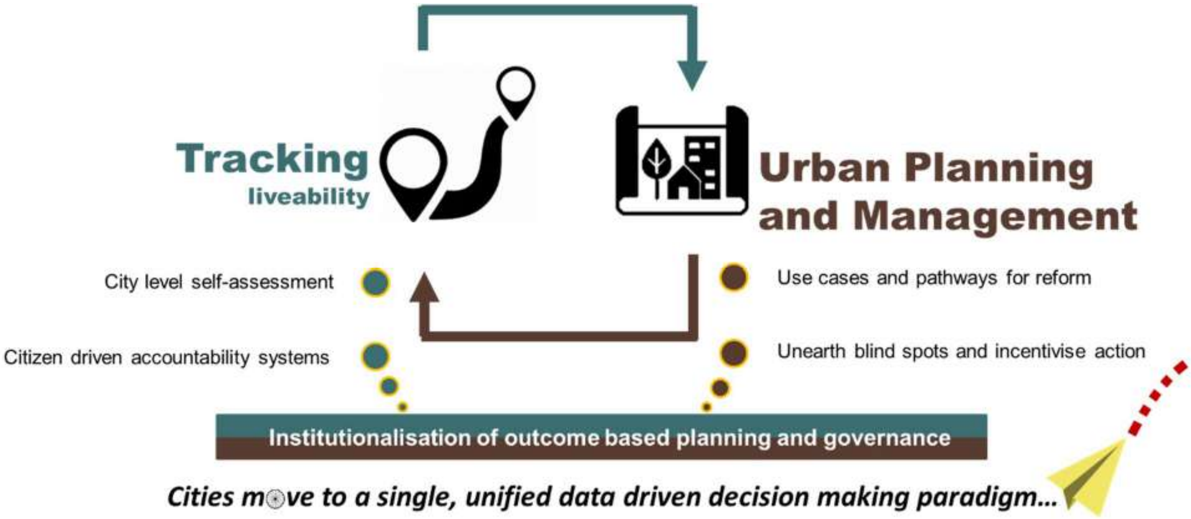
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

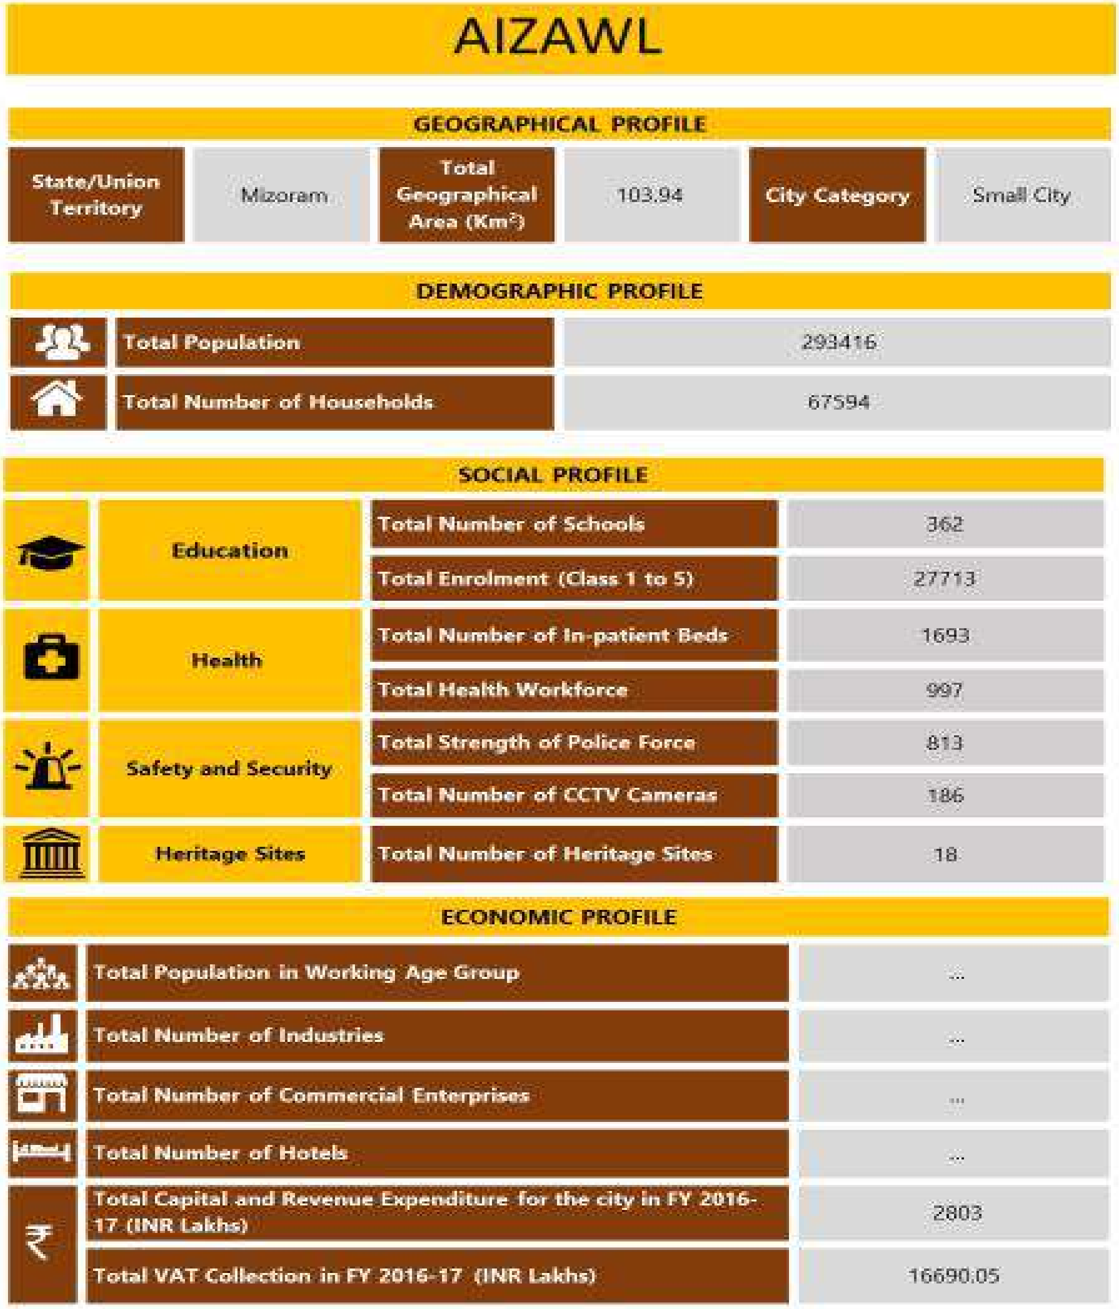


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AIZAWL

GEOGRAPHICAL PROFILE

State/Union Territory	Mizoram	Total Geographical Area (Km^2)	103.94	City Category	Small City

DEMOGRAPHIC PROFILE

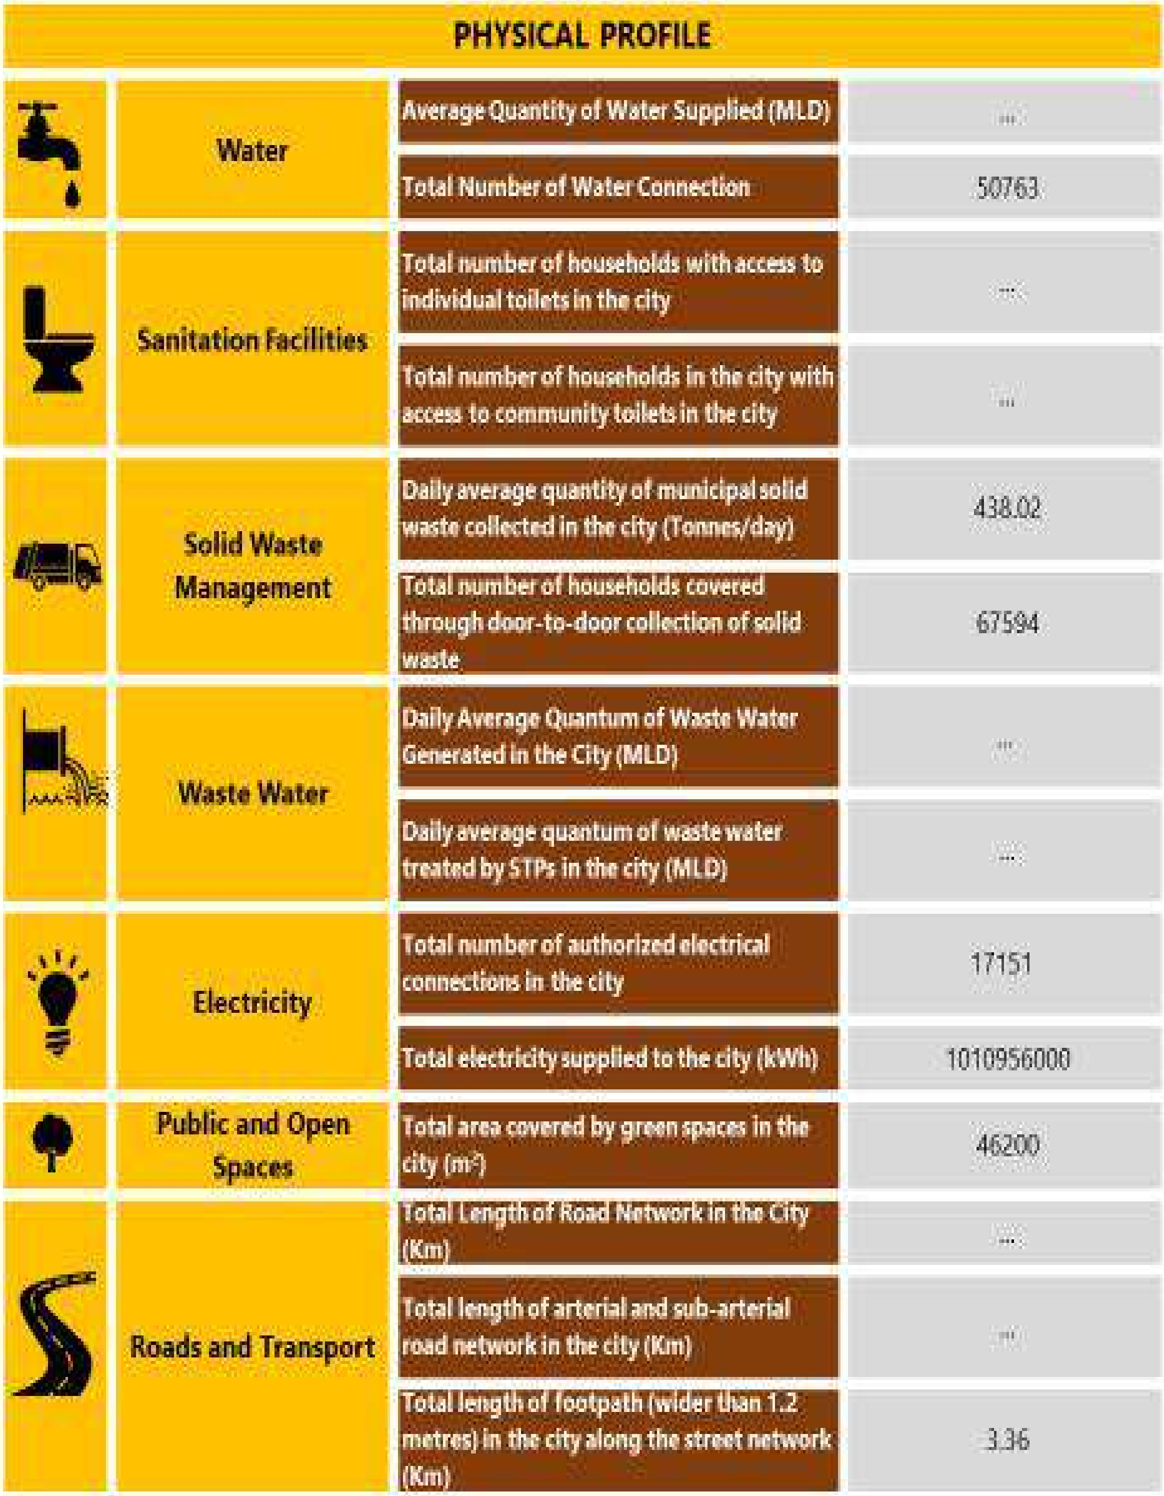
Total Population	293416
Total Number of Households	67594

SOCIAL PROFILE

Education	Total Number of Schools	362
	Total Enrolment (Class 1 to 5)	27713
Health	Total Number of In-patient Beds	1693
	Total Health Workforce	997
Safety and Security	Total Strength of Police Force	813
	Total Number of CCTV Cameras	186
Heritage Sites	Total Number of Heritage Sites	18

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	...
Total Number of Commercial Enterprises	...
Total Number of Hotels	...
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	2803
Total VAT Collection in FY 2016-17 (INR Lakhs)	16690.05



PHYSICAL PROFILE

	Water	Average Quantity of Water Supplied (MLD)	...
		Total Number of Water Connection	50763
	Sanitation Facilities	Total number of households with access to individual toilets in the city	....
		Total number of households in the city with access to community toilets in the city	...
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	438.02
		Total number of households covered through door-to-door collection of solid waste	67594
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	...
		Daily average quantum of waste water treated by STPs in the city (MLD)	....
	Electricity	Total number of authorized electrical connections in the city	17151
		Total electricity supplied to the city (kWh)	1010956000
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	46200
	Roads and Transport	Total Length of Road Network in the City (Km)	....
		Total length of arterial and sub-arterial road network in the city (Km)	...
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	3.36

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population

Pillars of Comprehensive Development	Category	Indicators
		enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting

Pillars of Comprehensive Development	Category	Indicators
		facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

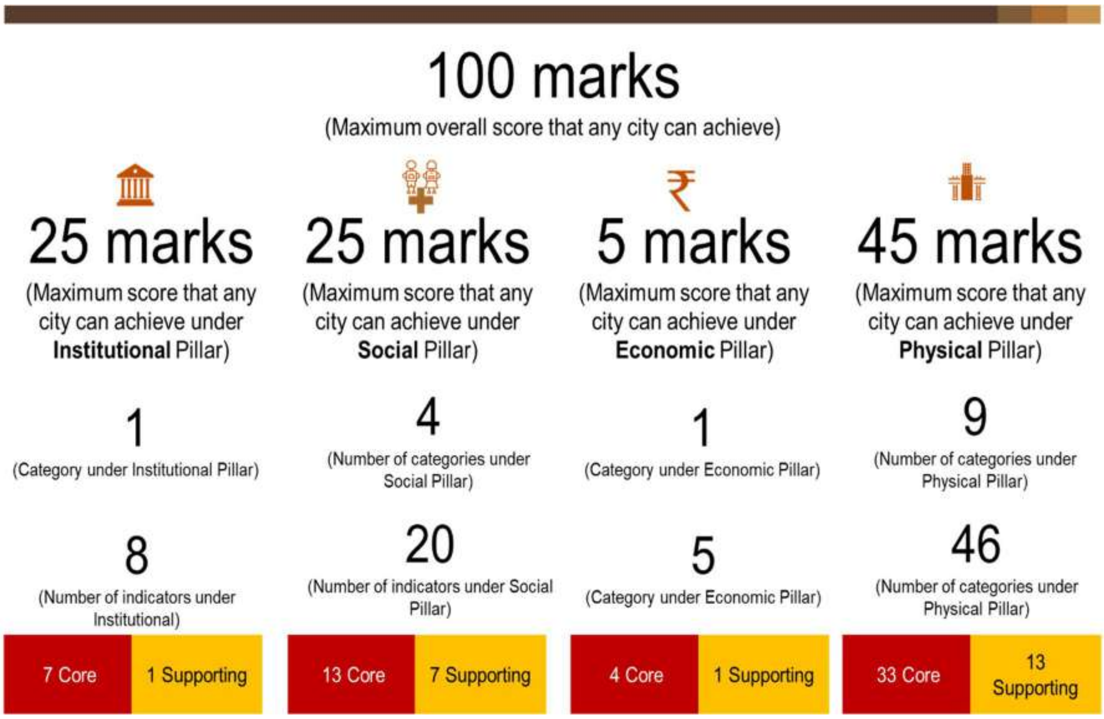
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks

(Maximum score that any city can achieve under **Institutional** Pillar)

1

(Category under Institutional Pillar)

8

(Number of indicators under Institutional)

7 Core | 1 Supporting

25 marks

(Maximum score that any city can achieve under **Social** Pillar)

4

(Number of categories under Social Pillar)

20

(Number of indicators under Social Pillar)

13 Core | 7 Supporting

5 marks

(Maximum score that any city can achieve under **Economic** Pillar)

1

(Category under Economic Pillar)

5

(Category under Economic Pillar)

4 Core | 1 Supporting

45 marks

(Maximum score that any city can achieve under **Physical** Pillar)

9

(Number of categories under Physical Pillar)

46

(Number of categories under Physical Pillar)

33 Core | 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Aizawl Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Aizawl Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Aizawl Municipal Corporation
Urban Local Body	For Heritage sites related data	Aizawl Municipal Corporation
Urban Local Body	For Ecological sites related data	Aizawl Municipal Corporation
Urban Local Body	For Housing related data	Aizawl Municipal Corporation
Urban Local Body	For Building plan related data	Aizawl Municipal Corporation
Urban Local Body	For Roads related data	Aizawl Municipal Corporation
Urban Local Body	For Solid waste management related data	Aizawl Municipal Corporation
Urban Local Body	For IT services related data	Aizawl Municipal Corporation
Urban Local Body	For Vendor committee related data	Aizawl Municipal Corporation
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
For questions under Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Mizoram Pollution Control Board
Development Authority	Building Infrastructure	Urban Development and Poverty Alleviation Aizawl Municipal Corporation
	Construction planning	
	Green Building	

Designated data owners	Subcategories	Data owners at city level
	Rain water harvesting	
	Universal Design Principle	
DISCOM /Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Power and electricity department
State Disaster management authority		Disaster management and rehabilitation department
State Education Department		State education department, Mizoram
State Health Department	Health care professionals	Health Department, GoM
State Health Department	Citizen Services	
State Health Department	Disease Prevalence	
State Health Department	Health Infrastructure	
State Renewable Energy Development Agency		-
State Sales / Commercial Taxes Department		Taxation Department
Town and Country Planning Department	Land Use	Aizawl Municipal Corporation
Traffic and Police Department		Home Department
Transport Authorities	Buses	Transport Department, Mizoram
Transport Authorities	Registered Vehicles	
Transport Authorities	Sub urban rail transport	
Transport Authorities	Mono Rail Authority	
Transport Authorities	Tramways	
Transport Authorities	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 7 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	0
DISCOM /Electricity Department	0
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	1
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	0
Transport Authority	2
Disaster Management	0
Urban Local Body	4
Total	7

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the

field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**17.46**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0
	1.1j information	0.769230769
	1.1k Grievance redressal	1
	1.1l electricity	0.5
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**2.38**
Description	Services integrated through an integrated or a singular operations command centre	0.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**Non-Computable**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**NC**

Description		
Sub Indicators	1.4a water supply	NA
	1.4b solid waste	NA
	1.4c street lights	NA
	1.4d sewerage	NA
	1.4e professional tax	NA
	1.4f parks and recreational spaces	NA
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**838.6**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	239
Denominator	Total demand raised for the year	28.5
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**85.76**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	2188.9
Denominator	Total O&M cost for providing water supply services during the year	2552.32
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-164.98**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-2638
Denominator	Total expenditure (revenue and capital accounts) in the same year	1599
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	19
Denominator	Total number of wards	19
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	18
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	Data Unavailable
Denominator	Total budget of the ULB (capital and revenue)	2803
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**Non-**

		Computable
Description	Number of cultural/sports events hosted by the city authority in the preceding year	Data Unavailable
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**82.79**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	43203
Denominator	Total population in the age group of 6-14 years	52184
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**82.26**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	21340
Denominator	Total female population in the age group of 6-14 years	25941
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**76.56**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	27713
Denominator	Total number of teachers available for primary grades (public and private schools)	362
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities	Data

	for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	Unavailable
Denominator	Total number of schools	362
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**78.74**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	78.73882336
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**92.29**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	27305850
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**55.86**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	1639
Denominator	Total population of the city	293416
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**33.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	997

Denominator	Total population of the city	293416
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**23**
Description	Total response time for health-related distress calls received in the city	23
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**4.48**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	13154
Denominator	Total population of the city	293416
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	116
Denominator	Total population of the city	293416
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	186
Denominator	Total length of road network in the city	Data

		Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**389.21**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	1142
Denominator	Total population of the city	293416
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**10.25**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	117
Denominator	Total crimes recorded in the same year	1142
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**15.68**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	46
Denominator	Total population of the city	293416
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**15.62**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	2254.83
Denominator	Total VAT/GST collection during preceding year	144.3522
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**10.59**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	1.82
Denominator	Total Professional Tax collection during preceding year	17.18
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**71.31**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	845
Denominator	Number of construction permits during preceding year	11.85
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	52184
Unit	Per 1000 persons	

Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**12.34**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	410
Denominator	Total number of vendors in the city	3323
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**100.97**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	29638
Denominator	Total number of slum and EWS households in the city	293.54
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Computable** Data Unavailable
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	**Per capita availability of green spaces**	**0.16**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	46200
Denominator	Total population of the city	293416
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	**Per capita availability of public and recreational places**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	NA
Denominator	Total population of the city	293416
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	NA
Denominator	Total area of the city (total area of all land uses)	103940000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	293416
Denominator	Area allocated for residential land use (in hectares)	40640000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a	

	benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**296.42**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	200362
Denominator	Total number of households in the city	67594
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	17151
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**Non-Computable**
Description	Total number of sustained electrical interruptions in a year	Data Unavailable
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**NC**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	Data Unavailable
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification)	

	will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	NA
Denominator	Total energy consumption from all sources	1010956000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	21801.33333
Denominator	Total quantum of water and waste water handled during the period	Data Unavailable
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	6050
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	NA
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	NA
Unit	Percentage	

Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.69**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1010956000
Denominator	Total population of the city	293416
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.37**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	56
Denominator	Total area of the city (sq.km)	103.94
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**1.06**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	311
Denominator	Total population of the city	293416
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	40.1
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0

Denominator	Total length of road network in the city	Data Unavailable
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA
Denominator	Total number of major transport interchanges in the city	4
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	49.2
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	4
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	52
Denominator	Total available on-street parking spaces in the city	52
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	3.3643
Denominator	Total length of road network in the city	Data Unavailable
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	NA
Denominator	Total number of junctions/ intersections on major roads in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	Data Unavailable
Denominator	Total number of public right-of-way areas in the city	1381
Unit	Percentage	

Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**70.76**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	47832
Denominator	Total number of households in the city	67594
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	Data Unavailable
Denominator	Total population of the city	293416
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	127
Denominator	Total number of samples tested for water quality	435
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0
Denominator	Quantum of water put into the distribution system (mld)	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	NA
Denominator	Total number of water connections in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	NA
Denominator	Total number of properties in the city	35788
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**148.89**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	53285

Denominator	Total number of properties in the city	35788
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	NA
Denominator	Total waste water generated in the city per day	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	NA
Denominator	Total waste water received at treatment plants per day	NA
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	NA
Denominator	Total length of road network in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**104.17**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	70416
Denominator	Total number of households and establishments in	67594

	the city	
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	438.02
Denominator	Total quantum of MSW generated in the city	159880
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**39.54**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	5196.1
Denominator	Average MSW generated in the city (tons per month)	13140.6
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**2**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	2
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**15.86**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	15.86
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**75**

Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	75
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	2
Denominator	Total number of noise samples	2
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	180
Denominator	Total number of samples tested	180
Unit	Percentage	
Benchmark	100%

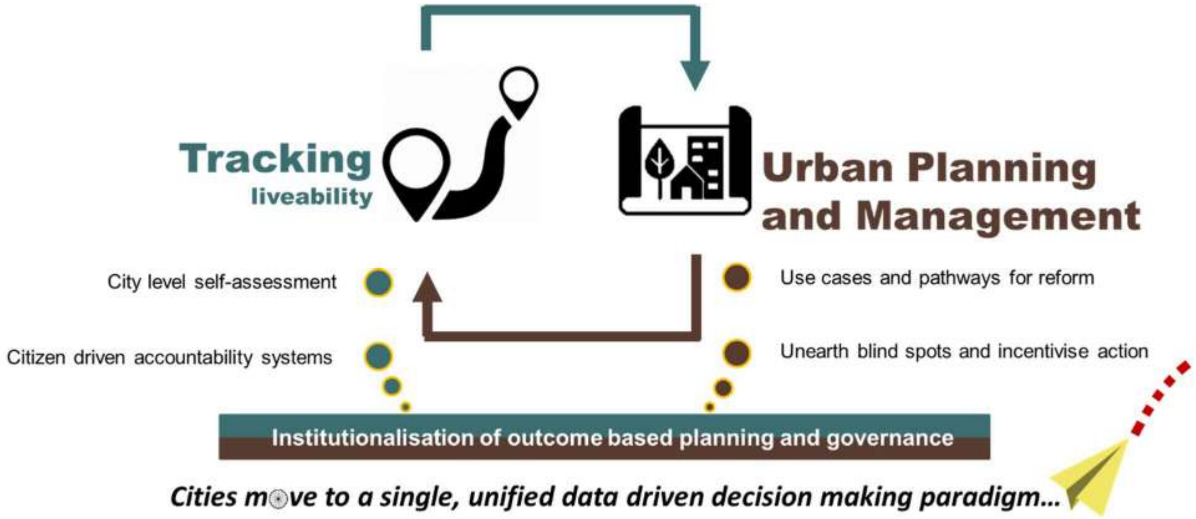
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



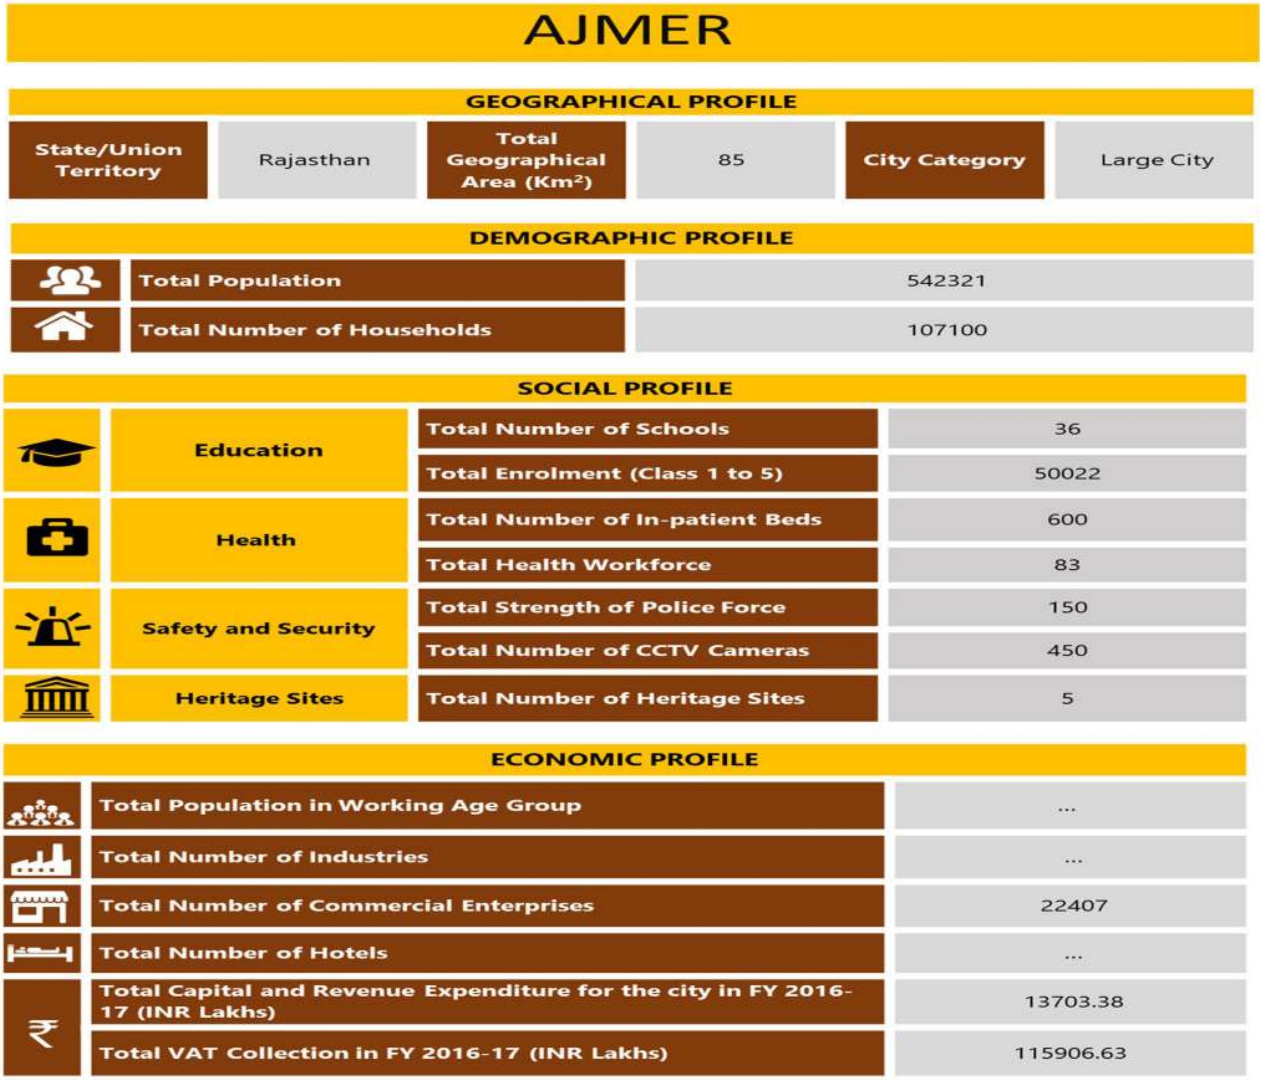
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AJMER

GEOGRAPHICAL PROFILE

State/Union Territory	Rajasthan	Total Geographical Area (Km²)	85	City Category	Large City

DEMOGRAPHIC PROFILE

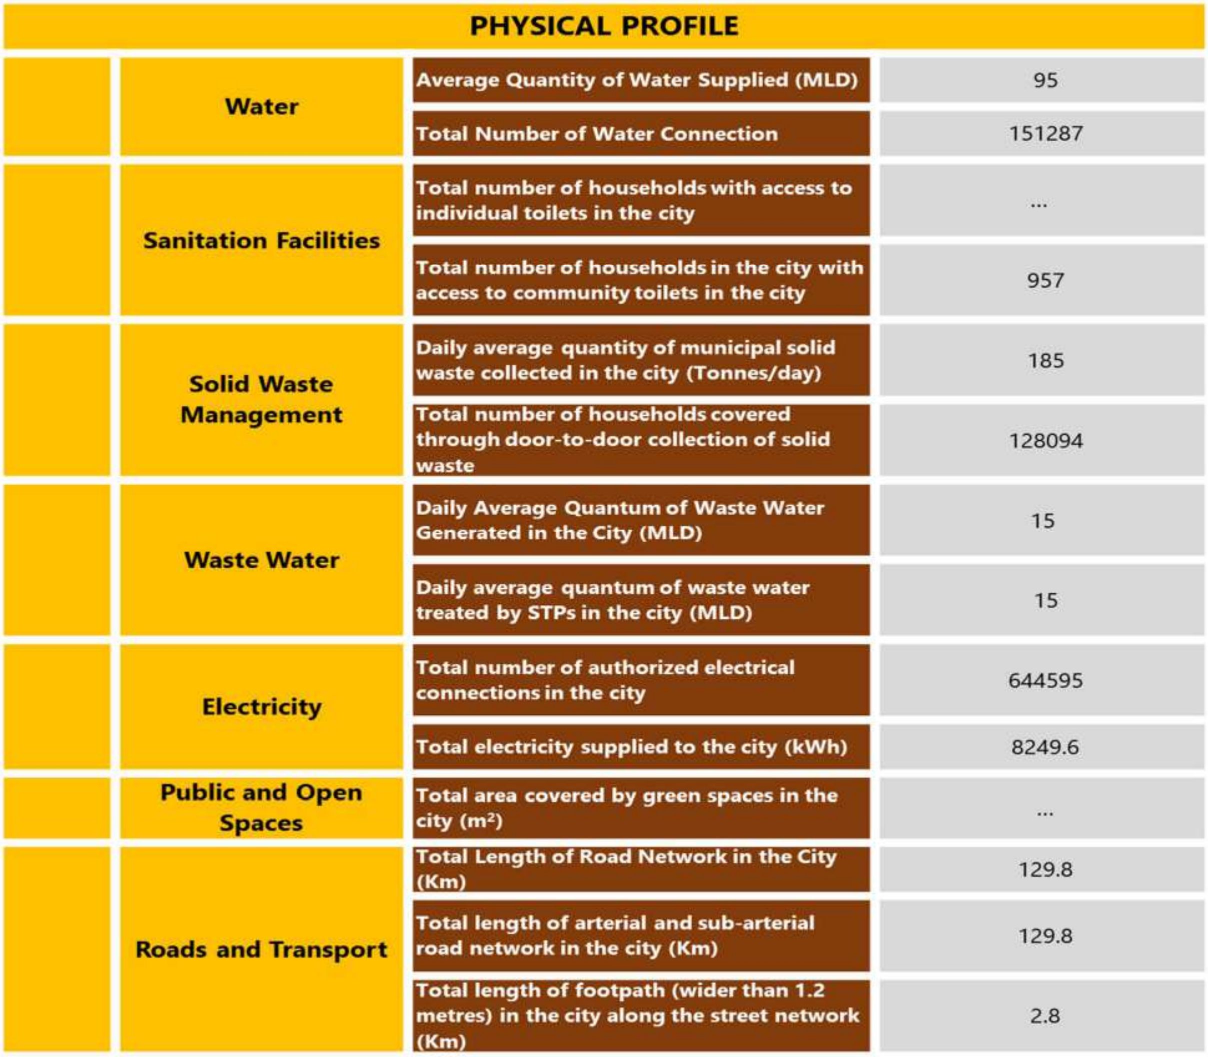
Total Population	542321
Total Number of Households	107100

SOCIAL PROFILE

Education	Total Number of Schools	36
	Total Enrolment (Class 1 to 5)	50022
Health	Total Number of In-patient Beds	600
	Total Health Workforce	83
Safety and Security	Total Strength of Police Force	150
	Total Number of CCTV Cameras	450
Heritage Sites	Total Number of Heritage Sites	5

ECONOMIC PROFILE

	Total Population in Working Age Group	...
	Total Number of Industries	...
	Total Number of Commercial Enterprises	22407
	Total Number of Hotels	...
₹	Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	13703.38
	Total VAT Collection in FY 2016-17 (INR Lakhs)	115906.63



PHYSICAL PROFILE

	Water	Average Quantity of Water Supplied (MLD)	95
		Total Number of Water Connection	151287
	Sanitation Facilities	Total number of households with access to individual toilets in the city	...
		Total number of households in the city with access to community toilets in the city	957
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	185
		Total number of households covered through door-to-door collection of solid waste	128094
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	15
		Daily average quantum of waste water treated by STPs in the city (MLD)	15
	Electricity	Total number of authorized electrical connections in the city	644595
		Total electricity supplied to the city (kWh)	8249.6
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	...
	Roads and Transport	Total Length of Road Network in the City (Km)	129.8
		Total length of arterial and sub-arterial road network in the city (Km)	129.8
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	2.8

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various ‘Category Sub-Indexes’ and a composite ‘City Liveability Index’ will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies

Pillars of Comprehensive Development	Category	Indicators
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

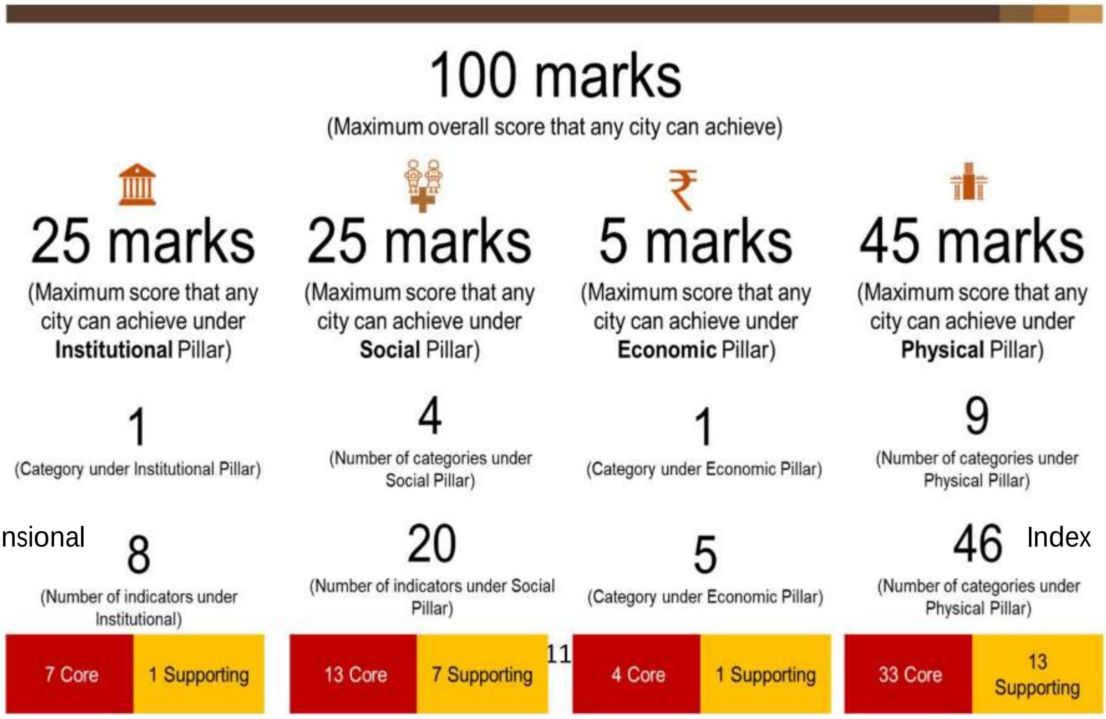
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core

Dimensional Index

Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled

in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Nagar Nigam , Tarun , NeeruGurjar
Urban Local Body	For Park and Recreation Related Questions	ADA& Nagar Nigam
Urban Local Body	For Water Supply and Drainage related questions	PHED & Nagar Nigam NirmanShakha
Urban Local Body	For Heritage sites related data	
Urban Local Body	For Ecological sites related data	
Urban Local Body	For Housing related data	
Urban Local Body	For Building plan related data	ADA & Town & Country Planning
Urban Local Body	For Roads related data	PWD
Urban Local Body	For Solid waste management related data	Nagar Nigam NirmanShakha
Urban Local Body	For IT services related data	Nagar Nigam
Urban Local Body	For Vendor committee related data	Nagar Nigam
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Nagar Nigam
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board
Development Authority	Building Infrastructure	Development Authority
	Construction planning	Development Authority
	Green Building	Development Authority
	Rain water harvesting	Development Authority

Designated data owners	Subcategories	Data owners at city level
	Universal Design Principle	Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Nagar Nigam & Energy Discom Power House
State Disaster management authority		Collectrate Disaster manegment
State Education Department		Education Board
State Health Department	Health care professionals	CM&HO office health department
	Citizen Services	
	Disease Prevalence	CM&HO office health department
	Health Infrastructure	CM&HO office health department
State Renewable Energy Development Agency		Power Discom
State Sales / Commercial Taxes Department		Commercial Tax department
Town and Country Planning Department	Land Use	Town and Country Planning
Traffic and Police Department		SP Office
Transport Authorities	Buses	Transport office
	Registered Vehicles	Transport office
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 40 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

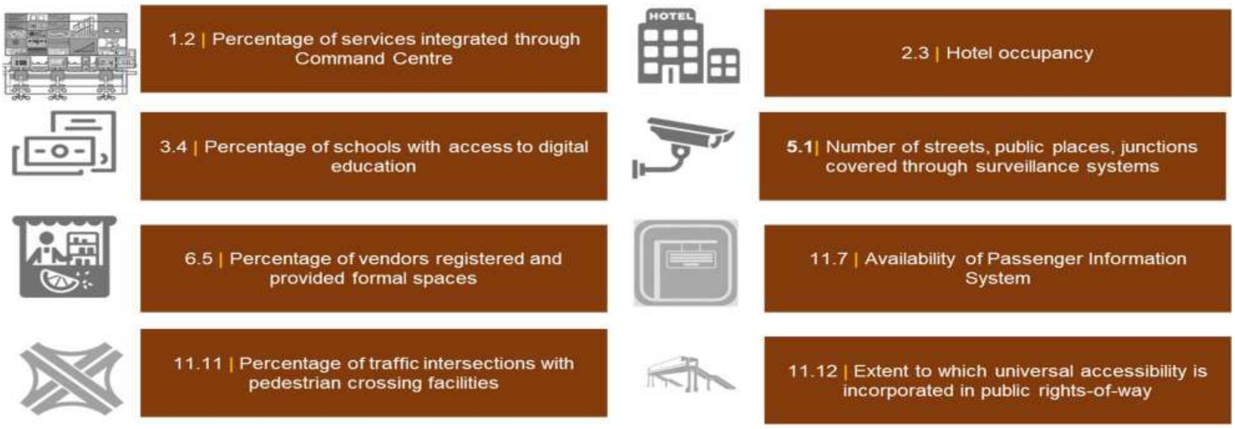
Data Owners	Number of Documents
Sales and Commercial Taxes	**0**
State Education Department	**0**
DISCOM/Electricity Department	**0**
Traffic and Police Department	**0**
Development Authority	**0**
Pollution Control Board	**0**
State Renewable Energy Department	**0**
Town and Country Planning	**0**
State Health Department	**0**
Transport Authority	**1**
Disaster Management	**0**
Urban Local Body	**39**
Total	**40***

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:



1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**40.47**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0
	1.1g fogging	0.5
	1.1h property tax	0.333333333
	1.1i professional tax	0

Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	12068682
Denominator	Total O&M cost for providing water supply services during the year	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-194.97**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-18768.49
Denominator	Total expenditure (revenue and capital accounts) in the same year	9626.55
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	Data Unavailable
Denominator	Total number of wards	60
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in	

	the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**140**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	7
Denominator	Total number of historic buildings/sites identified	5
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	Data Unavailable
Denominator	Total number of ecologically important sites identified in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**12288.79**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	1683980
Denominator	Total budget of the ULB (capital and revenue)	13703.38
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	

Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**17**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	17
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**100.03**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	96515
Denominator	Total population in the age group of 6-14 years	96488
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**104.11**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	47190
Denominator	Total female population in the age group of 6-14 years	45328
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	50022
Denominator	Total number of teachers available for primary grades (public and private schools)	Data Unavailable
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	Data Unavailable
Denominator	Total number of schools	36

Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**124.74**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	124.7391969
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**113.21**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	244801920
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**11.06**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	600
Denominator	Total population of the city	542321
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**1.53**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	83
Denominator	Total population of the city	542321
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**Non-Computable**
Description	Total response time for health-related distress calls received in the city	Data Unavailable
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**10.13**

Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	54920
Denominator	Total population of the city	542321
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	285
Denominator	Total population of the city	542321
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**346.69**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	450
Denominator	Total length of road network in the city	129.8
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**11.06**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	60
Denominator	Total population of the city	542321
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**626.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	376

Denominator	Total crimes recorded in the same year	60
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	#VALUE!
Denominator	Total population of the city	542321
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**6.37**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	6942.93
Denominator	Total VAT/GST collection during preceding year	1089.637
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-20**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-90
Denominator	Number of construction permits during preceding year	4.5

Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	96488
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**89.88**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	2168
Denominator	Total number of vendors in the city	2412.2
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	Data Unavailable
Denominator	Total number of slum and EWS households in the city	188.85
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Computable**
Formula:	*Numerator / Denominator*	

Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	Data Unavailable
Denominator	Total population of the city	542321
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.18**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	96001
Denominator	Total population of the city	542321
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	85000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**8689.65**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	542321

Denominator	Area allocated for residential land use (in hectares)	62.41
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**479.12**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	513140
Denominator	Total number of households in the city	107100
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	644595
Denominator	Total number of electricity connections in the city	644595
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**2951980**
Description	Total number of sustained electrical interruptions in a year	2951980
Unit	Number	

Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.4**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	1180792
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	Data Unavailable
Denominator	Total energy consumption from all sources	8485.05
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	3300
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	

Numerator	Energy consumption on street lighting	12.99
Denominator	Total number of street light installations	39217
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	9000
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	8485.05
Denominator	Total population of the city	542321
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.58**
Formula:	*Numerator / Denominator*	

Numerator	Total length of public transport network (km)	34000
Denominator	Total area of the city (sq.km)	85
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	24
Denominator	Total population of the city	542321
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	Data Unavailable
Denominator	Total length of road network in the city	129.8
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	Data Unavailable
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be**

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

		computed
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**1**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	2
Denominator	Total number of signalised intersections in the city	Data Unavailable
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	7
Denominator	Total available on-street parking spaces in the city	Data Unavailable
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**1.08**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	2.8
Denominator	Total length of road network in the city	259.6

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**61.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	245
Denominator	Total number of junctions/ intersections on major roads in the city	400
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**2.6**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	2
Denominator	Total number of public right-of-way areas in the city	77
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**70.6**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	75617
Denominator	Total number of households in the city	107100
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**175.17**
Formula:	*Numerator / Denominator*	

Numerator	Total quantity of water supplied into the distribution system	95
Denominator	Total population of the city	542321
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	11
Denominator	Total number of samples tested for water quality	2120
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**21.05**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	20
Denominator	Quantum of water put into the distribution system (mld)	95
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	Data Unavailable
Denominator	Total number of water connections in the city	151287
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	21

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**12.62**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	13039
Denominator	Total number of properties in the city	103310
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**148.97**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	153900
Denominator	Total number of properties in the city	103310
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	15
Denominator	Total waste water generated in the city per day	15
Unit	Percentage	

Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	Data Unavailable
Denominator	Total waste water received at treatment plants per day	Data Unavailable
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	Data Unavailable
Denominator	Total length of road network in the city	129.8
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**116.21**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	150501
Denominator	Total number of households and establishments in the city	129507
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**84.09**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	185
Denominator	Total quantum of MSW generated in the city	220
Unit	Percentage	

Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	5550
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	12

Denominator	Total number of samples tested	Data Unavailable
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

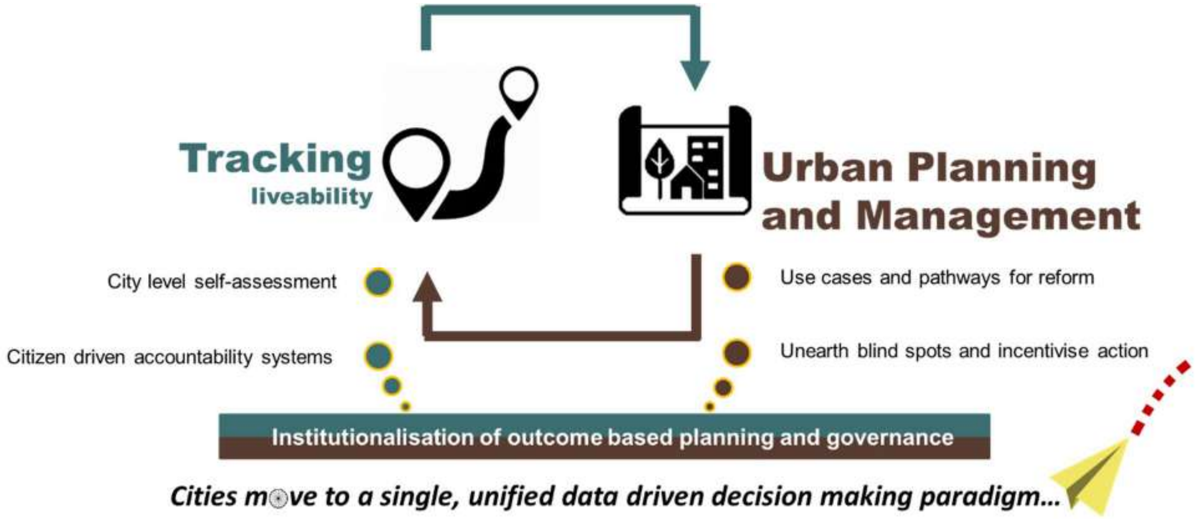
Table 5: Details of Indicator Values 16

1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

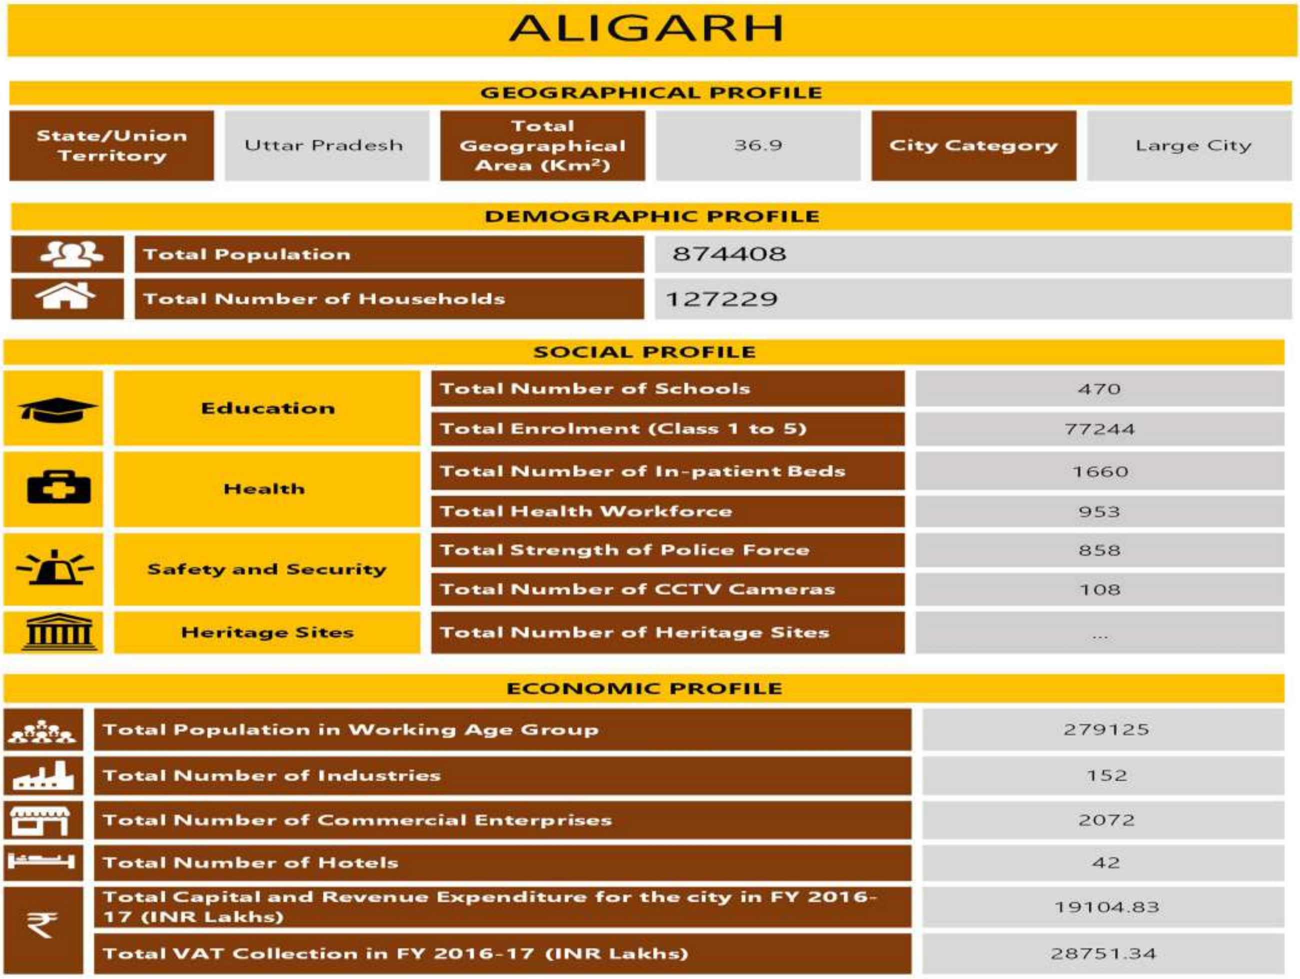


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



ALIGARH

GEOGRAPHICAL PROFILE

State/Union Territory	Uttar Pradesh	Total Geographical Area (Km^2)	36.9	City Category	Large City

DEMOGRAPHIC PROFILE

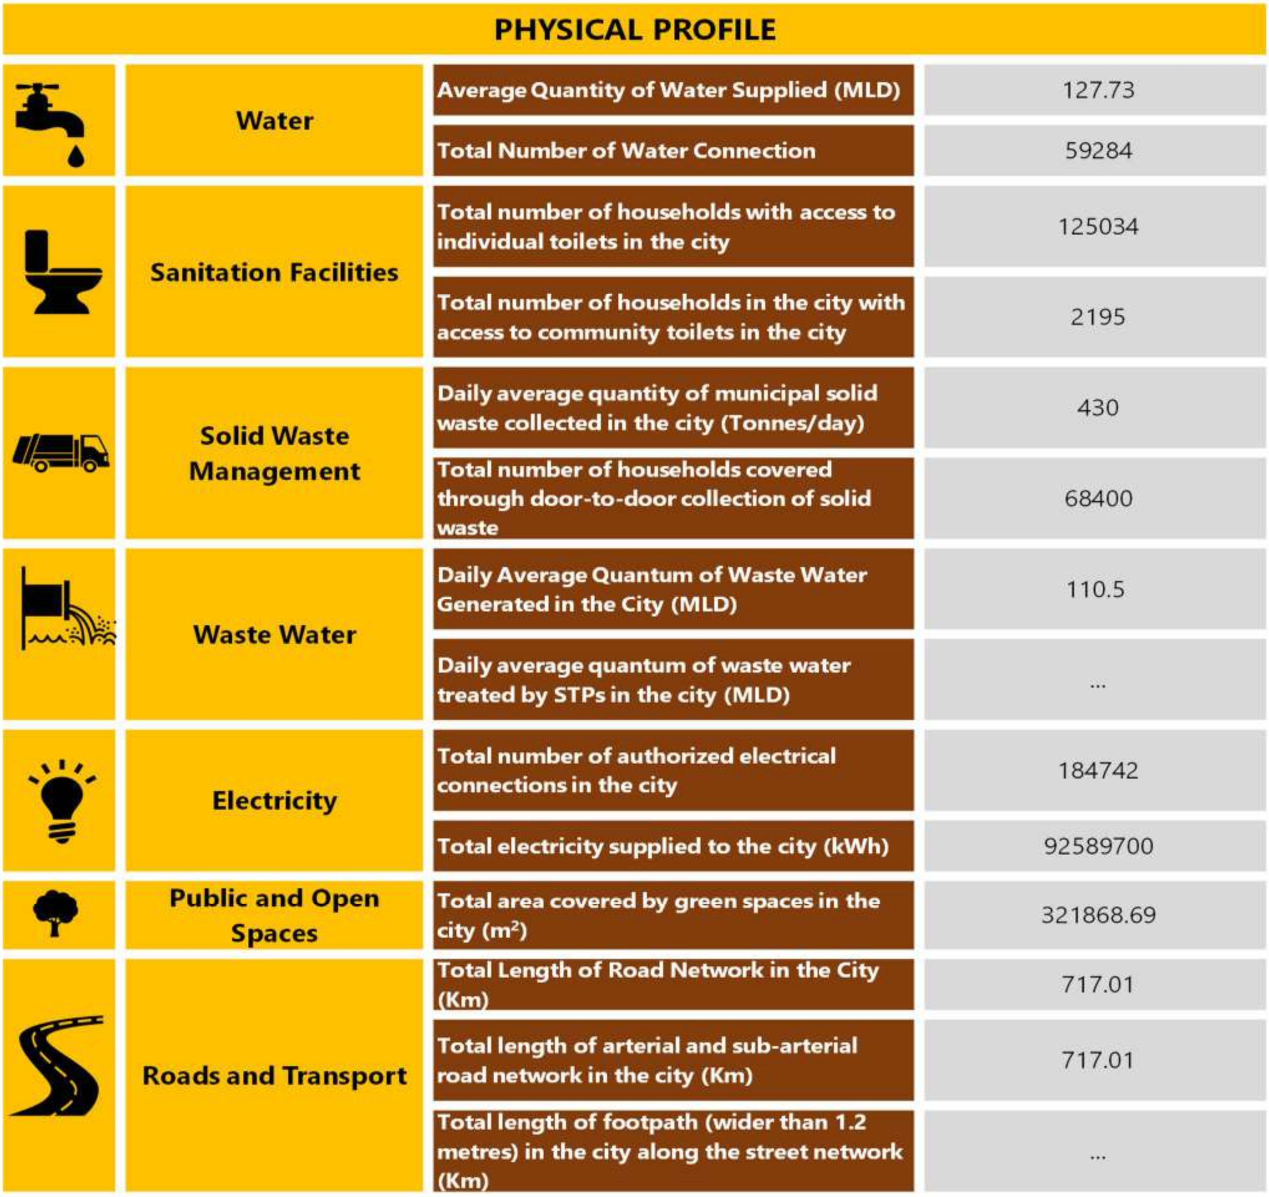
Total Population	874408
Total Number of Households	127229

SOCIAL PROFILE

Education	Total Number of Schools	470
	Total Enrolment (Class 1 to 5)	77244
Health	Total Number of In-patient Beds	1660
	Total Health Workforce	953
Safety and Security	Total Strength of Police Force	858
	Total Number of CCTV Cameras	108
Heritage Sites	Total Number of Heritage Sites	...

ECONOMIC PROFILE

Total Population in Working Age Group	279125
Total Number of Industries	152
Total Number of Commercial Enterprises	2072
Total Number of Hotels	42
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	19104.83
Total VAT Collection in FY 2016-17 (INR Lakhs)	28751.34



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	127.73
	Total Number of Water Connection	59284
Sanitation Facilities	Total number of households with access to individual toilets in the city	125034
	Total number of households in the city with access to community toilets in the city	2195
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	430
	Total number of households covered through door-to-door collection of solid waste	68400
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	110.5
	Daily average quantum of waste water treated by STPs in the city (MLD)	...
Electricity	Total number of authorized electrical connections in the city	184742
	Total electricity supplied to the city (kWh)	92589700
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	321868.69
Roads and Transport	Total Length of Road Network in the City (Km)	717.01
	Total length of arterial and sub-arterial road network in the city (Km)	717.01
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population

Pillars of Comprehensive Development	Category	Indicators
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation	11.1 Geographical coverage of public transport

Pillars of Comprehensive Development	Category	Indicators
	and Mobility	11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution

Pillars of Comprehensive Development	Category	Indicators
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

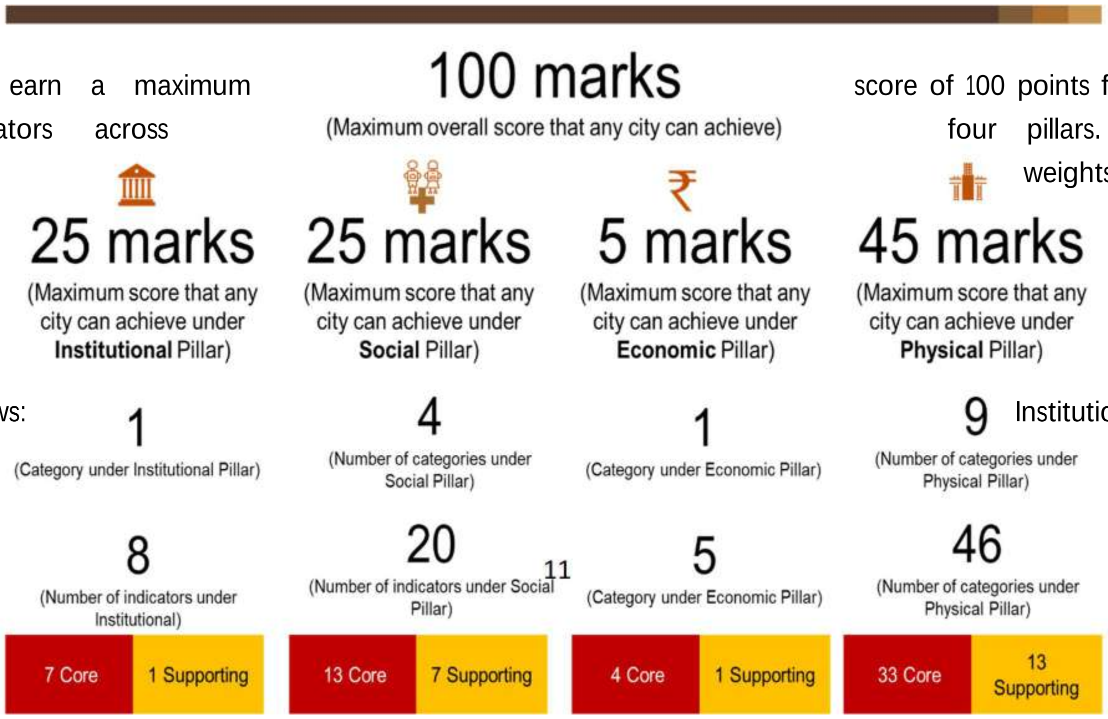
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: (25 Institutional



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

Dimensional Index

Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts department

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Park and Recreation Related Questions	Civil department
Urban Local Body	For Water Supply and Drainage related questions	Jalkal vibhag Nagar
Urban Local Body	For Heritage sites related data	Archeological survey of India /in charge in ULB
Urban Local Body	For Ecological sites related data	Civil Department
Urban Local Body	For Housing related data	Moradabad Development Authority / properties tax department
Urban Local Body	For Building plan related data	Aligarh Development Authority
Urban Local Body	For Roads related data	Public Works Department / civil department
Urban Local Body	For Solid waste management related data	Health Department Nagar Palika Parishad Aligarh
Urban Local Body	For IT services related data	IT department (main office) Nagar palika parishad Aligarh
Urban Local Body	For Vendor committee related data	Tex department ULB
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Public Works Department ,Employment Exchange, District urban development Agency Aligarh
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Uttar Pradesh pollution Control Board Alighar
Development Authority	Building Infrastructure	Rampur development Authority
	Construction planning	Rampur development Authority
	Green Building	Rampur development Authority
	Rain water harvesting	Rampur development Authority
	Universal Design Principle	Rampur development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Uttar Pradesh Power Corporation Ltd
State Disaster management authority		State Disaster Management [in UP ADM (FR]
State Education Department		Basic Siksha Adhikari/district inspector

Designated data owners	Subcategories	Data owners at city level
		of school (DIOS)
State Health Department	Health care professionals	UP State Health Department (CMO)
	Citizen Services	UP State Health Department (CMO)
	Disease Prevalence	UP State Health Department (CMO)
	Health Infrastructure	UP State Health Department (CMO)
State Renewable Energy Development Agency		State Renewable Energy Develop. Agency(NEDA)
State Sales / Commercial Taxes Department		Commercial Taxes Department
Town and Country Planning Department	Land Use	Town and Country Planning Department
Traffic and Police Department		Traffic police, Civil police & Grand Railway police
Transport Authorities	Buses	Uttar Pradesh State transport Corporation & Regional Transport Office
	Registered Vehicles	Regional Transport Office
	Sub urban rail transport	N A
	Mono Rail Authority	N A
	Tramways	N A
	Marine Transport Authority	N A

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 45 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	2

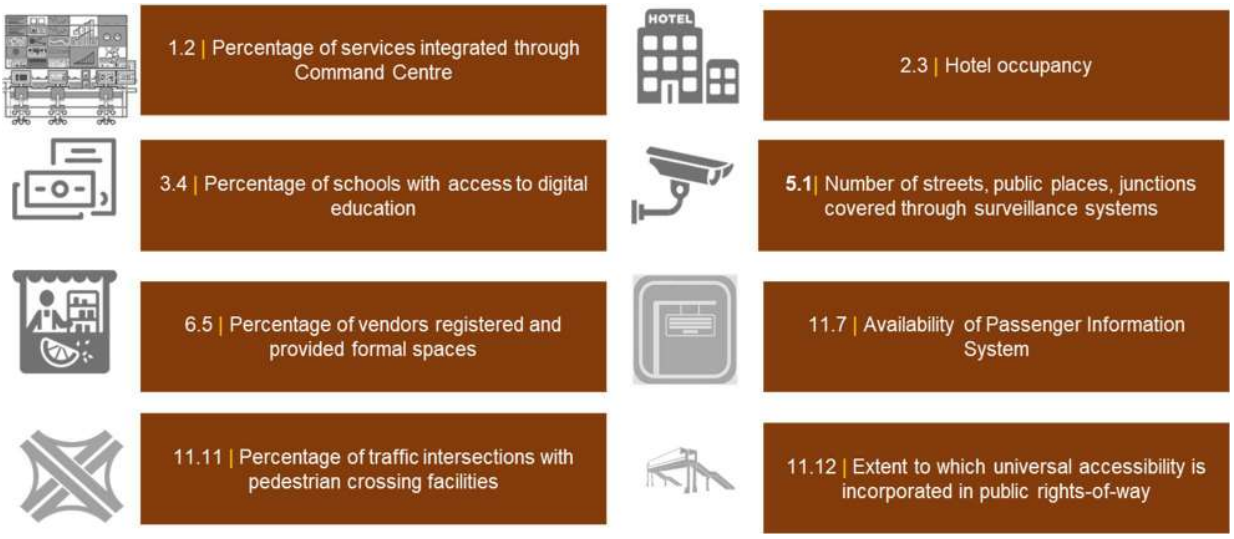
DISCOM/Electricity Department	3
Traffic and Police Department	1
Development Authority	1
Pollution Control Board	7
State Renewable Energy Department	2
Town and Country Planning	1
State Health Department	14
Transport Authority	6
Disaster Management	1
Urban Local Body	7
Total	45*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:



1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc.,

and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**64.2**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75
	1.1b death certificate	0.75
	1.1c trade license	1
	1.1d solid waste management	0
	1.1e water supply	1
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	0.846153846
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**7.14**
Description	Services integrated through an integrated or a singular operations command centre	1.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**7.58**
Description		
Sub Indicators	1.3a Building plan	NA

	1.3b Birth/Death Certificate	0.003309191
	1.3c water supply	0.001041429
	1.3d solid waste management	0.000444872
	1.3e property tax	5.50189E-05
	1.3f professional tax (RC)	0
	1.3g professional tax (EC)	0
	1.3h complaints/ grievance redressal	0.000169353

Indicator No. 1.4	**Average delay in grievance redressal**	**2.43**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	2
	1.4c street lights	2
	1.4d sewerage	4
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	9
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**88.69**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	2318.65
Denominator	Total demand raised for the year	2614.26
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**25.47**
Formula:	*Numerator / Denominator*	

Numerator	Total collection of user charges in water supply in a year	321
Denominator	Total O&M cost for providing water supply services during the year	1260.1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**24.83**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	12647.79
Denominator	Total expenditure (revenue and capital accounts) in the same year	50935.01
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	70
Denominator	Total number of wards	70
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	Data Unavailable
Denominator	Total number of historic buildings/sites identified	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	Data Unavailable

Denominator	Total number of ecologically important sites identified in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**8.57**
Description	Average Occupancy rate of Hotels	8.571428571
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0.16**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	30.5
Denominator	Total budget of the ULB (capital and revenue)	19104.83
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**48**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	48
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**55.58**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	110600
Denominator	Total population in the age group of 6-14 years	199010
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**57.63**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	53418

Denominator	Total female population in the age group of 6-14 years	92693
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**8.09**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	77244
Denominator	Total number of teachers available for primary grades (public and private schools)	9547
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**12.34**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	58
Denominator	Total number of schools	470
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**144.28**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	144.2797733737
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**77.03**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	120097068
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**18.98**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	1660
Denominator	Total population of the city	874408
Unit	Number per 10,000 population	

Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**10.9**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	953
Denominator	Total population of the city	874408
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**32316**
Description	Total response time for health-related distress calls received in the city	32316
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**6.77**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	59219
Denominator	Total population of the city	874408
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	2340
Denominator	Total population of the city	874408
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**15.06**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	108
Denominator	Total length of road network in the city	717.019
Unit	Percentage	
Benchmark	100%	

Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1077.3**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	9420
Denominator	Total population of the city	874408
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**5.69**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	536
Denominator	Total crimes recorded in the same year	9420
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**38.43**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	336
Denominator	Total population of the city	874408
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**14.95**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	3739.95
Denominator	Total VAT/GST collection during preceding year	250.1139
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**-30.02**

Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-124.82
Denominator	Total Professional Tax collection during preceding year	415.74
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-50**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-121
Denominator	Number of construction permits during preceding year	2.42
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	1220
Denominator	Total labour force in the city	199010
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	5470
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through**	**8**

	formal/ housing	
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	5427
Denominator	Total number of slum and EWS households in the city	678.66
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**Non-Computable**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.37**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	320868.69
Denominator	Total population of the city	874408
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.4**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1226727.59
Denominator	Total population of the city	874408
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	0
Denominator	Total area of the city (total area of all land uses)	36700000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use	

	(amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	874408
Denominator	Area allocated for residential land use (in hectares)	61280300
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**121.7**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	154832
Denominator	Total number of households in the city	127229
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	184742
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**2498**
Description	Total number of sustained electrical interruptions in a year	2498
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a	

	benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.8**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	27200
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	9500
Denominator	Total energy consumption from all sources	92589700
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1401522.75
Denominator	Total quantum of water and waste water handled during the period	NA
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	15012

Denominator	Total number of street light installations	31460
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.8**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	92589700
Denominator	Total population of the city	874408
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	143
Denominator	Total area of the city (sq.km)	36.7
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.13**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	118
Denominator	Total population of the city	874408

Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	NA
Denominator	Total length of road network in the city	717.019
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**50**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**3**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	6
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 11.8	**Extent of signal synchronisation**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	3
Denominator	Total number of signalised intersections in the city	3
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**88.89**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	8
Denominator	Total available on-street parking spaces in the city	9
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	NA
Denominator	Total length of road network in the city	1434.038
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**41.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	20
Denominator	Total number of junctions/ intersections on major roads in the city	48
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	0
Denominator	Total number of public right-of-way areas in the city	79
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**45**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	57254
Denominator	Total number of households in the city	127229
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**146.08**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	127.73
Denominator	Total population of the city	874408
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	0
Denominator	Total number of samples tested for water quality	3527
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	127.73
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	NA
Denominator	Total number of water connections in the city	59284
Unit	Percentage	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	0
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	0
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**100.5**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	127865
Denominator	Total number of properties in the city	127229
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**194.72**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	247740
Denominator	Total number of properties in the city	127229
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**19.91**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	22
Denominator	Total waste water generated in the city per day	110.5
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	

Numerator	Quantum of waste water recycled or reused per day	4.5
Denominator	Total waste water received at treatment plants per day	NA
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**0.15**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	1.1
Denominator	Total length of road network in the city	717.019
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**59.71**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	77200
Denominator	Total number of households and establishments in the city	129301
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	430
Denominator	Total quantum of MSW generated in the city	430
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**83.72**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	10800
Denominator	Average MSW generated in the city (tons per month)	12900
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**Non-computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**Non-computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**244**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	244
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	12
Denominator	Total number of noise samples	12
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**300**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	72
Denominator	Total number of samples tested	24
Unit	Percentage	
Benchmark	100%

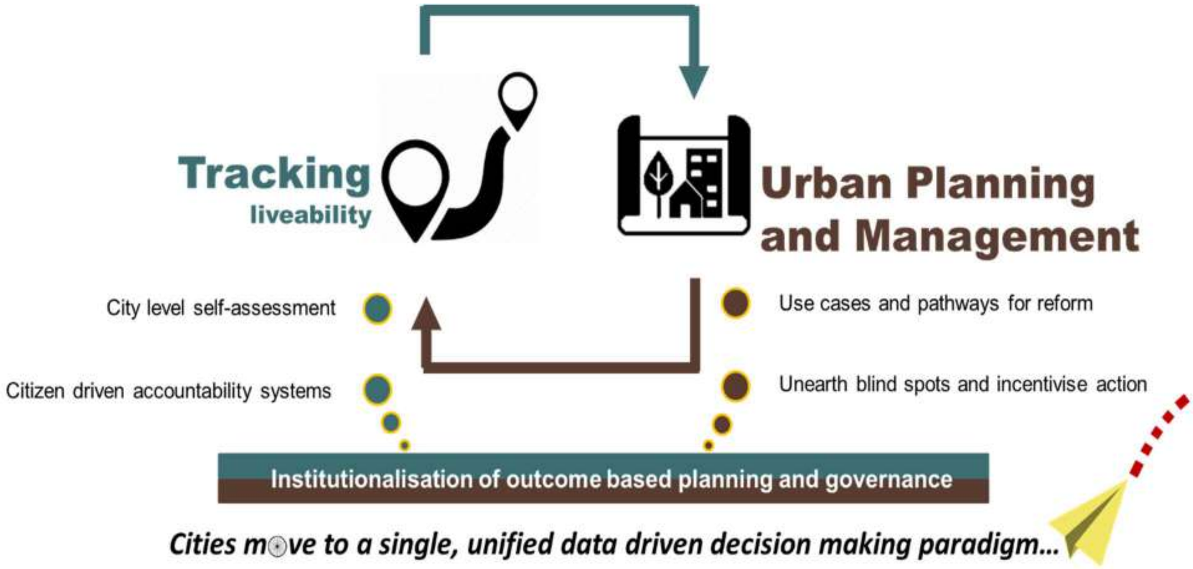
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

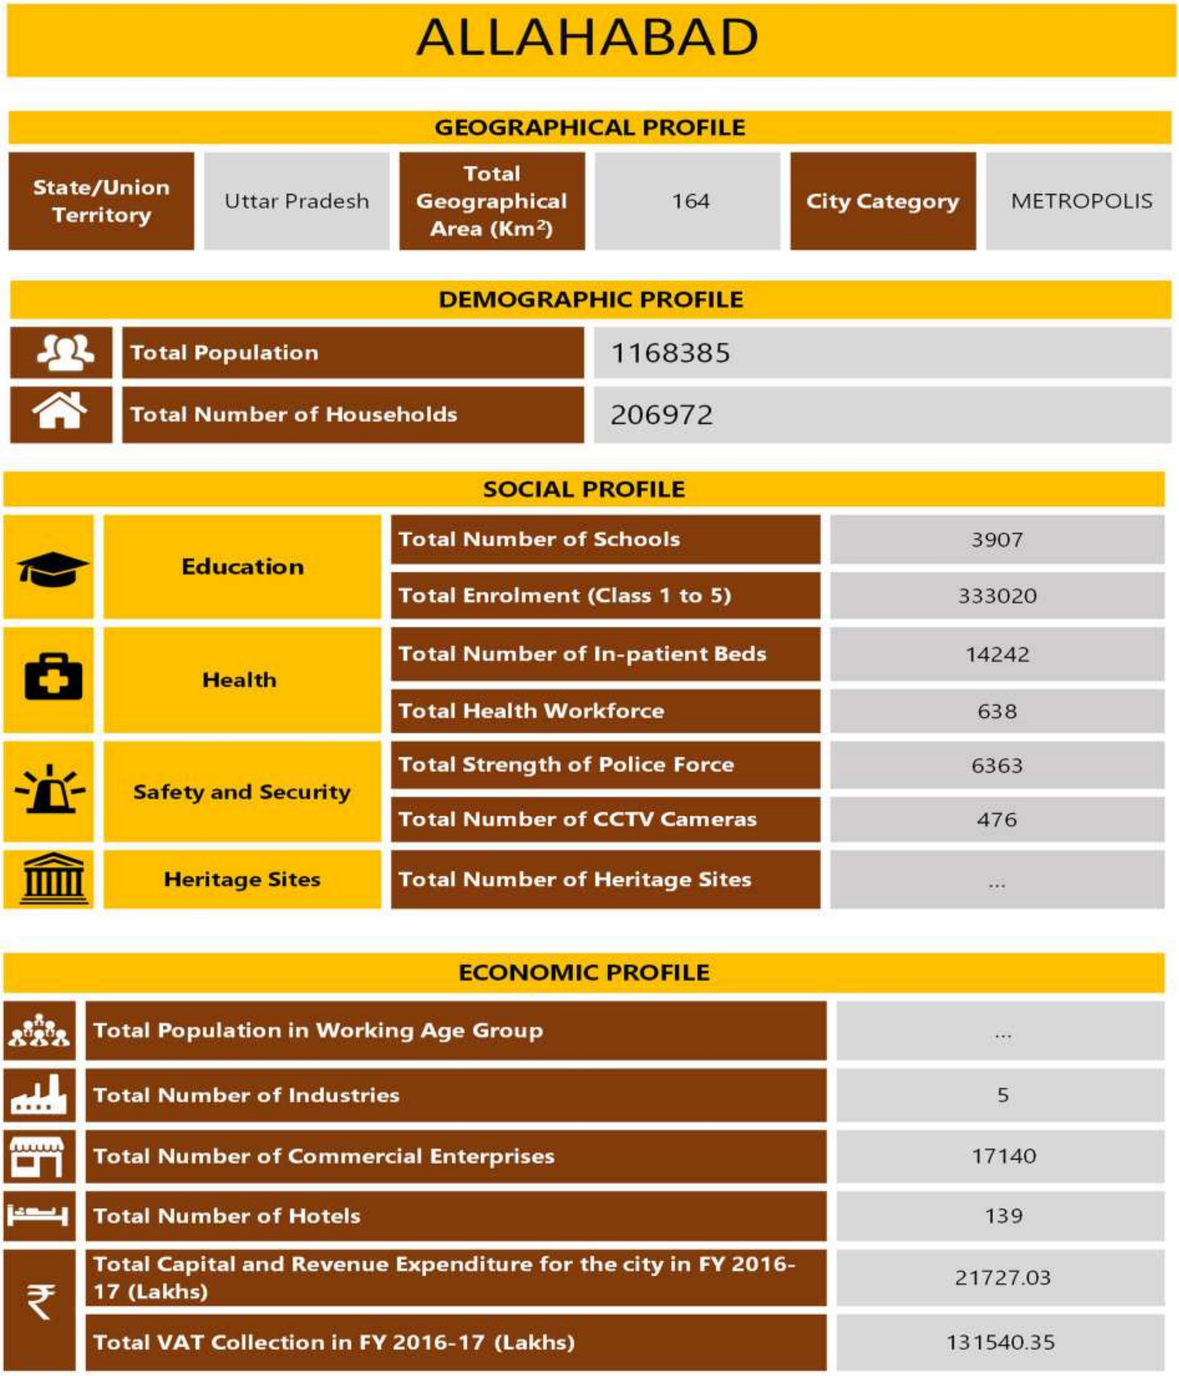


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



ALLAHABAD

GEOGRAPHICAL PROFILE

State/Union Territory	Uttar Pradesh	Total Geographical Area (Km^2)	164	City Category	METROPOLIS

DEMOGRAPHIC PROFILE

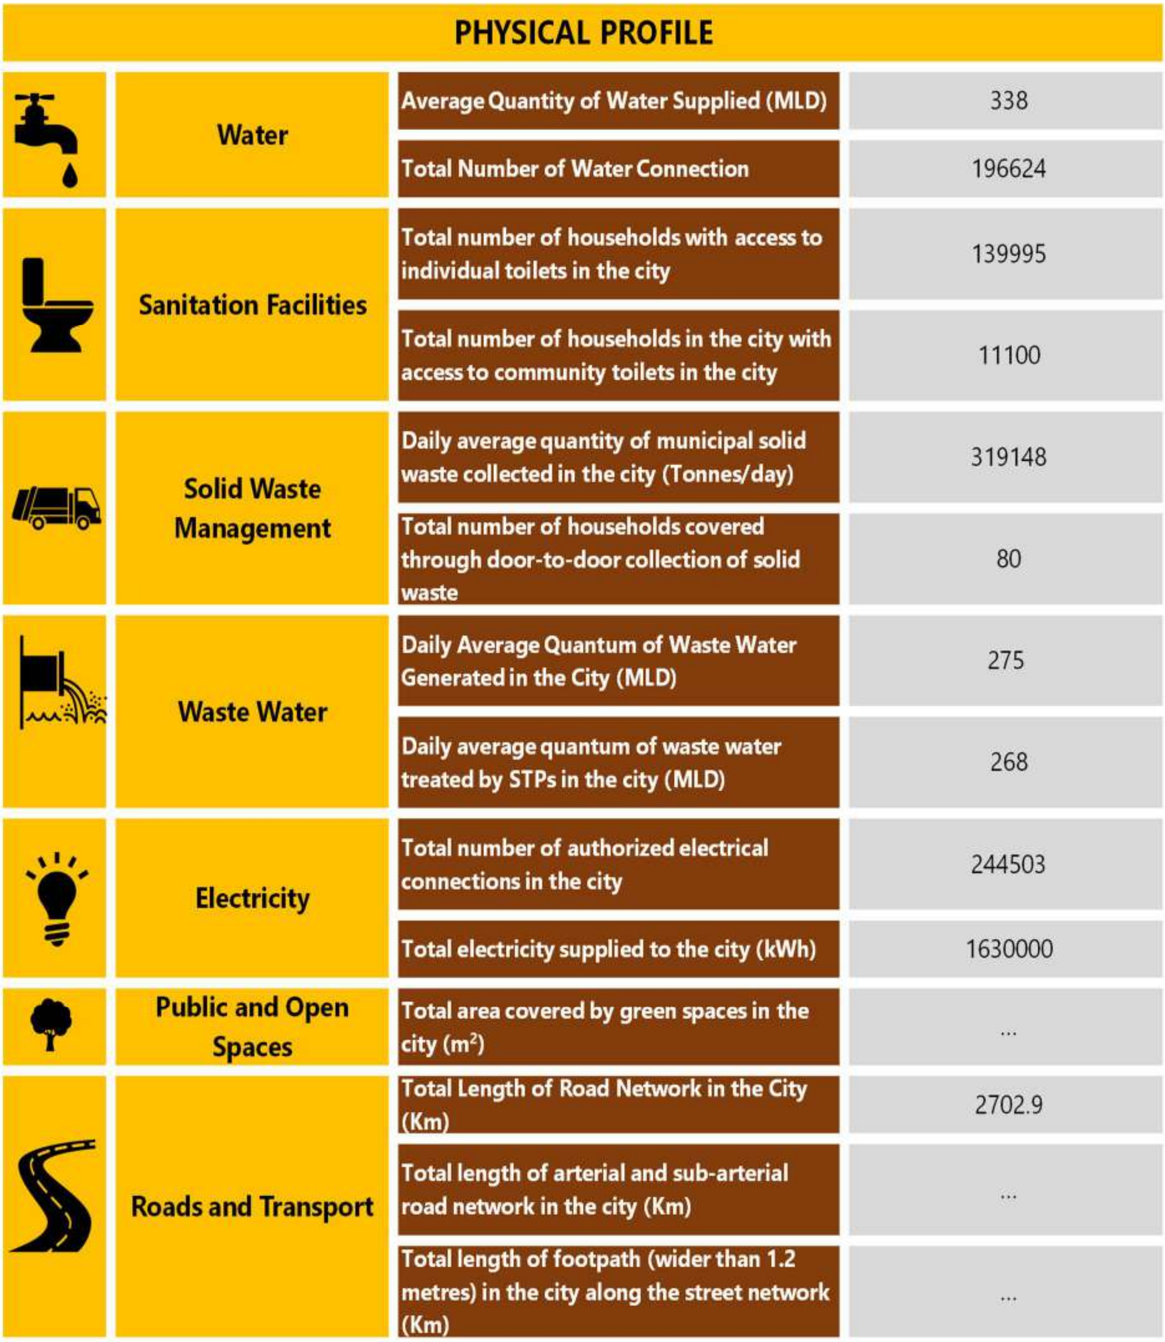
Total Population	1168385
Total Number of Households	206972

SOCIAL PROFILE

Education	Total Number of Schools	3907
	Total Enrolment (Class 1 to 5)	333020
Health	Total Number of In-patient Beds	14242
	Total Health Workforce	638
Safety and Security	Total Strength of Police Force	6363
	Total Number of CCTV Cameras	476
Heritage Sites	Total Number of Heritage Sites	...

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	5
Total Number of Commercial Enterprises	17140
Total Number of Hotels	139
Total Capital and Revenue Expenditure for the city in FY 2016-17 (Lakhs)	21727.03
Total VAT Collection in FY 2016-17 (Lakhs)	131540.35



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	338
	Total Number of Water Connection	196624
Sanitation Facilities	Total number of households with access to individual toilets in the city	139995
	Total number of households in the city with access to community toilets in the city	11100
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	319148
	Total number of households covered through door-to-door collection of solid waste	80
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	275
	Daily average quantum of waste water treated by STPs in the city (MLD)	268
Electricity	Total number of authorized electrical connections in the city	244503
	Total electricity supplied to the city (kWh)	1630000
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	...
Roads and Transport	Total Length of Road Network in the City (Km)	2702.9
	Total length of arterial and sub-arterial road network in the city (Km)	...
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports

Pillars of Comprehensive Development	Category	Indicators
		activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate

Pillars of Comprehensive Development	Category	Indicators
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains

Pillars of Comprehensive Development	Category	Indicators
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

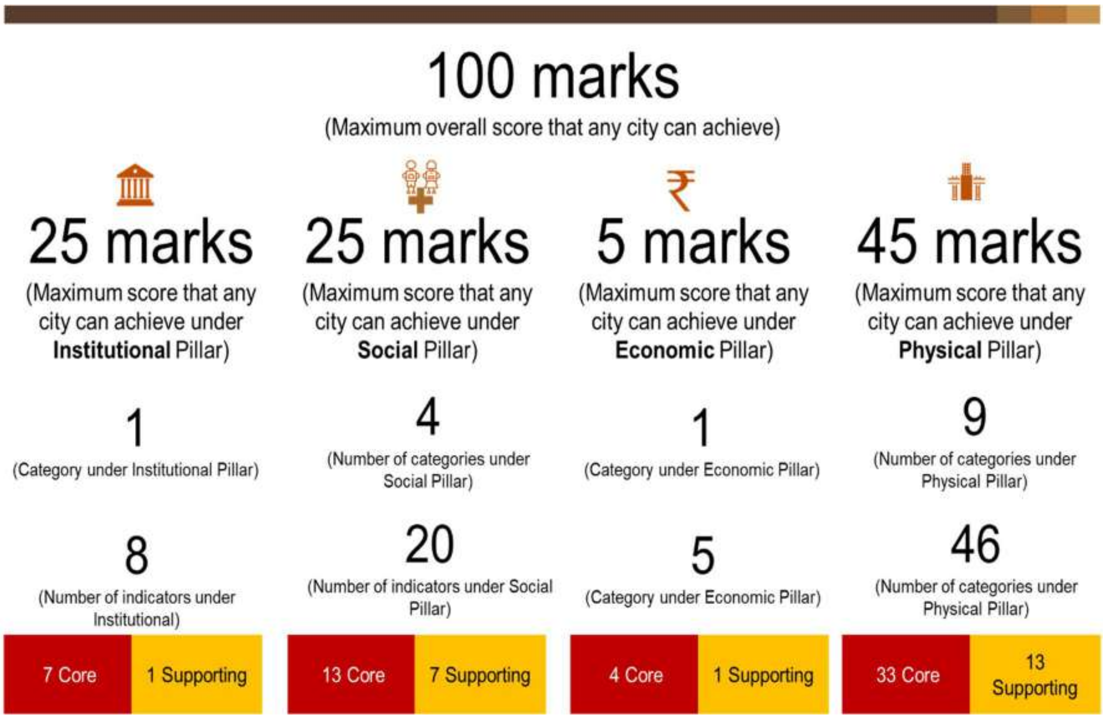
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3: Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account and Taxation Department Nagar Nigam
Urban Local Body	For Park and Recreation Related Questions	Environment and Parks Department Nagar Nigam
Urban Local Body	For Water Supply and Drainage related questions	Environment and Parks Department Nagar Nigam
Urban Local Body	For Heritage sites related data	Tourism Department
Urban Local Body	For Ecological sites related data	
Urban Local Body	For Housing related data	Nagar Nigam
Urban Local Body	For Building plan related data	Nagar Nigam
Urban Local Body	For Roads related data	Nagar Nigam
Urban Local Body	For Solid waste management related data	Environment and Parks Department
Urban Local Body	For IT services related data	IT Department Nagar Nigam
Urban Local Body	For Vendor committee related data	Nagar Nigam
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	-
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board
Development Authority	Building Infrastructure	Allahabad Development Authority
	Construction planning	Allahabad Development Authority
	Green Building	Allahabad Development Authority
	Rain water harvesting	Allahabad Development Authority
	Universal Design Principle	Allahabad Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Electrical Department
State Disaster management authority		Disaster Management Department
State Education Department		Basic Shiksha Adhikari
State Health Department	Health care professionals	Chief Medical Officer
	Citizen Services	Chief Medical Officer
	Disease Prevalence	Chief Medical Officer
	Health Infrastructure	Chief Medical Officer
State Renewable Energy		Uttar Pradesh New and Renewable Energy

Designated data owners	Subcategories	Data owners at city level
Development Agency		Department Agency
State Sales / Commercial Taxes Department		Sales Tax Department
Town and Country Planning Department	Land Use	Town and Country Planning Department
Traffic and Police Department		Superintendent of police & Superintendent of traffic
Transport Authorities	Buses	Regional Transport Office
	Registered Vehicles	Regional Transport Office
	Sub urban rail transport	99999
	Mono Rail Authority	99999
	Tramways	99999
	Marine Transport Authority	99999

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 52 numbers of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	4
DISCOM/Electricity Department	6
Traffic and Police Department	1
Development Authority	1
Pollution Control Board	2
State Renewable Energy Department	0
Town and Country Planning	2
State Health Department	9
Transport Authority	2
Disaster Management	1
Urban Local Body	23
Total	52*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**45.71**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.25
	1.1c trade license	0.5
	1.1d solid waste management	0
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0.666666667
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	0
	1.1j information	0.692307692
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**2.38**
Description	Services integrated through an integrated or a singular operations command centre	0.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**0.07**
Description		

Sub Indicators	1.3a Building plan	0
	1.3b Birth/Death Certificate	0.002964491
	1.3c water supply	4.83157E-05
	1.3d solid waste management	0
	1.3e property tax	0.000798015
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	0.000718513
	1.3i information	0.000256765
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**NC**
Description		
Sub Indicators	1.4a water supply	NA
	1.4b solid waste	0
	1.4c street lights	NA
	1.4d sewerage	NA
	1.4e professional tax	0
	1.4f parks and recreational spaces	NA
	1.4g building plan	NA
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**53.7**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	3872.92
Denominator	Total demand raised for the year	7212.59
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**101.01**
Formula:	*Numerator / Denominator*	

Numerator	Total collection of user charges in water supply in a year	4493.4
Denominator	Total O&M cost for providing water supply services during the year	4448.63
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**1.23**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	695.66
Denominator	Total expenditure (revenue and capital accounts) in the same year	56397.1
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	Data Unavailable
Denominator	Total number of wards	80
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	Data Unavailable
Denominator	Total number of historic buildings/sites identified	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for	Data

	restoration	Unavailable
Denominator	Total number of ecologically important sites identified in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**14.29**
Description	Average Occupancy rate of Hotels	14.28571429
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	21727.03
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**Non-Computable**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	Data Unavailable
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**238.89**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	498712
Denominator	Total population in the age group of 6-14 years	208760
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**266.54**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	257277
Denominator	Total female population in the age group of 6-14 years	96525
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**32.94**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	333020
Denominator	Total number of teachers available for primary grades (public and private schools)	10110
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	NA
Denominator	Total number of schools	3907
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**113.2**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	113.1980125543
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**104.58**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	2974507916
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**121.89**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	14242
Denominator	Total population of the city	1168385
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**5.46**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	638
Denominator	Total population of the city	1168385
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**15**
Description	Total response time for health-related distress calls received in the city	15
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.49**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	5774
Denominator	Total population of the city	1168385
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.3**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	3508
Denominator	Total population of the city	1168385
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**17.61**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	476
Denominator	Total length of road network in the city	2702.9
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1429.75**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	16705
Denominator	Total population of the city	1168385
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1
Denominator	Total crimes recorded in the same year	16705
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**40.4**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	472
Denominator	Total population of the city	1168385
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**6.71**

Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	8268.04
Denominator	Total VAT/GST collection during preceding year	1232.7231
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-9.81**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-61
Denominator	Number of construction permits during preceding year	6.22
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	3927
Denominator	Total labour force in the city	208760
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No:	**Percentage of vendors registered and provided formal**	**Non-**

6.5	**spaces**	**Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	Data Unavailable
Denominator	Total number of vendors in the city	13800
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**0.5**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	302
Denominator	Total number of slum and EWS households in the city	602.76
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	Data Unavailable
Denominator	Total population of the city	1168385
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No:	Per capita availability of public and recreational places	**Non-**

8.2		**Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	Data Unavailable
Denominator	Total population of the city	1168385
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	164000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**104.66**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1168385
Denominator	Area allocated for residential land use (in hectares)	11164
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**97.84**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	202500
Denominator	Total number of households in the city	206972
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	NA
Denominator	Total number of electricity connections in the city	244503
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**110**
Description	Total number of sustained electrical interruptions in a year	110
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	240
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	1560
Denominator	Total energy consumption from all sources	1630000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	18180
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**NC**
Formula:	*Numerator / Denominator*	

Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	43847
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	NA
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	7990
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1630000
Denominator	Total population of the city	1168385
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.17**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	43
Denominator	Total area of the city (sq.km)	164
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.12**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	138
Denominator	Total population of the city	1168385
Unit	Number per 1000 persons	
Benchmark	>=0.6	

Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	Data Unavailable
Denominator	Total length of road network in the city	2702.9
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA
Denominator	Total number of major transport interchanges in the city	3
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.67**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of major interchanges in the city	3
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	19
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	7
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	Data Unavailable
Denominator	Total length of road network in the city	5405.8
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	Data Unavailable
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	

Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0.36**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	2
Denominator	Total number of public right-of-way areas in the city	559
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**83.42**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	172658
Denominator	Total number of households in the city	206972
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**289.29**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	338
Denominator	Total population of the city	1168385
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	Data Unavailable
Denominator	Total number of samples tested for water quality	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-**

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Formula:	*Numerator / Denominator*	**Computable**
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	338
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	196624
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**24.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	25
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	104
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**73.69**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	152515
Denominator	Total number of properties in the city	206972
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**67.64**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	139995
Denominator	Total number of properties in the city	206972
Unit	Percentage	

Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**97.45**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	268
Denominator	Total waste water generated in the city per day	275
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**102.61**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	275
Denominator	Total waste water received at treatment plants per day	268
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	Data Unavailable
Denominator	Total length of road network in the city	2702.9
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	99
Denominator	Total number of households and establishments in the city	224112
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**110.79**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	319148
Denominator	Total quantum of MSW generated in the city	288060
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**Non-**

Formula:	*Numerator / Denominator*	**Computable**
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	9574440
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**421**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	421
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**40.59**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	40.59
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**142.74**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	142.74
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	340
Denominator	Total number of noise samples	552
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	12
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%

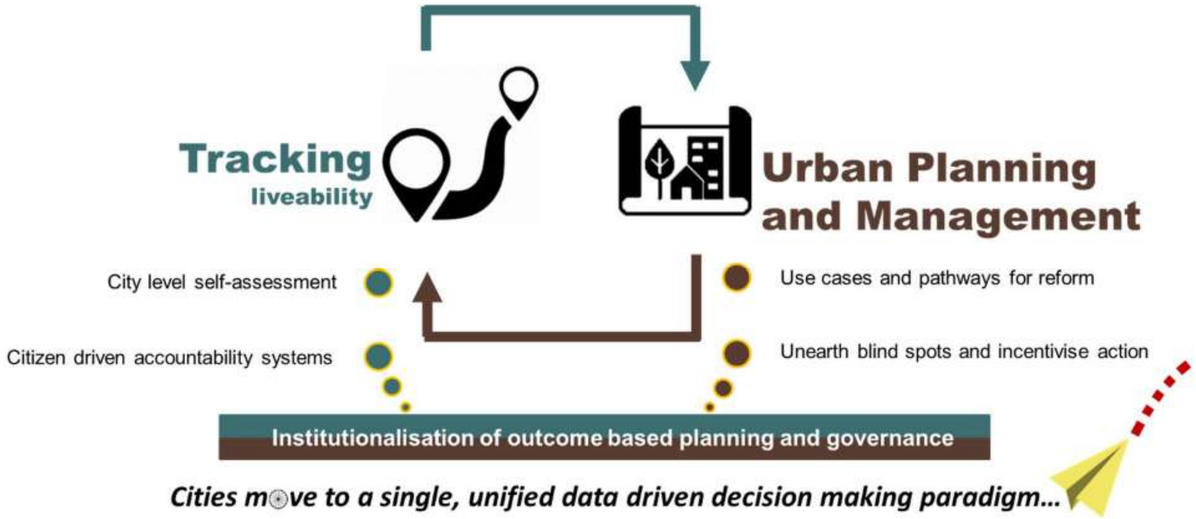
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

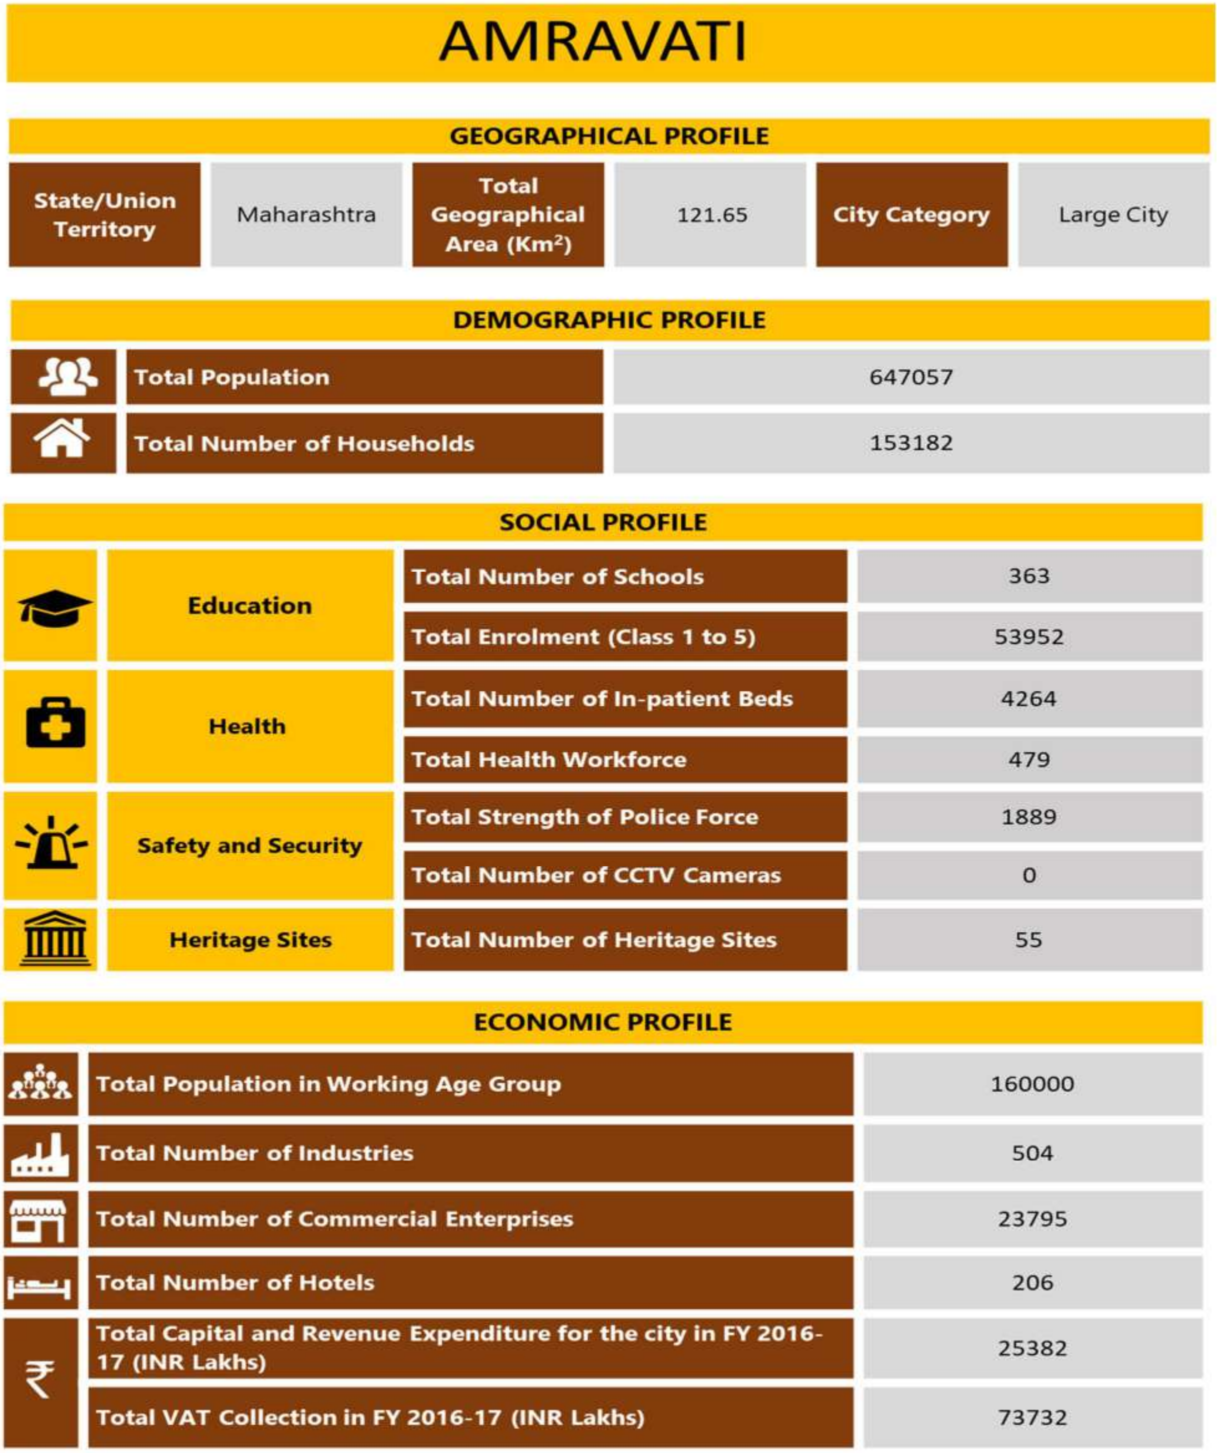
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AMRAVATI

GEOGRAPHICAL PROFILE

State/Union Territory	Maharashtra	Total Geographical Area (Km²)	121.65	City Category	Large City

DEMOGRAPHIC PROFILE

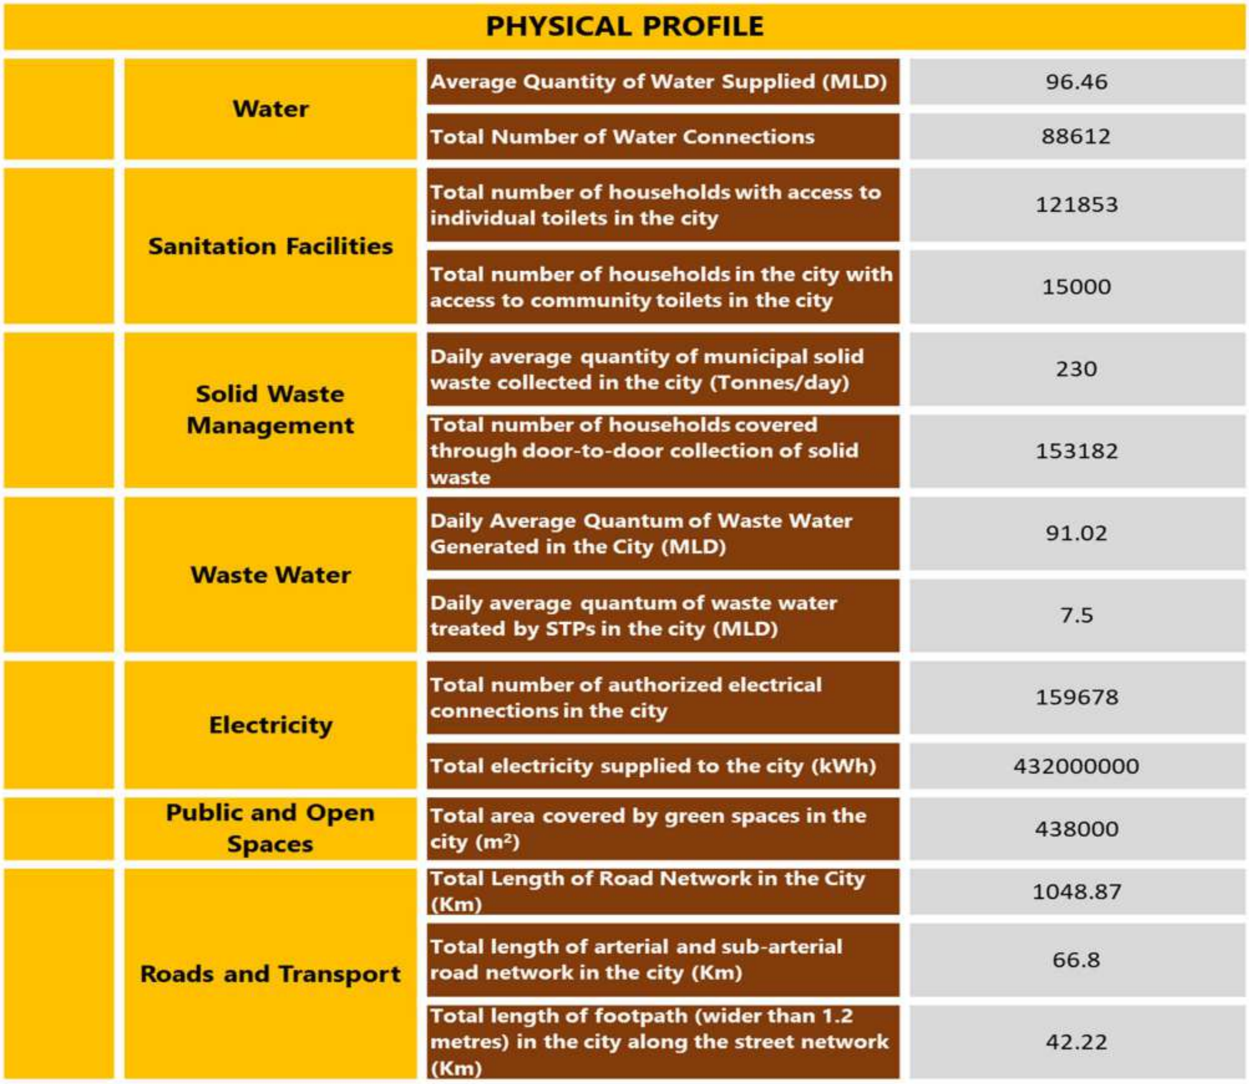
Total Population	647057
Total Number of Households	153182

SOCIAL PROFILE

Education	Total Number of Schools	363
	Total Enrolment (Class 1 to 5)	53952
Health	Total Number of In-patient Beds	4264
	Total Health Workforce	479
Safety and Security	Total Strength of Police Force	1889
	Total Number of CCTV Cameras	0
Heritage Sites	Total Number of Heritage Sites	55

ECONOMIC PROFILE

Total Population in Working Age Group	160000
Total Number of Industries	504
Total Number of Commercial Enterprises	23795
Total Number of Hotels	206
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	25382
Total VAT Collection in FY 2016-17 (INR Lakhs)	73732



PHYSICAL PROFILE			
	Water	Average Quantity of Water Supplied (MLD)	96.46
		Total Number of Water Connections	88612
	Sanitation Facilities	Total number of households with access to individual toilets in the city	121853
		Total number of households in the city with access to community toilets in the city	15000
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	230
		Total number of households covered through door-to-door collection of solid waste	153182
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	91.02
		Daily average quantum of waste water treated by STPs in the city (MLD)	7.5
	Electricity	Total number of authorized electrical connections in the city	159678
		Total electricity supplied to the city (kWh)	432000000
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	438000
	Roads and Transport	Total Length of Road Network in the City (Km)	1048.87
		Total length of arterial and sub-arterial road network in the city (Km)	66.8
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	42.22

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various ‘Category Sub-Indexes’ and a composite ‘City Liveability Index’ will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary

Pillars of Comprehensive Development	Category	Indicators
		education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

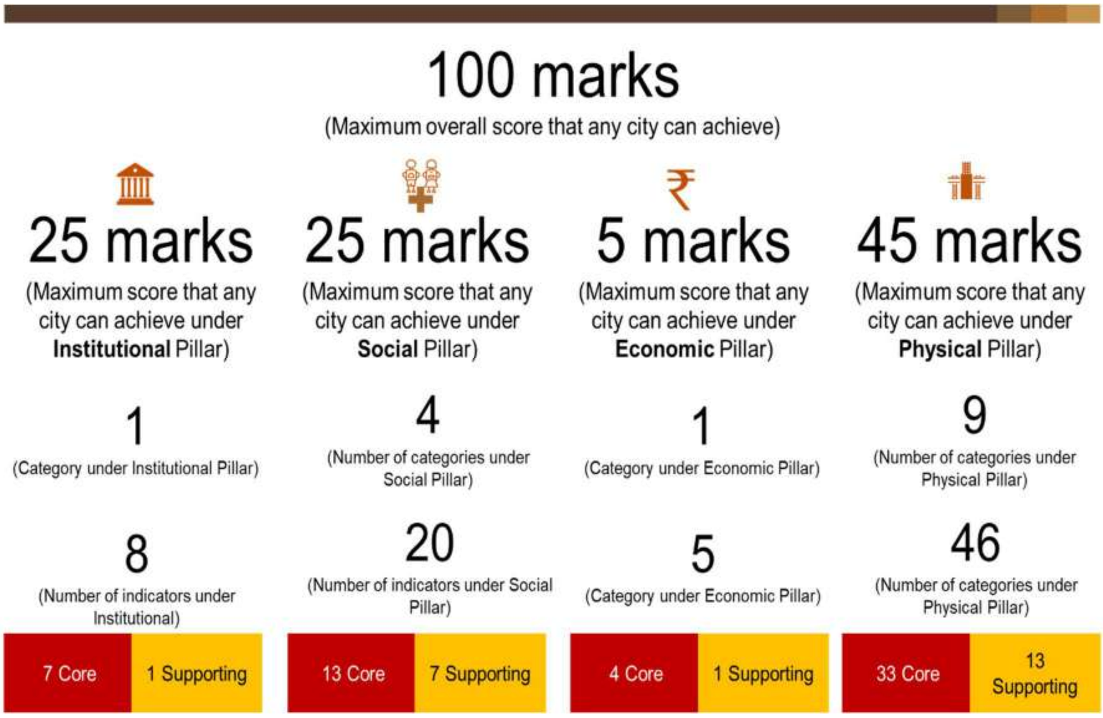
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	**Population range**
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring. The list of benchmarks is presented in Annexure 1.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts & Audit departments
Urban Local Body	For Park and Recreation Related Questions	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Water Supply and Drainage related questions	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Heritage sites related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Ecological sites related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Housing related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Building plan related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Roads related data	Assistant Director, Planning Wing and

Designated data owners	Subcategories	Data owners at city level
		Manager, IT Department
Urban Local Body	For Solid waste management related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For IT services related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Vendor committee related data	NA
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Assistant Director, Planning Wing and Manager, IT Department
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board
Development Authority	Building Infrastructure	Andhra Pradesh- Capital Region Development Authority (AP- CRDA)
	Construction planning	Andhra Pradesh- Capital Region Development Authority
	Green Building	Andhra Pradesh- Capital Region Development Authority
	Rain water harvesting	Andhra Pradesh- Capital Region Development Authority
	Universal Design Principle	Andhra Pradesh- Capital Region Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Andhra Pradesh Eastern Power Distribution Company Limited (APEPDCL)
State Disaster management authority		Addition Commissioner (Projects) District DM Authority,
State Education Department		District Educational Officer
State Health Department	Health care professionals	District Medical & Health Department
	Citizen Services	District Medical & Health Department
	Disease Prevalence	District Medical & Health Department
	Health Infrastructure	District Medical & Health Department
State Renewable Energy Development Agency		National Renewable Energy Corporation Limited
State Sales / Commercial Taxes Department		Deputy Commissioner, Commercial tax Department

	Sub urban rail transport	-
	Mono Rail Authority	-
	Tramways	-
	Marine Transport Authority	-

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 2 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	**0**
State Education Department	**0**
DISCOM/Electricity Department	**0**
Traffic and Police Department	**0**
Development Authority	**0**
Pollution Control Board	**0**
State Renewable Energy Department	**0**
Town and Country Planning	**0**
State Health Department	**0**
Transport Authority	**0**
Disaster Management	**0**
Urban Local Body	**2**
Total	**2***

* The count of documents is based on first round of submission.

Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

- 1.2 | Percentage of services integrated through Command Centre
- 2.3 | Hotel occupancy
- 3.4 | Percentage of schools with access to digital education
- 5.1 | Number of streets, public places, junctions covered through surveillance systems
- 6.5 | Percentage of vendors registered and provided formal spaces
- 11.7 | Availability of Passenger Information System
- 11.11 | Percentage of traffic intersections with pedestrian crossing facilities
- 11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

- 6.4 | Unemployment Rate
- 11.3 | Mode share of public transport
- 11.5 | Mode share of Non Motorized Transport
- 12.3 | Quality of Water Supplied
- 15.4 | Level of Noise Pollution

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**30.77**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0

	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**130.95**
Description	Services integrated through an integrated or a singular operations command centre	27.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**109.35**
Description		
Sub Indicators	1.3a Building plan	0.24533616
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	1.941747573
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**2.33**
Description		
Sub Indicators	1.4a water supply	3
	1.4b solid waste	2

	1.4c street lights	3
	1.4d sewerage	3
	1.4e professional tax	NA
	1.4f parks and recreational spaces	3
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	Data Unavailable
Denominator	Total demand raised for the year	Data Unavailable
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	Data Unavailable
Denominator	Total O&M cost for providing water supply services during the year	55
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	Data Unavailable
Denominator	Total expenditure (revenue and capital accounts) in the same year	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA

Denominator	Total number of wards	29
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**66.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	2
Denominator	Total number of historic buildings/sites identified	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**0**
Description	Average Occupancy rate of Hotels	0
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	Data Unavailable
Denominator	Total budget of the ULB (capital and revenue)	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**7**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	7

Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	6607
Denominator	Total population in the age group of 6-14 years	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	3487
Denominator	Total female population in the age group of 6-14 years	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**20.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	3988
Denominator	Total number of teachers available for primary grades (public and private schools)	197
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**20.27**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	15
Denominator	Total number of schools	74
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**128.69**

Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	128.6882456
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**103.46**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	737877
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**3.3**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	34
Denominator	Total population of the city	103000
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**10.68**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	110
Denominator	Total population of the city	103000
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**25**
Description	Total response time for health-related distress calls received in the city	25
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.26**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	266

Denominator	Total population of the city	103000
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	6
Denominator	Total population of the city	103000
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**11.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	22
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**226.21**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	233
Denominator	Total population of the city	103000
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**15.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	35

Denominator	Total crimes recorded in the same year	233
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**39.81**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	41
Denominator	Total population of the city	103000
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**-11.26**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-59.63
Denominator	Total VAT/GST collection during preceding year	5.2979
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	Data Unavailable
Denominator	Total Professional Tax collection during preceding year	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**6300**
Formula:	*Numerator / Denominator*	

Numerator	(Number of permits issued during the year – Number of permits during preceding year)	126
Denominator	Number of construction permits during preceding year	0.02
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	Data Unavailable
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**276.09**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	23332
Denominator	Total number of slum and EWS households in the city	84.51
Unit	Percentage	
Benchmark	100%	

Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	NA
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	63.93
Denominator	Total population of the city	103000
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**621.33**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	63996740
Denominator	Total population of the city	103000
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	1.187
Denominator	Total area of the city (total area of all land uses)	217000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will	

	be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**1481.78**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	103000
Denominator	Area allocated for residential land use (in hectares)	69.511
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**109.65**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	41623
Denominator	Total number of households in the city	37959
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	10
Denominator	Total number of electricity connections in the city	49838
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**Non-Computable**
Description	Total number of sustained electrical interruptions in a year	Data Unavailable
Unit	Number	

Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**NC**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	Data Unavailable
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	49
Denominator	Total energy consumption from all sources	61510253
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	Data Unavailable
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	7105

Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	37055
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.79**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	61510253
Denominator	Total population of the city	103000
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.06**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	20
Denominator	Total area of the city (sq.km)	217
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**8.39**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	864
Denominator	Total population of the city	103000
Unit	Number per 1000 persons	
Benchmark	>=0.6	

Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**15.24**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	30
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**56.52**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	13
Denominator	Total number of major transport interchanges in the city	23
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.57**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	13
Denominator	Total number of major interchanges in the city	23
Unit	Percentage	
Benchmark	>=75	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 11.8	**Extent of signal synchronisation**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**10.16**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	40
Denominator	Total length of road network in the city	393.62
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	Data Unavailable
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**10.29**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	18

Denominator	Total number of public right-of-way areas in the city	175
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	37959
Denominator	Total number of households in the city	37959
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	Data Unavailable
Denominator	Total population of the city	103000
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	30
Denominator	Total number of samples tested for water quality	36
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	NA
Denominator	Total number of water connections in the city	38130
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**18.03**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	11
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	61
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**112.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	38126
Denominator	Total number of properties in the city	33967
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**39.64**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	13466
Denominator	Total number of properties in the city	33967

Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	NA
Denominator	Total waste water generated in the city per day	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	NA
Denominator	Total waste water received at treatment plants per day	NA
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	NA
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**99.79**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	37959
Denominator	Total number of households and establishments in the city	38040
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**87.5**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	14

Denominator	Total quantum of MSW generated in the city	16
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	NA
Denominator	Average MSW generated in the city (tons per month)	420
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**8.5**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	8.5
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**28.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	28.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**74.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	74.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	30
Denominator	Total number of noise samples	33
Unit	Percentage	

Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	30
Denominator	Total number of samples tested	30
Unit	Percentage	
Benchmark	100%

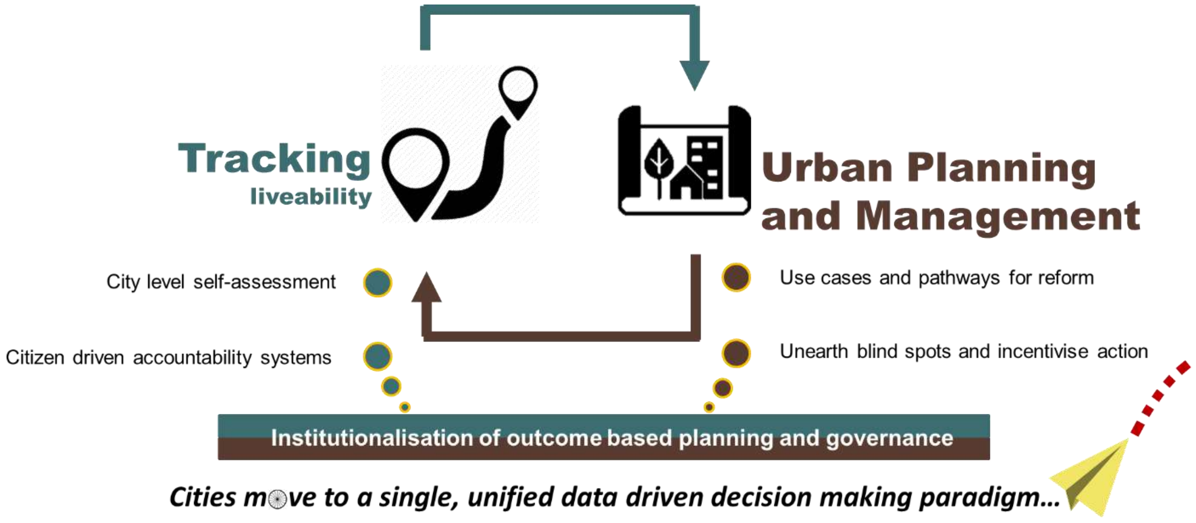
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

AMRAVATI

GEOGRAPHICAL PROFILE

State/Union Territory	Maharashtra	**Total Geographical Area (Km^2)**	121.65	**City Category**	Large City

DEMOGRAPHIC PROFILE

Total Population	647057
Total Number of Households	153182

SOCIAL PROFILE

Education	**Total Number of Schools**	363
	Total Enrolment (Class 1 to 5)	53952
Health	**Total Number of In-patient Beds**	4264
	Total Health Workforce	479
Safety and Security	**Total Strength of Police Force**	1889
	Total Number of CCTV Cameras	0
Heritage Sites	**Total Number of Heritage Sites**	55

ECONOMIC PROFILE

Total Population in Working Age Group	160000
Total Number of Industries	504
Total Number of Commercial Enterprises	23795
Total Number of Hotels	206
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	25382
Total VAT Collection in FY 2016-17 (INR Lakhs)	73732

PHYSICAL PROFILE			
	Water	**Average Quantity of Water Supplied (MLD)**	96.46
		Total Number of Water Connections	88612
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	121853
		Total number of households in the city with access to community toilets in the city	15000
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	230
		Total number of households covered through door-to-door collection of solid waste	153182
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	91.02
		Daily average quantum of waste water treated by STPs in the city (MLD)	7.5
	Electricity	**Total number of authorized electrical connections in the city**	159678
		Total electricity supplied to the city (kWh)	432000000
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	438000
	Roads and Transport	**Total Length of Road Network in the City (Km)**	1048.87
		Total length of arterial and sub-arterial road network in the city (Km)	66.8
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	42.22

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary

Pillars of Comprehensive Development	Category	Indicators
		education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring. The list of benchmarks is presented in Annexure 1.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts & Audit departments
Urban Local Body	For Park and Recreation Related Questions	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Water Supply and Drainage related questions	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Heritage sites related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Ecological sites related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Housing related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Building plan related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Roads related data	Assistant Director, Planning Wing and

Designated data owners	Subcategories	Data owners at city level
		Manager, IT Department
Urban Local Body	For Solid waste management related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For IT services related data	Assistant Director, Planning Wing and Manager, IT Department
Urban Local Body	For Vendor committee related data	NA
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Assistant Director, Planning Wing and Manager, IT Department
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board
Development Authority	Building Infrastructure	Andhra Pradesh- Capital Region Development Authority (AP- CRDA)
	Construction planning	Andhra Pradesh- Capital Region Development Authority
	Green Building	Andhra Pradesh- Capital Region Development Authority
	Rain water harvesting	Andhra Pradesh- Capital Region Development Authority
	Universal Design Principle	Andhra Pradesh- Capital Region Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Andhra Pradesh Eastern Power Distribution Company Limited (APEPDCL)
State Disaster management authority		Addition Commissioner (Projects) District DM Authority,
State Education Department		District Educational Officer
State Health Department	Health care professionals	District Medical & Health Department
	Citizen Services	District Medical & Health Department
	Disease Prevalence	District Medical & Health Department
	Health Infrastructure	District Medical & Health Department
State Renewable Energy Development Agency		National Renewable Energy Corporation Limited
State Sales / Commercial Taxes Department		Deputy Commissioner, Commercial tax Department
Town and Country Planning Department	Land Use	Town Planning Department.

Designated data owners	Subcategories	Data owners at city level
Traffic and Police Department		Office of Superintendent of Police.
Transport Authorities	Buses	Road Transport Authority
	Registered Vehicles	Road Transport Authority
	Sub urban rail transport	-
	Mono Rail Authority	-
	Tramways	-
	Marine Transport Authority	-

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 2 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	0
DISCOM/Electricity Department	0
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	0
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	0
Transport Authority	0
Disaster Management	0
Urban Local Body	2
Total	2*

* The count of documents is based on first round of submission.

Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**30.77**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0

Indicator No: 1.5	Tax collected as percentage of tax billed	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	Data Unavailable
Denominator	Total demand raised for the year	Data Unavailable
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	Data Unavailable
Denominator	Total O&M cost for providing water supply services during the year	55
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	Data Unavailable
Denominator	Total expenditure (revenue and capital accounts) in the same year	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA

Denominator	Total number of wards	29
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**66.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	2
Denominator	Total number of historic buildings/sites identified	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**0**
Description	Average Occupancy rate of Hotels	0
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	Data Unavailable
Denominator	Total budget of the ULB (capital and revenue)	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**7**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	7

Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	6607
Denominator	Total population in the age group of 6-14 years	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	3487
Denominator	Total female population in the age group of 6-14 years	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**20.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	3988
Denominator	Total number of teachers available for primary grades (public and private schools)	197
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**20.27**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	15
Denominator	Total number of schools	74
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**128.69**

Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	128.6882456
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**103.46**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	737877
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**3.3**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	34
Denominator	Total population of the city	103000
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**10.68**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	110
Denominator	Total population of the city	103000
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**25**
Description	Total response time for health-related distress calls received in the city	25
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.26**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	266

Denominator	Total population of the city	103000
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	6
Denominator	Total population of the city	103000
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**11.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	22
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**226.21**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	233
Denominator	Total population of the city	103000
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**15.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	35

Denominator	Total crimes recorded in the same year	233
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**39.81**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	41
Denominator	Total population of the city	103000
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**-11.26**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-59.63
Denominator	Total VAT/GST collection during preceding year	5.2979
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	Data Unavailable
Denominator	Total Professional Tax collection during preceding year	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**6300**
Formula:	*Numerator / Denominator*	

Numerator	(Number of permits issued during the year – Number of permits during preceding year)	126
Denominator	Number of construction permits during preceding year	0.02
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	Data Unavailable
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**276.09**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	23332
Denominator	Total number of slum and EWS households in the city	84.51
Unit	Percentage	
Benchmark	100%	

Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	NA
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	63.93
Denominator	Total population of the city	103000
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**621.33**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	63996740
Denominator	Total population of the city	103000
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	1.187
Denominator	Total area of the city (total area of all land uses)	217000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will	

	be treated as a benchmark	
Indicator No: 9.2	Net Density	**1481.78**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	103000
Denominator	Area allocated for residential land use (in hectares)	69.511
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**109.65**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	41623
Denominator	Total number of households in the city	37959
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	10
Denominator	Total number of electricity connections in the city	49838
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**Non-Computable**
Description	Total number of sustained electrical interruptions in a year	Data Unavailable
Unit	Number	

Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**NC**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	Data Unavailable
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	49
Denominator	Total energy consumption from all sources	61510253
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	Data Unavailable
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	7105

Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	37055
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.79**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	61510253
Denominator	Total population of the city	103000
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.06**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	20
Denominator	Total area of the city (sq.km)	217
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**8.39**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	864
Denominator	Total population of the city	103000
Unit	Number per 1000 persons	
Benchmark	>=0.6	

Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**15.24**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	30
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**56.52**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	13
Denominator	Total number of major transport interchanges in the city	23
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0.57**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	13
Denominator	Total number of major interchanges in the city	23
Unit	Percentage	
Benchmark	>=75	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**10.16**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	40
Denominator	Total length of road network in the city	393.62
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	Data Unavailable
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**10.29**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	18

Denominator	Total number of public right-of-way areas in the city	175
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	37959
Denominator	Total number of households in the city	37959
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	Data Unavailable
Denominator	Total population of the city	103000
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	30
Denominator	Total number of samples tested for water quality	36
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	NA
Denominator	Total number of water connections in the city	38130
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**18.03**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	11
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	61
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**112.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	38126
Denominator	Total number of properties in the city	33967
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**39.64**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	13466
Denominator	Total number of properties in the city	33967

Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	NA
Denominator	Total waste water generated in the city per day	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	NA
Denominator	Total waste water received at treatment plants per day	NA
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	NA
Denominator	Total length of road network in the city	196.81
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**99.79**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	37959
Denominator	Total number of households and establishments in the city	38040
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**87.5**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	14

Denominator	Total quantum of MSW generated in the city	16
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	NA
Denominator	Average MSW generated in the city (tons per month)	420
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**8.5**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	8.5
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**28.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	28.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**74.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	74.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	30
Denominator	Total number of noise samples	33
Unit	Percentage	

Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	30
Denominator	Total number of samples tested	30
Unit	Percentage	
Benchmark	100%

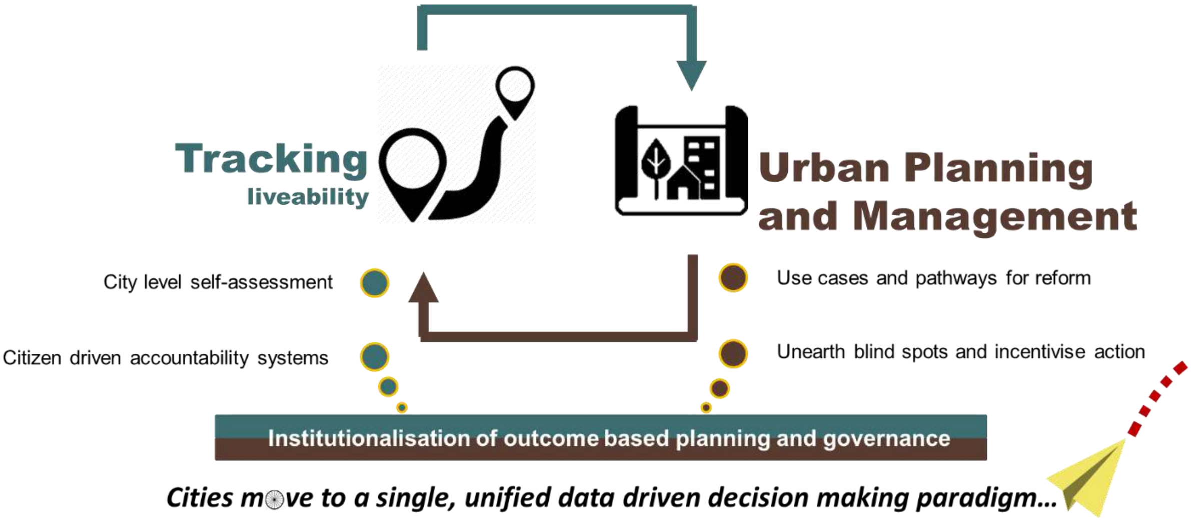
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

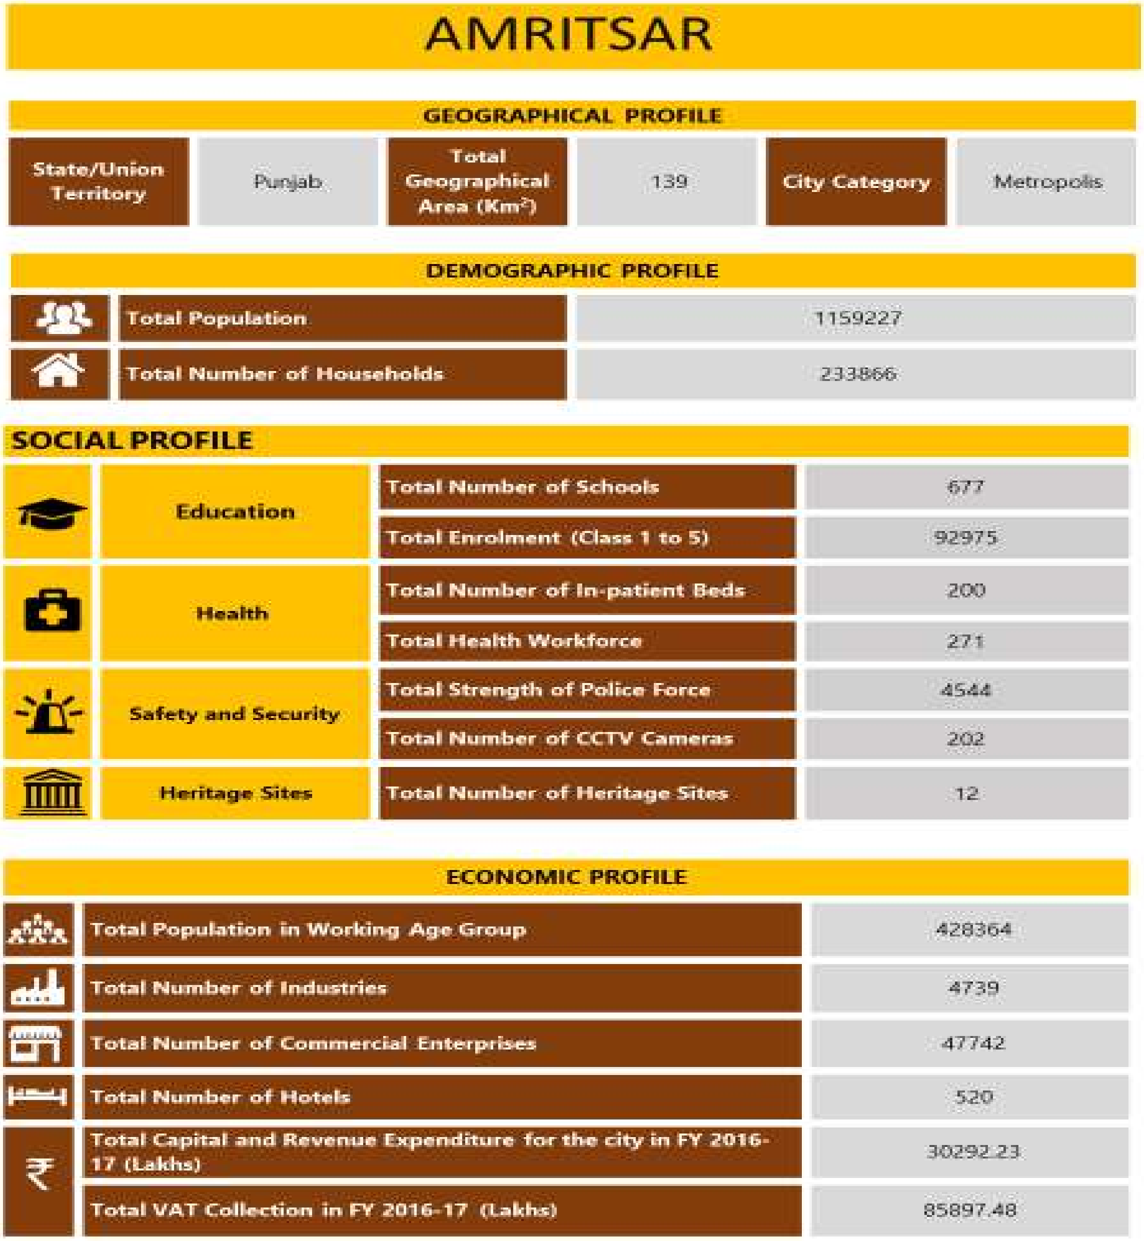


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AMRITSAR

GEOGRAPHICAL PROFILE

State/Union Territory	Punjab	Total Geographical Area (Km²)	139	City Category	Metropolis

DEMOGRAPHIC PROFILE

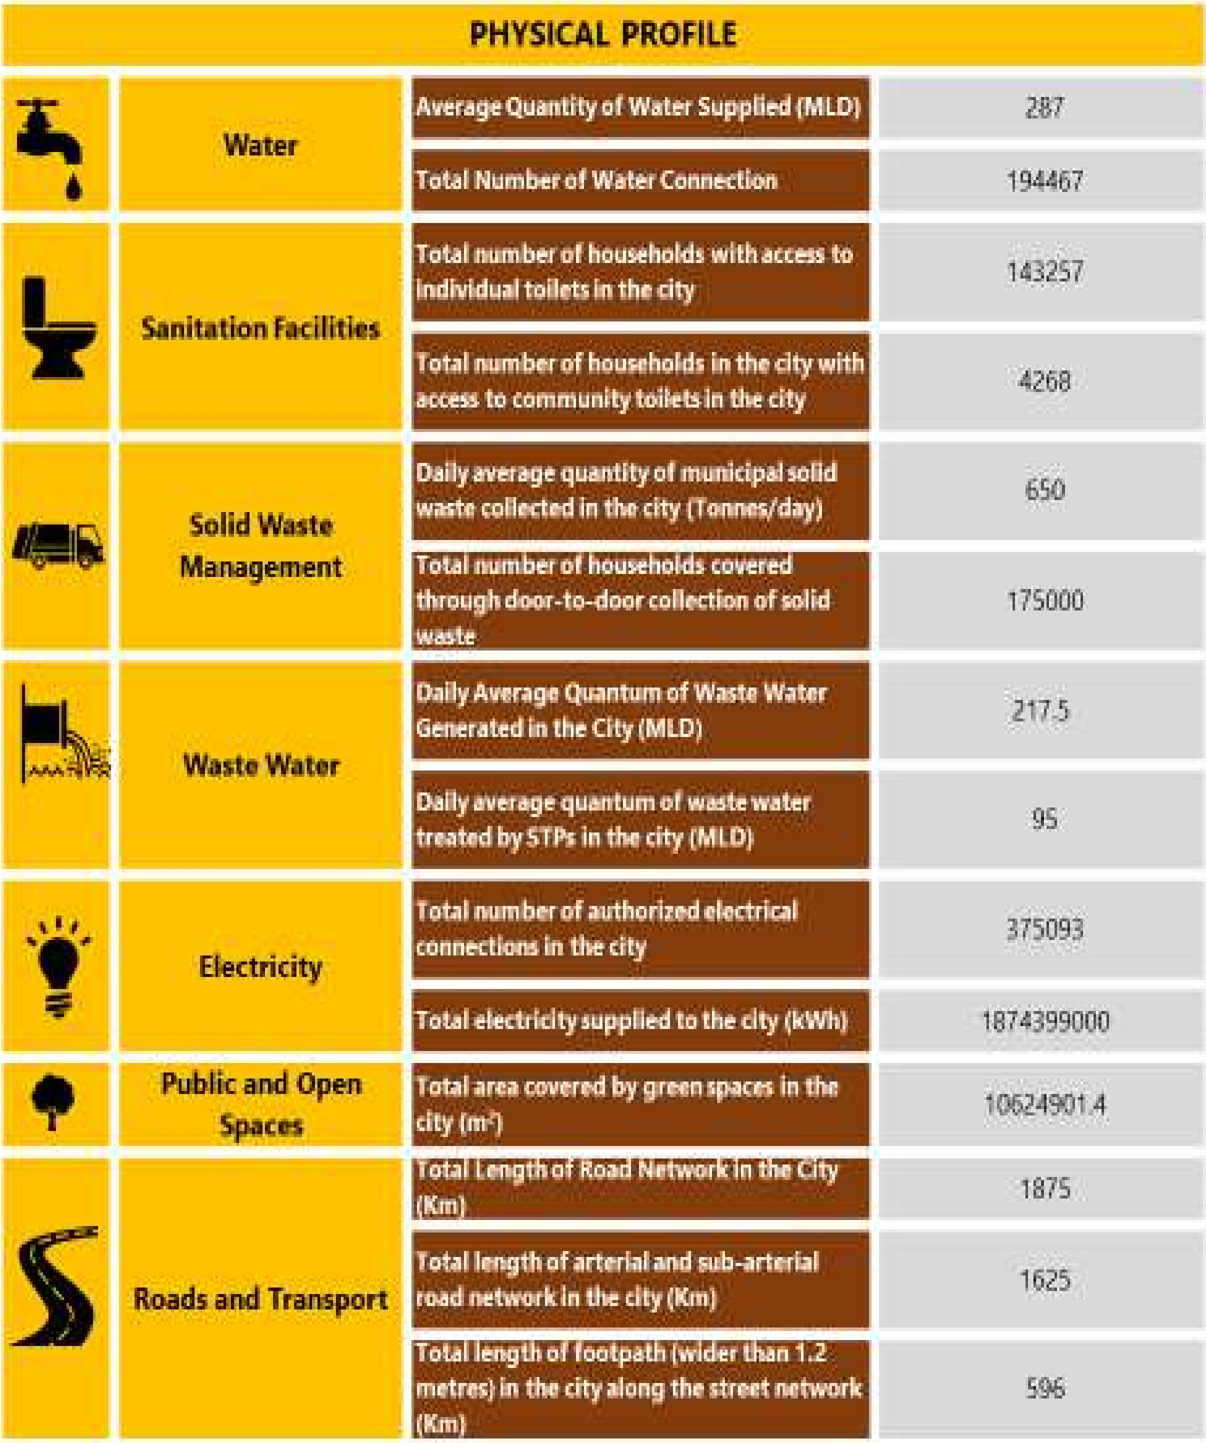
Total Population	1159227
Total Number of Households	233866

SOCIAL PROFILE

Education	Total Number of Schools	677
	Total Enrolment (Class 1 to 5)	92975
Health	Total Number of In-patient Beds	200
	Total Health Workforce	271
Safety and Security	Total Strength of Police Force	4544
	Total Number of CCTV Cameras	202
Heritage Sites	Total Number of Heritage Sites	12

ECONOMIC PROFILE

Total Population in Working Age Group	428364
Total Number of Industries	4739
Total Number of Commercial Enterprises	47742
Total Number of Hotels	520
₹ Total Capital and Revenue Expenditure for the city in FY 2016-17 (Lakhs)	30292.23
Total VAT Collection in FY 2016-17 (Lakhs)	85897.48



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	287
	Total Number of Water Connection	194467
Sanitation Facilities	Total number of households with access to individual toilets in the city	143257
	Total number of households in the city with access to community toilets in the city	4268
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	650
	Total number of households covered through door-to-door collection of solid waste	175000
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	217.5
	Daily average quantum of waste water treated by STPs in the city (MLD)	95
Electricity	Total number of authorized electrical connections in the city	375093
	Total electricity supplied to the city (kWh)	1874399000
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	10624901.4
Roads and Transport	Total Length of Road Network in the City (Km)	1875
	Total length of arterial and sub-arterial road network in the city (Km)	1625
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	596

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population

Pillars of Comprehensive Development	Category	Indicators
		enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting

Pillars of Comprehensive Development	Category	Indicators
		facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

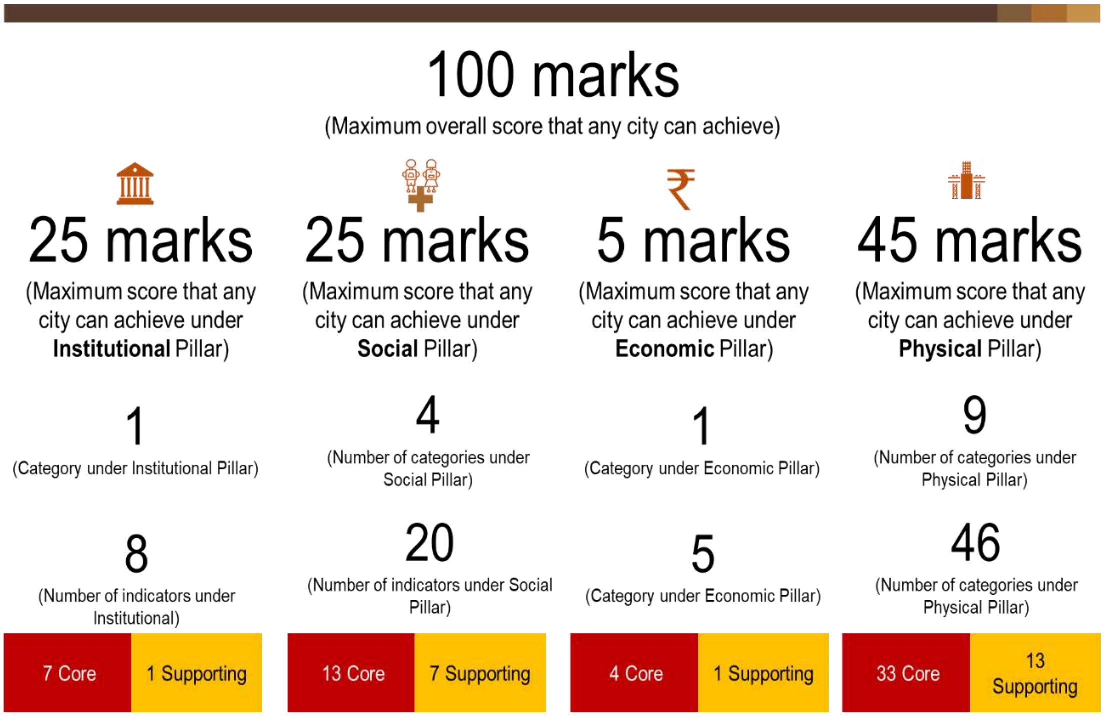
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{\text{indicator value for the city} - \text{indicator value for the worst performing city}}{\text{benchmark} - \text{indicator value for the worst performing city}}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Deputy Controller (Finance & Accounts)
Urban Local Body	For Park and Recreation Related Questions	Horticulture Department, Municipal Corporation, Amritsar.
Urban Local Body	For Water Supply and Drainage related questions	Operation & Maintenance Cell, Municipal Corporation, Amritsar.
Urban Local Body	For Heritage sites related data	1. Punjab Heritage and Tourism Promotion Board Department. 2. Civil Department, Municipal Corporation, Amritsar.
Urban Local Body	For Ecological sites related data	There are no ecological sites in Amritsar
Urban Local Body	For Housing related data	License & Census Branch, Municipal Corporation, Amritsar.
Urban Local Body	For Building plan related data	Municipal Town Planning Department, Municipal Corporation, Amritsar.
Urban Local Body	For Roads related data	Civil Department, Municipal Corporation, Amritsar.
Urban Local Body	For Solid waste management related data	Health Department, Municipal Corporation, Amritsar.
Urban Local Body	For IT services related data	IT Department, Municipal Corporation, Amritsar.
Urban Local Body	For Vendor committee related data	Estate Department, Municipal Corporation, Amritsar.
Urban Local Body	Any other departments	1. District Sports Office, Guru Nanak

Designated data owners	Subcategories	Data owners at city level
	involved in providing data for questions mentioned under Urban Local Body	Stadium, Gandhi Ground Amritsar (Stadium Related Data). 2. Property Tax Department, Municipal Corporation, Amritsar (Property Tax Related Data). 3. Employment Generation & Training Office (District Employment Exchange Related Data). 4. Public Works Development Department (Roads Related Data). 5. Amritsar Improvement Trust, Amritsar (Bicycle Track Related Data). 6. Street Light, Municipal Corporation Amritsar (Street Light Related Data) 7. Death & Birth Department, Municipal Corporation Amritsar (Online Services Birth & Death related data)
For questions under Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Punjab Pollution Control Board, Amritsar.
Development Authority	Building Infrastructure	1. Amritsar Development Authority (PUDA- Punjab Urban Development Authority), Amritsar. 2. Municipal Town Planning Department, Municipal Corporation Amritsar.
	Construction planning	1. Amritsar Development Authority (PUDA- Punjab Urban Development Authority), Amritsar. 2. Municipal Town Planning Department, Municipal Corporation Amritsar.
	Green Building	Amritsar Development Authority (PUDA- Punjab Urban Development Authority), Amritsar.
	Rain water harvesting	1. Amritsar Development Authority (PUDA- Punjab Urban Development Authority), Amritsar. 2. Municipal Town Planning Department, Municipal Corporation Amritsar.
	Universal Design Principle	Public Works Department, Amritsar.
DISCOM/Electricity	Electrical Connection/	Punjab State Power Corporation Limited

Designated data owners	Subcategories	Data owners at city level
Board	Grievance Redressal/ Power supply	
State Disaster management authority		Joint Commissioner, Municipal Corporation, Amritsar
State Education Department		1. Block Education Elementary Office (Primary), Punjab School Education Board. 2. District Education Office (Secondary), Punjab School Education Board.
State Health Department	Health care professionals	Chief Medical Office
State Health Department	Citizen Services	Chief Medical Office
State Health Department	Disease Prevalence	Chief Medical Office
State Health Department	Health Infrastructure	Indian Medical Association
State Renewable Energy Development Agency		Punjab Energy Development Authority, Zila Parishad Complex, Amritsar
State Sales / Commercial Taxes Department		Sales Tax & Excise Department, Amritsar
Town and Country Planning Department	Land Use	1. District Town Planner, Amritsar 2. Municipal Town Planner, Municipal Corporation Amritsar.
Traffic and Police Department		Traffic Police Department, Amritsar
Transport Authorities	Buses	General Manager Roadways
Transport Authorities	Registered Vehicles	Regional Transport Officer, Amritsar
Transport Authorities	Sub urban rail transport	Not exist in Amritsar city
Transport Authorities	Mono Rail Authority	Not exist in Amritsar city
Transport Authorities	Tramways	Not exist in Amritsar city
Transport Authorities	Marine Transport Authority	Not exist in Amritsar city

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 95 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	2
State Education Department	1
DISCOM/Electricity Department	8
Traffic and Police Department	3
Development Authority	3
Pollution Control Board	3
State Renewable Energy Department	2
Town and Country Planning	7
State Health Department	9
Transport Authority	0
Disaster Management	0
Urban Local Body	57
Total	95

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

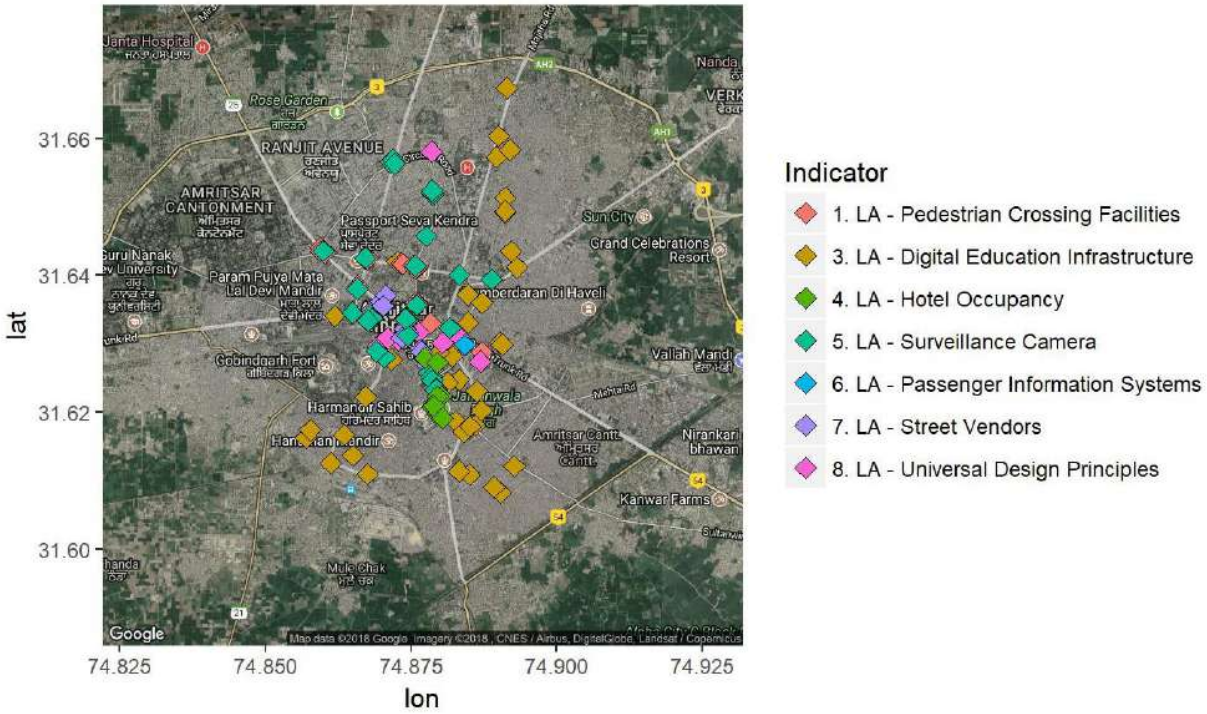
1.2 | Percentage of services integrated through Command Centre
2.3 | Hotel occupancy
3.4 | Percentage of schools with access to digital education
5.1| Number of streets, public places, junctions covered through surveillance systems
6.5 | Percentage of vendors registered and provided formal spaces
11.7 | Availability of Passenger Information System
11.11 | Percentage of traffic intersections with pedestrian crossing facilities
11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate
11.3 | Mode share of public transport
11.5 | Mode share of Non Motorized Transport
12.3 | Quality of Water Supplied
15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.



Janta Hospital
Rose Garden
RANJIT AVENUE
AMRITSAR CANTONMENT
Guru Nanak Dev University
Passport Seva Kendra
Param Pujya Mata Lal Devi Mandir
Gobindgarh Fort
Harmandir Sahib
Durgiana Mandir

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	**Indicator title**
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**48.42**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.25
	1.1b death certificate	0.25
	1.1c trade license	0
	1.1d solid waste management	1
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	1
	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	0.461538462
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.333333333
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**4.76**
Description	Services integrated through an integrated or a singular operations command centre	1
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**23.27**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	0.000187194
	1.3e property tax	NA

	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	4.67265E-06
	1.3i information	NA
	1.3j electricity	0.698053549
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**1.1**
Description		
Sub Indicators	1.4a water supply	1
	1.4b solid waste	0
	1.4c street lights	2.5
	1.4d sewerage	2
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	NA
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**70.12**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	1689.83
Denominator	Total demand raised for the year	2410
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**0.33**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	14.13
Denominator	Total O&M cost for providing water supply services during the year	4334.81
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-27.25**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-14349.67
Denominator	Total expenditure (revenue and capital accounts) in the same year	52653.48
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	85
Denominator	Total number of wards	85
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	12
Denominator	Total number of historic buildings/sites identified	12
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	NA
Denominator	Total number of ecologically important sites identified in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	NA
Denominator	Total budget of the ULB (capital and revenue)	30292.23
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**11**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	11
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**76.46**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	146289
Denominator	Total population in the age group of 6-14 years	191316
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**79.84**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	66639
Denominator	Total female population in the age group of 6-14 years	83466

Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**26.07**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	92975
Denominator	Total number of teachers available for primary grades (public and private schools)	3566
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**25.85**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	175
Denominator	Total number of schools	677
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**68.25**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	68.25105735
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**81.37**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	307713115
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**1.73**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	200
Denominator	Total population of the city	1159227
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**2.34**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	271
Denominator	Total population of the city	1159227
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**20**
Description	Total response time for health-related distress calls received in the city	20
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	186
Denominator	Total population of the city	1159227
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	184

Denominator	Total population of the city	1159227
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**10.77**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	202
Denominator	Total length of road network in the city	1875
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**302.01**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	3501
Denominator	Total population of the city	1159227
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**11.25**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	394
Denominator	Total crimes recorded in the same year	3501
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 5.4	**Transport-related fatality per lakh population**	**14.66**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	170
Denominator	Total population of the city	1159227
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**10.26**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	7991.79
Denominator	Total VAT/GST collection during preceding year	779.0569
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**8.33**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	11
Denominator	Number of construction permits during preceding year	1.32

Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	24061
Denominator	Total labour force in the city	191316
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0.62**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	100
Denominator	Total number of vendors in the city	16254
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**3.09**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	2443
Denominator	Total number of slum and EWS households in the city	789.53
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**0**

Formula:	*Numerator / Denominator*	91000000
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	**Per capita availability of green spaces**	**9.17**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	10624901.39
Denominator	Total population of the city	1159227
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	**Per capita availability of public and recreational places**	**1.19**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1377648
Denominator	Total population of the city	1159227
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**2.5**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	3475119
Denominator	Total area of the city (total area of all land uses)	139000000
Unit	Percentage	

Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.03**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1159227
Denominator	Area allocated for residential land use (in hectares)	42466581
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**121.85**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	284971
Denominator	Total number of households in the city	233866
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	375093
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**14055**

Description	Total number of sustained electrical interruptions in a year	14055
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.6**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	1071570
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	340.35
Denominator	Total energy consumption from all sources	1874399000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.31**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1593953.417
Denominator	Total quantum of water and waste water handled during the period	11460
Unit	kWh per million litres	

Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	11931712
Denominator	Total number of street light installations	66976
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	23870
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.37**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1874399000
Denominator	Total population of the city	1159227
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	NA
Denominator	Total area of the city (sq.km)	139
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	NA
Denominator	Total population of the city	1159227
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	10
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0.19**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	3.5
Denominator	Total length of road network in the city	1875
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA

Denominator	Total number of major transport interchanges in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	70
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronization**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	35
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	5
Denominator	Total available on-street parking spaces in the city	NA
Unit		

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**15.89**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	596
Denominator	Total length of road network in the city	3750
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**67.06**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	57
Denominator	Total number of junctions/ intersections on major roads in the city	85
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	0
Denominator	Total number of public right-of-way areas in the city	103
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**81.14**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	189765
Denominator	Total number of households in the city	233866

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**247.58**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	287
Denominator	Total population of the city	1159227
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	28
Denominator	Total number of samples tested for water quality	28
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**29.18**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	83.75
Denominator	Quantum of water put into the distribution system (mld)	287
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**3.36**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	6540
Denominator	Total number of water connections in the city	194467

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**188.33**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	226
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	120
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**46.96**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	157488
Denominator	Total number of properties in the city	335371
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**55.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	185274
Denominator	Total number of properties in the city	335371
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**43.68**

Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	95
Denominator	Total waste water generated in the city per day	217.5
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	NA
Denominator	Total waste water received at treatment plants per day	95
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**0.53**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	10
Denominator	Total length of road network in the city	1875
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**72.8**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	205000
Denominator	Total number of households and establishments in the city	281608
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	

Numerator	Total quantum of MSW collected by the ULB or private operator	650
Denominator	Total quantum of MSW generated in the city	650
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	19500
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**7.35**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	7.35
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**37.23**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	37.23
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**139.41**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	139.41
Unit	µg/m3	

Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	8
Denominator	Total number of noise samples	9
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT DRAFT REPORT

Ministry of Urban Development
Government of India

AURANGABAD

Table of Contents

1. Introduction 4
2. City Profile 5
3. Liveability Framework and Indicators 7
   3.1 Scoring and Computing Category Indices of Liveability 7
   3.2 Scoring and Computing Category Indices of Liveability 12
   3.3 Scoring Approach and Methodology 12
   3.4 Scoring Normalisation: 13
4. Data Collection and Verification 14
   4.1 Submission of Data by the cities 14
   4.2 Mapping of Data Owners for the Cities 14
   4.3 List of secondary documents available as supportive 17
   4.4 Data Verification 17
   4.5 Physical Audit 18
5. Indicator Values 19

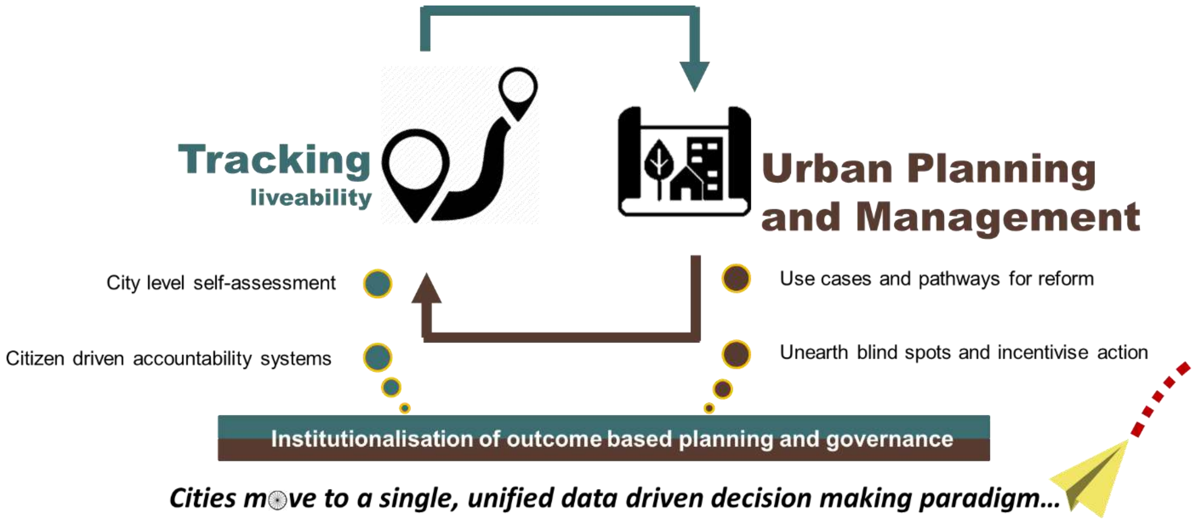
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

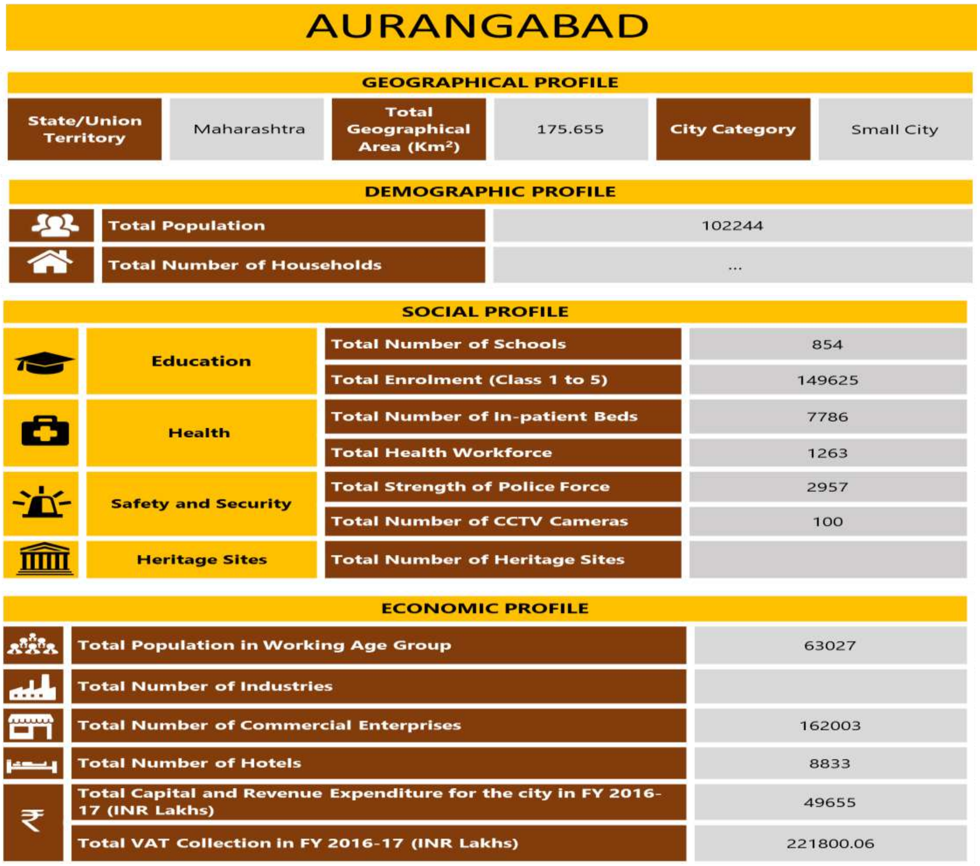


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities m◉ve to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



AURANGABAD

GEOGRAPHICAL PROFILE

State/Union Territory	Maharashtra	Total Geographical Area (Km^2)	175.655	City Category	Small City

DEMOGRAPHIC PROFILE

Total Population	102244
Total Number of Households	...

SOCIAL PROFILE

Education	Total Number of Schools	854
	Total Enrolment (Class 1 to 5)	149625
Health	Total Number of In-patient Beds	7786
	Total Health Workforce	1263
Safety and Security	Total Strength of Police Force	2957
	Total Number of CCTV Cameras	100
Heritage Sites	Total Number of Heritage Sites	

ECONOMIC PROFILE

Total Population in Working Age Group	63027
Total Number of Industries	
Total Number of Commercial Enterprises	162003
Total Number of Hotels	8833
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	49655
Total VAT Collection in FY 2016-17 (INR Lakhs)	221800.06

PHYSICAL PROFILE			
	Water	**Average Quantity of Water Supplied (MLD)**	113
		Total Number of Water Connections	...
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	...
		Total number of households in the city with access to community toilets in the city	...
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	...
		Total number of households covered through door-to-door collection of solid waste	...
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	103
		Daily average quantum of waste water treated by STPs in the city (MLD)	72
	Electricity	**Total number of authorized electrical connections in the city**	294882
		Total electricity supplied to the city (kWh)	2321520000
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	
	Roads and Transport	**Total Length of Road Network in the City (Km)**	1579.74
		Total length of arterial and sub-arterial road network in the city (Km)	1175.17
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	43.42

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Catego

ries and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education

Pillars of Comprehensive Development	Category	Indicators
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use	9.1 Share of mixed land use area in overall city land use

Pillars of Comprehensive Development	Category	Indicators
	and Compactness	9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces

Pillars of Comprehensive Development	Category	Indicators
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution

Pillars of Comprehensive Development	Category	Indicators
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

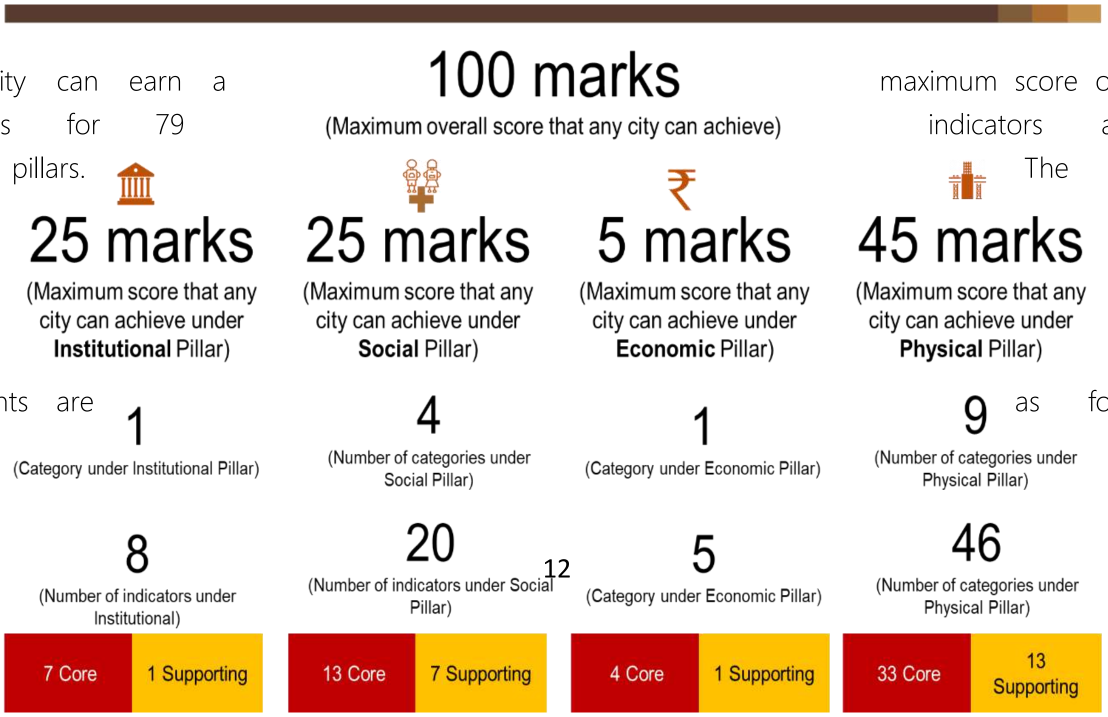
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows:



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark -\ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account Department, Aurangabad Municipal

Designated data owners	Subcategories	Data owners at city level
		corporation
Urban Local Body	For Park and Recreation Related Questions	Garden Department, Aurangabad Municipal corporation
Urban Local Body	For Water Supply and Drainage related questions	Water Supply Department, Aurangabad Municipal corporation
Urban Local Body	For Heritage sites related data	Town Planning Department, Aurangabad Municipal corporation
Urban Local Body	For Ecological sites related data	Aurangabad Municipal corporation
Urban Local Body	For Housing related data	Housing Section, Aurangabad Municipal Corporation
Urban Local Body	For Building plan related data	Town Planning Department, Aurangabad Municipal Corporation
Urban Local Body	For Roads related data	Town Planning Department, Aurangabad Municipal Corporation
Urban Local Body	For Solid waste management related data	Solid Waste Management Department, Aurangabad Municipal Corporation
Urban Local Body	For IT services related data	IT Department, Aurangabad Municipal Corporation
Urban Local Body	For Vendor committee related data	Vendor Committee, Aurangabad Municipal Corporation
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Maharashtra Pollution Control Board
Development Authority	Building Infrastructure	Town Planning Department, Aurangabad Municipal Corporation
	Construction planning	Town Planning Department, Aurangabad Municipal

Designated data owners	Subcategories	Data owners at city level
		Corporation
	Green Building	Town Planning Department, Aurangabad Municipal Corporation
	Rain water harvesting	Town Planning Department, Aurangabad Municipal Corporation
	Universal Design Principle	Town Planning Department, Aurangabad Municipal Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Maharashtra State Electricity Development Corporation DISCOM, Aurangabad
State Disaster management authority		Disaster management Department, Aunganbad
State Education Department		District Education Department Education Department, AMC
State Health Department	Health care professionals	Health Department, AMC
	Citizen Services	Health Department, AMC
	Disease Prevalence	Health Department, AMC
	Health Infrastructure	Health Department, AMC
State Renewable Energy Development Agency		Maharashtra Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Sales Taxes department, Aurangabad
Town and Country Planning Department	Land Use	Town Planning Department, Aurangabad Municipal Corporation
Traffic and Police Department		Commissioner of Police Office, Aurangabad
Transport Authorities	Buses	Road and Transport Office
	Registered Vehicles	Maharashtra State Transport department
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 136 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	8
DISCOM/Electricity Department	7
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	9
State Renewable Energy Department	0
Town and Country Planning	1
State Health Department	5
Transport Authority	7
Disaster Management	1
Urban Local Body	97
Total	136*

* The count of documents is based on first round of submission.

Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team

to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.4 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**29.09**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.25
	1.1b death certificate	0.25
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	0
	1.1j information	0.615384615
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**4.76**
Description	Services integrated through an integrated or a singular operations command centre	1
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**1.16**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA

	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.011560556
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**NC**
Description		
Sub Indicators	1.4a water supply	NA
	1.4b solid waste	NA
	1.4c street lights	NA
	1.4d sewerage	NA
	1.4e professional tax	0
	1.4f parks and recreational spaces	NA
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**95**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	95
Denominator	Total demand raised for the year	100
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	Data Unavailable

Denominator	Total O&M cost for providing water supply services during the year	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**16.71**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	16944
Denominator	Total expenditure (revenue and capital accounts) in the same year	101403
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**7.83**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	9
Denominator	Total number of wards	115
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	2
Denominator	Total number of historic buildings/sites identified	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	Data Unavailable
Denominator	Total number of ecologically important sites identified in the city	Data

		Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**72**
Description	Average Occupancy rate of Hotels	72
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.15**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	76
Denominator	Total budget of the ULB (capital and revenue)	49655
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**9**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	9
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**938.85**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	234947
Denominator	Total population in the age group of 6-14 years	25025
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**907.92**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	107797

Denominator	Total female population in the age group of 6-14 years	11873
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**37**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	149625
Denominator	Total number of teachers available for primary grades (public and private schools)	4044
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**23.65**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	202
Denominator	Total number of schools	854
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**109.01**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	109.0133246
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**96.81**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	789503052
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**761.51**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	7786

Denominator	Total population of the city	102244
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**123.53**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	1263
Denominator	Total population of the city	102244
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**0**
Description	Total response time for health-related distress calls received in the city	0
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**3.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	3755
Denominator	Total population of the city	102244
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.06**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	59
Denominator	Total population of the city	102244
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**6.33**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	100

Denominator	Total length of road network in the city	1579.74
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**4780.72**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	4888
Denominator	Total population of the city	102244
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**21.17**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1035
Denominator	Total crimes recorded in the same year	4888
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**145.73**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	149
Denominator	Total population of the city	102244
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**-0.89**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-1986.3518
Denominator	Total VAT/GST collection during preceding year	2237.864118
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated	

	as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**-3.06**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-3
Denominator	Total Professional Tax collection during preceding year	98
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**6.63**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	75
Denominator	Number of construction permits during preceding year	11.32
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	25025
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	625.625
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	Data Unavailable
Denominator	Total number of slum and EWS households in the city	700.79
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**Data Unavailable**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	Data Unavailable
Denominator	Total population of the city	102244
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**8.01**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	819102
Denominator	Total population of the city	102244
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total area under mixed land use	0
Denominator	Total area of the city (total area of all land uses)	175655000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	102244
Denominator	Area allocated for residential land use (in hectares)	0
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	254138
Denominator	Total number of households in the city	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	861
Denominator	Total number of electricity connections in the city	294882
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**6974**
Description	Total number of sustained electrical interruptions in a year	6974

Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.68**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	74286
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	80
Denominator	Total energy consumption from all sources	2321520000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	5550
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	61034
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings	**0**

	following green building norms	
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	641933.13
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	2321520000
Denominator	Total population of the city	102244
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.58**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	6318
Denominator	Total area of the city (sq.km)	175.655
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	28
Denominator	Total population of the city	102244
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle	**Non-**

	tracks	**Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	Data Unavailable
Denominator	Total length of road network in the city	1579.74
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**1**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	Data Unavailable
Denominator	Total number of signalised intersections in the city	50
Unit	Percentage	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1175.17
Denominator	Total available on-street parking spaces in the city	Data Unavailable
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**1.37**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	43.42
Denominator	Total length of road network in the city	3159.48
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**36.76**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	25
Denominator	Total number of junctions/ intersections on major roads in the city	68
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**2.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	2
Denominator	Total number of public right-of-way areas in the city	75
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	Data

		Unavailable
Denominator	Total number of households in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**1105.2**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	113
Denominator	Total population of the city	102244
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	Data Unavailable
Denominator	Total number of samples tested for water quality	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	113
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	Data Unavailable
Denominator	Total number of water connections in the city	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	4
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	0
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**9.58**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	21067
Denominator	Total number of properties in the city	219996
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	Data Unavailable
Denominator	Total number of properties in the city	219996
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**69.9**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	72
Denominator	Total waste water generated in the city per day	103
Unit	Percentage	
Benchmark	100%	

Indicator No: 13.4	Extent of reuse and recycling of waste water	**108.33**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	78
Denominator	Total waste water received at treatment plants per day	72
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	Data Unavailable
Denominator	Total length of road network in the city	1579.74
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	Data Unavailable
Denominator	Total number of households and establishments in the city	162003
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	Data Unavailable
Denominator	Total quantum of MSW generated in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or	Data

	recycled (tons per month)	Unavailable
Denominator	Average MSW generated in the city (tons per month)	Data Unavailable
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**10.06**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	10.06
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**32.57**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	32.57
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**83.17**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	83.17
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	46
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	Data Unavailable
Denominator	Total number of samples tested	Data Unavailable
Unit	Percentage	
Benchmark	100%

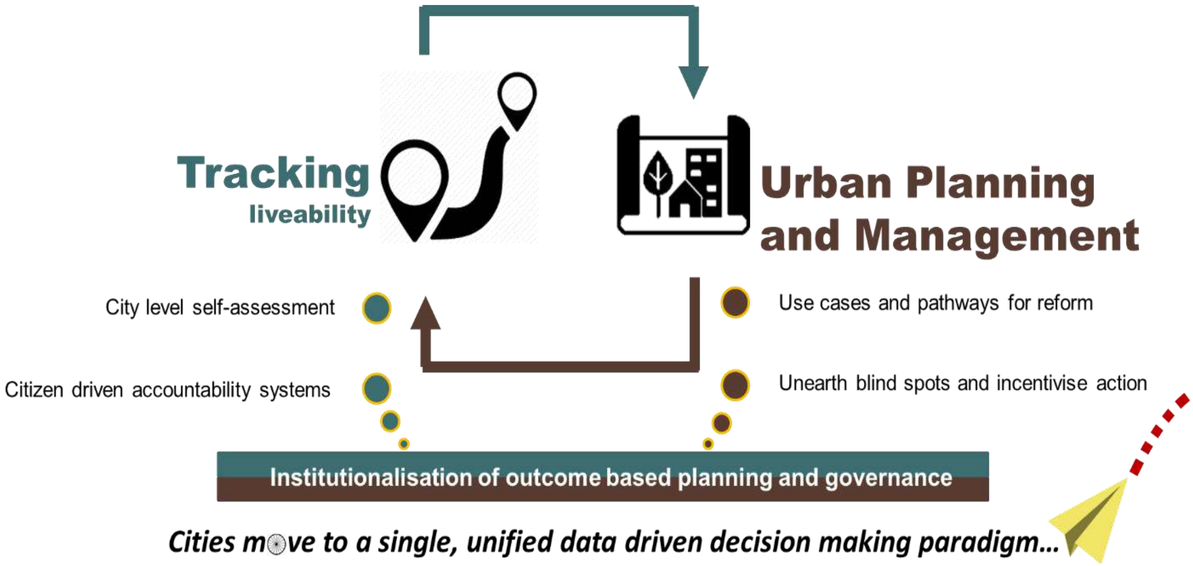
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

BAREILLY

GEOGRAPHICAL PROFILE

State/Union Territory	Uttar Pradesh	**Total Geographical Area (Km^2)**	106.43	**City Category**	Large City

DEMOGRAPHIC PROFILE

Total Population	904797
Total Number of Households	144034

SOCIAL PROFILE

Education	**Total Number of Schools**	547
	Total Enrolment (Class 1 to 5)	...
Health	**Total Number of In-patient Beds**	11283
	Total Health Workforce	2952
Safety and Security	**Total Strength of Police Force**	762
	Total Number of CCTV Cameras	71
Heritage Sites	**Total Number of Heritage Sites**	1

ECONOMIC PROFILE

Total Population in Working Age Group	509
Total Number of Industries	605
Total Number of Commercial Enterprises	10788
Total Number of Hotels	68
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	20692.18
Total VAT Collection in FY 2016-17 (INR Lakhs)	58390.45

PHYSICAL PROFILE

Water	**Average Quantity of Water Supplied (MLD)**	146
	Total Number of Water Connection	97430
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	102268
	Total number of households in the city with access to community toilets in the city	207
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	3936.8
	Total number of households covered through door-to-door collection of solid waste	
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	146
	Daily average quantum of waste water treated by STPs in the city (MLD)	
Electricity	**Total number of authorized electrical connections in the city**	178341
	Total electricity supplied to the city (kWh)	15960000
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	446319.36
Roads and Transport	**Total Length of Road Network in the City (Km)**	1162.93
	Total length of arterial and sub-arterial road network in the city (Km)	1162.93
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	7.95

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per

Pillars of Comprehensive Development	Category	Indicators
		10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year

Pillars of Comprehensive Development	Category	Indicators
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters

Pillars of Comprehensive Development	Category	Indicators
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3: Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department Nagar Nigam Bareilly
Urban Local Body	For Park and Recreation Related Questions	Udhyan Vibhag Nagar Nigam Bareilly
Urban Local Body	For Water Supply and Drainage related questions	Jal Nigam/ Jalkal Vibhag Nagar Nigam Bareilly
Urban Local Body	For Heritage sites related data	Archeological survey of India
Urban Local Body	For Ecological sites related data	Forrest department
Urban Local Body	For Housing related data	Bareilly Development Authority / Nirmaan Vibhag Nagar Nigam Bareilly
Urban Local Body	For Building plan related data	Bareilly Development Authority
Urban Local Body	For Roads related data	Public Works Department / Nirmaan Vibhag Nagar Nigam Bareilly
Urban Local Body	For Solid waste management related data	Health Department Nagar Nigam Bareilly

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For IT services related data	Computer department of ulb
Urban Local Body	For Vendor committee related data	District Urban Development Agency Bareilly
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Public Works Department, Bareilly Development Authority, District Urban Development Agency Bareilly, Employment Office Bareilly, Uttar Pradesh State Transport Bareilly
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Uttar Pradesh Pollution Control Board Bareilly
Development Authority	Building Infrastructure	Bareilly Development Authority
	Construction planning	Bareilly Development Authority
	Green Building	Bareilly Development Authority
	Rain water harvesting	Bareilly Development Authority
	Universal Design Principle	Bareilly Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Uttar Pradesh Electricity Board Bareilly
State Disaster management authority		Central\state disaster management authority
State Education Department		Basic Education Department Bareilly
State Health Department	Health care professionals	District Hospital Bareilly
	Citizen Services	District Hospital Bareilly
	Disease Prevalence	District Hospital Bareilly
	Health Infrastructure	District Hospital Bareilly
State Renewable Energy Development Agency		UP NEDA Bareilly
State Sales / Commercial Taxes Department		Commercial tax department Bareilly
Town and Country Planning Department	Land Use	Town and Country Planning Department Bareilly
Traffic and Police Department		Police Department (civil, Traffic ,GRP)
Transport Authorities	Buses	Uttar Pradesh State Transport Bareilly
	Registered Vehicles	Regional Transport Office Bareilly
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 45 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	1
DISCOM/Electricity Department	1
Traffic and Police Department	2
Development Authority	0
Pollution Control Board	4
State Renewable Energy Department	1
Town and Country Planning	1
State Health Department	11
Transport Authority	2
Disaster Management	2
Urban Local Body	19
Total	45*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**61.54**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	0
	1.1d solid waste management	1
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**13.13**
Description		

Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	0.003558533
	1.3c water supply	0
	1.3d solid waste management	0
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.521467301
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**2**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	NA
	1.4c street lights	6
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	4
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**88.11**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	3820.07
Denominator	Total demand raised for the year	4335.68
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**1181**
Formula:	*Numerator / Denominator*	

Numerator	Total collection of user charges in water supply in a year	1181
Denominator	Total O&M cost for providing water supply services during the year	100
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-4.27**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-2011.652
Denominator	Total expenditure (revenue and capital accounts) in the same year	47160.018
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	80
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	Data Unavailable
Denominator	Total number of historic buildings/sites identified	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**0**
Description	Average Occupancy rate of Hotels	0
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	10.45
Denominator	Total budget of the ULB (capital and revenue)	20692.18
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**0**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	0
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	Data Unavailable
Denominator	Total population in the age group of 6-14 years	185947
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	Data Unavailable
Denominator	Total female population in the age group of 6-14 years	86882
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	Data Unavailable
Denominator	Total number of teachers available for primary grades (public and private schools)	Data Unavailable
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources	0

	such as NKN)	
Denominator	Total number of schools	547
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**Non-Computable**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**124.7**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	11283
Denominator	Total population of the city	904797
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**32.63**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	2952
Denominator	Total population of the city	904797
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**22**
Description	Total response time for health-related distress calls received in the city	22

Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**2.4**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	21715
Denominator	Total population of the city	904797
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	37
Denominator	Total population of the city	904797
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**6.11**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	71
Denominator	Total length of road network in the city	1162.93
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**811.23**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	7340
Denominator	Total population of the city	904797
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**7.81**
Formula:	*Numerator / Denominator*	

Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	573
Denominator	Total crimes recorded in the same year	7340
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**26.86**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	243
Denominator	Total population of the city	904797
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**9.9**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	5262.01
Denominator	Total VAT/GST collection during preceding year	531.2844
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**8.51**
Formula:	*Numerator / Denominator*	

Numerator	(Number of permits issued during the year – Number of permits during preceding year)	8
Denominator	Number of construction permits during preceding year	0.94
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	27878
Denominator	Total labour force in the city	185947
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	6200
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**25.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	10795
Denominator	Total number of slum and EWS households in the city	427.46
Unit	Percentage	

Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.49**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	446319.3663
Denominator	Total population of the city	904797
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.59**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	538269.3663
Denominator	Total population of the city	904797
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	0
Denominator	Total area of the city (total area of all land uses)	106430000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	904797

Denominator	Area allocated for residential land use (in hectares)	69001500
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**11.28**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	16254
Denominator	Total number of households in the city	144034
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	178341
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**367**
Description	Total number of sustained electrical interruptions in a year	367
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	747
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as	

	a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	193
Denominator	Total energy consumption from all sources	15960000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	917.25
Denominator	Total quantum of water and waste water handled during the period	4380
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	34008
Denominator	Total number of street light installations	23669
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	3163
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	1
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	15960000

Denominator	Total population of the city	904797
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.25**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	40
Denominator	Total area of the city (sq.km)	106.43
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	NA
Denominator	Total population of the city	904797
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	1162.93
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA
Denominator	Total number of major transport interchanges in the city	NA

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2
Denominator	Total number of major interchanges in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	6
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1
Denominator	Total available on-street parking spaces in the city	1
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	7.95
Denominator	Total length of road network in the city	2325.86
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**183.33**

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	11
Denominator	Total number of junctions/ intersections on major roads in the city	6
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	0
Denominator	Total number of public right-of-way areas in the city	563
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**48.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	69204
Denominator	Total number of households in the city	144034
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**161.36**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	146
Denominator	Total population of the city	904797
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	3315
Denominator	Total number of samples tested for water quality	3397
Unit	Percentage	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**27.4**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	40
Denominator	Quantum of water put into the distribution system (mld)	146
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	97430
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**7.23**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	6
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	83
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**74.47**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	107256
Denominator	Total number of properties in the city	144034
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**157.3**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	226559
Denominator	Total number of properties in the city	144034

Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	0
Denominator	Total waste water generated in the city per day	146
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**41.45**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	482
Denominator	Total length of road network in the city	1162.93
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	Data Unavailable
Denominator	Total number of households and establishments in the city	154822
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	3936.8
Denominator	Total quantum of MSW generated in the city	3936.8
Unit	Percentage	

Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**0**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	0
Denominator	Average MSW generated in the city (tons per month)	118104
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**12.39**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	12.39
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**22.73**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	22.73
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**182.42**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	182.42
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	4
Denominator	Total number of noise samples	4
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	

Numerator	Number of tested samples meeting prescribed standards	112
Denominator	Total number of samples tested	112
Unit	Percentage	
Benchmark	100%

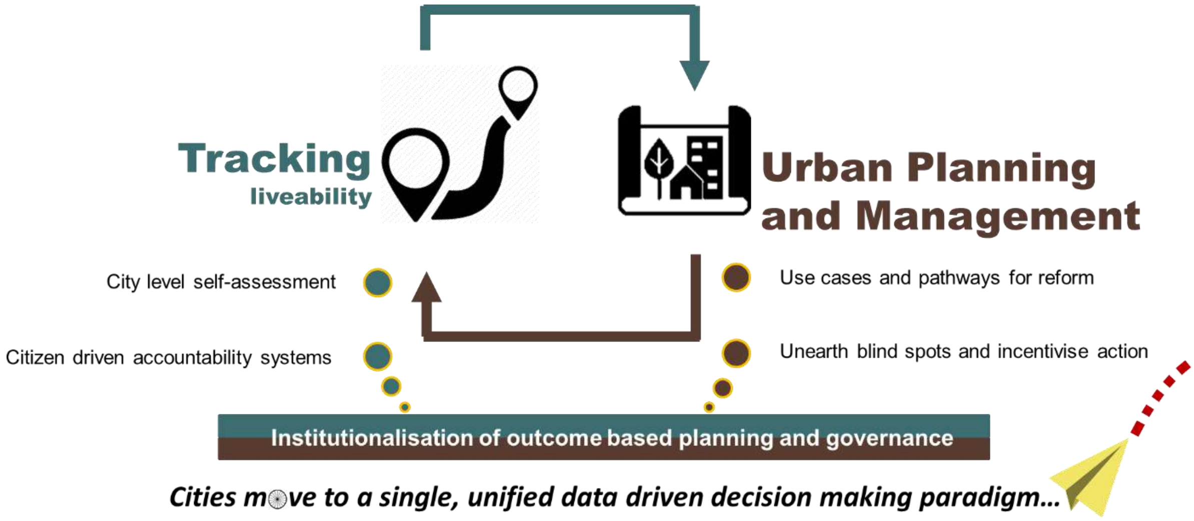
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



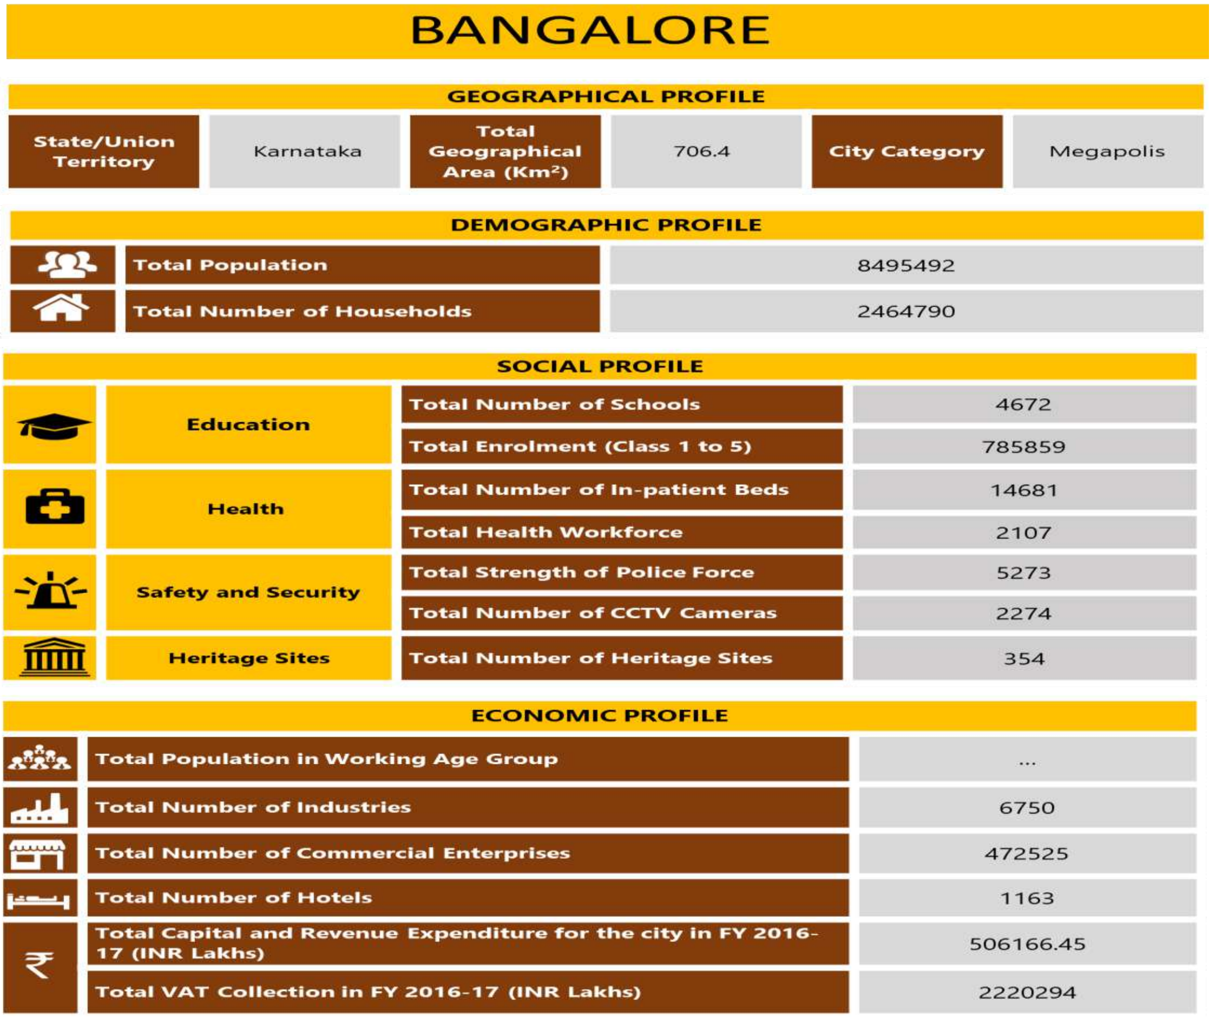
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BANGALORE

GEOGRAPHICAL PROFILE

State/Union Territory	Karnataka	**Total Geographical Area (Km²)**	706.4	**City Category**	Megapolis

DEMOGRAPHIC PROFILE

Total Population	8495492
Total Number of Households	2464790

SOCIAL PROFILE

Education	**Total Number of Schools**	4672
	Total Enrolment (Class 1 to 5)	785859
Health	**Total Number of In-patient Beds**	14681
	Total Health Workforce	2107
Safety and Security	**Total Strength of Police Force**	5273
	Total Number of CCTV Cameras	2274
Heritage Sites	**Total Number of Heritage Sites**	354

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	6750
Total Number of Commercial Enterprises	472525
Total Number of Hotels	1163
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	506166.45
Total VAT Collection in FY 2016-17 (INR Lakhs)	2220294

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	1366.4
	Total Number of Water Connections	903136
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	951612
	Total number of households in the city with access to community toilets in the city	…
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	5383.8
	Total number of households covered through door-to-door collection of solid waste	2426700
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	1440
	Daily average quantum of waste water treated by STPs in the city (MLD)	721
Electricity	**Total number of authorized electrical connections in the city**	4940166
	Total electricity supplied to the city (kWh)	13133.16
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	100020000
Roads and Transport	**Total Length of Road Network in the City (Km)**	13500
	Total length of arterial and sub-arterial road network in the city (Km)	1400
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	895

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary

Pillars of Comprehensive Development	Category	Indicators
		education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

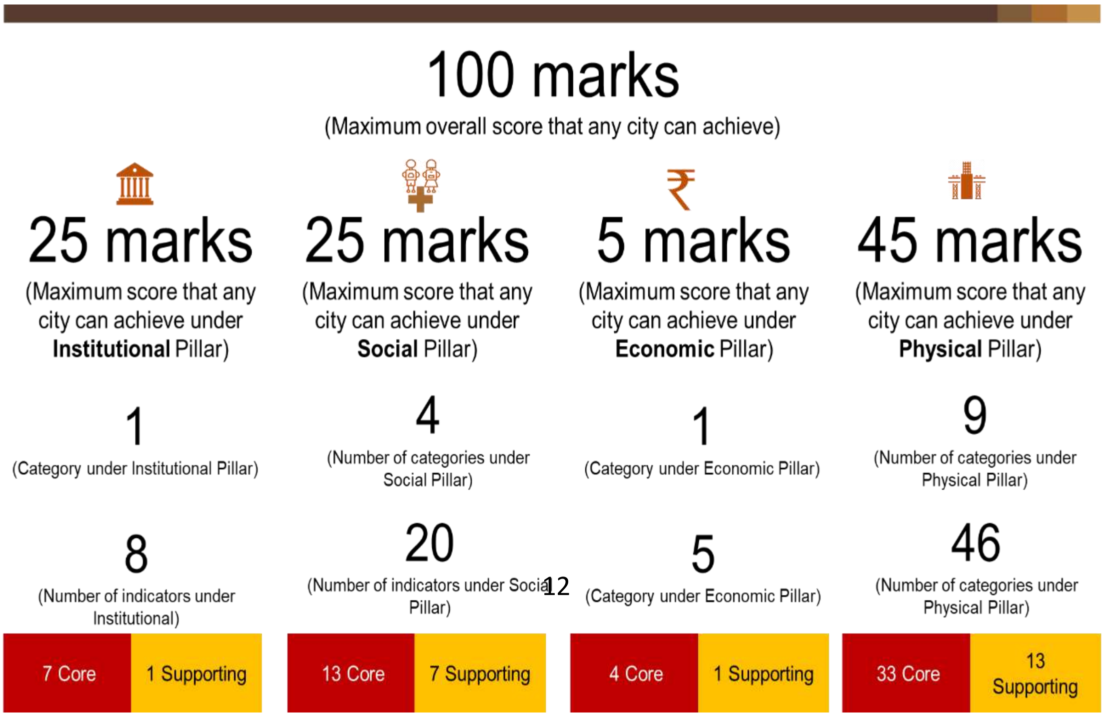
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core · 1 Supporting	13 Core · 7 Supporting	4 Core · 1 Supporting	33 Core · 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring..

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken

down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Park and Recreation Related Questions	Town Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Water Supply and Drainage related questions	Engineering Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Heritage sites related data	Town Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Ecological sites related data	Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Housing related data	Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Building plan related data	Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Roads related data	Engineering Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Solid waste	Solid waste management, Bruhath

Designated data owners	Subcategories	Data owners at city level
	management related data	Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For IT services related data	IT Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	For Vendor committee related data	Bruhath Bengaluru Mahanagara Palike (BBMP)
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Commercial Tax Department (Professional Tax related queries), Education Department (Population of age group between 6-14), Revenue Department, Bangalore Development Authority, Health Department, Pollution Department, Bangalore Water Supply & Sewerage Board, Police Department (BWSSB), Transport & Railway Department, Karnataka Slum Development Board (KSDB), Bangalore Electricity Supply Company Limited (BESCOM).
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board
Development Authority	Building Infrastructure	Bangalore Development Authority (BDA) Bruhath Bengaluru Mahanagara Palike (BBMP)
	Construction planning	Town Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
	Green Building	Town Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
	Rain water harvesting	Town Planning Department, Bruhath Bengaluru Mahanagara Palike (BBMP)
	Universal Design Principle	Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Bangalore Electricity Supply Company Limited (BESCOM)
State Disaster management authority		Revenue Department (Disaster management & Services)
State Education Department		Deputy Director of Public Instructions, Bangalore
State Health Department	Health care professionals	District Health & Family Welfare Department, Bangalore
	Citizen Services	District Health & Family Welfare Department
	Disease Prevalence	District Health & Family Welfare Department

Designated data owners	Subcategories	Data owners at city level
	Health Infrastructure	District Health & Family Welfare Department
State Renewable Energy Development Agency	Renewable Energy	Bangalore Electricity Supply Company Limited (BESCOM)
State Sales / Commercial Taxes Department		Commercial Taxes Department
Town and Country Planning Department	Land Use	Bengaluru Development Authority
Traffic and Police Department		Police Commissioner's Office, Bengaluru
Transport Authorities	Buses	Regional Transport Officer Office
	Registered Vehicles	Regional Transport Officer Office
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 31 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	2
State Education Department	1
DISCOM/Electricity Department	1
Traffic and Police Department	1
Development Authority	1
Pollution Control Board	0
State Renewable Energy Department	2
Town and Country Planning	1
State Health Department	1
Transport Authority	5
Disaster Management	1

Urban Local Body	15
Total	31*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5 Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**76.48**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	0.25
	1.1e water supply	1
	1.1f sewerage/drainage	1
	1.1g fogging	0

	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	0.692307692
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**0.53**
Description		
Sub Indicators	1.3a Building plan	0.022813671
	1.3b Birth/Death Certificate	0.000252193
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	0.000965316
	1.3i information	0.000965218
	1.3j electricity	0.001370703
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.29**
Description		
Sub Indicators	1.4a water supply	0

	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	2
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**102.53**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	235826
Denominator	Total demand raised for the year	230000
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**137.78**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	115139.66
Denominator	Total O&M cost for providing water supply services during the year	83568.5
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**32.26**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	280421.84
Denominator	Total expenditure (revenue and capital accounts) in the same year	869123.58
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	198
Denominator	Total number of wards	198

Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	Data Unavailable
Denominator	Total number of historic buildings/sites identified	354
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**80**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	32
Denominator	Total number of ecologically important sites identified in the city	40
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	1359.08
Denominator	Total budget of the ULB (capital and revenue)	506166.45
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the	

	benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**5**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	5
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**92.7**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	1180337
Denominator	Total population in the age group of 6-14 years	1273353
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**91.74**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	566852
Denominator	Total female population in the age group of 6-14 years	617883
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**41.08**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	785859
Denominator	Total number of teachers available for primary grades (public and private schools)	19128
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**39.55**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	1848
Denominator	Total number of schools	4672
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.5	Percentage of students completing primary education	**102.61**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	102.6143151
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**98.97**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	16587129284
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**17.28**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	14681
Denominator	Total population of the city	8495492
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**2.48**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	2107
Denominator	Total population of the city	8495492
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**14**
Description	Total response time for health-related distress calls received in the city	14
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**1.4**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	119305
Denominator	Total population of the city	8495492

Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.09**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	7913
Denominator	Total population of the city	8495492
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**16.84**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	2274
Denominator	Total length of road network in the city	13500
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**127.83**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	10860
Denominator	Total population of the city	8495492
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**30.64**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	3327
Denominator	Total crimes recorded in the same year	10860
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 5.4	Transport-related fatality per lakh population	**13.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	1161
Denominator	Total population of the city	8495492
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**-1.51**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-33961
Denominator	Total VAT/GST collection during preceding year	22542.55
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**9.62**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	5559
Denominator	Total Professional Tax collection during preceding year	57813
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**11.11**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	9
Denominator	Number of construction permits during preceding year	0.81
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of unemployed persons (seeking or available for work)	88286
Denominator	Total labour force in the city	1273353
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	31833.825
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**4.04**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	15403
Denominator	Total number of slum and EWS households in the city	3810.03
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**11.77**
Formula:	*Numerator / Denominator*	

Numerator	Total area of green space (sq.m.)	100020000
Denominator	Total population of the city	8495492
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.17**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1410581.29
Denominator	Total population of the city	8495492
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**30.68**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	216700000
Denominator	Total area of the city (total area of all land uses)	706400000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.03**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	8495492
Denominator	Area allocated for residential land use (in hectares)	338410000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**169.55**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	4179034

Denominator	Total number of households in the city	2464790
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	4940166
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**115112**
Description	Total number of sustained electrical interruptions in a year	115112
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.75**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	51814
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0.15**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	8201.06
Denominator	Total energy consumption from all sources	457069.5
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0

Denominator	Total quantum of water and waste water handled during the period	62622
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	240000425
Denominator	Total number of street light installations	485751
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	2703693.791
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	457069.5
Denominator	Total population of the city	8495492
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	55860.19
Denominator	Total area of the city (sq.km)	706.4
Unit	Transport length (kms) per square km	
Benchmark	>=1	

Indicator No: 11.2	Availability of public transport	**1.27**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	10810
Denominator	Total population of the city	8495492
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	53.47
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	13500
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**61.81**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	89
Denominator	Total number of major transport interchanges in the city	144
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	0.097
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0.29**
Formula:	Numerator / Denominator	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Total number of major interchanges with PIS	42
Denominator	Total number of major interchanges in the city	144
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**8.75**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	35
Denominator	Total number of signalised intersections in the city	400
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	3330
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**3.31**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	895
Denominator	Total length of road network in the city	27000
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**116.86**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	409
Denominator	Total number of junctions/ intersections on major roads in the city	350
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	0

Denominator	Total number of public right-of-way areas in the city	935
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**33.61**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	828512
Denominator	Total number of households in the city	2464790
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**160.84**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	1366.4
Denominator	Total population of the city	8495492
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	28751
Denominator	Total number of samples tested for water quality	29138
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	1366.4
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**100**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of metered water connections	903136
Denominator	Total number of water connections in the city	903136
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	92
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	92
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**64.37**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	1008068
Denominator	Total number of properties in the city	1565947
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**60.77**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	951612
Denominator	Total number of properties in the city	1565947
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	1440
Denominator	Total waste water generated in the city per day	1440
Unit	Percentage	

Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	721
Denominator	Total waste water received at treatment plants per day	721
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	Data Unavailable
Denominator	Total length of road network in the city	13500
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**98.7**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	2899225
Denominator	Total number of households and establishments in the city	2937315
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**93.5**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	5383.8
Denominator	Total quantum of MSW generated in the city	5758.17
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**21.99**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	35510.5
Denominator	Average MSW generated in the city (tons per month)	161514
Unit	Percentage	

Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**2.3**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	2.3
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**30.8**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	30.8
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**83.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	83.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	1051200
Denominator	Total number of noise samples	5256000
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	21
Denominator	Total number of samples tested	21
Unit	Percentage	
Benchmark	100%

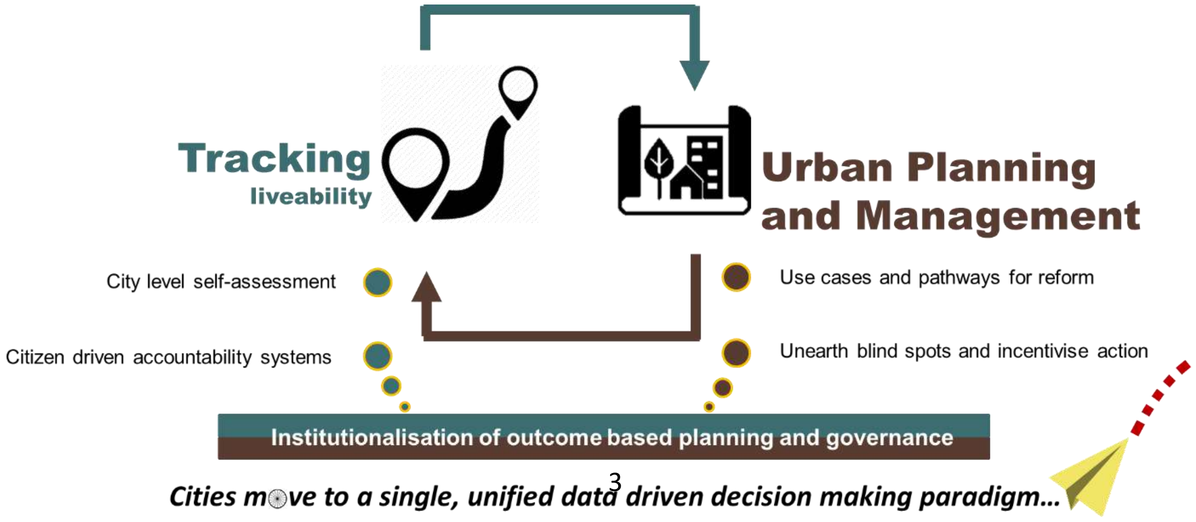
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



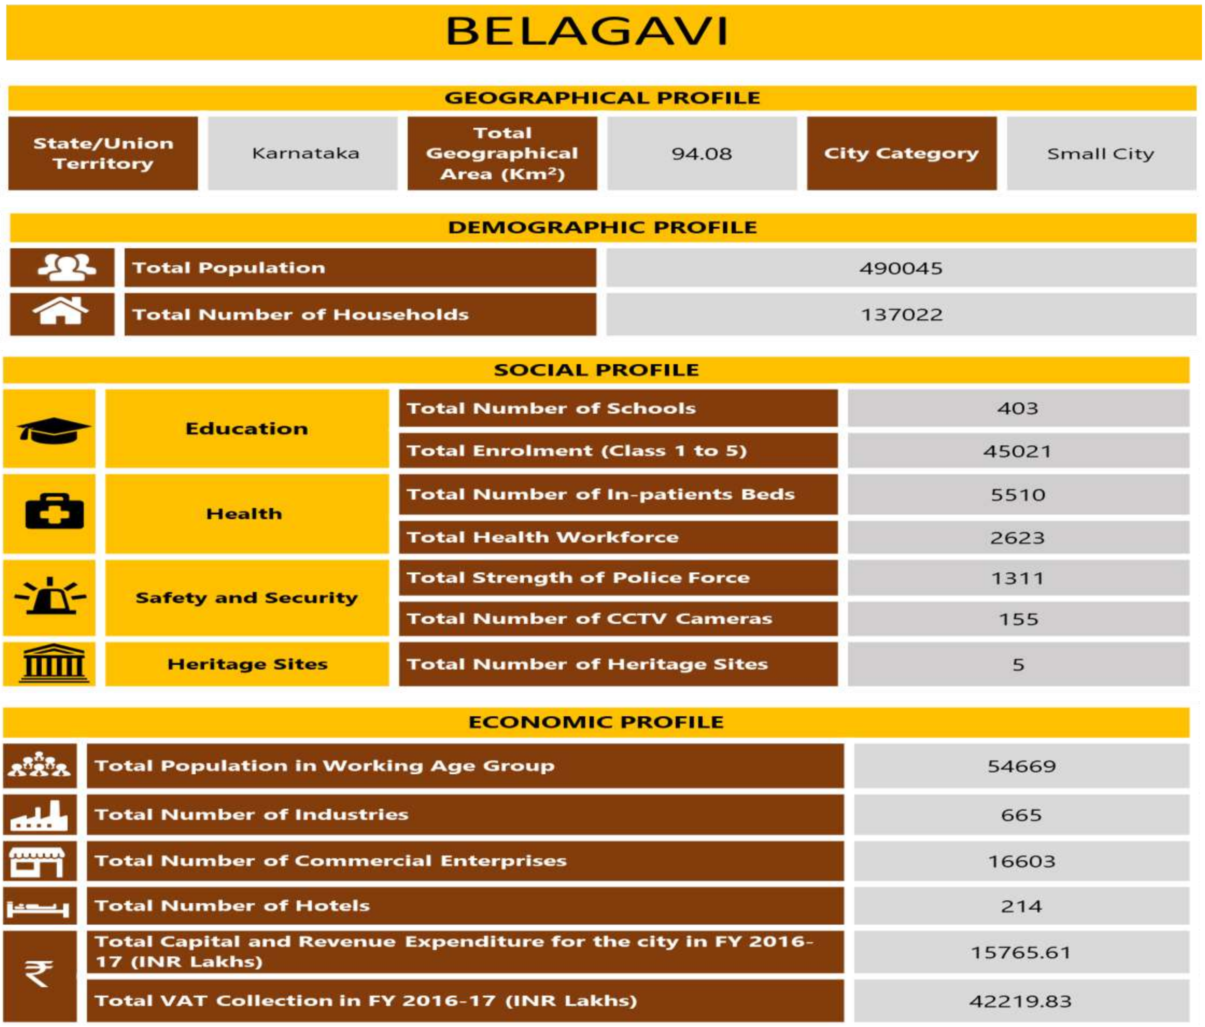
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BELAGAVI

GEOGRAPHICAL PROFILE

State/Union Territory	Karnataka	**Total Geographical Area (Km²)**	94.08	**City Category**	Small City

DEMOGRAPHIC PROFILE

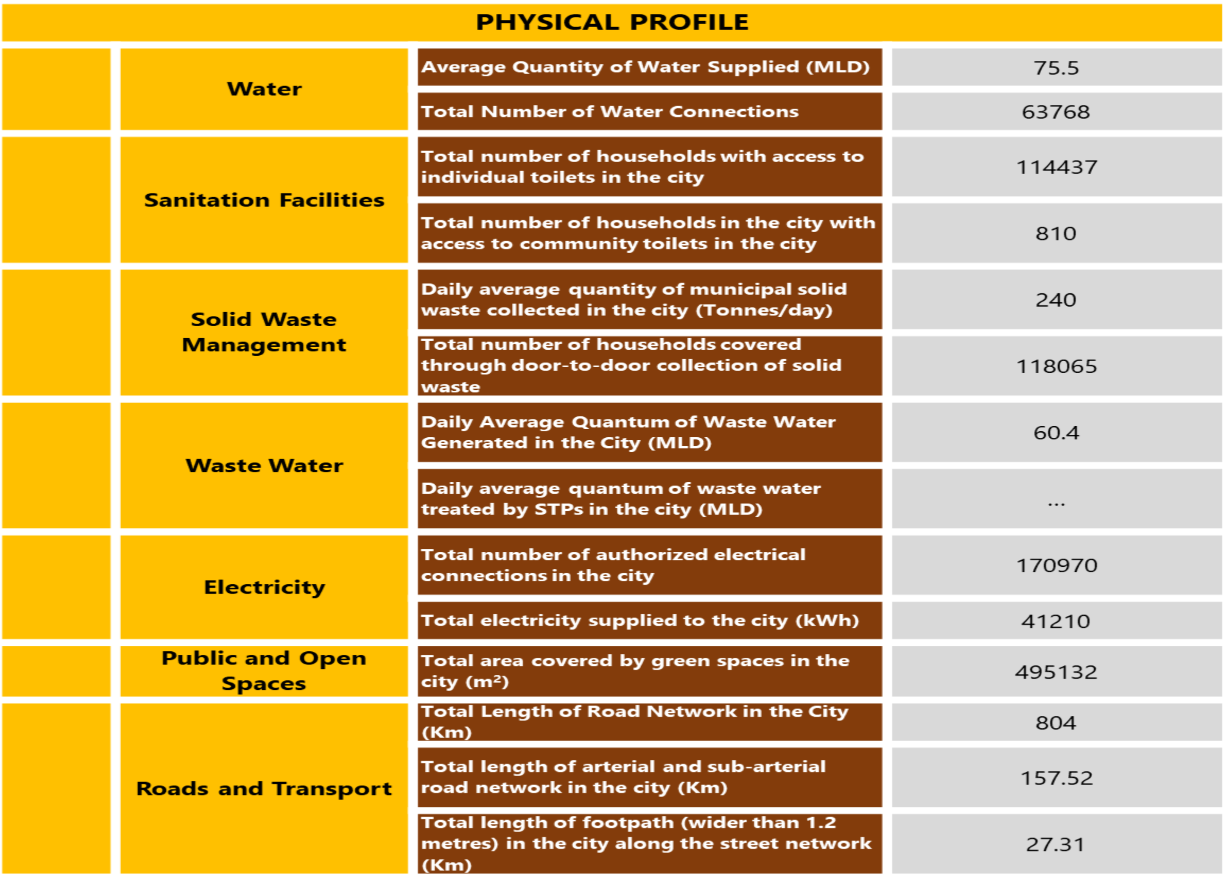
Total Population	490045
Total Number of Households	137022

SOCIAL PROFILE

Education	**Total Number of Schools**	403
	Total Enrolment (Class 1 to 5)	45021
Health	**Total Number of In-patients Beds**	5510
	Total Health Workforce	2623
Safety and Security	**Total Strength of Police Force**	1311
	Total Number of CCTV Cameras	155
Heritage Sites	**Total Number of Heritage Sites**	5

ECONOMIC PROFILE

Total Population in Working Age Group	54669
Total Number of Industries	665
Total Number of Commercial Enterprises	16603
Total Number of Hotels	214
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	15765.61
Total VAT Collection in FY 2016-17 (INR Lakhs)	42219.83



PHYSICAL PROFILE			
	Water	Average Quantity of Water Supplied (MLD)	75.5
		Total Number of Water Connections	63768
	Sanitation Facilities	Total number of households with access to individual toilets in the city	114437
		Total number of households in the city with access to community toilets in the city	810
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	240
		Total number of households covered through door-to-door collection of solid waste	118065
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	60.4
		Daily average quantum of waste water treated by STPs in the city (MLD)	...
	Electricity	Total number of authorized electrical connections in the city	170970
		Total electricity supplied to the city (kWh)	41210
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	495132
	Roads and Transport	Total Length of Road Network in the City (Km)	804
		Total length of arterial and sub-arterial road network in the city (Km)	157.52
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	27.31

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary

Pillars of Comprehensive Development	Category	Indicators
		education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

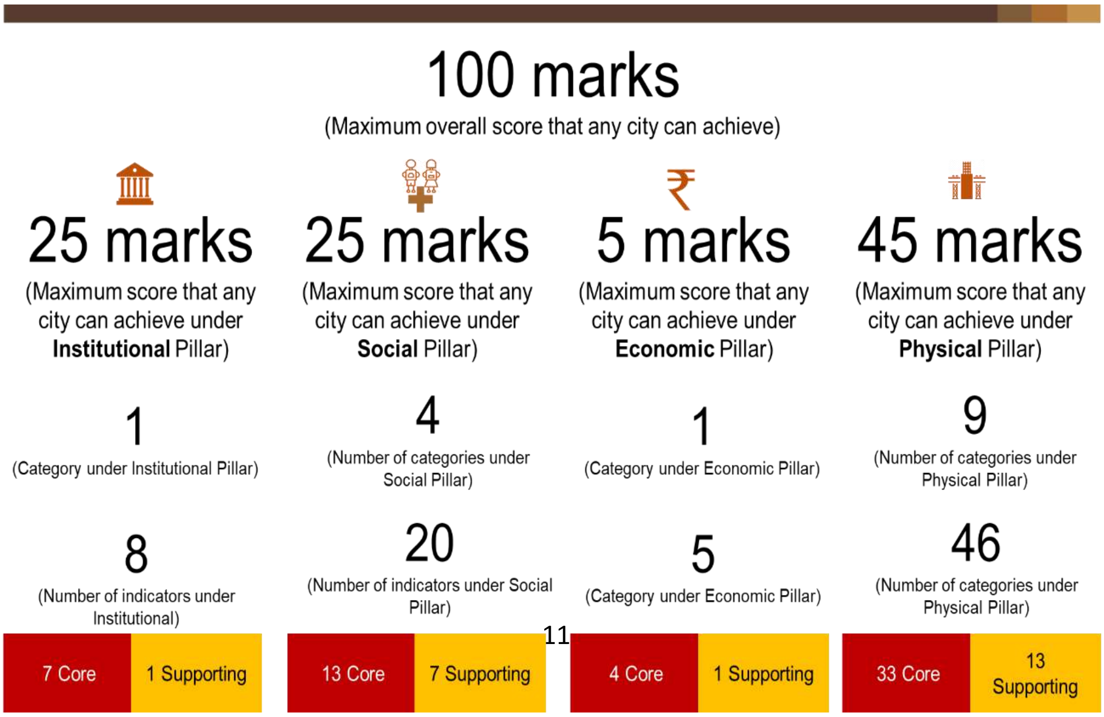
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks

(Maximum score that any city can achieve under **Institutional** Pillar)

1

(Category under Institutional Pillar)

8

(Number of indicators under Institutional)

7 Core | 1 Supporting

25 marks

(Maximum score that any city can achieve under **Social** Pillar)

4

(Number of categories under Social Pillar)

20

(Number of indicators under Social Pillar)

13 Core | 7 Supporting

5 marks

(Maximum score that any city can achieve under **Economic** Pillar)

1

(Category under Economic Pillar)

5

(Category under Economic Pillar)

4 Core | 1 Supporting

45 marks

(Maximum score that any city can achieve under **Physical** Pillar)

9

(Number of categories under Physical Pillar)

46

(Number of categories under Physical Pillar)

33 Core | 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{\boldsymbol{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}}{\boldsymbol{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry.

The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department Belagavi City Copn.
Urban Local Body	For Park and Recreation Related Questions	Town Planning Department Belagavi City Copn.
Urban Local Body	For Water Supply and Drainage related questions	Engineering Department Belagavi City Copn.
Urban Local Body	For Heritage sites related data	Town Planning Department Belagavi City Copn.
Urban Local Body	For Ecological sites related data	Department of forest, ecology and environment
Urban Local Body	For Housing related data	Rajiv housing Yojana. Belagavi City Copn. Slum Board Dept.
Urban Local Body	For Building plan related data	Town Planning Department Belagavi City Copn. (Belagavi Urban Dev. Authority)
Urban Local Body	For Roads related data	Engineering Department Belagavi City Copn. & Publc Works Department
Urban Local Body	For Solid waste management related data	Health & Sanitation section, Belagavi City Copn
Urban Local Body	For IT services related data	IT Department
Urban Local Body	For Vendor committee related data	Urban Poverty Alleviation Cell Vender Reg. Cell . Belagavi City Copn., National Urban Livelihood Mission

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Commercial Tax Department (Professional Tax related queries), Education Department (Population of age group between 6-14), Revenue Department, PMAY, District Employment Exchange, Belagavi Development Authority, (CMP related), Health Department, State Pollution Control Board Health & Family Welfare Dept. Police Department (Crime & Accident information) Road Transport Dept. (Vehicles and road information)
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	State / District Pollution control board, Belagavi Water Supply and Drainage Board Department of Health, Hygiene & Sanitation
Development Authority	Building Infrastructure	Belagavi Urban Development Authority & Engineering section BCC, Smart City Limited
	Construction planning	Development Authority and Town Planning Department, Belagavi City Corporation.
	Green Building	Town Planning Department,
	Rain water harvesting	Town Planning Department, Belagavi City Corporation.
	Universal Design Principle	Belagavi Urban Development Authority / Belagavi City Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Hubballi Electricity Supply Company Limited
State Disaster management authority		Disaster Management Cell, Deputy Commissioner Office
State Education Department		
State Health Department	Health care professionals	District Health Office
	Citizen Services	District Health Office
	Disease Prevalence	District Health Office
	Health Infrastructure	District Health Office
State Renewable Energy	Renewable Energy	Hubballi Electricity Supply Company Limited

Designated data owners	Subcategories	Data owners at city level
Development Agency		
State Sales / Commercial Taxes Department		Joint Commissioner, Commercial Tax Office
Town and Country Planning Department	Land Use	Belagavi Urban Development Authority/ Town planning
Traffic and Police Department		Police Commissioner's Office Belagavi
Transport Authorities	Buses	Regional Transport Officer Office
	Registered Vehicles	Regional Transport Officer Office
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 81 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	4
DISCOM/Electricity Department	5
Traffic and Police Department	18
Development Authority	0
Pollution Control Board	8
State Renewable Energy Department	0
Town and Country Planning	4
State Health Department	0
Transport Authority	3
Disaster Management	1

Urban Local Body	38
Total	81*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.4 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**53.14**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	0.75

Denominator	Total expenditure (revenue and capital accounts) in the same year	25087.82
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	58
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**80**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	4
Denominator	Total number of historic buildings/sites identified	5
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**60**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	3
Denominator	Total number of ecologically important sites identified in the city	5
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**16.43**
Description	Average Occupancy rate of Hotels	16.42857143

Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**6.96**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	1096.89
Denominator	Total budget of the ULB (capital and revenue)	15765.61
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	764
Description	Number of cultural/sports events hosted by the city authority in the preceding year	764
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**89.67**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	72734
Denominator	Total population in the age group of 6-14 years	81112
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**90.43**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	34990
Denominator	Total female population in the age group of 6-14 years	38692
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**39.08**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	45021

Denominator	Total number of teachers available for primary grades (public and private schools)	1152
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**1.99**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	8
Denominator	Total number of schools	403
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**86.21**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	86.20627571
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**99.78**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	88166844
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**112.44**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	5510
Denominator	Total population of the city	490045
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**53.53**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	2623

Denominator	Total population of the city	490045
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**13**
Description	Total response time for health-related distress calls received in the city	13
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.5**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	2457
Denominator	Total population of the city	490045
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	16
Denominator	Total population of the city	490045
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**19.28**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	155
Denominator	Total length of road network in the city	804
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**218.55**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	1071

Denominator	Total population of the city	490045
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**87.11**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	933
Denominator	Total crimes recorded in the same year	1071
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**19.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	94
Denominator	Total population of the city	490045
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**0.95**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	396.41
Denominator	Total VAT/GST collection during preceding year	418.2342
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**16.32**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	100.92
Denominator	Total Professional Tax collection during preceding year	618.21
Unit	Percentage	

Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**25.86**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	210
Denominator	Number of construction permits during preceding year	8.12
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	3907
Denominator	Total labour force in the city	81112
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	3373
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**19.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	2702
Denominator	Total number of slum and EWS households in the city	140.4

Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**3.23**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	57019260600
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**1.01**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	495132
Denominator	Total population of the city	490045
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**3.47**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1700013.56
Denominator	Total population of the city	490045
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**8.59**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	8080000
Denominator	Total area of the city (total area of all land uses)	94080000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.13**
Formula:	*Numerator / Denominator*	

Numerator	Total population of the city	490045
Denominator	Area allocated for residential land use (in hectares)	3795850
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**98.09**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	134402
Denominator	Total number of households in the city	137022
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**101.53**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	173590
Denominator	Total number of electricity connections in the city	170970
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**408**
Description	Total number of sustained electrical interruptions in a year	408
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.74**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	43204.68
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will	

	be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	149946
Denominator	Total energy consumption from all sources	41210
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	11422811.06
Denominator	Total quantum of water and waste water handled during the period	2265
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.3**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	65296490
Denominator	Total number of street light installations	26852
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	49103
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	41210

Denominator	Total population of the city	490045
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	679
Denominator	Total area of the city (sq.km)	94.08
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.13**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	63
Denominator	Total population of the city	490045
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	22
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	804
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	Data Unavailable

Denominator	Total number of major transport interchanges in the city	7
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	0.138
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0.14**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	1
Denominator	Total number of major interchanges in the city	7
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	5
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**50**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	14
Denominator	Total available on-street parking spaces in the city	28
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**1.7**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	27.31
Denominator	Total length of road network in the city	1608
Unit	Percentage	
Benchmark	>=75	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**33.33**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	15
Denominator	Total number of junctions/ intersections on major roads in the city	45
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**4.79**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	31
Denominator	Total number of public right-of-way areas in the city	647
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**44.6**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	61108
Denominator	Total number of households in the city	137022
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**154.07**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	75.5
Denominator	Total population of the city	490045
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of samples meeting or exceeding specified potable water standards	699
Denominator	Total number of samples tested for water quality	715
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	75.5
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**18.18**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	11594
Denominator	Total number of water connections in the city	63768
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**18**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	99
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	550
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**109.66**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	132715

Denominator	Total number of properties in the city	121023
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**102.66**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	124237
Denominator	Total number of properties in the city	121023
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**35.1**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	21.2
Denominator	Total waste water generated in the city per day	60.4
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**46.89**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	377
Denominator	Total length of road network in the city	804
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**84.97**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	130538
Denominator	Total number of households and establishments in the city	153625

Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**90.57**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	240
Denominator	Total quantum of MSW generated in the city	265
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**8.33**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	599.95
Denominator	Average MSW generated in the city (tons per month)	7200
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**2**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	2
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**15.73**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	15.727
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**77.73**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	77.727
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable

Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**80.95**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	17
Denominator	Total number of samples tested	21
Unit	Percentage	
Benchmark	100%

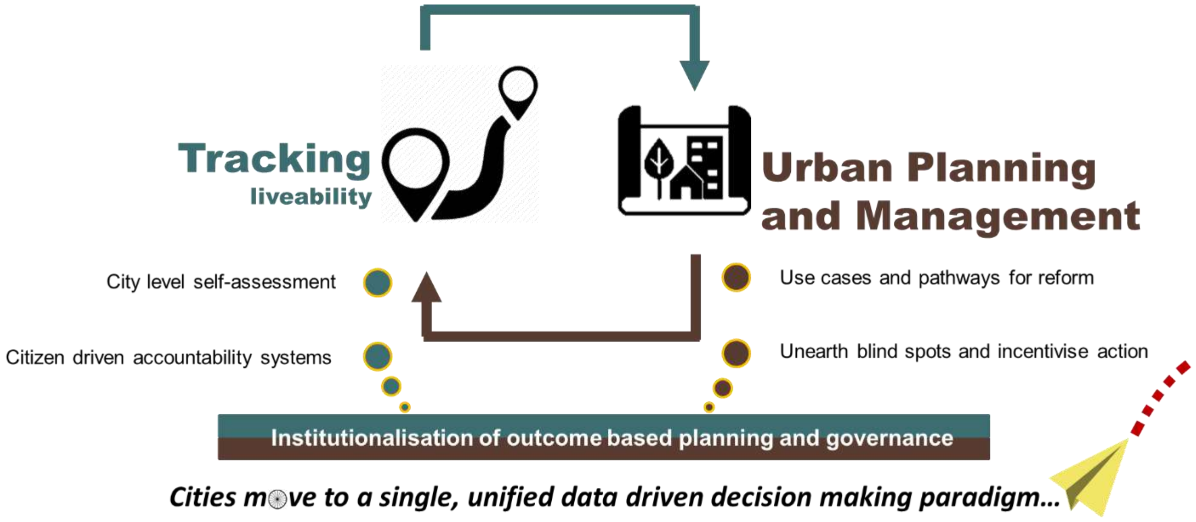
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

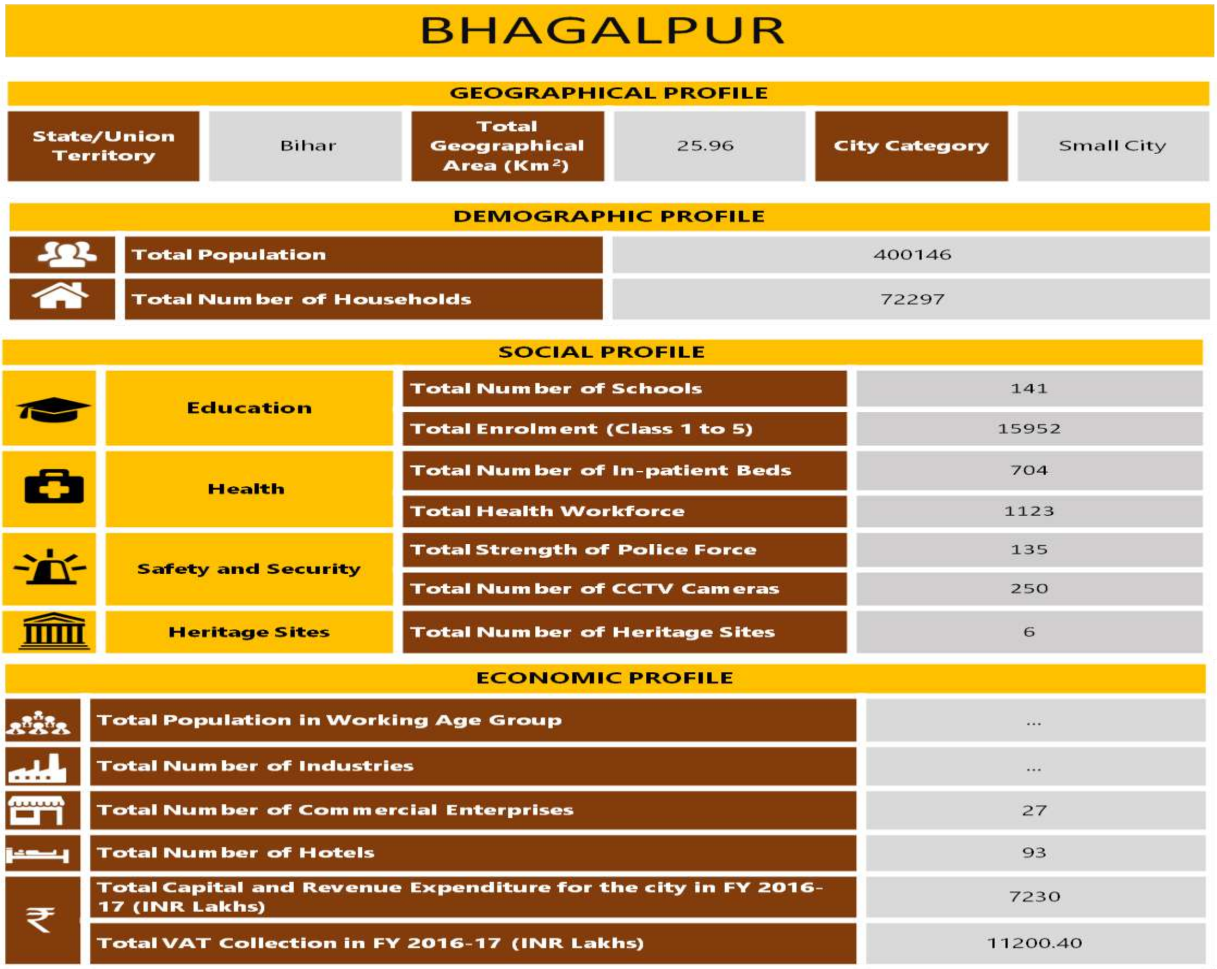


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BHAGALPUR

GEOGRAPHICAL PROFILE

State/Union Territory	Bihar	**Total Geographical Area (Km^2)**	25.96	**City Category**	Small City

DEMOGRAPHIC PROFILE

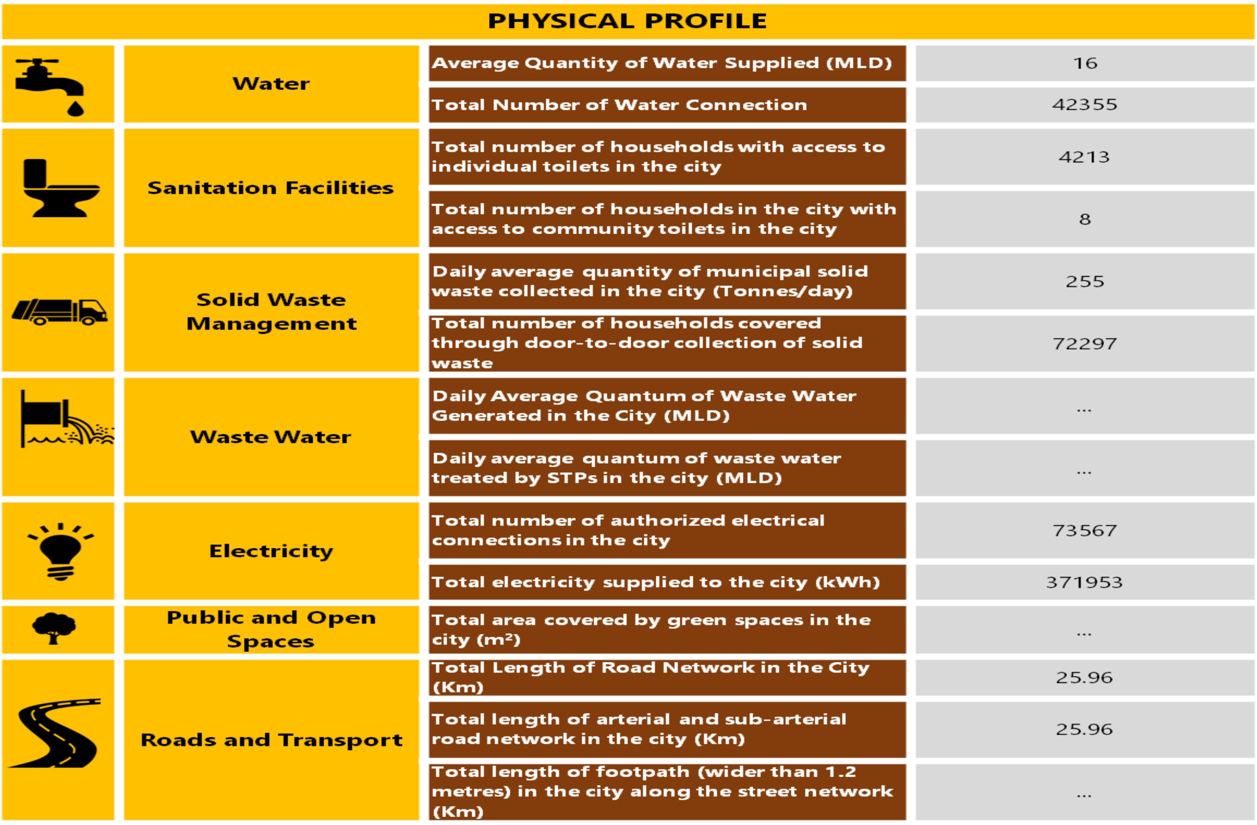
Total Population	400146
Total Number of Households	72297

SOCIAL PROFILE

Education	**Total Number of Schools**	141
	Total Enrolment (Class 1 to 5)	15952
Health	**Total Number of In-patient Beds**	704
	Total Health Workforce	1123
Safety and Security	**Total Strength of Police Force**	135
	Total Number of CCTV Cameras	250
Heritage Sites	**Total Number of Heritage Sites**	6

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	...
Total Number of Commercial Enterprises	27
Total Number of Hotels	93
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	7230
Total VAT Collection in FY 2016-17 (INR Lakhs)	11200.40



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	16
	Total Number of Water Connection	42355
Sanitation Facilities	Total number of households with access to individual toilets in the city	4213
	Total number of households in the city with access to community toilets in the city	8
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	255
	Total number of households covered through door-to-door collection of solid waste	72297
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	...
	Daily average quantum of waste water treated by STPs in the city (MLD)	...
Electricity	Total number of authorized electrical connections in the city	73567
	Total electricity supplied to the city (kWh)	371953
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	...
Roads and Transport	Total Length of Road Network in the City (Km)	25.96
	Total length of arterial and sub-arterial road network in the city (Km)	25.96
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	Category	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open	8.1 Per capita availability of green spaces

Pillars of Comprehensive Development	Category	Indicators
	Spaces	8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System

Pillars of Comprehensive Development	Category	Indicators
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	Category	Indicators
	Pollution	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

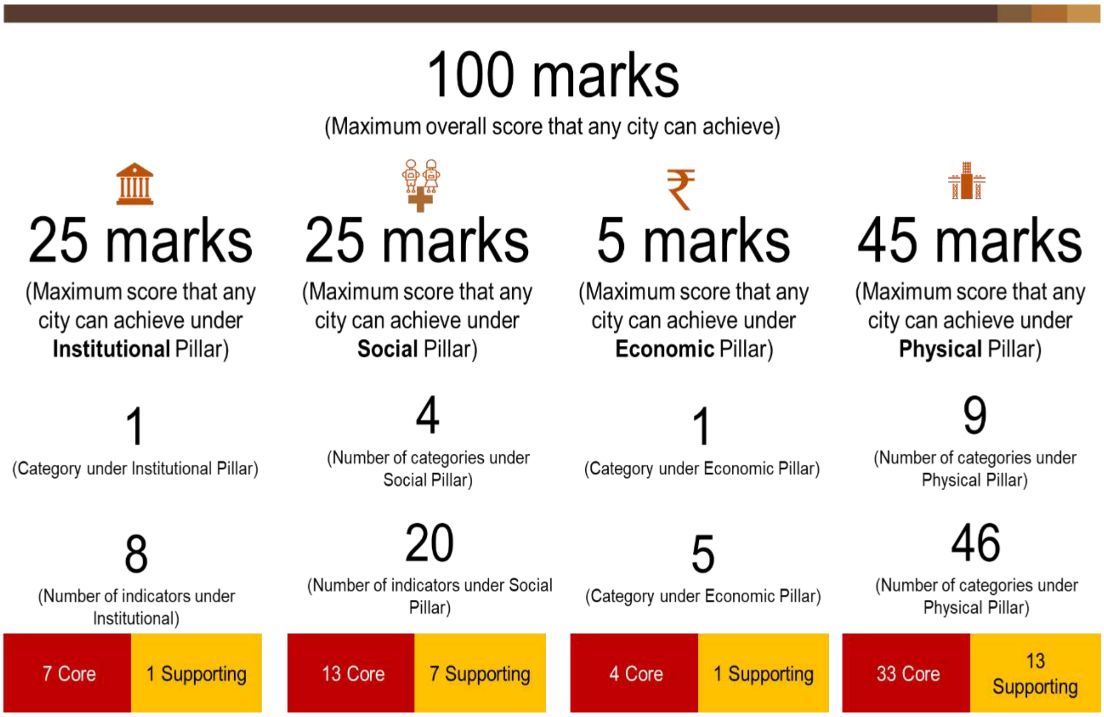
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

Institutional	Social	Economic	Physical
25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark -\ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account Department, Bhagalpur

Designated data owners	Subcategories	Data owners at city level
		Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Engineering Department, Bhagalpur Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Engineering Department, Bhagalpur Municipal Corporation
Urban Local Body	For Heritage sites related data	Bhagalpur Municipal Corporation
Urban Local Body	For Ecological sites related data	Bhagalpur Municipal Corporation
Urban Local Body	For Housing related data	Social development SectionBhagalpur Municipal Corporation
Urban Local Body	For Building plan related data	Engineering Department, Bhagalpur Municipal Corporation
Urban Local Body	For Roads related data	Engineering Department, Bhagalpur Municipal Corporation
Urban Local Body	For Solid waste management related data	Bhagalpur Municipal Corporation
Urban Local Body	For IT services related data	IT section, Bhagalpur Municipal Corporation
Urban Local Body	For Vendor committee related data	Social Development Section, Bhagalpur Municipal Corporation
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	State Pollution Control Board, Bihar
Development Authority	Building Infrastructure	Engineering Department, Bhagalpur Municipal Corporation
	Construction planning	Engineering Department, Bhagalpur Municipal Corporation
	Green Building	Engineering Department, Bhagalpur Municipal Corporation
	Rain water harvesting	Engineering Department, Bhagalpur Municipal Corporation
	Universal Design Principle	Engineering Department, Bhagalpur Municipal Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Bihar Power Distribution Corporation Limited
State Disaster management authority		District Collectorate Office
State Education Department		District Education Department
State Health Department	Health care professionals	Civil Surgeon Office
	Citizen Services	Civil Surgeon Office
	Disease Prevalence	Civil Surgeon Office
	Health Infrastructure	Civil Surgeon Office

Designated data owners	Subcategories	Data owners at city level
State Renewable Energy Development Agency		Bihar Renewable Energy Development Authority
State Sales / Commercial Taxes Department		State Commercial and Tax department
Town and Country Planning Department	Land Use	Bhagalpur Municipal Corporation
Traffic and Police Department		Office of Senior Superintendent of Police
Transport Authorities	Buses	District Transport office
	Registered Vehicles	District Transport office
	Sub urban rail transport	
	Mono Rail Authority	
	Tramways	
	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 26 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	5
DISCOM/Electricity Department	2
Traffic and Police Department	2
Development Authority	0
Pollution Control Board	1
State Renewable Energy Department	0
Town and Country Planning	0

State Health Department	4
Transport Authority	2
Disaster Management	1
Urban Local Body	9
Total	26*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for 74 indicators excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	38
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	0.5
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.333333333
	1.1i professional tax	0
	1.1j information	0.384615385
	1.1k Grievance redressal	1

	1.1l electricity	0.5
	1.1m Building plan	0.222222222
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	0
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	38.91
Description		
Sub Indicators	1.3a Building plan	0.535290768
	1.3b Birth/Death Certificate	0.096714491
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	0.535290768
	1.3f professional tax (RC)	NA

	1.4d sewerage	NA
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	4
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	100.88
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	1264.47
Denominator	Total demand raised for the year	1253.48
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	Data Unavailable
Denominator	Total O&M cost for providing water supply services during the year	66000000
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	92.43
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	30177
Denominator	Total expenditure (revenue and capital accounts) in the same year	32650
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	100
Formula:	*Numerator / Denominator*	

Numerator	Number of Wards with notified ward committees	51
Denominator	Total number of wards	51
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	0
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	6
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	Data Unavailable
Denominator	Total number of ecologically important sites identified in the city	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	Non-Computable
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	0
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	7230
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	

Indicator No: 2.5	Number of cultural/sports events hosted by city	Non-Computable
Description	Number of cultural/sports events hosted by the city authority in the preceding year	Data Unavailable
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	27.82
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	25126
Denominator	Total population in the age group of 6-14 years	90323
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	33.1
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	14238
Denominator	Total female population in the age group of 6-14 years	43010
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	80.16
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	15952
Denominator	Total number of teachers available for primary grades (public and private schools)	199
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	7.09
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to	10

	digital resources such as NKN)	
Denominator	Total number of schools	141
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	41.9 41.9015792
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	54.43 9273330
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	17.59
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	704
Denominator	Total population of the city	400146
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	28.06
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	1123
Denominator	Total population of the city	400146
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	

Indicator No: 4.3	Average response time in case of health emergencies	0
Description	Total response time for health-related distress calls received in the city	0
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	0.01
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	50
Denominator	Total population of the city	400146
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	0.18
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	728
Denominator	Total population of the city	400146
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	962.86
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	250
Denominator	Total length of road network in the city	25.964204
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	1077.61
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	4312

Denominator	Total population of the city	400146
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	Data Unavailable
Denominator	Total crimes recorded in the same year	4312
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	#VALUE!
Denominator	Total population of the city	400146
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	17.5
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	1667.86
Denominator	Total VAT/GST collection during preceding year	95.3254
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated	

	as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	86.17
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	-66.07
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-257
Denominator	Number of construction permits during preceding year	3.89
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	35213
Denominator	Total labour force in the city	90323
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	0
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	2258.075
Unit	Percentage	

Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	6.35
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	709
Denominator	Total number of slum and EWS households in the city	111.67
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	Non-Computable
Formula:	*Numerator / Denominator*	Data Unavailable
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	Data Unavailable
Denominator	Total population of the city	400146
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	0.02
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	9699.3924

Denominator	Total population of the city	400146
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	25964204
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	400146
Denominator	Area allocated for residential land use (in hectares)	Data Unavailable
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	81.26
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	58746
Denominator	Total number of households in the city	72297
Unit	Percentage	

Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	0
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	73567
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	Non-Computable
Description	Total number of sustained electrical interruptions in a year	Data Unavailable
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	NC
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	Data Unavailable
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	NC
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	Data Unavailable
Denominator	Total energy consumption from all sources	37195328
Unit	Percentage	

Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	NC
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	NA
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	NC
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	13217
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	NC
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	31070.53
Unit	Percentage	
Benchmark	80%	

Indicator No: 10.9	Total energy consumption per capita	0.81
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	37195328
Denominator	Total population of the city	400146
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	Data Unavailable
Denominator	Total area of the city (sq.km)	25.964204
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	Data Unavailable
Denominator	Total population of the city	400146
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	To be computed
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	Non-

Formula:	*Numerator / Denominator*	Computable
Numerator	Total length of bicycle network	NA
Denominator	Total length of road network in the city	25.964204
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	100
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	To be computed
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	3
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	3
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	0

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Formula:	*Numerator / Denominator*	1
Numerator	Total number of signalised intersections that are synchronised	
Denominator	Total number of signalised intersections in the city	
Unit	Percentage	0
Benchmark	>=75	1
Indicator No: 11.9	Availability of paid parking spaces	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	Data Unavailable
Denominator	Total available on-street parking spaces in the city	Data Unavailable
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	Data Unavailable
Denominator	Total length of road network in the city	51.928408
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	1
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	20.56
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	22
Denominator	Total number of public right-of-way areas in the city	107
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	58.58
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	42355
Denominator	Total number of households in the city	72297
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	39.99
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	16
Denominator	Total population of the city	400146
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	Data Unavailable
Denominator	Total number of samples tested for water quality	24

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	16
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	0
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	42355
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	132
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	5.84
Formula:	*Numerator / Denominator*	

Numerator	Total number of properties with access to individual and/or community toilets	4221
Denominator	Total number of properties in the city	72297
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	5.83
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	4213
Denominator	Total number of properties in the city	72297
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	0
Denominator	Total waste water generated in the city per day	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	Data Unavailable
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	NA
Denominator	Total length of road network in the city	25.964204

Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	99.96
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	72297
Denominator	Total number of households and establishments in the city	72324
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	100
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	255
Denominator	Total quantum of MSW generated in the city	255
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	7650
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	Concentration of SO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	

Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	Concentration of NO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	Concentration of PM10 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	Level of noise pollution	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	Quality of water in public surface water bodies	100
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	12
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%

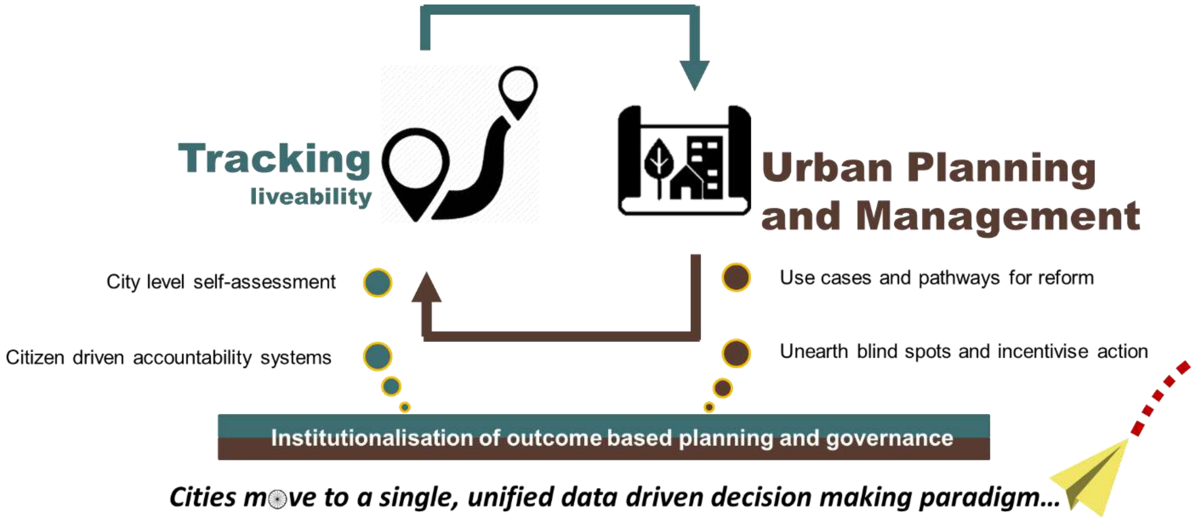
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



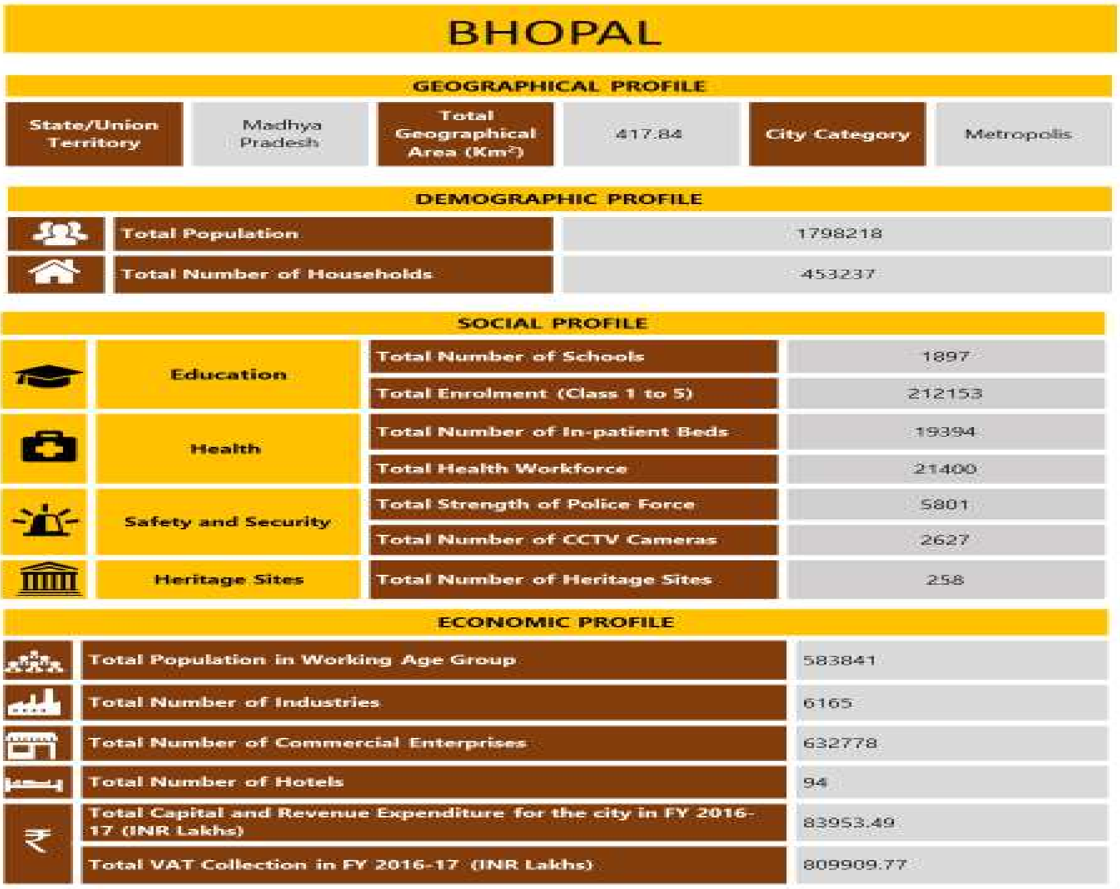
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including

smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BHOPAL

GEOGRAPHICAL PROFILE

State/Union Territory	Madhya Pradesh	Total Geographical Area (Km²)	417.84	City Category	Metropolis

DEMOGRAPHIC PROFILE

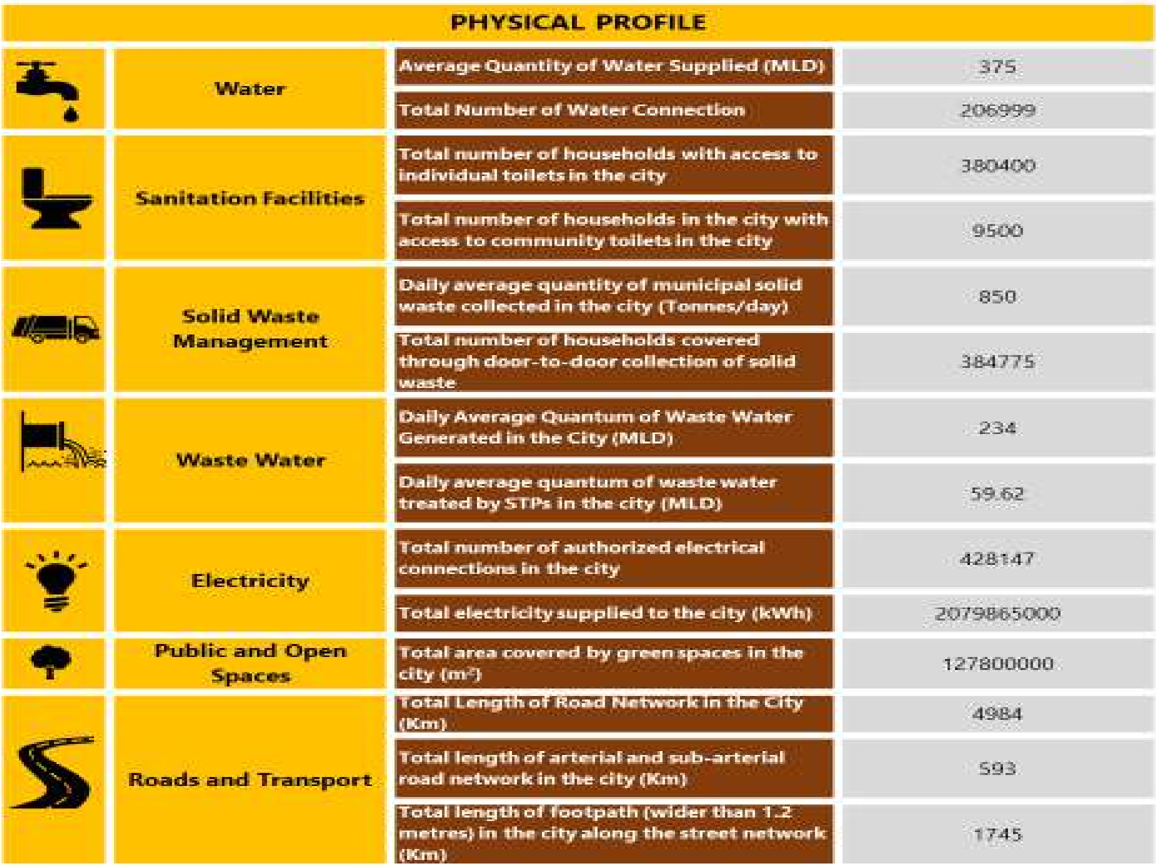
Total Population	1798218
Total Number of Households	453237

SOCIAL PROFILE

Education	Total Number of Schools	1897
	Total Enrolment (Class 1 to 5)	212153
Health	Total Number of In-patient Beds	19394
	Total Health Workforce	21400
Safety and Security	Total Strength of Police Force	5801
	Total Number of CCTV Cameras	2627
Heritage Sites	Total Number of Heritage Sites	258

ECONOMIC PROFILE

Total Population in Working Age Group	583841
Total Number of Industries	6165
Total Number of Commercial Enterprises	632778
Total Number of Hotels	94
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	83953.49
Total VAT Collection in FY 2016-17 (INR Lakhs)	809909.77



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	375
	Total Number of Water Connection	206999
Sanitation Facilities	Total number of households with access to individual toilets in the city	380400
	Total number of households in the city with access to community toilets in the city	9500
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	850
	Total number of households covered through door-to-door collection of solid waste	384775
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	234
	Daily average quantum of waste water treated by STPs in the city (MLD)	59.62
Electricity	Total number of authorized electrical connections in the city	428147
	Total electricity supplied to the city (kWh)	2079865000
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	127800000
Roads and Transport	Total Length of Road Network in the City (Km)	4984
	Total length of arterial and sub-arterial road network in the city (Km)	593
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	1745

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases

Pillars of Comprehensive Development	Category	Indicators
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation	11.1 Geographical coverage of public transport
		11.2 Availability of public transport

Pillars of Comprehensive Development	Category	Indicators
	and Mobility	11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution

Pillars of Comprehensive Development	Category	Indicators
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks (Maximum score that any city can achieve under **Institutional** Pillar)	**25 marks** (Maximum score that any city can achieve under **Social** Pillar)	**5 marks** (Maximum score that any city can achieve under **Economic** Pillar)	**45 marks** (Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Sub categories	Data owners at city level
	Accounts	Accounting Department, Bhopal Municipal Corporation
	Park and Recreation	Garden Department, Bhopal Municipal Corporation
	Water Supply and Drainage	Engineering Department, Bhopal Municipal Corporation

Designated data owners	Sub categories	Data owners at city level
Urban Local Body	Heritage sites	Bhopal Municipal Corporation
	Ecological sites	Bhopal Municipal Corporation
	Housing	Housing section, Bhopal Municipal Corporation
	Building plan	Building Permission Section, Bhopal Municipal Corporation
	Roads	Bhopal Municipal Corporation
	Solid waste management	Solid waste management, Bhopal Municipal Corporation
	IT services	IT Section, Bhopal Municipal Corporation
	Vendor committee	Bhopal Municipal Corporation
	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Madhya Pradesh Pollution Control Board
Development Authority	Building Infrastructure	Building Permission Section, Bhopal Municipal Corporation Bhopal Development Authority
	Construction planning	Building Permission Section, Bhopal Municipal Corporation Bhopal Development Authority
	Green Building	Bhopal Development Authority
	Rain water harvesting	Bhopal Development Authority
	Universal Design Principle	Bhopal Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Madhya Pradesh Madhya Kshetra Vidyut Vitaran Company limited
State Disaster management authority		District Disaster management Office
State Education Department		District Education Department
State Health Department	Health care professionals	Directorate of Health Services, Bhopal
	Citizen Services	Health Department
	Disease Prevalence	Health Department
	Health Infrastructure	Health Department
State Renewable Energy		Madhya Pradesh New and Renewable Energy Department

Designated data owners	Sub categories	Data owners at city level
Development Agency		
State Sales / Commercial Taxes Department		Department of Commercial Taxes
Town and Country Planning Department	Land Use	Town and country planning
Traffic and Police Department		Traffic and Police Department, Bhopal
Transport Authorities	Buses	Regional Transport Office
	Registered Vehicles	Madhya Pradesh Transport Department
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 68 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	3
State Education Department	11
DISCOM/Electricity Department	3
Traffic and Police Department	8
Development Authority	0
Pollution Control Board	6
State Renewable Energy Department	3
Town and Country Planning	1
State Health Department	3

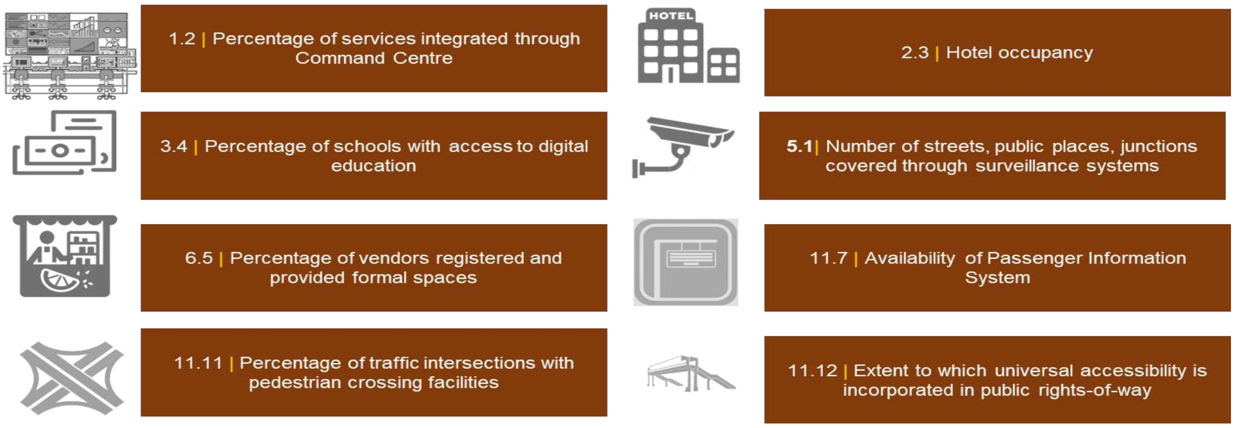
Transport Authority	1
Disaster Management	1
Urban Local Body	28
Total	68

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:



1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**98.22**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	1
	1.1e water supply	1
	1.1f sewerage/drainage	1
	1.1g fogging	1
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	0.769230769

	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**121.43**
Description	Services integrated through an integrated or a singular operations command centre	25.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**5.71**
Description		
Sub Indicators	1.3a Building plan	0.005120595
	1.3b Birth/Death Certificate	0.002834009
	1.3c water supply	0.019777236
	1.3d solid waste management	0.006027634
	1.3e property tax	0.005242032
	1.3f professional tax (RC)	0.09003059
	1.3g professional tax (EC)	0.379527218
	1.3h complaints/ grievance redressal	0.001276217

	1.3j electricity	0.0116794
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**1.64**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0.5
	1.4c street lights	0
	1.4d sewerage	0

	1.4e professional tax	8.5
	1.4f parks and recreational spaces	2.5
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**133.37**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	29530.42
Denominator	Total demand raised for the year	22142.3631
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**29.85**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	4000
Denominator	Total O&M cost for providing water supply services during the year	13400
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-74.21**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-56708.42
Denominator	Total expenditure (revenue and capital accounts) in the same year	76416.41
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	85
Denominator	Total number of wards	85
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in	

	the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**42.64**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	110
Denominator	Total number of historic buildings/sites identified	258
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	3
Denominator	Total number of ecologically important sites identified in the city	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**72.86**
Description	Average Occupancy rate of Hotels	72.85714286
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0.14**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	114
Denominator	Total budget of the ULB (capital and revenue)	83953.49
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	

Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**86**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	86
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**95.51**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	320879
Denominator	Total population in the age group of 6-14 years	335965
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**96.34**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	154451
Denominator	Total female population in the age group of 6-14 years	160313
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**57.95**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	212153
Denominator	Total number of teachers available for primary grades (public and private schools)	3661
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**5.54**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities	110

	for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	
Denominator	Total number of schools	1987
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**84.92**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	84.91732498
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**91.92**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	1263641103
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**107.85**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	19394
Denominator	Total population of the city	1798218
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**119.01**
Formula:	*Numerator / Denominator*	

Numerator	Total number of qualified healthcare professionals	21400
Denominator	Total population of the city	1798218
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**30**
Description	Total response time for health-related distress calls received in the city	30
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**1.1**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	19730
Denominator	Total population of the city	1798218
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.1**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	1819
Denominator	Total population of the city	1798218
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**52.71**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	2627

Denominator	Total length of road network in the city	4984
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**873.36**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	15705
Denominator	Total population of the city	1798218
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**24.72**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	3883
Denominator	Total crimes recorded in the same year	15705
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**14.57**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	262
Denominator	Total population of the city	1798218
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**14.07**
Formula:	*Numerator / Denominator*	

Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	99896.55
Denominator	Total VAT/GST collection during preceding year	7100.1322
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**20.32**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	717.16
Denominator	Total Professional Tax collection during preceding year	3529.92
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-35.25**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-1370
Denominator	Number of construction permits during preceding year	38.87
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	9463
Denominator	Total labour force in the city	335965
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**85.41**
Formula:	*Numerator / Denominator*	

Numerator	Number of street vendors registered and provided formal spaces	7174
Denominator	Total number of vendors in the city	8399.125
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**1.17**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	1957
Denominator	Total number of slum and EWS households in the city	1676.87
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**0.22**8495658755568
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**71.07**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	127800000
Denominator	Total population of the city	1798218
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational	**199.44**

	places	
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	358631086.9
Denominator	Total population of the city	1798218
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**4.37**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	18246495
Denominator	Total area of the city (total area of all land uses)	417840000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1798218
Denominator	Area allocated for residential land use (in hectares)	145219900
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**79.46**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	360137
Denominator	Total number of households in the city	453237
Unit	Percentage	

Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**71.49**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	306064
Denominator	Total number of electricity connections in the city	428147
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**3072**
Description	Total number of sustained electrical interruptions in a year	3072
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.79**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	128664
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	1186
Denominator	Total energy consumption from all sources	2080615000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.05**
Formula:	*Numerator / Denominator*	

Numerator	Energy consumption on water supply and sewerage services	12916124.08
Denominator	Total quantum of water and waste water handled during the period	13038.6
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	250000000
Denominator	Total number of street light installations	45000
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0.16**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	723081
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	1923093
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.5**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	2080615000
Denominator	Total population of the city	1798218
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.61**
Formula:	*Numerator / Denominator*	

Numerator	Total length of public transport network (km)	401
Denominator	Total area of the city (sq.km)	417.84
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.22**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	395
Denominator	Total population of the city	1798218
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	23
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0.24**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	12
Denominator	Total length of road network in the city	4984
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**200**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	

Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	0.03
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**251**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	251
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronization**	**1.64**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronized	1
Denominator	Total number of signalised intersections in the city	61
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**48.94**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	23
Denominator	Total available on-street parking spaces in the city	47
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**17.51**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	1745

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total length of road network in the city	9968
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**71.56**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	78
Denominator	Total number of junctions/ intersections on major roads in the city	109
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**48.06**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	11478
Denominator	Total number of public right-of-way areas in the city	23883
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**49.68**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	225167
Denominator	Total number of households in the city	453237
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**208.54**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	375
Denominator	Total population of the city	1798218

Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	4050
Denominator	Total number of samples tested for water quality	4100
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**14.93**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	56
Denominator	Quantum of water put into the distribution system (mld)	375
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**128.99**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	267000
Denominator	Total number of water connections in the city	206999
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**6.11**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	752
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	12306

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**113.32**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	466591
Denominator	Total number of properties in the city	411736
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**99.15**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	408217
Denominator	Total number of properties in the city	411736
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**25.48**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	59.62
Denominator	Total waste water generated in the city per day	234
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	59.2
Unit	Percentage	
Benchmark	20% or more	

Indicator No: 13.5	**Coverage of storm water drains**	**30**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	1495.2
Denominator	Total length of road network in the city	4984
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**86.75**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	448053
Denominator	Total number of households and establishments in the city	516515
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	850
Denominator	Total quantum of MSW generated in the city	850
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**17.18**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	4380
Denominator	Average MSW generated in the city (tons per month)	25500
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**25.9**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	25.9
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**99.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	99.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**631.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	631.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	62
Denominator	Total number of noise samples	62
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	124
Denominator	Total number of samples tested	124
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

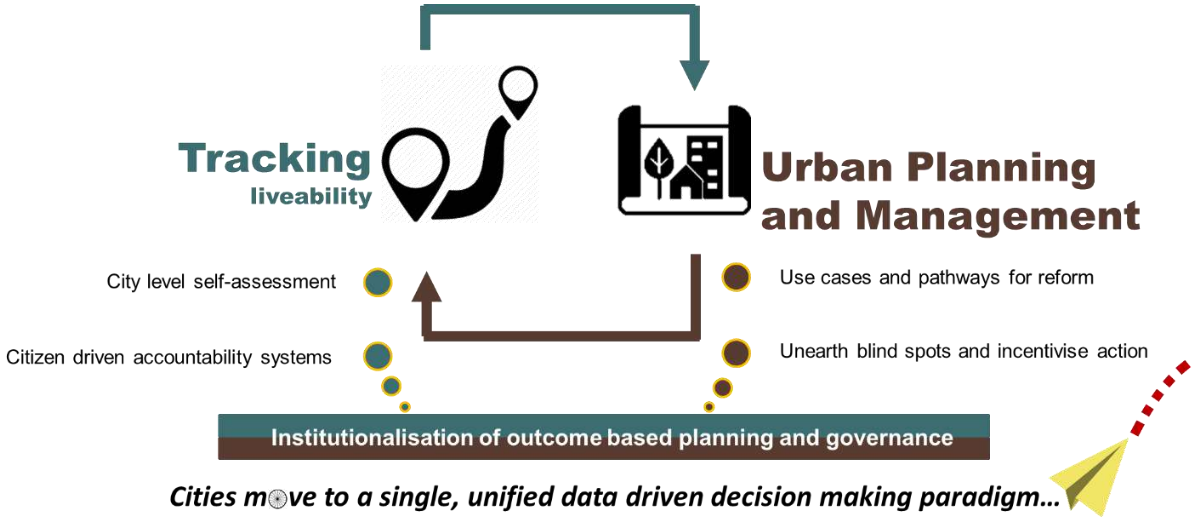
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



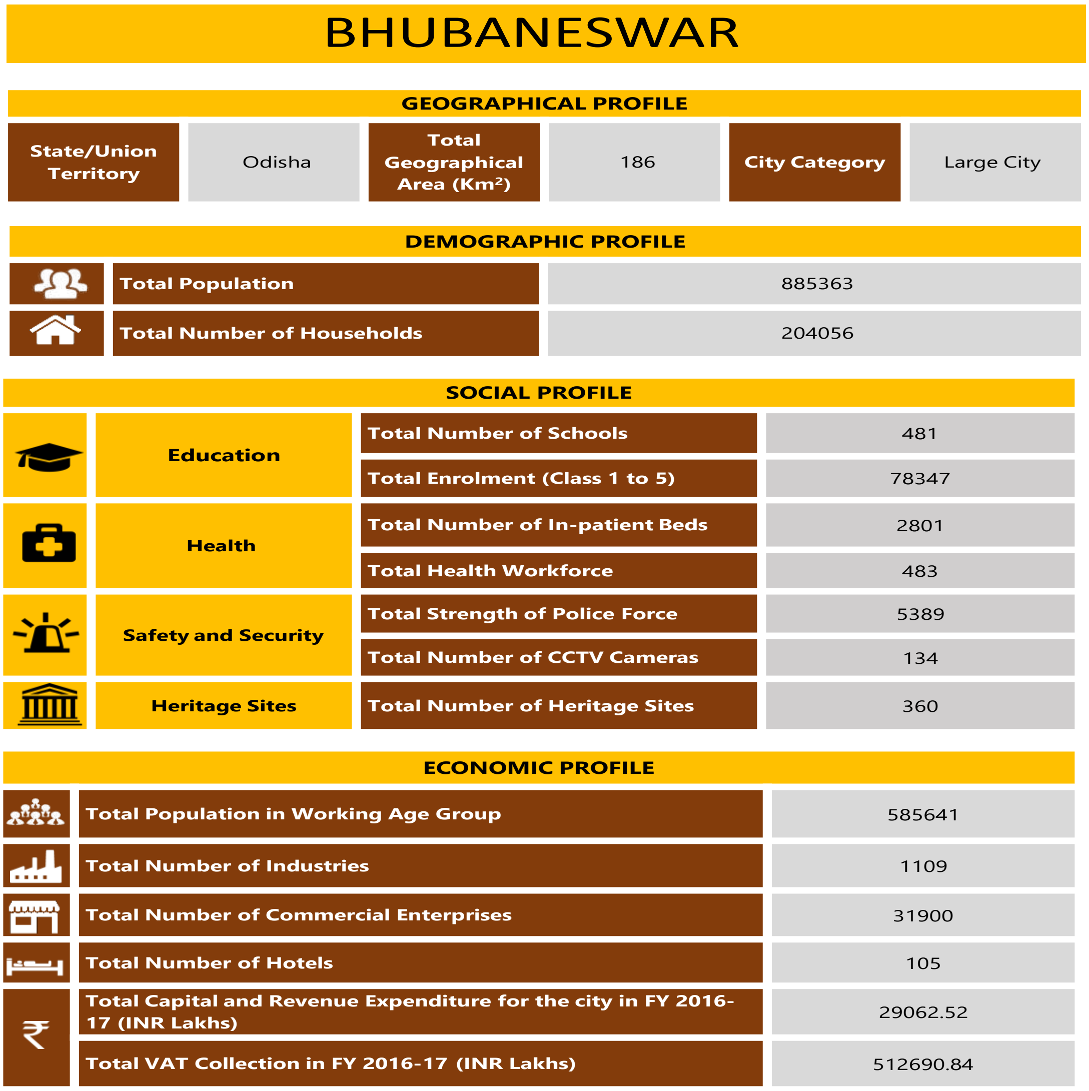
Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety



BHUBANESWAR

GEOGRAPHICAL PROFILE

State/Union Territory	Odisha	**Total Geographical Area (Km²)**	186	**City Category**	Large City

DEMOGRAPHIC PROFILE

Total Population	885363
Total Number of Households	204056

SOCIAL PROFILE

Education	**Total Number of Schools**	481
	Total Enrolment (Class 1 to 5)	78347
Health	**Total Number of In-patient Beds**	2801
	Total Health Workforce	483
Safety and Security	**Total Strength of Police Force**	5389
	Total Number of CCTV Cameras	134
Heritage Sites	**Total Number of Heritage Sites**	360

ECONOMIC PROFILE

Total Population in Working Age Group	585641
Total Number of Industries	1109
Total Number of Commercial Enterprises	31900
Total Number of Hotels	105
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	29062.52
Total VAT Collection in FY 2016-17 (INR Lakhs)	512690.84

and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	276.45
	Total Number of Water Connections	98907
Sanitation Facilities	Total number of households with access to individual toilets in the city	147512
	Total number of households in the city with access to community toilets in the city	14851
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	520
	Total number of households covered through door-to-door collection of solid waste	104056
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	212.27
	Daily average quantum of waste water treated by STPs in the city (MLD)	0.1
Electricity	Total number of authorized electrical connections in the city	195130
	Total electricity supplied to the city (kWh)	1708026000
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	23904221
Roads and Transport	Total Length of Road Network in the City (Km)	1920
	Total length of arterial and sub-arterial road network in the city (Km)	142
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	43.08

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports

Pillars of Comprehensive Development	Category	Indicators
		activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate

Pillars of Comprehensive Development	Category	Indicators
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains

Pillars of Comprehensive Development	Category	Indicators
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	**25 marks**	**5 marks**	**45 marks**
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Bhubaneswar Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Bhubaneswar Development Authority Bhubaneswar Municipal Corporation

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 55 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	0
DISCOM/Electricity Department	2
Traffic and Police Department	11
Development Authority	0
Pollution Control Board	4
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	4
Transport Authority	2
Disaster Management	0
Urban Local Body	32
Total	55*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**63.89**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	0.75
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.555555556
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**7.14**
Description	Services integrated through an integrated or a singular operations command centre	1.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**26.91**
Description		
Sub Indicators	1.3a Building plan	0.000279848
	1.3b Birth/Death Certificate	0.000774541
	1.3c water supply	NA

	1.3d solid waste management	0.014119632
	1.3e property tax	0.001315365
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	0.000500454
	1.3i information	0.003528496
	1.3j electricity	1.863278894
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**NC**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**89.44**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	5086.45
Denominator	Total demand raised for the year	5686.85
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**26.64**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	1906.82
Denominator	Total O&M cost for providing water supply services during the year	7157.12

Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	0.95
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	550.14
Denominator	Total expenditure (revenue and capital accounts) in the same year	57946.64
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	67
Denominator	Total number of wards	67
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**53.06**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	191
Denominator	Total number of historic buildings/sites identified	360
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**0**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**52**
Description	Average Occupancy rate of Hotels	52

Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	7.25
Denominator	Total budget of the ULB (capital and revenue)	29062.52
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**910**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	910
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**88.12**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	125223
Denominator	Total population in the age group of 6-14 years	142113
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**85.58**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	56879
Denominator	Total female population in the age group of 6-14 years	66465
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**36.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	78347

Denominator	Total number of teachers available for primary grades (public and private schools)	2173
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**8.32**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	40
Denominator	Total number of schools	481
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**113.87**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	**113.87**
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**95.79**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	**95.79**
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**31.64**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	2801
Denominator	Total population of the city	885363
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**5.46**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	483
Denominator	Total population of the city	885363

Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**20**
Description	Total response time for health-related distress calls received in the city	20
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**1.4**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	12410
Denominator	Total population of the city	885363
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.07**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	636
Denominator	Total population of the city	885363
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**6.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	134
Denominator	Total length of road network in the city	1920
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**806.34**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	7139
Denominator	Total population of the city	885363

Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**13.07**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	933
Denominator	Total crimes recorded in the same year	7139
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**26.32**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	233
Denominator	Total population of the city	885363
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**20.09**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	85763.72
Denominator	Total VAT/GST collection during preceding year	4269.2712
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**-0.9**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-26.98
Denominator	Total Professional Tax collection during preceding year	3012.31
Unit	Percentage	

Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-19.89**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-144
Denominator	Number of construction permits during preceding year	7.24
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	26577
Denominator	Total labour force in the city	142113
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**111.06**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	23678
Denominator	Total number of vendors in the city	21320
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**2.8**
Formula:	*Numerator / Denominator*	

Numerator	Total number of slum and EWS households covered through formal/affordable housing	2287
Denominator	Total number of slum and EWS households in the city	816.31
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.35**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**1824846543780**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**27**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	23904221
Denominator	Total population of the city	885363
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**11.32**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	10020000
Denominator	Total population of the city	885363
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	NA
Denominator	Total area of the city (total area of all land uses)	186000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use	

	(amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	885363
Denominator	Area allocated for residential land use (in hectares)	57455177
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**124.85**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	254765
Denominator	Total number of households in the city	204056
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	116
Denominator	Total number of electricity connections in the city	295130
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**465**
Description	Total number of sustained electrical interruptions in a year	465
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.81**
Description	Sum of duration of all sustained electrical interruptions	12560

	in a year (in hours)	
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	13
Denominator	Total energy consumption from all sources	1708026000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.19**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	4253987.667
Denominator	Total quantum of water and waste water handled during the period	8296.5
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	1420689
Denominator	Total number of street light installations	60000
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	NA
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	1190.25
Unit	Percentage	
Benchmark	80%	

Indicator No: 10.9	Total energy consumption per capita	**0.48**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1708026000
Denominator	Total population of the city	885363
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	253
Denominator	Total area of the city (sq.km)	186
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.33**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	293
Denominator	Total population of the city	885363
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	23.42
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**1.11**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	21.4
Denominator	Total length of road network in the city	1920
Unit	Percentage	
Benchmark	>=50	

Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	0.14
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**197.5**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	395
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	50
Denominator	Total number of signalised intersections in the city	50
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**55.97**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	75
Denominator	Total available on-street parking spaces in the city	134
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**1.12**
Formula:	*Numerator / Denominator*	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Total length of footpaths (wider than 1.2 m) available in the city	43.08
Denominator	Total length of road network in the city	3840
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**629.82**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	359
Denominator	Total number of junctions/ intersections on major roads in the city	57
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**25.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	115
Denominator	Total number of public right-of-way areas in the city	448
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**45.36**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	92562
Denominator	Total number of households in the city	204056
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**312.24**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	276.45
Denominator	Total population of the city	885363
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	

Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	3853
Denominator	Total number of samples tested for water quality	3867
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**67.16**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	185.66
Denominator	Quantum of water put into the distribution system (mld)	276.45
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**1.15**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	1139
Denominator	Total number of water connections in the city	98907
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**4.48**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	26
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	581
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 13.1	Coverage of toilets	**190.34**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	196677
Denominator	Total number of properties in the city	103330
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**144.06**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	148854
Denominator	Total number of properties in the city	103330
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**25.37**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	53.86
Denominator	Total waste water generated in the city per day	212.27
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**17.71**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	340.11
Denominator	Total length of road network in the city	1920
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	235956
Denominator	Total number of households and establishments in the city	235956
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	520
Denominator	Total quantum of MSW generated in the city	520
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	8.45
Denominator	Average MSW generated in the city (tons per month)	15600
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**4**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	4
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**17.97**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	17.97

Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	93.67
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	93.67
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	2
Denominator	Total number of noise samples	8
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	84
Denominator	Total number of samples tested	84
Unit	Percentage	
Benchmark	100%

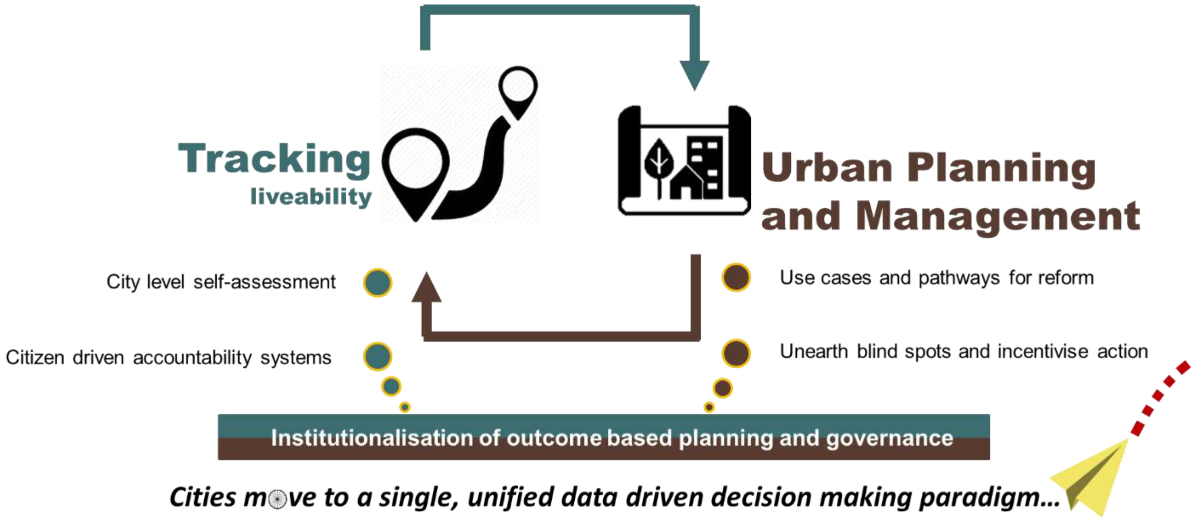
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

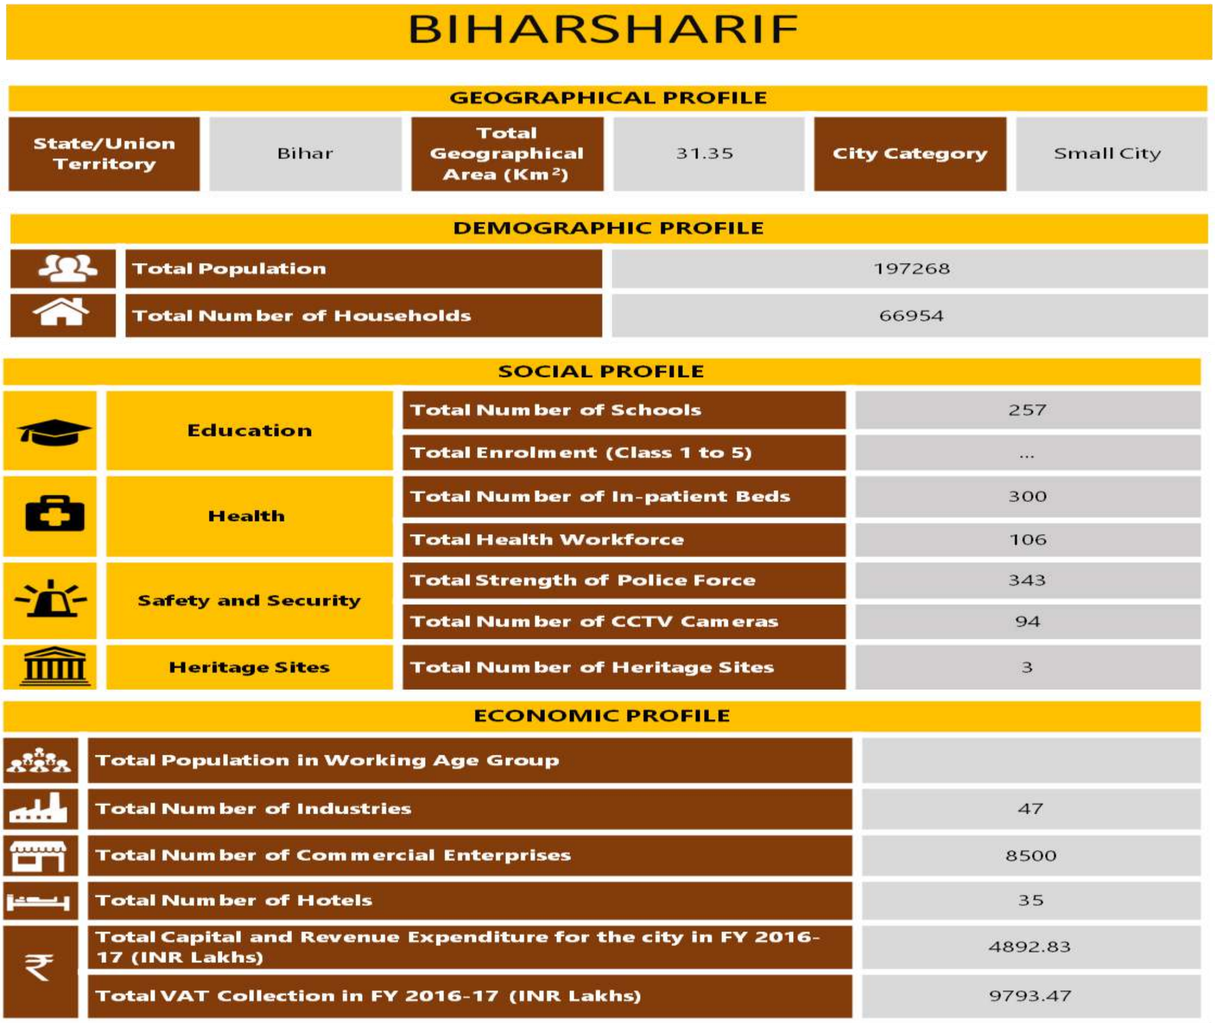


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BIHARSHARIF

GEOGRAPHICAL PROFILE

State/Union Territory	Bihar	Total Geographical Area (Km²)	31.35	City Category	Small City

DEMOGRAPHIC PROFILE

Total Population	197268
Total Number of Households	66954

SOCIAL PROFILE

Education	Total Number of Schools	257
	Total Enrolment (Class 1 to 5)	...
Health	Total Number of In-patient Beds	300
	Total Health Workforce	106
Safety and Security	Total Strength of Police Force	343
	Total Number of CCTV Cameras	94
Heritage Sites	Total Number of Heritage Sites	3

ECONOMIC PROFILE

Total Population in Working Age Group	
Total Number of Industries	47
Total Number of Commercial Enterprises	8500
Total Number of Hotels	35
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	4892.83
Total VAT Collection in FY 2016-17 (INR Lakhs)	9793.47

PHYSICAL PROFILE			
	Water	**Average Quantity of Water Supplied (MLD)**	11.5
		Total Number of Water Connection	28050
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	34000
		Total number of households in the city with access to community toilets in the city	400
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	160
		Total number of households covered through door-to-door collection of solid waste	44465
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	9.2
		Daily average quantity of waste water treated by STPs in the city (MLD)	...
	Electricity	**Total number of authorized electrical connections in the city**	50938
		Total electricity supplied to the city (kWh)	174204000
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	3000
	Roads and Transport	**Total Length of Road Network in the City (Km)**	404
		Total length of arterial and sub-arterial road network in the city (Km)	404
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary

Pillars of Comprehensive Development	Category	Indicators
		education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

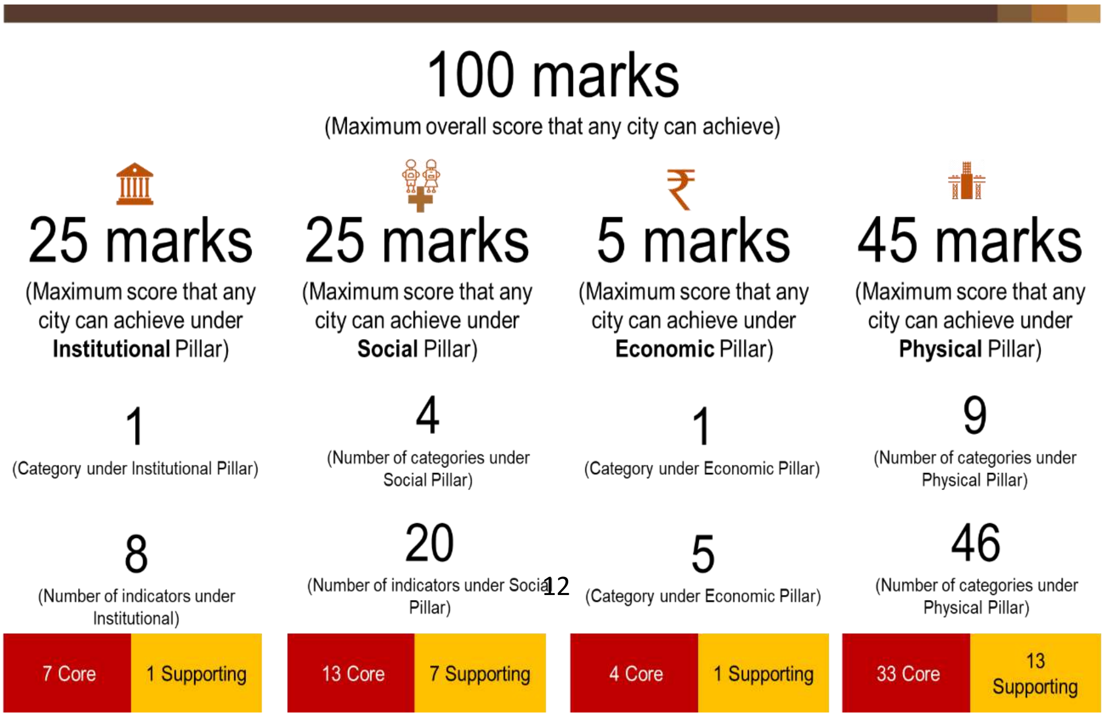
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission

of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account Department, Bihar Sharif Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Engineering Department, Bihar Sharif Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Engineering Department, Bihar Sharif Municipal Corporation
Urban Local Body	For Heritage sites related data	Bihar Sharif Municipal Corporation
Urban Local Body	For Ecological sites related data	Bihar Sharif Municipal Corporation
Urban Local Body	For Housing related data	Social development Section, Bihar Sharif Municipal Corporation
Urban Local Body	For Building plan related data	Engineering Department, Bihar Sharif Municipal Corporation
Urban Local Body	For Roads related data	Engineering Department, Bihar Sharif Municipal Corporation
Urban Local Body	For Solid waste management related data	Bihar Sharif Municipal Corporation
Urban Local Body	For IT services related data	IT section, Bihar Sharif Municipal Corporation
Urban Local Body	For Vendor committee related data	Social Development Section, Bihar Sharif Municipal Corporation

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	State Pollution Control Board, Bihar
Development Authority	Building Infrastructure	Engineering Department, Bihar Sharif Municipal Corporation
	Construction planning	Engineering Department, Bihar Sharif Municipal Corporation
	Green Building	Engineering Department, Bihar Sharif Municipal Corporation
	Rain water harvesting	Engineering Department, Bihar Sharif Municipal Corporation
	Universal Design Principle	Engineering Department, Bihar Sharif Municipal Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Bihar Power Distribution Corporation Limited
State Disaster management authority		District Collectorate Office
State Education Department		District Education Department
State Health Department	Health care professionals	Civil Surgeon Office
	Citizen Services	Civil Surgeon Office
	Disease Prevalence	Civil Surgeon Office
	Health Infrastructure	Civil Surgeon Office
State Renewable Energy Development Agency		Bihar Renewable Energy Development Authority
State Sales / Commercial Taxes Department		State Commercial and Tax department
Town and Country Planning Department	Land Use	Bihar Sharif Municipal Corporation
Traffic and Police Department		Office of Senior Superintendent of Police
Transport Authorities	Buses	District Transport office
	Registered Vehicles	District Transport office
	Sub urban rail transport	
	Mono Rail Authority	
	Tramways	
	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 9 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	1
DISCOM/Electricity Department	2
Traffic and Police Department	1
Development Authority	0
Pollution Control Board	0
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	1
Transport Authority	1
Disaster Management	1
Urban Local Body	1
Total	9*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team

to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

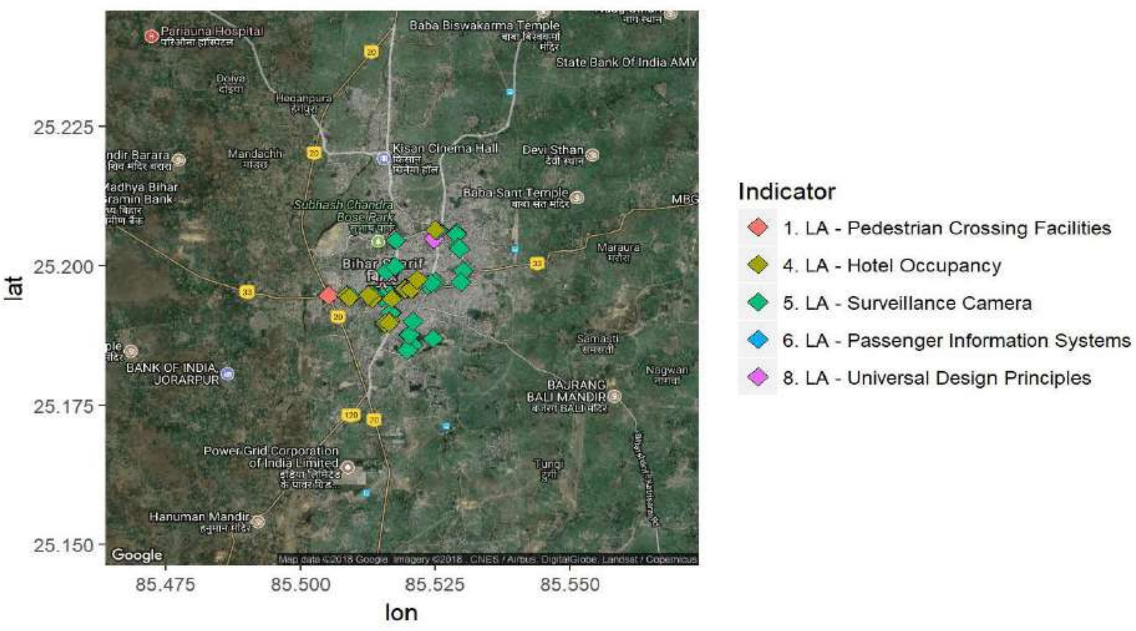
11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.



lat

Google
Indicator
1. LA - Pedestrian Crossing Facilities
4. LA - Hotel Occupancy
5. LA - Surveillance Camera
6. LA - Passenger Information Systems
8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	54.21
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75

	1.1b death certificate	0.75
	1.1c trade license	0.5
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0.333333333
	1.1g fogging	0

Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	141.41
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	707.873
Denominator	Total demand raised for the year	500.578
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	11.59
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	38.25
Denominator	Total O&M cost for providing water supply services during the year	330

Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	264.62
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-6849.64172
Denominator	Total expenditure (revenue and capital accounts) in the same year	-2588.45728
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	0
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	46
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	66.67
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	2
Denominator	Total number of historic buildings/sites identified	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	100
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	1
Denominator	Total number of ecologically important sites identified in the city	1
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	7.14
Description	Average Occupancy rate of Hotels	7.142857143
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	2.08
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	102
Denominator	Total budget of the ULB (capital and revenue)	4892.83
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	67
Description	Number of cultural/sports events hosted by the city authority in the preceding year	67
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	Data Unavailable
Denominator	Total population in the age group of 6-14 years	74855
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	Non-Computable
Formula:	*Numerator / Denominator*	

Numerator	Total female enrolment in primary and secondary schools (public and private	Data Unavailable
Denominator	Total female population in the age group of 6-14 years	36107
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	Data Unavailable
Denominator	Total number of teachers available for primary grades (public and private schools)	907
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	22.96
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	59
Denominator	Total number of schools	257
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	#VALUE!
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	#VALUE!
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	Non-Computable
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	Data Unavailable

Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	10.09
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	300
Denominator	Total population of the city	297268
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	3.57
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	106
Denominator	Total population of the city	297268
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	Non-Computable
Description	Total response time for health-related distress calls received in the city	Data Unavailable
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	0.02
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	66
Denominator	Total population of the city	297268
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 4.5	Period prevalence of vector borne diseases	0.01
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	35
Denominator	Total population of the city	297268
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	23.27
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	94
Denominator	Total length of road network in the city	404
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	546.64
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	1625
Denominator	Total population of the city	297268
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	17.05
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	277
Denominator	Total crimes recorded in the same year	1625
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	9.42

Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	28
Denominator	Total population of the city	297268
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	-5.83
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-543.65
Denominator	Total VAT/GST collection during preceding year	93.2712
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	14.44
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	10.85038
Denominator	Total Professional Tax collection during preceding year	75.11962
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	-22.14
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-95
Denominator	Number of construction permits during preceding year	4.29
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	9141
Denominator	Total labour force in the city	74855
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this	

	document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	0
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	2458
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	99.8
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	3021
Denominator	Total number of slum and EWS households in the city	30.27
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	Non-Computable Data Unavailable
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	0.01
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	3000
Denominator	Total population of the city	297268

Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	0.67
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	198900
Denominator	Total population of the city	297268
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	NA
Denominator	Total area of the city (total area of all land uses)	23600000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	297268
Denominator	Area allocated for residential land use (in hectares)	NA
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	64.94
Formula:	*Numerator / Denominator*	

Numerator	Number of authorized electrical connections at household level	43483
Denominator	Total number of households in the city	66954
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	95.47
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	48628
Denominator	Total number of electricity connections in the city	50938
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	16570
Description	Total number of sustained electrical interruptions in a year	16570
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	0
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	451011
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	0
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	75
Denominator	Total energy consumption from all sources	174204000
Unit	Percentage	

Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	NC
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	103968
Denominator	Total quantum of water and waste water handled during the period	NA
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	0.35
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	396000
Denominator	Total number of street light installations	4146
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	NC
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	0.79
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	174204000
Denominator	Total population of the city	297268
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated	

	as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	NA
Denominator	Total area of the city (sq.km)	23.6
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	NA
Denominator	Total population of the city	297268
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	To be computed
Description	Mode share of public transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	404
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA

Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	To be computed
Description	Mode share of non-motorised transport	5
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	1
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	0
Denominator	Total length of road network in the city	808
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	NA
Denominator	Total number of junctions/ intersections on major roads in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	Data Unavailable
Denominator	Total number of public right-of-way areas in the city	100
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	37.64
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	25200
Denominator	Total number of households in the city	66954
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	38.69

Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	11.5
Denominator	Total population of the city	297268
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	90
Denominator	Total number of samples tested for water quality	90
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	11.5
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	NA
Denominator	Total number of water connections in the city	28050
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings	Data

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

	with RWH facility	Unavailable
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	988
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	73.93
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	34906
Denominator	Total number of properties in the city	47218
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	100
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	47218
Denominator	Total number of properties in the city	47218
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	NA
Denominator	Total waste water generated in the city per day	9.2
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	Data Unavailable

Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	0
Denominator	Total length of road network in the city	404
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	70.2
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	52965
Denominator	Total number of households and establishments in the city	75454
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	100
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	160
Denominator	Total quantum of MSW generated in the city	160
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	NA
Denominator	Average MSW generated in the city (tons per month)	4800

Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	Concentration of SO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	Concentration of NO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	Concentration of PM10 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	Level of noise pollution	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	Quality of water in public surface water bodies	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	Data Unavailable
Denominator	Total number of samples tested	Data Unavailable

Unit	Percentage	
Benchmark	100%

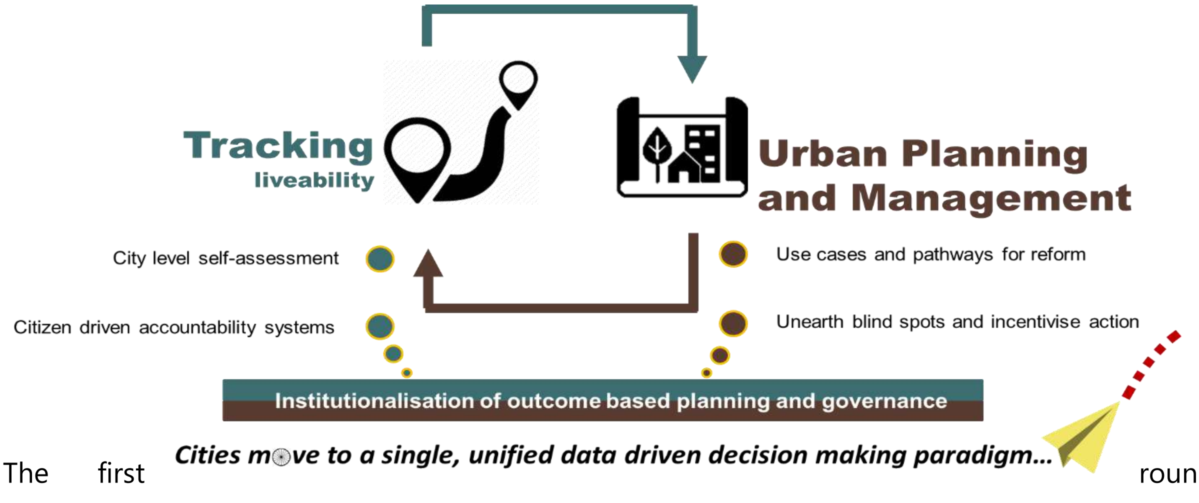
Table 5: Details of Indicator Values.....16

1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

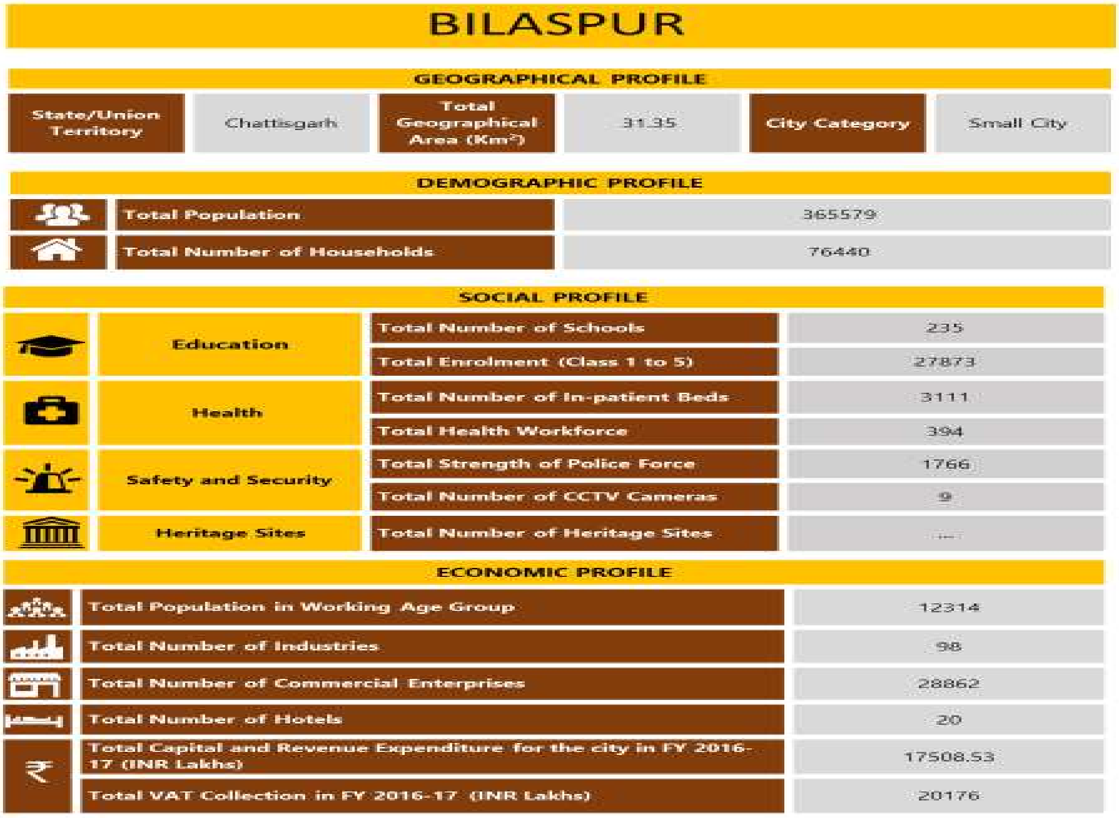


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



BILASPUR

GEOGRAPHICAL PROFILE

State/Union Territory	Chattisgarh	**Total Geographical Area (Km²)**	31.35	**City Category**	Small City

DEMOGRAPHIC PROFILE

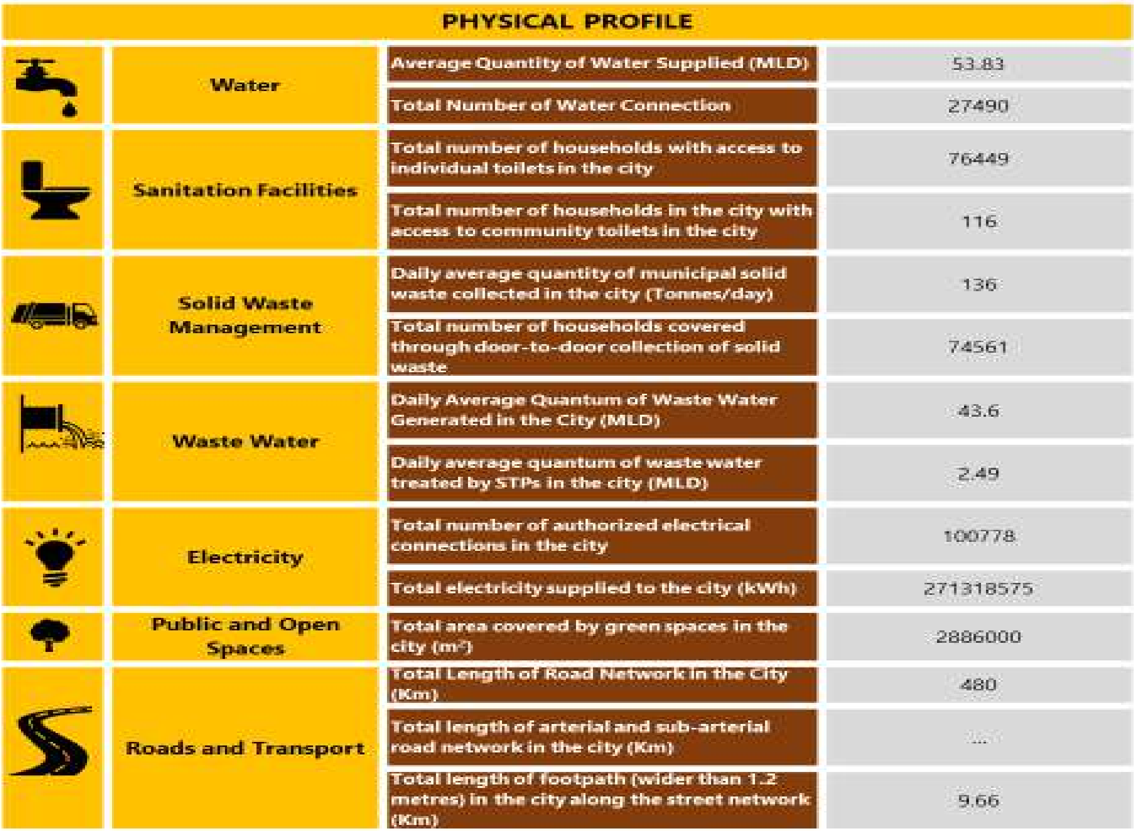
Total Population	365579
Total Number of Households	76440

SOCIAL PROFILE

Education	**Total Number of Schools**	235
	Total Enrolment (Class 1 to 5)	27873
Health	**Total Number of In-patient Beds**	3111
	Total Health Workforce	394
Safety and Security	**Total Strength of Police Force**	1766
	Total Number of CCTV Cameras	9
Heritage Sites	**Total Number of Heritage Sites**	---

ECONOMIC PROFILE

Total Population in Working Age Group	12314
Total Number of Industries	98
Total Number of Commercial Enterprises	28862
Total Number of Hotels	20
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	17508.53
Total VAT Collection in FY 2016-17 (INR Lakhs)	20176



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	53.83
	Total Number of Water Connection	27490
Sanitation Facilities	Total number of households with access to individual toilets in the city	76449
	Total number of households in the city with access to community toilets in the city	116
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	136
	Total number of households covered through door-to-door collection of solid waste	74561
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	43.6
	Daily average quantum of waste water treated by STPs in the city (MLD)	2.49
Electricity	Total number of authorized electrical connections in the city	100778
	Total electricity supplied to the city (kWh)	271318575
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	2886000
Roads and Transport	Total Length of Road Network in the City (Km)	480
	Total length of arterial and sub-arterial road network in the city (Km)	...
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	9.66

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year

Pillars of Comprehensive Development	Category	Indicators
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport

Pillars of Comprehensive Development	Category	Indicators
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

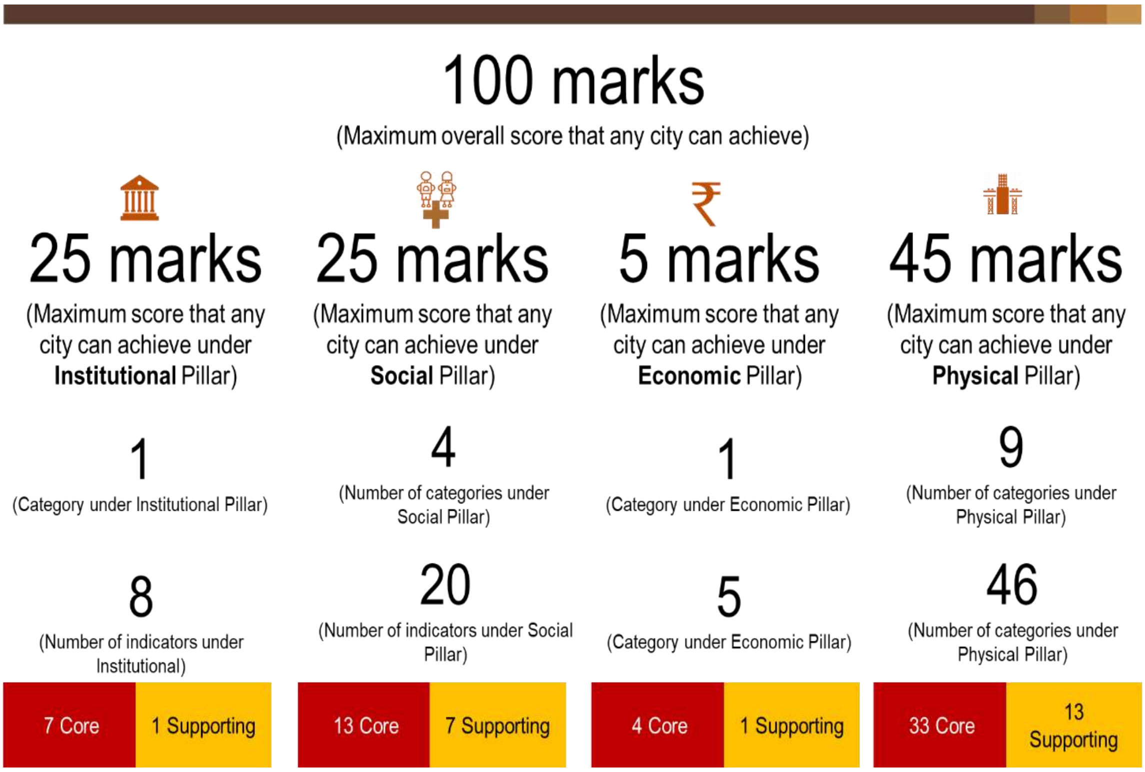
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks
(Maximum score that any city can achieve under **Institutional** Pillar)
1
(Category under Institutional Pillar)
8
(Number of indicators under Institutional)
7 Core | 1 Supporting

25 marks
(Maximum score that any city can achieve under **Social** Pillar)
4
(Number of categories under Social Pillar)
20
(Number of indicators under Social Pillar)
13 Core | 7 Supporting

5 marks
(Maximum score that any city can achieve under **Economic** Pillar)
1
(Category under Economic Pillar)
5
(Category under Economic Pillar)
4 Core | 1 Supporting

45 marks
(Maximum score that any city can achieve under **Physical** Pillar)
9
(Number of categories under Physical Pillar)
46
(Number of categories under Physical Pillar)
33 Core | 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department, BMC
Urban Local Body	For Park and Recreation Related Questions	AMRUT, BMC
Urban Local Body	For Water Supply and Drainage related questions	Water Supply Department, BMC
Urban Local Body	For Heritage sites related data	Indian National Trust for Art and Culture Heritage
Urban Local Body	For Ecological sites related data	NA
Urban Local Body	For Housing related data	Bilaspur Municipal Corporation
Urban Local Body	For Building plan related data	Bilaspur Development Authority
Urban Local Body	For Roads related data	Bilaspur Municipal Corporation
Urban Local Body	For Solid waste management related data	Solid waste management Department, Bilaspur Municipal Corporation
Urban Local Body	For IT services related data	IT Section, BMC
Urban Local Body	For Vendor committee related data	Bazzar Bibhag, BMC
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Employment Exchange, Census Department
For questions under Central / state Pollution	Water Quality, Air Quality, Noise Quality	Chhattisgarh Pollution Control Board

Designated data owners	Subcategories	Data owners at city level
control Board		
Development Authority	Building Infrastructure	Bilaspur Development Authority Bilaspur Municipal Corporation
	Construction planning	Bilaspur Development Authority Bilaspur Municipal Corporation
	Green Building	Bilaspur Development Authority Bilaspur Municipal Corporation
	Rain water harvesting	Bilaspur Development Authority Bilaspur Municipal Corporation
	Universal Design Principle	Bilaspur Development Authority Bilaspur Municipal Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Chhattisgarh State Power Distribution Corporation Limited
State Disaster management authority		Bilaspur Smart city Limited
State Education Department		District Education Department
State Health Department	Health care professionals	Chhattisgarh Medical and Health organization
State Health Department	Citizen Services	Chhattisgarh Medical and Health organization
State Health Department	Disease Prevalence	Chhattisgarh Medical and Health organization
State Health Department	Health Infrastructure	Chhattisgarh Medical and Health organization
State Renewable Energy Development Agency		Chhattisgarh Renewable Energy Development Authority
State Sales / Commercial Taxes Department		State Sale Tax department
Town and Country Planning Department	Land Use	Town and country planning department, BMC
Traffic and Police Department		Police department, Bilaspur
Transport Authorities	Buses	City Bus In charge, BMC
Transport	Registered Vehicles	Road and Transport organization,

Designated data owners	Subcategories	Data owners at city level
Authorities		Bilaspur
Transport Authorities	Sub urban rail transport	
Transport Authorities	Mono Rail Authority	
Transport Authorities	Tramways	
Transport Authorities	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 112 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	2
State Education Department	8
DISCOM/Electricity Department	11
Traffic and Police Department	9
Development Authority	1
Pollution Control Board	5
State Renewable Energy Department	3
Town and Country Planning	0
State Health Department	19
Transport Authority	1
Disaster Management	2
Urban Local Body	51
Total	112*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**71.15**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	0.25
	1.1e water supply	1
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Builiding plan	1

Unit	Percentage	

Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.29**
Description		
Sub Indicators	1.4a water supply	1
	1.4b solid waste	0.5
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0.5
	1.4g building plan	0
Unit	Days	
Benchmark	0%	
Indicator No: 1.5	Tax collected as percentage of tax billed	**92.9**
Formula :	*Numerator / Denominator*	
Numerator	Total tax collected in a year	1859.64
Denominator	Total demand raised for the year	2001.79
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**145.83**
Formula :	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	462.87
Denominator	Total O&M cost for providing water supply services during the year	317.41
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**24.14**
Formula :	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	7116.81
Denominator	Total expenditure (revenue and capital accounts) in the same year	29483.93
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area Sabhas	**100**
Formula :	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	66

Denominator	Total number of wards	66
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as a benchmark	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**15.29**
Description	Average Occupancy rate of Hotels	15.28571429
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0.12**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	21.64
Denominator	Total budget of the ULB (capital and revenue)	17508.53

Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**20**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	20
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**69.62**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	45610
Denominator	Total population in the age group of 6-14 years	65516
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**70.65**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	22065
Denominator	Total female population in the age group of 6-14 years	31233
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**30.4**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	27873
Denominator	Total number of teachers available for primary grades (public and private schools)	917
Unit	Ratio	
Benchmark	1 teacher for every 30 students	

Indicator No: 3.4	**Percentage of schools with access to digital education**	**18.3**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	43
Denominator	Total number of schools	235
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**65.21**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	65.21175235
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	**88.7**
Indicator No: 3.6	**Percentage of students completing secondary education**	34572191
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	
Unit	Percentage	**69.62**
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**85.1**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	3111
Denominator	Total population of the city	365579
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No:	**Healthcare professionals per 10,000 population**	**10.78**

4.2		
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	394
Denominator	Total population of the city	365579
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**30**
Description	Total response time for health-related distress calls received in the city	30
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.61**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	2229
Denominator	Total population of the city	365579
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.14**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	525
Denominator	Total population of the city	365579
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**1.88**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	9
Denominator	Total length of road network in the city	480
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**867.12**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	3170
Denominator	Total population of the city	365579
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**44.29**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1404
Denominator	Total crimes recorded in the same year	3170
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**72.76**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	266
Denominator	Total population of the city	365579
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**22.74**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	3738
Denominator	Total VAT/GST collection during preceding year	164.38
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	0
Denominator	Total Professional Tax collection during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-18.55**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-118
Denominator	Number of construction permits during preceding year	6.36
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	16734
Denominator	Total labour force in the city	65516
Unit	Per 1000 persons	

Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	1637.9
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**191.43**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	13829
Denominator	Total number of slum and EWS households in the city	72.24
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**0.28**
Formula:	*Numerator / Denominator*	730158984
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	
Benchmark	100%	**191.43**

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**7.89**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	2886000
Denominator	Total population of the city	365579
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.87**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	682996.14
Denominator	Total population of the city	365579
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	31350000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	365579
Denominator	Area allocated for residential land use (in hectares)	19500000

Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**106.72**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	81573
Denominator	Total number of households in the city	76440
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	100778
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**34**
Description	Total number of sustained electrical interruptions in a year	34
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	215

Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	1787.58
Denominator	Total energy consumption from all sources	271318575
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.3**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1161704.5
Denominator	Total quantum of water and waste water handled during the period	1689.69
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	8631323
Denominator	Total number of street light installations	18960
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	93216.52

Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.79**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	271318575
Denominator	Total population of the city	365579
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.59**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	26.6
Denominator	Total area of the city (sq.km)	31.35
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	3
Denominator	Total population of the city	365579
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	32
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated**	**0**

	bicycle tracks	
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	480
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	0
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	26
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	0
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	9

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	0
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**1.01**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	9.66
Denominator	Total length of road network in the city	960
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	9
Denominator	Total number of junctions/ intersections on major roads in the city	9
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**50.78**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	130
Denominator	Total number of public right-of-way areas in the city	256
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**32.88**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	25132
Denominator	Total number of households in the city	76440
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**147.25**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	53.833
Denominator	Total population of the city	365579
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	865
Denominator	Total number of samples tested for water quality	890
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Quantum of water put into the distribution system (mld)	53.833
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	27490
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**19.34**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	129
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	667
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**118.93**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	76786
Denominator	Total number of properties in the city	64563
Unit	Percentage	
Benchmark	100%	

Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**68.42**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	44173
Denominator	Total number of properties in the city	64563
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**5.71**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	2.49
Denominator	Total waste water generated in the city per day	43.6
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	2.49
Denominator	Total waste water received at treatment plants per day	2.49
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**80.02**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	384.1
Denominator	Total length of road network in the city	480
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**98.22**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	103423
Denominator	Total number of households and establishments in the city	105302
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**97.14**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	136
Denominator	Total quantum of MSW generated in the city	140
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**99.26**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	4050
Denominator	Average MSW generated in the city (tons per month)	4080
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**6.08**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	6.08
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**19.23**

Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	19.23
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**75.06**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	75.06
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	60
Denominator	Total number of noise samples	90
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**97.78**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	44
Denominator	Total number of samples tested	45
Unit	Percentage	
Benchmark	100%

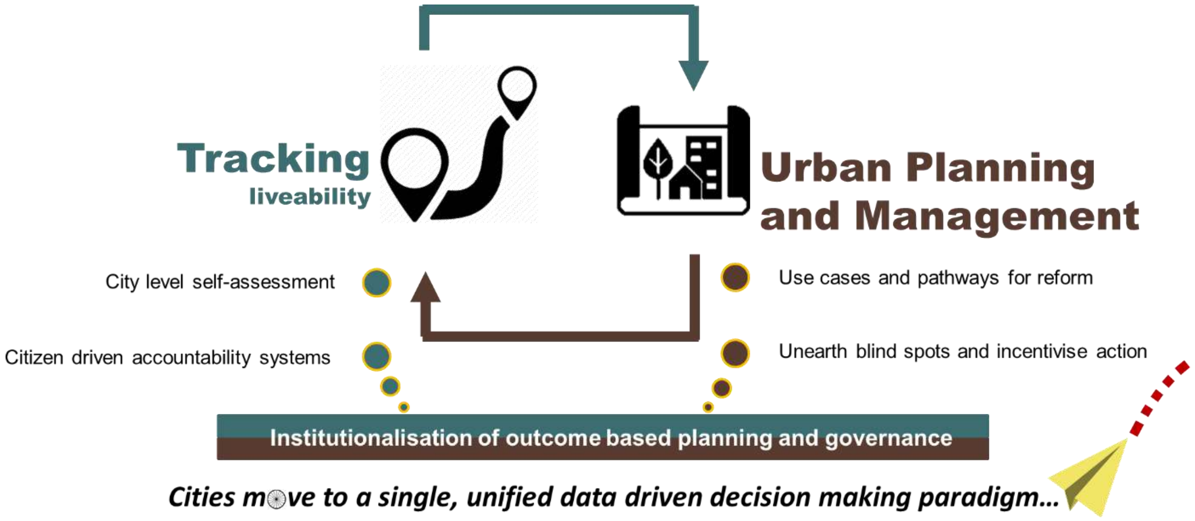
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

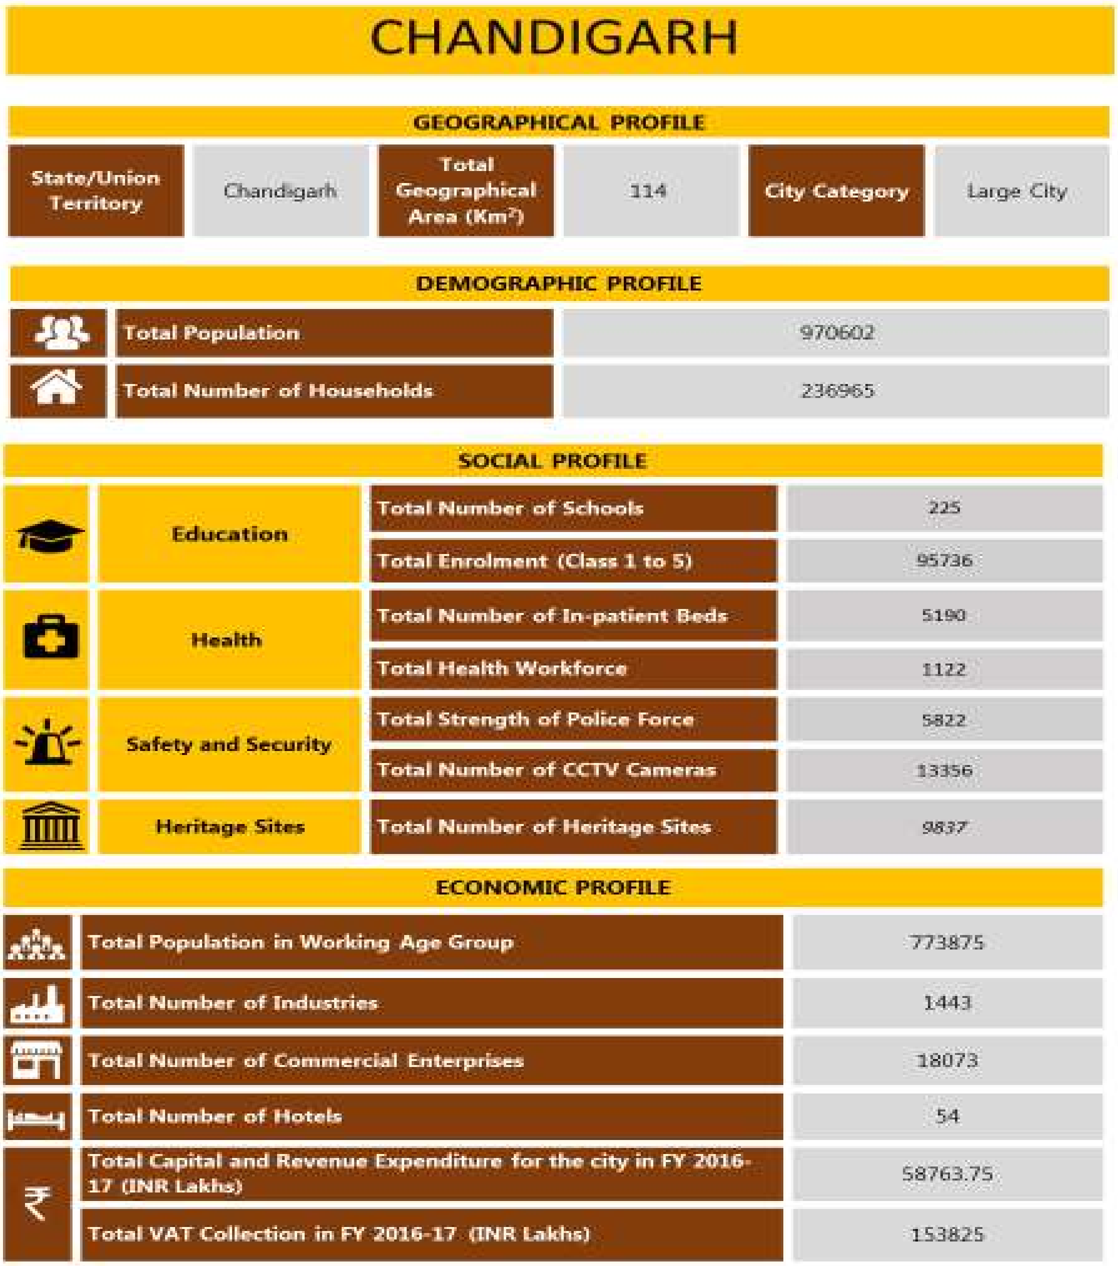


Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



CHANDIGARH

GEOGRAPHICAL PROFILE

State/Union Territory	Chandigarh	Total Geographical Area (Km^2)	114	City Category	Large City

DEMOGRAPHIC PROFILE

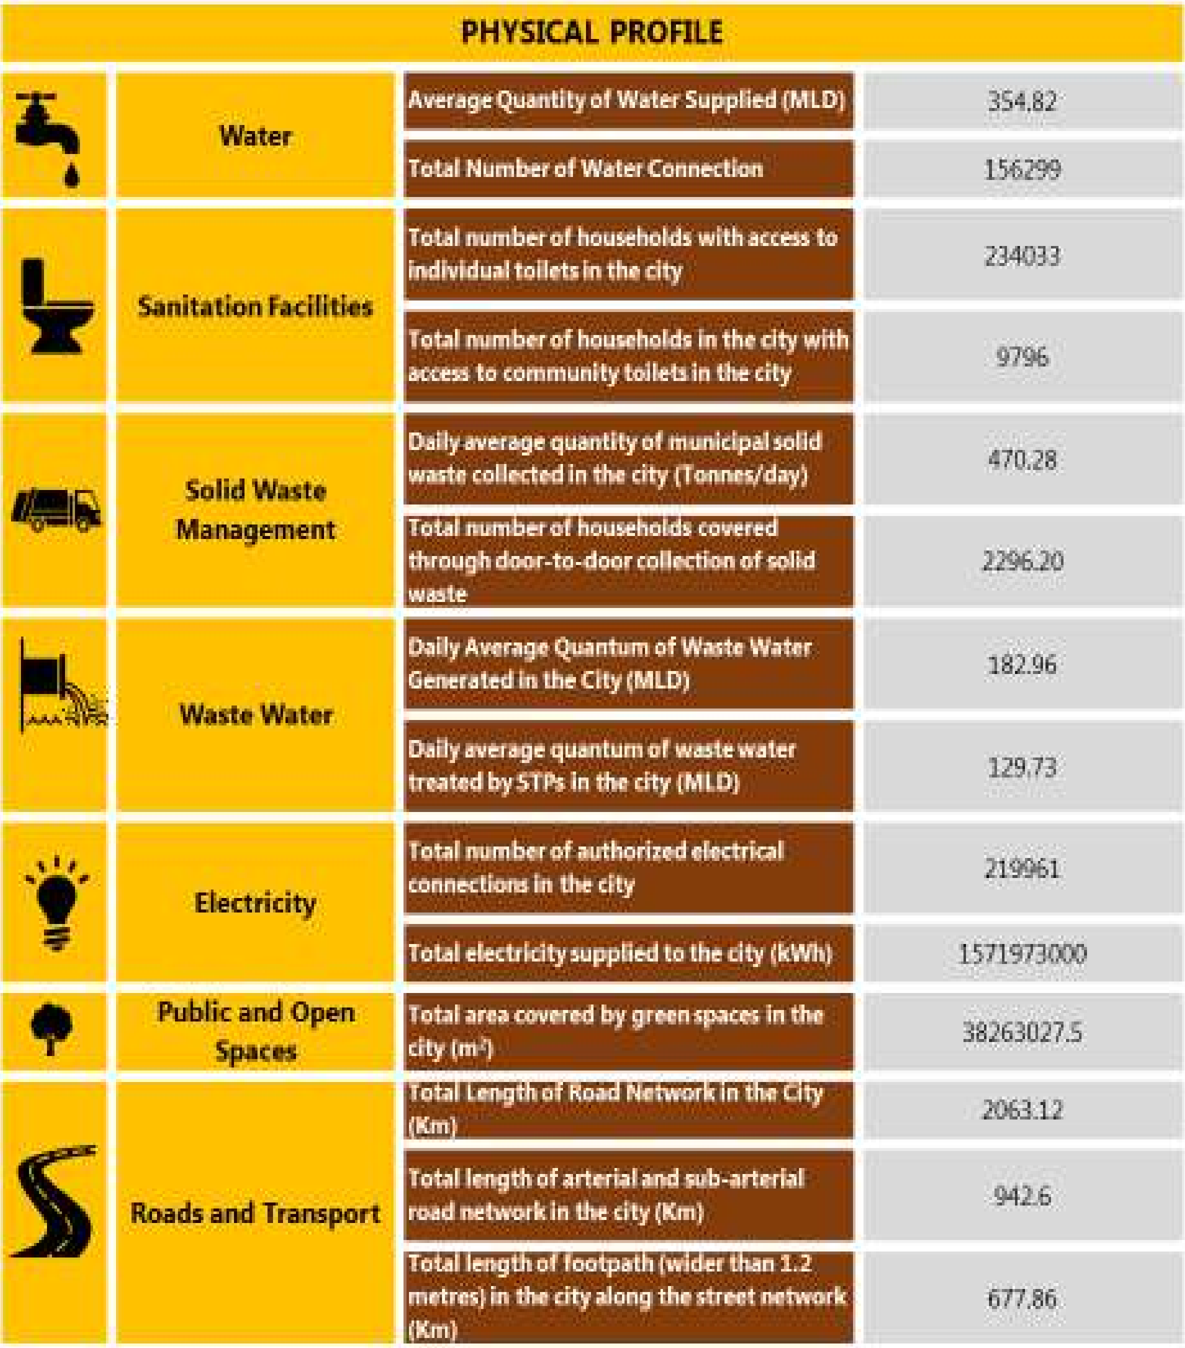
Total Population	970602
Total Number of Households	236965

SOCIAL PROFILE

Education	Total Number of Schools	225
	Total Enrolment (Class 1 to 5)	95736
Health	Total Number of In-patient Beds	5190
	Total Health Workforce	1122
Safety and Security	Total Strength of Police Force	5822
	Total Number of CCTV Cameras	13356
Heritage Sites	Total Number of Heritage Sites	9837

ECONOMIC PROFILE

Total Population in Working Age Group	773875
Total Number of Industries	1443
Total Number of Commercial Enterprises	18073
Total Number of Hotels	54
₹ Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	58763.75
Total VAT Collection in FY 2016-17 (INR Lakhs)	153825



PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	354.82
	Total Number of Water Connection	156299
Sanitation Facilities	Total number of households with access to individual toilets in the city	234033
	Total number of households in the city with access to community toilets in the city	9796
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	470.28
	Total number of households covered through door-to-door collection of solid waste	2296.20
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	182.96
	Daily average quantum of waste water treated by STPs in the city (MLD)	129.73
Electricity	Total number of authorized electrical connections in the city	219961
	Total electricity supplied to the city (kWh)	1571973000
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	38263027.5
Roads and Transport	Total Length of Road Network in the City (Km)	2063.12
	Total length of arterial and sub-arterial road network in the city (Km)	942.6
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	677.86

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	Category	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources

Pillars of Comprehensive Development	Category	Indicators
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection

Pillars of Comprehensive Development	Category	Indicators
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

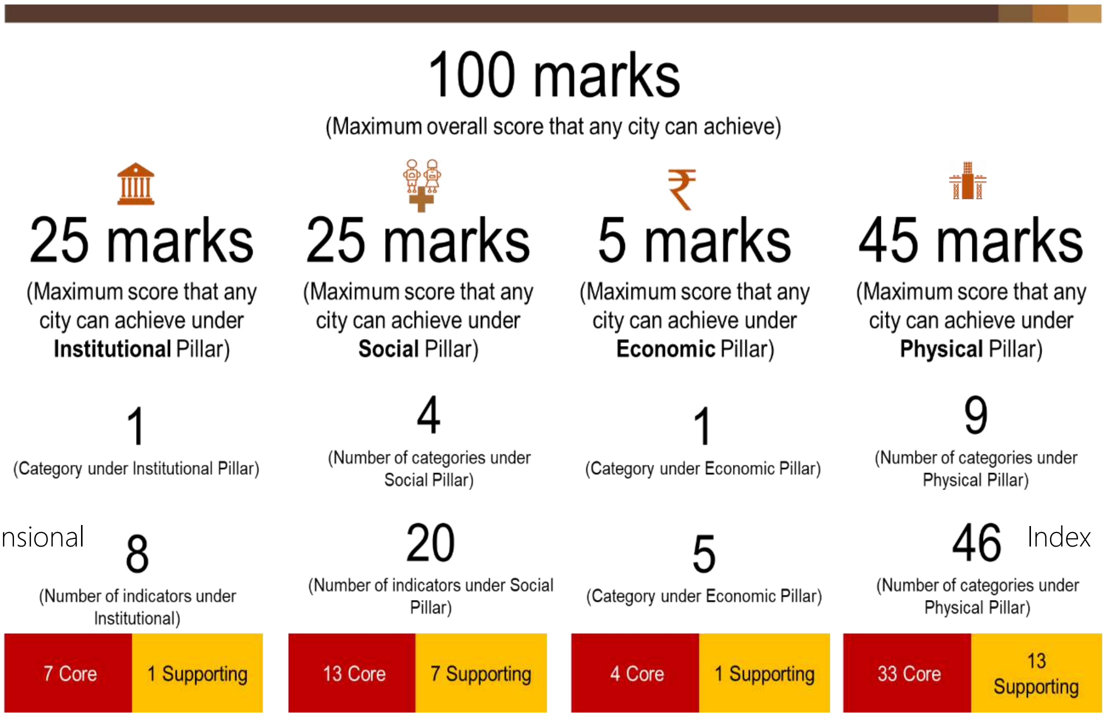
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under Institutional Pillar)
25 marks
(Maximum score that any city can achieve under Social Pillar)
5 marks
(Maximum score that any city can achieve under Economic Pillar)
45 marks
(Maximum score that any city can achieve under Physical Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts department(ULB)
Urban Local Body	For Park and Recreation Related Questions	Sports , Horticulture department , ULB
Urban Local Body	For Water Supply and Drainage related questions	Water Supply department
Urban Local Body	For Heritage sites related data	Town and country planning department
Urban Local Body	For Ecological sites related data	Town and country planning department
Urban Local Body	For Housing related data	Housing Board
Urban Local Body	For Building plan related data	Building branch (Estate office)
Urban Local Body	For Roads related data	Roads and building department(ULB)
Urban Local Body	For Solid waste management related data	Health and sanitation department(ULB)
Urban Local Body	For IT services related data	IT department(ULB)
Urban Local Body	For Vendor committee related data	Vender cell(ULB)
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Tourism department, Excise and taxes department, architecture department
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Chandigarh pollution control committee (CPCC)
Development Authority	Building Infrastructure	Building branch (Estate office)
	Construction planning	Building branch (Estate office)
	Green Building	Building branch (Estate office)
	Rain water harvesting	Building branch (Estate office)
	Universal Design Principle	Building branch (Estate office)
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Electricity Board
State Disaster management authority		State Disaster Management Authority

Designated data owners	Subcategories	Data owners at city level
State Education Department		State Education Department
State Health Department	Health care professionals	State Health Department
	Citizen Services	State Health Department
	Disease Prevalence	State Health Department
	Health Infrastructure	State Health Department
State Renewable Energy Development Agency		Chandigarh Renewable Energy and science & technology (CREST)
State Sales / Commercial Taxes Department		Sales / Commercial Taxes Department
Town and Country Planning Department	Land Use	Town and Country Planning Department (UT Secretariat)
Traffic and Police Department		Traffic and Police Department
Transport Authorities	Buses	State transport Authority(STA) and Chandigarh Transport Undertaking (CTU)
	Registered Vehicles	Registering and licensing authority(RLA) and State transport Authority(STA)
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 77 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1

State Education Department	6
DISCOM/Electricity Department	5
Traffic and Police Department	17
Development Authority	1
Pollution Control Board	5
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	6
Transport Authority	13
Disaster Management	1
Urban Local Body	22
Total	77*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for 74 indicators excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**34.12**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	0
	1.1d solid waste management	0.5
	1.1e water supply	0.333333333
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.333333333
	1.1i professional tax	0
	1.1j information	0.769230769
	1.1k Grievance redressal	1
	1.1l electricity	0.5
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**4.76**
Description	Services integrated through an integrated or a singular operations command centre	1
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**2.14**
Description		

Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.021426526
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**3.6**
Description		
Sub Indicators	1.4a water supply	5
	1.4b solid waste	0
	1.4c street lights	6
	1.4d sewerage	7
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	NA
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**110.49**

Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	2060
Denominator	Total demand raised for the year	1864.4
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**50.61**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	7164
Denominator	Total O&M cost for providing water supply services during the year	14155.73
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**-22.23**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-22066.2
Denominator	Total expenditure (revenue and capital accounts) in the same year	99252.4
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	26
Denominator	Total number of wards	26
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	9837
Denominator	Total number of historic buildings/sites identified	9837
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**100**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	2
Denominator	Total number of ecologically important sites identified in the city	2
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**47.86**
Description	Average Occupancy rate of Hotels	47.85714286
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.1**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	57.75
Denominator	Total budget of the ULB (capital and revenue)	58763.75
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**188**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	188
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**96.08**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	161360
Denominator	Total population in the age group of 6-14 years	167942
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**99.12**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	74938
Denominator	Total female population in the age group of 6-14 years	75604
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**26.93**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	95736
Denominator	Total number of teachers available for primary grades (public and private schools)	3555
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**80.89**
Formula:	*Numerator / Denominator*	

Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	182
Denominator	Total number of schools	225
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	144.24
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	144.24
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	103.74
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	103.74
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**53.47**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	5190
Denominator	Total population of the city	970602
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**11.56**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	1122
Denominator	Total population of the city	970602
Unit	Number per 10,000 population	

Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**16**
Description	Total response time for health-related distress calls received in the city	16
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.61**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	5943
Denominator	Total population of the city	970602
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.13**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	1264
Denominator	Total population of the city	970602
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**647.37**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	13356
Denominator	Total length of road network in the city	2063.12
Unit	Percentage	
Benchmark	100%	

Indicator No: 5.2	Number of recorded crimes per lakh population	**562.74**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	5462
Denominator	Total population of the city	970602
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**13.86**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	757
Denominator	Total crimes recorded in the same year	5462
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**11.02**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	107
Denominator	Total population of the city	970602
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**7.95**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	11335
Denominator	Total VAT/GST collection during preceding year	1424.9

Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-19.9**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-76
Denominator	Number of construction permits during preceding year	3.82
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	3118
Denominator	Total labour force in the city	167942
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	

Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**2.15**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	465
Denominator	Total number of vendors in the city	21622
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**67.12**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	25155
Denominator	Total number of slum and EWS households in the city	374.78
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**Non-Computable**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**39.42**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	38263027.5

Denominator	Total population of the city	970602
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**35.08**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	34047431
Denominator	Total population of the city	970602
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**1.85**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	2111370
Denominator	Total area of the city (total area of all land uses)	114000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 9.2	Net Density	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	970602
Denominator	Area allocated for residential land use (in hectares)	43976580
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**80.79**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	191436
Denominator	Total number of households in the city	236965
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	219961
Unit	Percentage	

Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**Non-Computable**
Description	Total number of sustained electrical interruptions in a year	Data Unavailable
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**NC**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	Data Unavailable
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	21413
Denominator	Total energy consumption from all sources	1571973000
Unit	Percentage	

Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.12**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	10962050.92
Denominator	Total quantum of water and waste water handled during the period	14536.5
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	63351724
Denominator	Total number of street light installations	48524
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	

Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.53**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1571973000
Denominator	Total population of the city	970602
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.7**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	1199
Denominator	Total area of the city (sq.km)	114
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.68**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	662
Denominator	Total population of the city	970602
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**

Description	Mode share of public transport	21.26
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**4.85**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	100
Denominator	Total length of road network in the city	2063.12
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	0.56
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**1**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	2
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**3.16**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	3
Denominator	Total number of signalised intersections in the city	95

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**16.43**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	677.86
Denominator	Total length of road network in the city	4126.24
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**84.02**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	142
Denominator	Total number of junctions/ intersections on major roads in the city	169
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	Data Unavailable
Denominator	Total number of public right-of-way areas in the city	1391
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**60.82**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply	144128

	connection	
Denominator	Total number of households in the city	236965
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**365.57**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	354.82
Denominator	Total population of the city	970602
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	3134
Denominator	Total number of samples tested for water quality	3204
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**25.4**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	90.12
Denominator	Quantum of water put into the distribution system (mld)	354.82
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**97.61**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	152565
Denominator	Total number of water connections in the city	156299
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of	Data

[2] The data for this indicator will be computed based on the primary data which is currently being collected

	designated plot size), commercial and public buildings with RWH facility	Unavailable
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	340
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**176.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	252263
Denominator	Total number of properties in the city	142534
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	142534
Denominator	Total number of properties in the city	142534
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	182.96
Denominator	Total waste water generated in the city per day	182.96
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	129.73
Denominator	Total waste water received at treatment plants per day	129.73
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**52.35**

Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	1080
Denominator	Total length of road network in the city	2063.12
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**90.03**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	229620
Denominator	Total number of households and establishments in the city	255038
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**96.97**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	470.282
Denominator	Total quantum of MSW generated in the city	485
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**0.22**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	31
Denominator	Average MSW generated in the city (tons per month)	14108.46
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**2**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	2
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	

Indicator No: 15.2	**Concentration of NO2 - air pollution**	**14.6**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	14.6
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**107.4**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	107.4
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	NA
Denominator	Total number of noise samples	0
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**75**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	9
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%

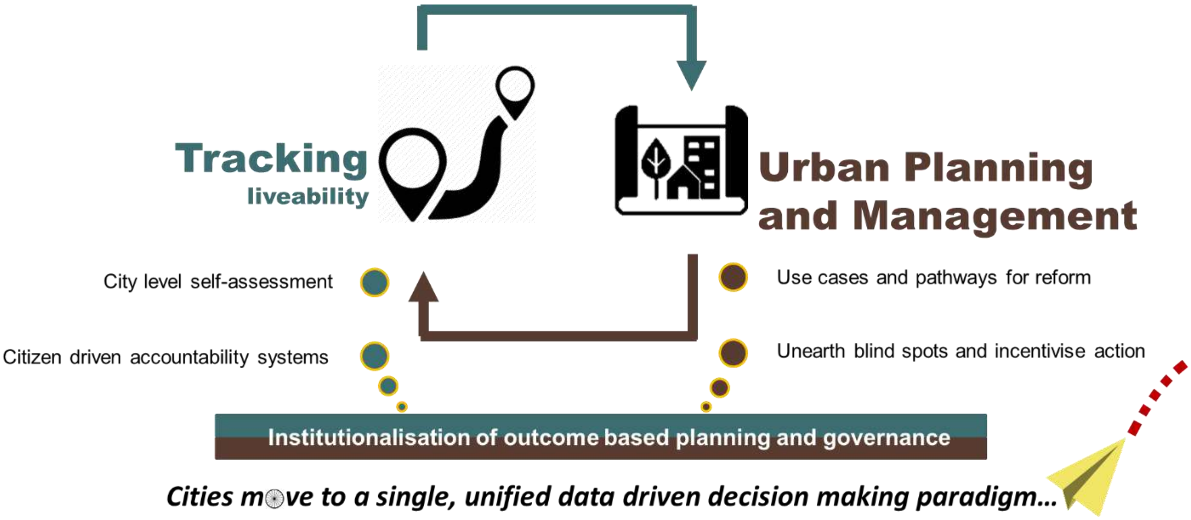
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

CHENNAI

GEOGRAPHICAL PROFILE

State/Union Territory	Tamil Nadu	**Total Geographical Area (Km^2)**	426	**City Category**	Megapolis

DEMOGRAPHIC PROFILE

Total Population	4646732
Total Number of Households	1211576

SOCIAL PROFILE

Education	**Total Number of Schools**	2207
	Total Enrolment (Class 1 to 5)	487622
Health	**Total Number of In-patients Beds**	32397
	Total Health Workforce	59562
Safety and Security	**Total Strength of Police Force**	22860
	Total Number of CCTV Cameras	51995
Heritage Sites	**Total Number of Heritage Sites**	41

ECONOMIC PROFILE

Total Population in Working Age Group	1906345
Total Number of Industries	24146
Total Number of Commercial Enterprises	119160
Total Number of Hotels	2827
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	455677.72
Total VAT Collection in FY 2016-17 (INR Lakhs)	5056100

PHYSICAL PROFILE

	Water	**Average Quantity of Water Supplied (MLD)**	1906345
		Total Number of Water Connections	24146
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	119160
		Total number of households in the city with access to community toilets in the city	2827
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	455677.72
		Total number of households covered through door-to-door collection of solid waste	5056100
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	1906345
		Daily average quantum of waste water treated by STPs in the city (MLD)	24146
	Electricity	**Total number of authorized electrical connections in the city**	119160
		Total electricity supplied to the city (kWh)	2827
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	455677.72
	Roads and Transport	**Total Length of Road Network in the City (Km)**	5056100
		Total length of arterial and sub-arterial road network in the city (Km)	1906345
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	24146

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population

Pillars of Comprehensive Development	Category	Indicators
		enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting

Pillars of Comprehensive Development	Category	Indicators
		facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks (Maximum score that any city can achieve under **Institutional** Pillar)	25 marks (Maximum score that any city can achieve under **Social** Pillar)	5 marks (Maximum score that any city can achieve under **Economic** Pillar)	45 marks (Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Greater Chennai Corporation (GCC) – Accounts Department
Urban Local Body	For Park and Recreation Related Questions	GCC – Parks Department
Urban Local Body	For Water Supply and Drainage related questions	Chennai Metropolitan Water Supply and Sewerage Board (CMWSSB)
Urban Local Body	For Heritage sites related data	Archeological Survey Of India (ASI)
Urban Local Body	For Ecological sites related data	Forest Departments
Urban Local Body	For Housing related data	Tamilnadu Slum Clearance Board
Urban Local Body	For Building plan related data	Chennai Metropolitan Development Authority (CMDA)
Urban Local Body	For Roads related data	GCC – Bus Route Roads Department (BRR)
Urban Local Body	For Solid waste management related data	GCC – Solid Waste Management
Urban Local Body	For IT services related data	GCC – EDP Department
Urban Local Body	For Vendor committee related data	GCC – Revenue Department
Urban Local Body	Any other departments involved in providing data for questions	GCC – Departments of Education, Health, Works, Electrical Sports & Stadium, Storm Water Drain, Buildings

Designated data owners	Subcategories	Data owners at city level
	mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Tamilnadu Pollution Control Board
Development Authority	Building Infrastructure	Chennai Metropolitan Development Authority (CMDA)
	Construction planning	Works Department
	Green Building	Chennai Metropolitan Development Authority (CMDA)
	Rain water harvesting	Chennai Metropolitan Development Authority (CMDA)
	Universal Design Principle	Building Department
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Tamilnadu Generation and Distribution corporation Limited (TANGEDCO)
State Disaster management authority		Tamilnadu State Disaster Management
State Education Department		Education Department
State Health Department	Health care professionals	Health Department
	Citizen Services	Health Department
	Disease Prevalence	Health Department
	Health Infrastructure	Health Department
State Renewable Energy Development Agency		Tamilnadu Generation and Distribution corporation Limited (TANGEDCO)
State Sales / Commercial Taxes Department		Department of Commercial tax
Town and Country Planning Department	Land Use	Chennai Metropolitan Development Authority (CMDA)
Traffic and Police Department		
Transport Authorities	Buses	Metropolitan Transport Authority (MTC)
	Registered Vehicles	Transport Corporation
	Sub urban rail transport	Southern Railways

Designated data owners	Subcategories	Data owners at city level
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 97 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	2
State Education Department	3
DISCOM/Electricity Department	6
Traffic and Police Department	1
Development Authority	6
Pollution Control Board	4
State Renewable Energy Department	1
Town and Country Planning	3
State Health Department	10
Transport Authority	12
Disaster Management	1
Urban Local Body	48
Total	97*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**85.47**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	1
	1.1e water supply	0.333333333
	1.1f sewerage/drainage	0.333333333
	1.1g fogging	1
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.444444444
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**21.43**
Description	Services integrated through an integrated or a singular operations command centre	4.5
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.3	**Percentage of citizens using online services**	**5.97**
Description		
Sub Indicators	1.3a Building plan	0.000227547
	1.3b Birth/Death Certificate	0.041726171
	1.3c water supply	0.005765549
	1.3d solid waste management	0.00222027
	1.3e property tax	0.01715559
	1.3f professional tax (RC)	0.005176992
	1.3g professional tax (EC)	0.005176992
	1.3h complaints/ grievance redressal	0.000987468
	1.3i information	0.33122375
	1.3j electricity	0.187450836
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**1.14**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	2
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	6
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**49.62**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	125173.94

Denominator	Total demand raised for the year	252265
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**23.27**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	18259.5
Denominator	Total O&M cost for providing water supply services during the year	78462
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**36.28**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	414579.71
Denominator	Total expenditure (revenue and capital accounts) in the same year	1142749.5
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	Data Unavailable
Denominator	Total number of wards	200
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	41
Denominator	Total number of historic buildings/sites identified	41
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**33.33**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	1
Denominator	Total number of ecologically important sites identified in the city	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**47.57**
Description	Average Occupancy rate of Hotels	47.57142857
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	14.97
Denominator	Total budget of the ULB (capital and revenue)	455677.72
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**4865**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	4865
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**116.5**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	780358
Denominator	Total population in the age group of 6-14 years	669820

Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**117.33**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	383679
Denominator	Total female population in the age group of 6-14 years	326999
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**26.43**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	487622
Denominator	Total number of teachers available for primary grades (public and private schools)	18448
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**39.33**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	868
Denominator	Total number of schools	2207
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**95.39**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	95.39305268
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**96.36**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	9484222144
Numerator	Percentage	

Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**69.72**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	32397
Denominator	Total population of the city	4646732
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**128.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	59562
Denominator	Total population of the city	4646732
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**18**
Description	Total response time for health-related distress calls received in the city	18
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.09**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	4087
Denominator	Total population of the city	4646732
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	2268

Denominator	Total population of the city	4646732
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**879.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	51995
Denominator	Total length of road network in the city	5914
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**891.83**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	41441
Denominator	Total population of the city	4646732
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**2.33**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	964
Denominator	Total crimes recorded in the same year	41441
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**43.19**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	2007

Denominator	Total population of the city	4646732
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**8.75**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	406742
Denominator	Total VAT/GST collection during preceding year	46493.58
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**6.58**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	3432.63
Denominator	Total Professional Tax collection during preceding year	52196.31
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**15.95**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	63
Denominator	Number of construction permits during preceding year	3.95
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	244222

Denominator	Total labour force in the city	669820
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	26883
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**6.69**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	46647
Denominator	Total number of slum and EWS households in the city	6968.19
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**0.02**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	15651428932608
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**8.71**
Formula:	*Numerator / Denominator*	

Numerator	Total area of green space (sq.m.)	40470000
Denominator	Total population of the city	4646732
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.97**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	9138963.91
Denominator	Total population of the city	4646732
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**5.7**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	24269000
Denominator	Total area of the city (total area of all land uses)	426000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	4646732
Denominator	Area allocated for residential land use (in hectares)	95230000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**172.95**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	2095440
Denominator	Total number of households in the city	1211576
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	2569223
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**3067**
Description	Total number of sustained electrical interruptions in a year	3067
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.8**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	89190
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.02**
Formula:	*Numerator / Denominator*	

Numerator	Total installed capacity for generation of renewable energy in the city	10515
Denominator	Total energy consumption from all sources	3525710
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	6651666.667
Denominator	Total quantum of water and waste water handled during the period	35970
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	93
Denominator	Total number of street light installations	277902
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	325172
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	3173555
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	

Numerator	Total energy consumption (for all uses) in the city	3525710
Denominator	Total population of the city	4646732
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	784.18
Denominator	Total area of the city (sq.km)	426
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**2.32**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	10770
Denominator	Total population of the city	4646732
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	31
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	17
Denominator	Total length of road network in the city	5914
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**60.36**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with	67

	bicycle parking facility (within 250m radius)	
Denominator	Total number of major transport interchanges in the city	111
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	34
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.54**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	60
Denominator	Total number of major interchanges in the city	111
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	382
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	12000
Denominator	Total available on-street parking spaces in the city	12000
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**3.79**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	447.83

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total length of road network in the city	11828
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**442.31**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	230
Denominator	Total number of junctions/ intersections on major roads in the city	52
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**90.08**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	7786
Denominator	Total number of public right-of-way areas in the city	8643
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**49.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	605510
Denominator	Total number of households in the city	1211576
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**147.63**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	686
Denominator	Total population of the city	4646732
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	

Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	30272
Denominator	Total number of samples tested for water quality	30659
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	686
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**5.21**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	33649
Denominator	Total number of water connections in the city	645348
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**2057.14**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	8640
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	420
Unit	Percentage	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**148.41**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	1774600
Denominator	Total number of properties in the city	1195723
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**105.31**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	1259275
Denominator	Total number of properties in the city	1195723
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	525
Denominator	Total waste water generated in the city per day	525
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	513
Denominator	Total waste water received at treatment plants per day	513
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**32.03**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and	1894

	tertiary drains (of pucca construction)	
Denominator	Total length of road network in the city	5914
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**136.7**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	1819160
Denominator	Total number of households and establishments in the city	1330736
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	5249
Denominator	Total quantum of MSW generated in the city	5249
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**4.43**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	6970
Denominator	Average MSW generated in the city (tons per month)	157470
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**11**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	11
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**17**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	17
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**74**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	74
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	28
Denominator	Total number of noise samples	240
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	36
Denominator	Total number of samples tested	36
Unit	Percentage	
Benchmark	100%

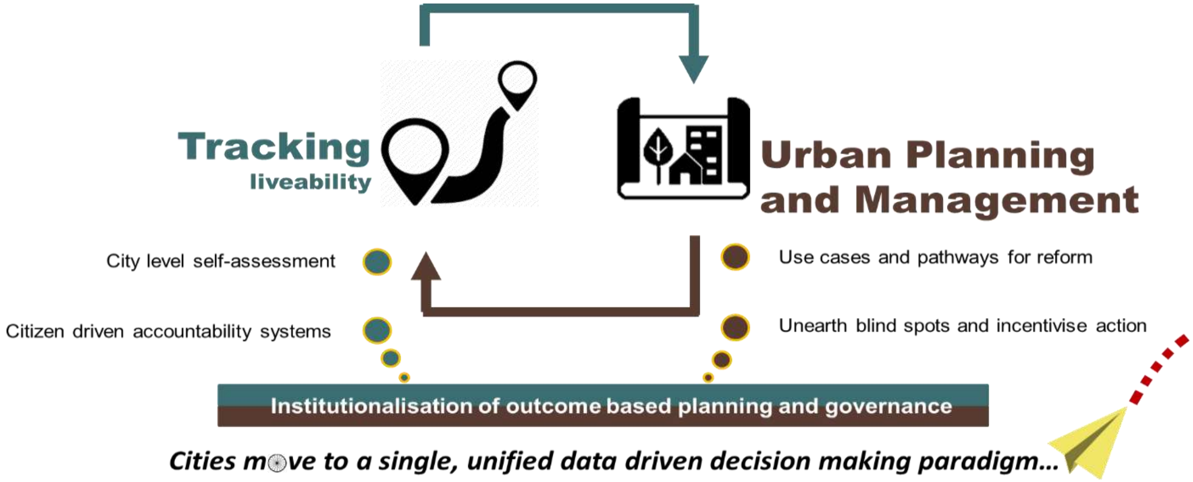
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

COIMBATORE

GEOGRAPHICAL PROFILE

State/Union Territory	Tamil Nadu	**Total Geographical Area (Km^2)**	257.04	**City Category**	Metropolis

DEMOGRAPHIC PROFILE

Total Population	
Total Number of Households	

SOCIAL PROFILE

Education	**Total Number of Schools**	434
	Total Enrolment (Class 1 to 5)	135827
Health	**Total Number of In-patients Beds**	5220
	Total Health Workforce	6372
Safety and Security	**Total Strength of Police Force**	2715
	Total Number of CCTV Cameras	207
Heritage Sites	**Total Number of Heritage Sites**	15

ECONOMIC PROFILE

Total Population in Working Age Group	710000
Total Number of Industries	6810
Total Number of Commercial Enterprises	22468
Total Number of Hotels	168
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	1665379.44
Total VAT Collection in FY 2016-17 (INR Lakhs)	135333.704

PHYSICAL PROFILE			
	Water	**Average Quantity of Water Supplied (MLD)**	220
		Total Number of Water Connections	277684
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	482222
		Total number of households in the city with access to community toilets in the city	6400
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	940
		Total number of households covered through door-to-door collection of solid waste	521605
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	190
		Daily average quantum of waste water treated by STPs in the city (MLD)	40
	Electricity	**Total number of authorized electrical connections in the city**	715466
		Total electricity supplied to the city (kWh)	1714109741
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	379819.54
	Roads and Transport	**Total Length of Road Network in the City (Km)**	2888.07
		Total length of arterial and sub-arterial road network in the city (Km)	40.2
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	40

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and

Pillars of Comprehensive Development	Category	Indicators
		elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces

Pillars of Comprehensive Development	Category	Indicators
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range

Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	**25 marks**	**5 marks**	**45 marks**
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts department
Urban Local Body	For Park and Recreation Related Questions	Engineering Section
Urban Local Body	For Water Supply and Drainage related questions	Engineering Section
Urban Local Body	For Heritage sites related data	Town planning
Urban Local Body	For Ecological sites related data	Town planning
Urban Local Body	For Housing related data	Town planning
Urban Local Body	For Building plan related data	Town planning
Urban Local Body	For Roads related data	Engineering Section
Urban Local Body	For Solid waste management related data	Health Department
Urban Local Body	For IT services related data	IT department
Urban Local Body	For Vendor committee related data	Town planning
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Revenue Section
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution Control Board,
Development Authority	Building Infrastructure	Town planning
	Construction planning	Town planning
	Green Building	Town planning
	Rain water harvesting	Town planning
	Universal Design Principle	Engineering Department
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Tamilnadu Electricity Board
State Disaster management authority		Revenue and Disaster Management Department
State Education Department		Education Department
State Health Department	Health care professionals	City Health Office
	Citizen Services	City Health Office
	Disease Prevalence	City Health Office
	Health Infrastructure	City Health Office
State Renewable Energy Development Agency		Tamilnadu Electricity Board
State Sales / Commercial Taxes Department		District Commercial Tax Department
Town and Country	Land Use	Town Planning

Designated data owners	Subcategories	Data owners at city level
Planning Department		
Traffic and Police Department		Police Department
Transport Authorities	Buses	Tamilnadu State Transport Corporation
	Registered Vehicles	Regional Transport Office
	Sub urban rail transport	NA
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 157 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	3
DISCOM/Electricity Department	8
Traffic and Police Department	3
Development Authority	12
Pollution Control Board	4
State Renewable Energy Department	1
Town and Country Planning	2
State Health Department	21
Transport Authority	11
Disaster Management	1

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5 Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc.,

and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**63.23**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	1
	1.1d solid waste management	0.75
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0.333333333
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	1
	1.1j information	0.692307692
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.111111111
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**6.95**

Description		
Sub Indicators	1.3a Building plan	0.028215484
	1.3b Birth/Death Certificate	0.010124159
	1.3c water supply	0.133829588
	1.3d solid waste management	0.019034549
	1.3e property tax	0.048996948
	1.3f professional tax (RC)	0.350583333
	1.3g professional tax (EC)	0.093390805
	1.3h complaints/ grievance redressal	0.006265539
	1.3i information	0.004758637
	1.3j electricity	5.8703E-05
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.29**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0.5
	1.4d sewerage	0
	1.4e professional tax	1
	1.4f parks and recreational spaces	0.5
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**85.58**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	15415.61
Denominator	Total demand raised for the year	18012.47
Unit	Percentage	

Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**93.07**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	3003.32
Denominator	Total O&M cost for providing water supply services during the year	3227
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**93.44**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	1618411.38
Denominator	Total expenditure (revenue and capital accounts) in the same year	1732031.89
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA
Denominator	Total number of wards	100
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**93.33**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	14
Denominator	Total number of historic buildings/sites identified	15
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**33.33**

Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	1
Denominator	Total number of ecologically important sites identified in the city	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**47.43**
Description	Average Occupancy rate of Hotels	47.42857143
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	NA
Denominator	Total budget of the ULB (capital and revenue)	1665379.44
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**19**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	19
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**119.15**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	177276
Denominator	Total population in the age group of 6-14 years	148780
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**122.37**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	89116
Denominator	Total female population in the age group of 6-14 years	72823
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**30.16**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	135827
Denominator	Total number of teachers available for primary grades (public and private schools)	4504
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**32.03**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	139
Denominator	Total number of schools	434
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**108.89**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	108.8874308
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**86.92**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	184869750
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**49.68**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	5220
Denominator	Total population of the city	1050721
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**60.64**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	6372
Denominator	Total population of the city	1050721
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**20**
Description	Total response time for health-related distress calls received in the city	20
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.26**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	2771
Denominator	Total population of the city	1050721
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	233
Denominator	Total population of the city	1050721
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be	

	treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**7.17**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	207
Denominator	Total length of road network in the city	2888.07
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**1119.42**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	11762
Denominator	Total population of the city	1050721
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**2.75**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	323
Denominator	Total crimes recorded in the same year	11762
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**34.17**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	359
Denominator	Total population of the city	1050721
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**8.39**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	10471.848
Denominator	Total VAT/GST collection during preceding year	1248.61856
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**9.71**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	208.88
Denominator	Total Professional Tax collection during preceding year	2151.73
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**18.16**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	451
Denominator	Number of construction permits during preceding year	24.83
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	118792
Denominator	Total labour force in the city	148780
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	

Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	6129
Denominator	Total number of vendors in the city	6129
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**22.39**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	20795
Denominator	Total number of slum and EWS households in the city	928.61
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.11**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	28873308000
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.36**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	379819.54
Denominator	Total population of the city	1050721
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	

Indicator No: 8.2	Per capita availability of public and recreational places	**1.78**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1874818.43
Denominator	Total population of the city	1050721
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**31.36**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	80614000
Denominator	Total area of the city (total area of all land uses)	257040000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1050721
Denominator	Area allocated for residential land use (in hectares)	70712100
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**113.07**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	557745
Denominator	Total number of households in the city	493282

Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	715466
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**2909**
Description	Total number of sustained electrical interruptions in a year	2909
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	22840
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	2688
Denominator	Total energy consumption from all sources	1727230915
Unit	Percentage	
Benchmark	10%	

Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	172250
Denominator	Total quantum of water and waste water handled during the period	7800
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.32**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	32992488
Denominator	Total number of street light installations	74273
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.37**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1727230915
Denominator	Total population of the city	1050721
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.7**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	8858
Denominator	Total area of the city (sq.km)	257.04
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	672
Denominator	Total population of the city	1050721
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	42
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0.06**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	1.6
Denominator	Total length of road network in the city	2888.07
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	5
Denominator	Total number of major transport interchanges in the city	5
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be**

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

		computed
Description	Mode share of non-motorised transport	0.2
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	5
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	55
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	0
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**0.69**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	40
Denominator	Total length of road network in the city	5776.14
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**240**
Formula:	*Numerator / Denominator*	

Numerator	Total number of intersections with pedestrian crossing facilities on major roads	36
Denominator	Total number of junctions/ intersections on major roads in the city	15
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**181.93**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	6888
Denominator	Total number of public right-of-way areas in the city	3786
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**52.43**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	258637
Denominator	Total number of households in the city	493282
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**209.38**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	220
Denominator	Total population of the city	1050721
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of samples meeting or exceeding specified potable water standards	28
Denominator	Total number of samples tested for water quality	28
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**11.36**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	25
Denominator	Quantum of water put into the distribution system (mld)	220
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**46.49**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	129107
Denominator	Total number of water connections in the city	277684
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**3.24**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	583
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	17983
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**104.62**

Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	516007
Denominator	Total number of properties in the city	493228
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**85.6**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	422209
Denominator	Total number of properties in the city	493228
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**22.11**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	42
Denominator	Total waste water generated in the city per day	190
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**325**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	130
Denominator	Total waste water received at treatment plants per day	40
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**25.45**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	735
Denominator	Total length of road network in the city	2888.07
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**105.49**

Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	544073
Denominator	Total number of households and establishments in the city	515750
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**94.95**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	940
Denominator	Total quantum of MSW generated in the city	990
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**57.94**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	16340
Denominator	Average MSW generated in the city (tons per month)	28200
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**4.2**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	4.2
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**24.5**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	24.5
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**47**

Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	47
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	1
Denominator	Total number of noise samples	12
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	28
Unit	Percentage	
Benchmark	100%

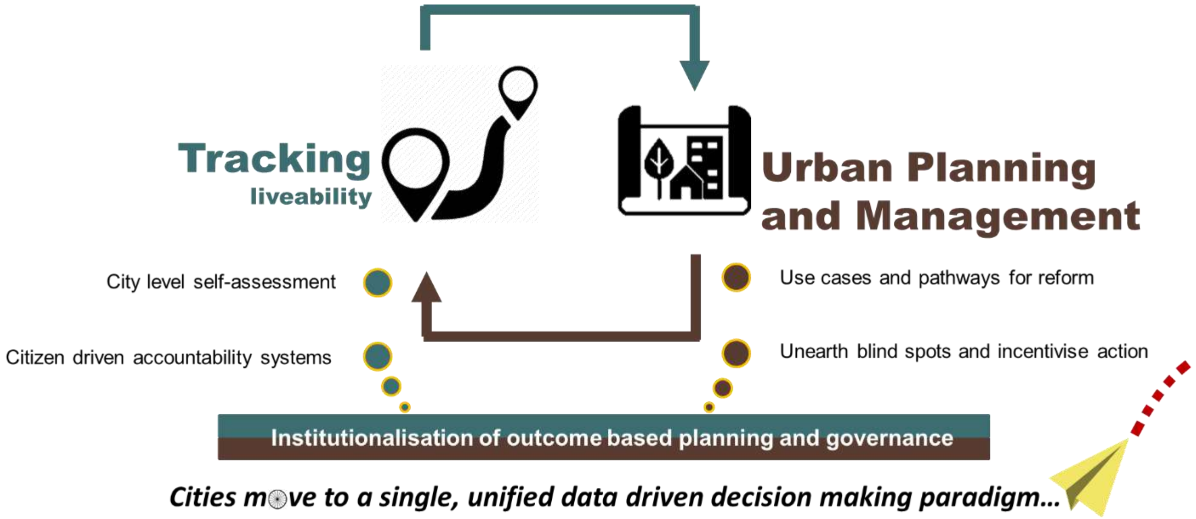
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



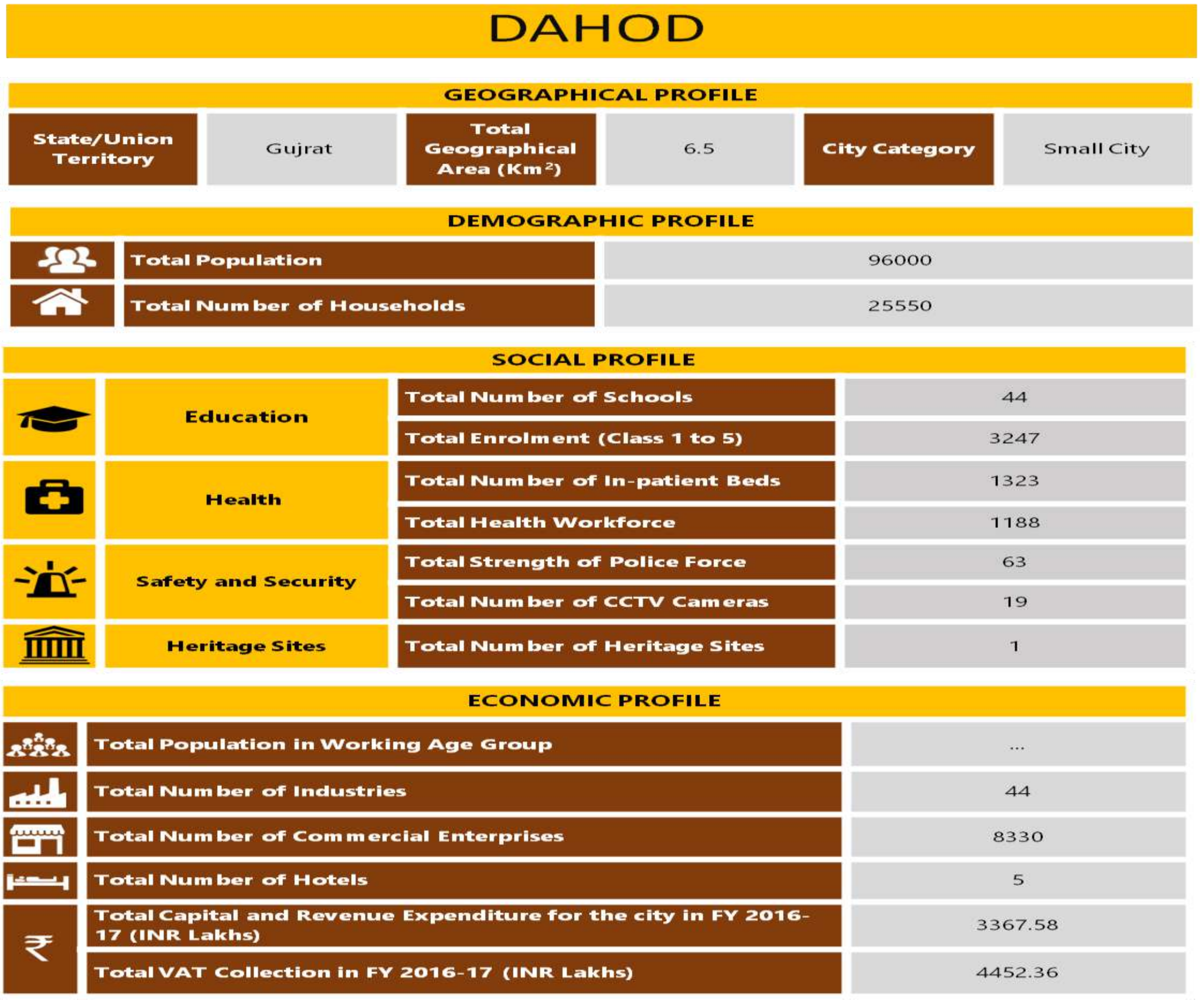
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



DAHOD

GEOGRAPHICAL PROFILE

State/Union Territory	Gujrat	Total Geographical Area (Km²)	6.5	City Category	Small City

DEMOGRAPHIC PROFILE

Total Population	96000
Total Number of Households	25550

SOCIAL PROFILE

Education	Total Number of Schools	44
	Total Enrolment (Class 1 to 5)	3247
Health	Total Number of In-patient Beds	1323
	Total Health Workforce	1188
Safety and Security	Total Strength of Police Force	63
	Total Number of CCTV Cameras	19
Heritage Sites	Total Number of Heritage Sites	1

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	44
Total Number of Commercial Enterprises	8330
Total Number of Hotels	5
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	3367.58
Total VAT Collection in FY 2016-17 (INR Lakhs)	4452.36

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	10
	Total Number of Water Connection	13569
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	25550
	Total number of households in the city with access to community toilets in the city	6952
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	35
	Total number of households covered through door-to-door collection of solid waste	25550
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	…
	Daily average quantum of waste water treated by STPs in the city (MLD)	…
Electricity	**Total number of authorized electrical connections in the city**	38337
	Total electricity supplied to the city (kWh)	103566836
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	57.32
Roads and Transport	**Total Length of Road Network in the City (Km)**	102
	Total length of arterial and sub-arterial road network in the city (Km)	14
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	1

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and	6.1 Increase in VAT/GST collection

Pillars of Comprehensive Development	Category	Indicators
	Employment	6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing

Pillars of Comprehensive Development	Category	Indicators
		facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million

Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department
Urban Local Body	For Park and Recreation Related Questions	Town and country Planning
Urban Local Body	For Water Supply and Drainage related questions	Water Management
Urban Local Body	For Heritage sites related data	…….
Urban Local Body	For Ecological sites related data	……..
Urban Local Body	For Housing related data	Twon and Country Planning Dev.
Urban Local Body	For Building plan related data	Unban local body.
Urban Local Body	For Roads related data	Transport AUTHORITIES .
Urban Local Body	For Solid waste management related data	STATe DISASTER Management
Urban Local Body	For IT services related data	…….
Urban Local Body	For Vendor committee related data	…
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	…
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution control board
Development Authority	Building Infrastructure	Traffic and Police Department
	Construction planning	Bandhkam dep.
	Green Building	……
	Rain water harvesting	Bandhkam dep.
	Universal Design Principle	Town planing
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	MGVCL
State Disaster management authority		
State Education Department		
State Health Department	Health care professionals	health Department
	Citizen Services	…
	Disease Prevalence	Fier dep.
	Health Infrastructure	State Health Dipart ment
State Renewable Energy Development Agency		MGVCL
State Sales / Commercial		

Designated data owners	Subcategories	Data owners at city level
Taxes Department		
Town and Country Planning Department	Land Use	Town planning
Traffic and Police Department		Traffic and police dep.
Transport Authorities	Buses	N.A.
	Registered Vehicles	R.T.O
	Sub urban rail transport	N.A.
	Mono Rail Authority	N.A.
	Tramways	N.A.
	Marine Transport Authority	N.A.

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 60 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	2
State Education Department	2
DISCOM/Electricity Department	1
Traffic and Police Department	2
Development Authority	1
Pollution Control Board	2
State Renewable Energy Department	1
Town and Country Planning	4
State Health Department	2
Transport Authority	2
Disaster Management	1
Urban Local Body	40

Total	60*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc.,

and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	15.68
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0.5
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0

Numerator	Total tax collected in a year	554.29
Denominator	Total demand raised for the year	713.44
Unit	Percentage	
Benchmark	90%	

Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	32.04
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	78
Denominator	Total O&M cost for providing water supply services during the year	243.42
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	-3.33
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-101.68
Denominator	Total expenditure (revenue and capital accounts) in the same year	3049.68
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	0
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	9
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	0
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for	0

	restoration	
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	10
Description	Average Occupancy rate of Hotels	10
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	0.13
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	4.45
Denominator	Total budget of the ULB (capital and revenue)	3367.58
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	19
Description	Number of cultural/sports events hosted by the city authority in the preceding year	19
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	21.41
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	5186
Denominator	Total population in the age group of 6-14 years	24222
Unit	Percentage	

Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	23.51
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	2682
Denominator	Total female population in the age group of 6-14 years	11406
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	6.55
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	3247
Denominator	Total number of teachers available for primary grades (public and private schools)	496
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	79.55
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	35
Denominator	Total number of schools	44
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	109.32
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	109.3192022
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	36.98
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	278756

Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	111.32
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	1323
Denominator	Total population of the city	118846
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	99.96
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	1188
Denominator	Total population of the city	118846
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	0
Description	Total response time for health-related distress calls received in the city	0
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	0.11
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	133
Denominator	Total population of the city	118846
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	0.04

Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	48
Denominator	Total population of the city	118846
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	18.63
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	19
Denominator	Total length of road network in the city	102
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	10.1
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	12
Denominator	Total population of the city	118846
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	8.33
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1
Denominator	Total crimes recorded in the same year	12
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 5.4	Transport-related fatality per lakh population	15.99
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	19
Denominator	Total population of the city	118846
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	2.82
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	122.21
Denominator	Total VAT/GST collection during preceding year	43.3015
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	-1.9
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-1.46
Denominator	Total Professional Tax collection during preceding year	76.75
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	-31.93
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-38
Denominator	Number of construction permits during preceding year	1.19
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated	

	as a benchmark	
Indicator No: 6.4	Unemployment Rate	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	308
Denominator	Total labour force in the city	24222
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	200
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	3454
Denominator	Total number of vendors in the city	1727
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	0
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	0
Denominator	Total number of slum and EWS households in the city	43.04
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	Non-Compuatble NA
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	

Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	0
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	57.32
Denominator	Total population of the city	118846
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	0.61
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	72697.0303
Denominator	Total population of the city	118846
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	101.8
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	6617200
Denominator	Total area of the city (total area of all land uses)	6500000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	0.06
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	118846

Denominator	Area allocated for residential land use (in hectares)	2021300
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	115.61
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	29538
Denominator	Total number of households in the city	25550
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	99.67
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	38209
Denominator	Total number of electricity connections in the city	38337
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	248
Description	Total number of sustained electrical interruptions in a year	248
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	0.81
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	125.62
Unit	Hours	

Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	0
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	205.2
Denominator	Total energy consumption from all sources	103566836
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	0.34
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	29200
Denominator	Total quantum of water and waste water handled during the period	300
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	0.34
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	940198
Denominator	Total number of street light installations	4537
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	NC
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	

Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	0.78
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	103566836
Denominator	Total population of the city	118846
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	NA
Denominator	Total area of the city (sq.km)	6.5
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	NA
Denominator	Total population of the city	118846
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	To be computed
Description	Mode share of public transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	0

Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	102
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	To be computed
Description	Mode share of non-motorised transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	Non-Computable
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	1
Denominator	Total number of major interchanges in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	3000
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	60
Denominator	Total number of signalised intersections in the city	2

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	0
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	11
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	0.49
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	1
Denominator	Total length of road network in the city	204
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	2
Denominator	Total number of junctions/ intersections on major roads in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	60.78
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	31
Denominator	Total number of public right-of-way areas in the city	51
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	72.99
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	18648
Denominator	Total number of households in the city	25550
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	84.14
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	10
Denominator	Total population of the city	118846
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	0
Denominator	Total number of samples tested for water quality	3650
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	14
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	1.4
Denominator	Quantum of water put into the distribution system (mld)	10
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	0
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	13569
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	0
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	0
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	81
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	126.96
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	32566
Denominator	Total number of properties in the city	25650
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	169.93
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	43588
Denominator	Total number of properties in the city	25650
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	Non-

Formula:	*Numerator / Denominator*	Computable
Numerator	Total waste water collected per day	0
Denominator	Total waste water generated in the city per day	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	9.8
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	10
Denominator	Total length of road network in the city	102
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	96.52
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	32700
Denominator	Total number of households and establishments in the city	33880
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	100
Formula:	*Numerator / Denominator*	

Numerator	Total quantum of MSW collected by the ULB or private operator	35
Denominator	Total quantum of MSW generated in the city	35
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	30
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	315
Denominator	Average MSW generated in the city (tons per month)	1050
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	Concentration of SO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	Concentration of NO2 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	Concentration of PM10 - air pollution	Non=Computable
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	NA
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	Level of noise pollution	To be computed

Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	Quality of water in public surface water bodies	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	NA
Denominator	Total number of samples tested	16
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT
DRAFT REPORT

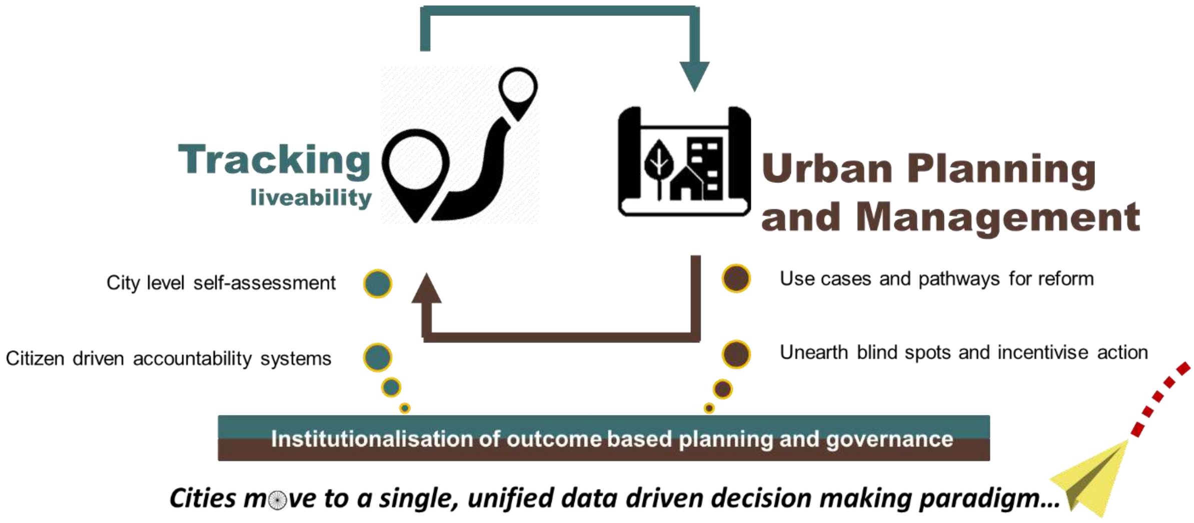
Table 5: Details of Indicator Values 19

1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



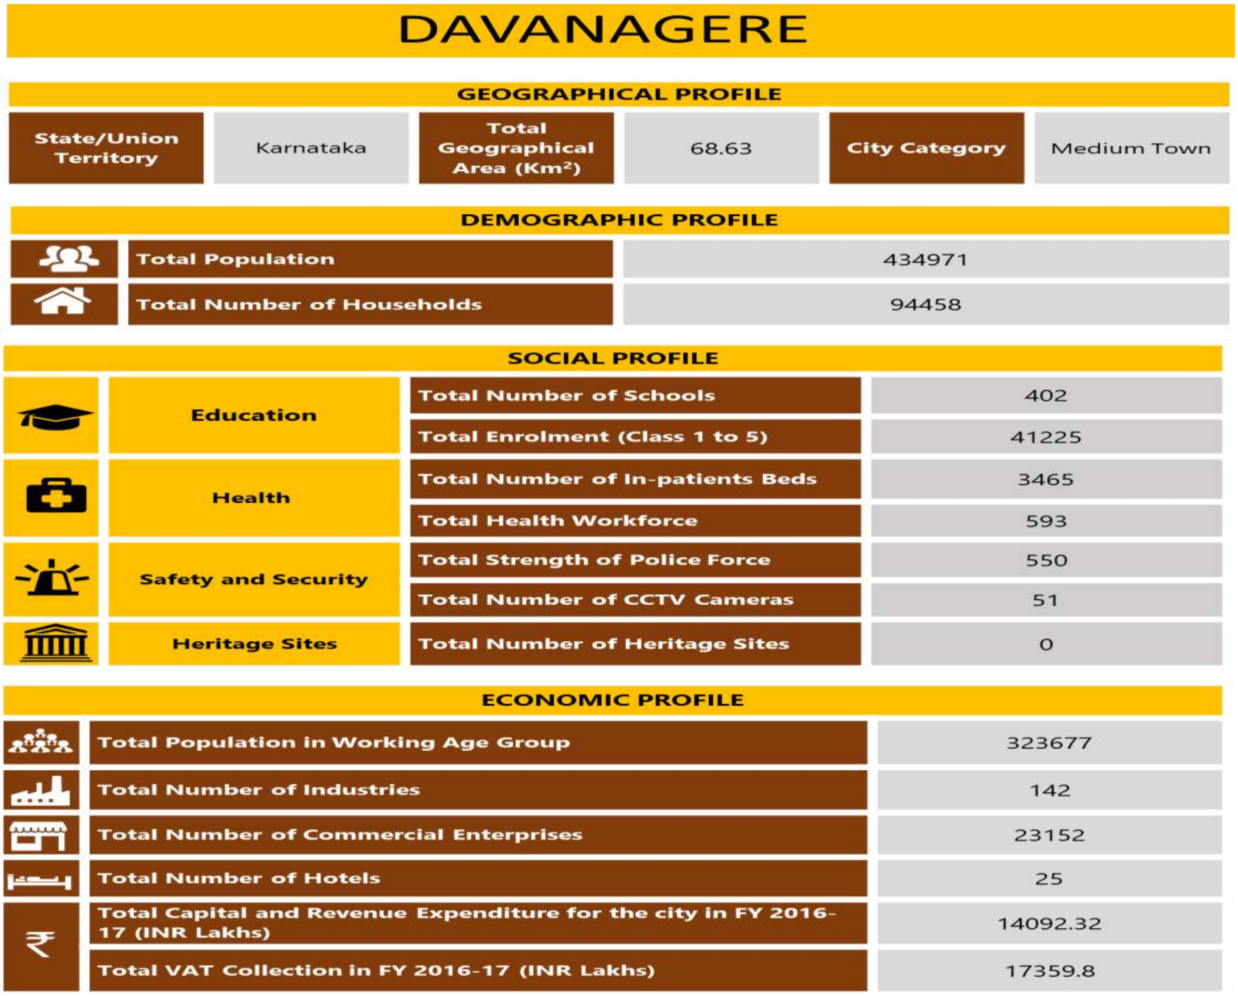
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



DAVANAGERE

GEOGRAPHICAL PROFILE

State/Union Territory	Karnataka	Total Geographical Area (Km²)	68.63	City Category	Medium Town

DEMOGRAPHIC PROFILE

Total Population	434971
Total Number of Households	94458

SOCIAL PROFILE

Education	Total Number of Schools	402
	Total Enrolment (Class 1 to 5)	41225
Health	Total Number of In-patients Beds	3465
	Total Health Workforce	593
Safety and Security	Total Strength of Police Force	550
	Total Number of CCTV Cameras	51
Heritage Sites	Total Number of Heritage Sites	0

ECONOMIC PROFILE

Total Population in Working Age Group	323677
Total Number of Industries	142
Total Number of Commercial Enterprises	23152
Total Number of Hotels	25
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	14092.32
Total VAT Collection in FY 2016-17 (INR Lakhs)	17359.8

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	56
	Total Number of Water Connections	46349
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	88835
	Total number of households in the city with access to community toilets in the city	0
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	90
	Total number of households covered through door-to-door collection of solid waste	64000
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	44.8
	Daily average quantum of waste water treated by STPs in the city (MLD)	10
Electricity	**Total number of authorized electrical connections in the city**	153065
	Total electricity supplied to the city (kWh)	1516467200
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	386080.4
Roads and Transport	**Total Length of Road Network in the City (Km)**	1227.7
	Total length of arterial and sub-arterial road network in the city (Km)	692.7
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	18

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	Category	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open	8.1 Per capita availability of green spaces

Pillars of Comprehensive Development	Category	Indicators
	Spaces	8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System

Pillars of Comprehensive Development	Category	Indicators
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	Category	Indicators
	Pollution	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

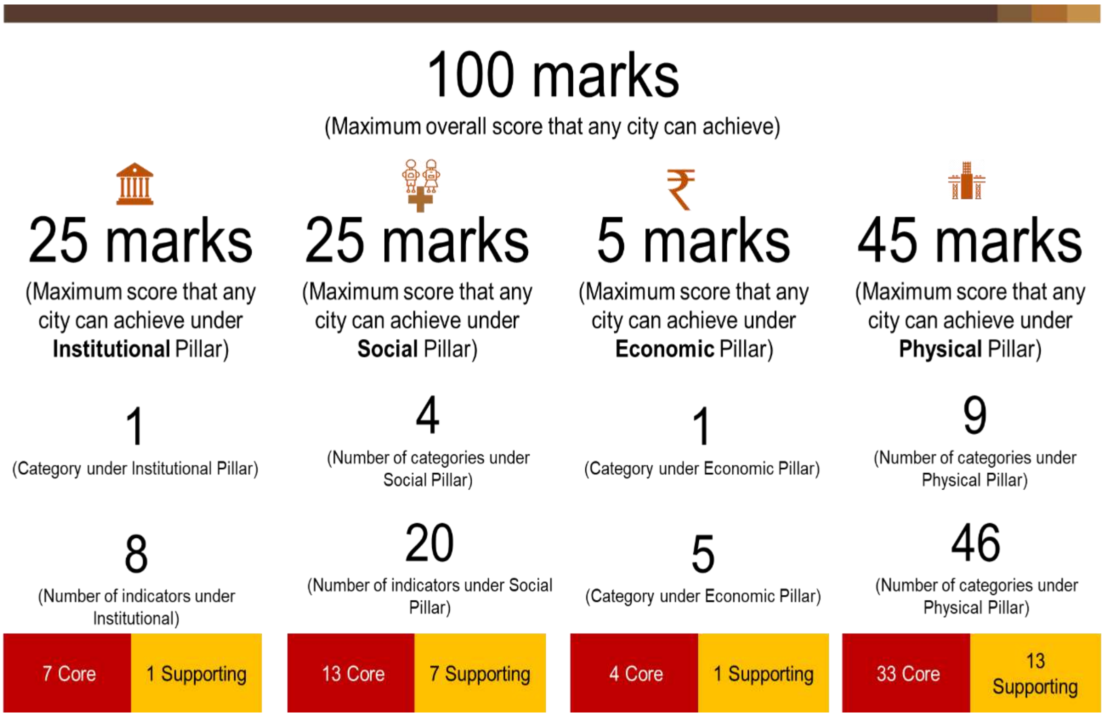
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department DCC
Urban Local Body	For Park and Recreation Related Questions	Town Planning Department DCC
Urban Local Body	For Water Supply and Drainage related questions	Engineering Department DCC
Urban Local Body	For Heritage sites related data	Town Planning Department DCC
Urban Local Body	For Ecological sites related data	Department of forest, ecology and environment
Urban Local Body	For Housing related data	Rajiv Gandhi rural housing corporation limited. MCC
Urban Local Body	For Building plan related data	Town Planning Department DCC
Urban Local Body	For Roads related data	Engineering Department DCC
Urban Local Body	For Solid waste management related data	Environment Department DCC
Urban Local Body	For IT services related data	IT Department
Urban Local Body	For Vendor committee related data	Urban Poverty Alleviation Cell Deendayal Antyodaya Yojana National Urban Livelihood Mission. DCC (DAY_NULM)
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Commercial Tax Department (Professional Tax related queries), Education Department (Population of age group between 6-14), Revenue Department, PMAY, District Employment Exchange, Development Authority, DULT (CMP related), KMDS (No. of Hits in the online service portals), Health Department, ,Karnataka Pollution Control Board, Slum Board, Hotel owners Association, Police, Road Transport
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Karnataka State Pollution Control Board
Development Authority	Building Infrastructure	Development Authority
	Construction planning	Development Authority and Town Planning Department, DCC
	Green Building	Town Planning Department, DCC
	Rain water harvesting	Town Planning Department, DCC
	Universal Design	Development Authority

Designated data owners	Subcategories	Data owners at city level
	Principle	
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Bangalore Electricity Supply Company (BESCOM)
State Disaster management authority		Deputy Commissioner's Office (Office of District Collector)
State Education Department		
State Health Department	Health care professionals	District Health Office
	Citizen Services	District Health Office
	Disease Prevalence	District Health Office
	Health Infrastructure	District Health Office
State Renewable Energy Development Agency	Renewable Energy	Bangalore Electricity Supply Company Limited
State Sales / Commercial Taxes Department		Joint Commissioner, Commercial Tax Office
Town and Country Planning Department	Land Use	Development Authority
Traffic and Police Department		Superintendent of Police
Transport Authorities	Buses	Regional Transport Officer's Office
	Registered Vehicles	Regional Transport Officer's Office
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 66 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	7
State Education Department	3
DISCOM/Electricity Department	1
Traffic and Police Department	2
Development Authority	2
Pollution Control Board	4
State Renewable Energy Department	1
Town and Country Planning	1
State Health Department	1
Transport Authority	2
Disaster Management	2
Urban Local Body	40
Total	66*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport

Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**61.05**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75
	1.1b death certificate	0.75
	1.1c trade license	0.75
	1.1d solid waste management	0.25
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	1
	1.1j information	0.769230769
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	

Indicator No: 1.2	Percentage of services integrated through Command Centre	**2.38**
Description	Services integrated through an integrated or a singular operations command centre	0.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**3.62**
Description		
Sub Indicators	1.3a Building plan	0.002804203
	1.3b Birth/Death Certificate	0.009958135
	1.3c water supply	0.002363844
	1.3d solid waste management	0
	1.3e property tax	NA
	1.3f professional tax (RC)	0.083333333
	1.3g professional tax (EC)	0.083333333
	1.3h complaints/ grievance redressal	7.66335E-07
	1.3i information	0.000383934
	1.3j electricity	0.143360664
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.79**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	2
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	3.5
Unit	Days	
Benchmark	0	

Indicator No: 1.5	Tax collected as percentage of tax billed	**97.52**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	19658937.45
Denominator	Total demand raised for the year	20159522.3
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**36.41**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	837.69
Denominator	Total O&M cost for providing water supply services during the year	2300.56
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**11.16**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	2165.87
Denominator	Total expenditure (revenue and capital accounts) in the same year	19402.23
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	45
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0

Denominator	Total number of historic buildings/sites identified	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**22.86**
Description	Average Occupancy rate of Hotels	22.85714286
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	14092.32
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**12**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	12
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**85.05**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	65619

Denominator	Total population in the age group of 6-14 years	77155
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**83.48**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	31367
Denominator	Total female population in the age group of 6-14 years	37575
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**95.87**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	41225
Denominator	Total number of teachers available for primary grades (public and private schools)	430
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**44.28**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	178
Denominator	Total number of schools	402
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**86.14**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	86.14264958
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**96.74**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	64720080
Numerator	Percentage	

Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**79.66**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	3465
Denominator	Total population of the city	434971
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**13.63**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	593
Denominator	Total population of the city	434971
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**8786**
Description	Total response time for health-related distress calls received in the city	8786
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	1520
Denominator	Total population of the city	434971
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.07**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	322
Denominator	Total population of the city	434971
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases	

	(amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**4.15**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	51
Denominator	Total length of road network in the city	1227.7
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**444.17**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	1932
Denominator	Total population of the city	434971
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**9.73**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	188
Denominator	Total crimes recorded in the same year	1932
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**11.04**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	48
Denominator	Total population of the city	434971
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**4.15**

Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	691.69
Denominator	Total VAT/GST collection during preceding year	166.6811
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**-19.76**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-4840492
Denominator	Total Professional Tax collection during preceding year	24498302
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-11.87**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-121
Denominator	Number of construction permits during preceding year	10.19
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	2137
Denominator	Total labour force in the city	77155
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**121.46**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	3005

Denominator	Total number of vendors in the city	2474
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**29.86**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	15428
Denominator	Total number of slum and EWS households in the city	516.65
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.02**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	277746000
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.89**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	386080.4
Denominator	Total population of the city	434971
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**3.41**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1483552.08
Denominator	Total population of the city	434971
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated	

	as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	68630000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.02**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	434971
Denominator	Area allocated for residential land use (in hectares)	28080200
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**131.14**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	123870
Denominator	Total number of households in the city	94458
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	Data Unavailable
Denominator	Total number of electricity connections in the city	153065

Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**3607**
Description	Total number of sustained electrical interruptions in a year	3607
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.6**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	119095
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	1651.3
Denominator	Total energy consumption from all sources	1516468923
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1626846.083
Denominator	Total quantum of water and waste water handled during the period	1980
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	3096
Denominator	Total number of street light installations	24460
Unit	kWh per light installation	

Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.69**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1516468923
Denominator	Total population of the city	434971
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	120
Denominator	Total area of the city (sq.km)	68.63
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.2**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	85
Denominator	Total population of the city	434971
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	19

Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	1227.7
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	4
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	Data Unavailable
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**80**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	8
Denominator	Total number of signalised intersections in the city	10

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	1
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**0.73**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	18
Denominator	Total length of road network in the city	2455.4
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**80**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	8
Denominator	Total number of junctions/ intersections on major roads in the city	10
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**6.92**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	42
Denominator	Total number of public right-of-way areas in the city	607
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**47.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	44439

Denominator	Total number of households in the city	94458
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**128.74**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	56
Denominator	Total population of the city	434971
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	0
Denominator	Total number of samples tested for water quality	12
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**37.5**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	21
Denominator	Quantum of water put into the distribution system (mld)	56
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	46349
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	895
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**73.49**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	101661
Denominator	Total number of properties in the city	138334
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**59.94**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	82918
Denominator	Total number of properties in the city	138334
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**22.32**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	10
Denominator	Total waste water generated in the city per day	44.8
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	10
Denominator	Total waste water received at treatment plants per day	10
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**0.98**
Formula:	*Numerator / Denominator*	

Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	12
Denominator	Total length of road network in the city	1227.7
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**64.12**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	75415
Denominator	Total number of households and establishments in the city	117610
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**75**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	90
Denominator	Total quantum of MSW generated in the city	120
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**1.85**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	50
Denominator	Average MSW generated in the city (tons per month)	2700
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**5.3**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	5.3
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	

Indicator No: 15.2	**Concentration of NO2 - air pollution**	**10**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	10
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**207**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	207
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	24
Denominator	Total number of samples tested	24
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT
DRAFT REPORT

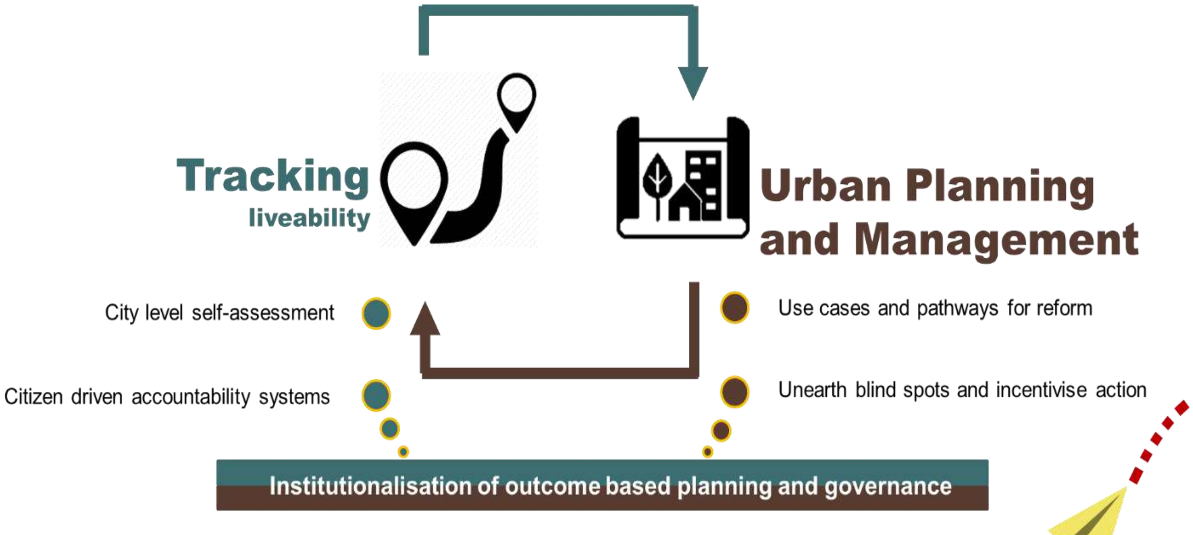
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



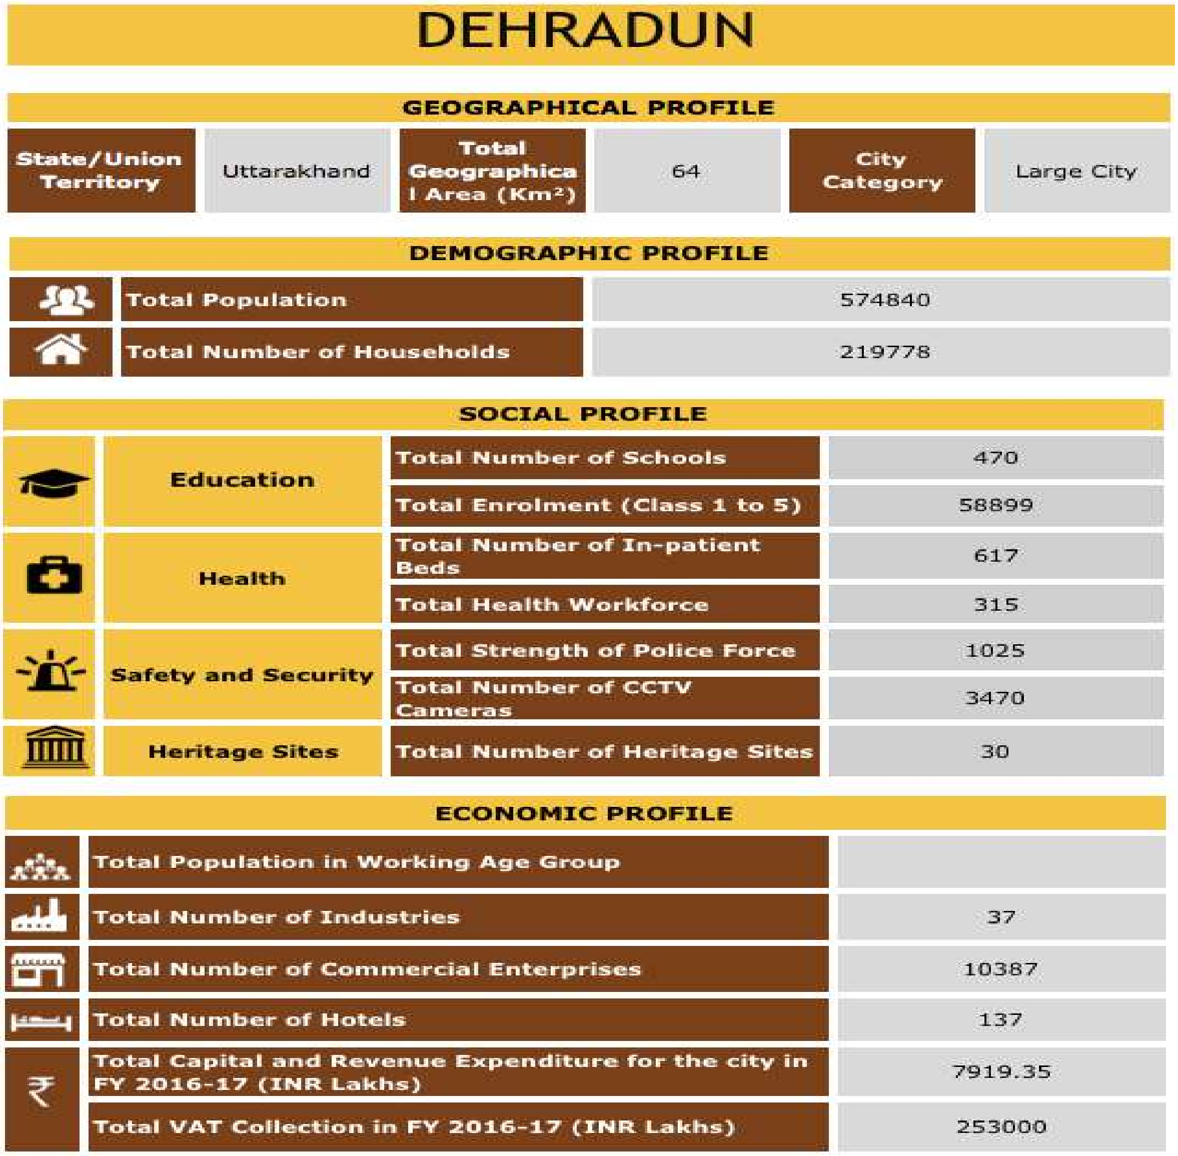
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



DEHRADUN

GEOGRAPHICAL PROFILE

State/Union Territory	Uttarakhand	Total Geographical Area (Km^2)	64	City Category	Large City

DEMOGRAPHIC PROFILE

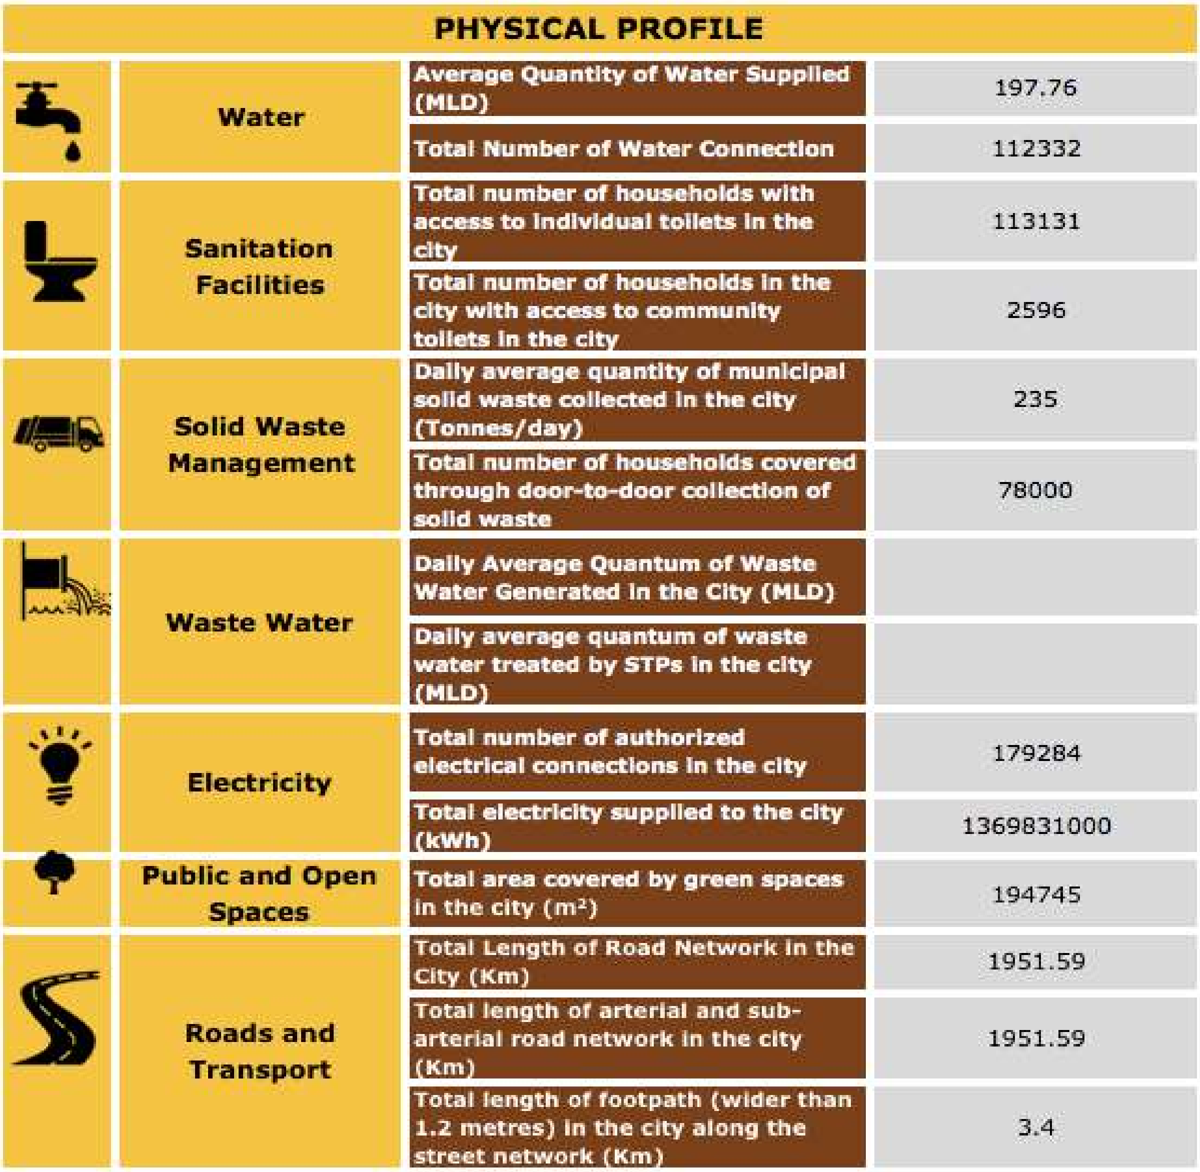
Total Population	574840
Total Number of Households	219778

SOCIAL PROFILE

Education	Total Number of Schools	470
	Total Enrolment (Class 1 to 5)	58899
Health	Total Number of In-patient Beds	617
	Total Health Workforce	315
Safety and Security	Total Strength of Police Force	1025
	Total Number of CCTV Cameras	3470
Heritage Sites	Total Number of Heritage Sites	30

ECONOMIC PROFILE

Total Population in Working Age Group	
Total Number of Industries	37
Total Number of Commercial Enterprises	10387
Total Number of Hotels	137
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	7919.35
Total VAT Collection in FY 2016-17 (INR Lakhs)	253000



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	197.76
	Total Number of Water Connection	112332
Sanitation Facilities	Total number of households with access to individual toilets in the city	113131
	Total number of households in the city with access to community toilets in the city	2596
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	235
	Total number of households covered through door-to-door collection of solid waste	78000
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	
	Daily average quantum of waste water treated by STPs in the city (MLD)	
Electricity	Total number of authorized electrical connections in the city	179284
	Total electricity supplied to the city (kWh)	1369831000
Public and Open Spaces	Total area covered by green spaces in the city (m²)	194745
Roads and Transport	Total Length of Road Network in the City (Km)	1951.59
	Total length of arterial and sub-arterial road network in the city (Km)	1951.59
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	3.4

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1. Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	**Category**	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education

Pillars of Comprehensive Development	Category	Indicators
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections

Pillars of Comprehensive Development	**Category**	Indicators
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2. Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3. Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks

(Maximum score that any city can achieve under **Institutional** Pillar)

1

(Category under Institutional Pillar)

8

(Number of indicators under Institutional)

7 Core | 1 Supporting

25 marks

(Maximum score that any city can achieve under **Social** Pillar)

4

(Number of categories under Social Pillar)

20

(Number of indicators under Social Pillar)

13 Core | 7 Supporting

5 marks

(Maximum score that any city can achieve under **Economic** Pillar)

1

(Category under Economic Pillar)

5

(Category under Economic Pillar)

4 Core | 1 Supporting

45 marks

(Maximum score that any city can achieve under **Physical** Pillar)

9

(Number of categories under Physical Pillar)

46

(Number of categories under Physical Pillar)

33 Core | 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4. Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicatorvalueforthecity - indicatorvaluefortheworstperformingcity}{benchmark - indicatorvaluefortheworstperformingcity}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1. Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled

in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2. Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts section
Urban Local Body	For Park and Recreation Related Questions	Lok Nirman Anubhag, Nagar Nigam, MDDA
Urban Local Body	For Water Supply and Drainage related questions	Jal Sansthan
Urban Local Body	For Heritage sites related data	ASI website.
Urban Local Body	For Ecological sites related data	Website of forest department
Urban Local Body	For Housing related data	Project Cell, PMAY
Urban Local Body	For Building plan related data	MDDA
Urban Local Body	For Roads related data	Public Works Department, Nagar Nigam
Urban Local Body	For Solid waste management related data	Health Department
Urban Local Body	For IT services related data	IT Department
Urban Local Body	For Vendor committee related data	Land Department
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Statistics Department

Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Uttarakhand Environment protection and pollution control board
Development Authority	Building Infrastructure	IT Department
	Construction planning	IT Department
	Green Building	IT Department
	Rain water harvesting	IT Department
	Universal Design Principle	IT Department
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Uttarakhand Power Corporation Limited
State Disaster management authority		Disaster management Authority
State Education Department		State Education Department
State Health Department	Health care professionals	CMO Office Dehradun
	Citizen Services	CMO Office Dehradun
	Disease Prevalence	NHM and IDSP
	Health Infrastructure	CMO Office Dehradun
State Renewable Energy Development Agency		Uttarakhand Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Sales Tax Office, Uttarakhand
Town and Country Planning Department	Land Use	Town and Country Planning Department
Traffic and Police Department		Traffice Police Department
Transport Authorities	Buses	RTO Dehradun
	Registered Vehicles	RTO Dehradun
	Sub urban rail transport	N/A
	Mono Rail Authority	N/A
	Tramways	N/A
	Marine Transport Authority	N/A

4.3. List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 32 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	1
DISCOM/Electricity Department	0
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	0
State Renewable Energy Department	0
Town and Country Planning	0
State Health Department	10
Transport Authority	0
Disaster Management	0
Urban Local Body	21
Total	32

* The count of documents is based on first round of submission.

4.4. Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5. Physical Audit

The following map presents the indicators audited at city level.

7. LA - Street Vendors
8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**55.37**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.25
	1.1b death certificate	0.25
	1.1c trade license	0.5
	1.1d solid waste management	0
	1.1e water supply	1
	1.1f sewerage/drainage	1
	1.1g fogging	0
	1.1h property tax	0.333333333333333
	1.1i professional tax	0.25
	1.1j information	0.615384615384615
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command	**0**

	Centre	
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**26.7**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	0.267017866035857
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0

	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**100.58**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	1083.68432
Denominator	Total demand raised for the year	1077.42432
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**108.12**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	4006.61
Denominator	Total O&M cost for providing water supply services during the year	3705.77
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**-360.65**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-14242.750293
Denominator	Total expenditure (revenue and capital accounts) in the same year	3949.1579374
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA
Denominator	Total number of wards	60
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	13.33
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	4
Denominator	Total number of historic buildings/sites identified	30
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**100**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	1
Denominator	Total number of ecologically important sites identified in the city	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**Non-**

		Computable
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**1.49**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	118.00207
Denominator	Total budget of the ULB (capital and revenue)	7919.35
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**98**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	98
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**91.49**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	91274
Denominator	Total population in the age group of 6-14 years	99769
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**92.61**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	41909
Denominator	Total female population in the age group of 6-14 years	45252
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**31.79**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	58899
Denominator	Total number of teachers available for primary grades (public and private schools)	1853
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**11.28**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	53
Denominator	Total number of schools	470
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**102.97**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	102.973020686873
Unit	Percentage	

Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**103.82**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	115268040
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**10.73**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	617
Denominator	Total population of the city	574840
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**5.48**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	315
Denominator	Total population of the city	574840
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	
Description	Total response time for health-related distress calls received in the city	**0.02**
Unit	Minutes and seconds	0.0161689814814815
Benchmark	8 minutes	

Indicator No: 4.4	Period prevalence of water borne diseases	**9.82**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	56471
Denominator	Total population of the city	574840
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	1524
Denominator	Total population of the city	574840
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**177.8**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	3470
Denominator	Total length of road network in the city	1951.59
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**268.77**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	1545

Denominator	Total population of the city	574840
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**28.22**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	436
Denominator	Total crimes recorded in the same year	1545
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**37.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	213
Denominator	Total population of the city	574840
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**3.69**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	9000
Denominator	Total VAT/GST collection during preceding year	2440
Unit	Percentage	

Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	6.26
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-8.13**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-204
Denominator	Number of construction permits during preceding year	25.08
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	174416
Denominator	Total labour force in the city	99769
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in	

	the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**61.64**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	1700
Denominator	Total number of vendors in the city	2758
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**28.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	19534
Denominator	Total number of slum and EWS households in the city	674.12
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.2**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	71578653120
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	194745
Denominator	Total population of the city	574840
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.19**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	683807.76
Denominator	Total population of the city	574840
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**82.91**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	53060000
Denominator	Total area of the city (total area of all land uses)	64000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	574840
Denominator	Area allocated for residential land use (in hectares)	10825000
Unit		

Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**99.62**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	218940
Denominator	Total number of households in the city	218940
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**145.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	261525
Denominator	Total number of electricity connections in the city	179284
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	
Description	Total number of sustained electrical interruptions in a year	**41858**
Unit	Number	41858
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.05**

Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	2200737
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	0
Denominator	Total energy consumption from all sources	1369831000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.16**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	3743014.33333333
Denominator	Total quantum of water and waste water handled during the period	6115.8
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	42000
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated	

	as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.4**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1369831000
Denominator	Total population of the city	574840
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.58**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	440
Denominator	Total area of the city (sq.km)	64
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.47**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	273
Denominator	Total population of the city	574840

Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be comput-ed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	1951.59
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	Data Unavailable
Denominator	Total number of major transport interchanges in the city	Data Unavailable
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport	**To be comput-ed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**Non-**

		Computable
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	Data Unavailable
Denominator	Total number of major interchanges in the city	Data Unavailable
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	Data Unavailable
Denominator	Total number of signalised intersections in the city	28
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1
Denominator	Total available on-street parking spaces in the city	1
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**0.09**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	3.4
Denominator	Total length of road network in the city	3903.18
Unit	Percentage	
Benchmark	>=75	

Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**13.89**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	5
Denominator	Total number of junctions/ intersections on major roads in the city	36
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**4.55**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	1
Denominator	Total number of public right-of-way areas in the city	22
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**49.02**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	107733
Denominator	Total number of households in the city	219778
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**344.03**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	197.76

Denominator	Total population of the city	574840
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	8
Denominator	Total number of samples tested for water quality	228
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	197.76
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	112332
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**196.61**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	126335
Denominator	Total number of properties in the city	64256
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**64.58**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	41497
Denominator	Total number of properties in the city	64256
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**16.63**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	18.42
Denominator	Total waste water generated in the city per day	110.75
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**100**

Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	6.1
Denominator	Total waste water received at treatment plants per day	6.1
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	0
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	0
Denominator	Total length of road network in the city	1951.59
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**33.95**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	78137
Denominator	Total number of households and establishments in the city	230165
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**94**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	235
Denominator	Total quantum of MSW generated in the city	250
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**Non-**

Formula:	*Numerator / Denominator*	**Computable**
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	NA
Denominator	Average MSW generated in the city (tons per month)	7050
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**25.81**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	25.81
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**28.99**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	28.99
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**234.86**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	234.86
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	36
Denominator	Total number of noise samples	84
Unit	Percentage	
Benchmark		

Indicator No: 15.5	**Quality of water in public surface water bodies**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%

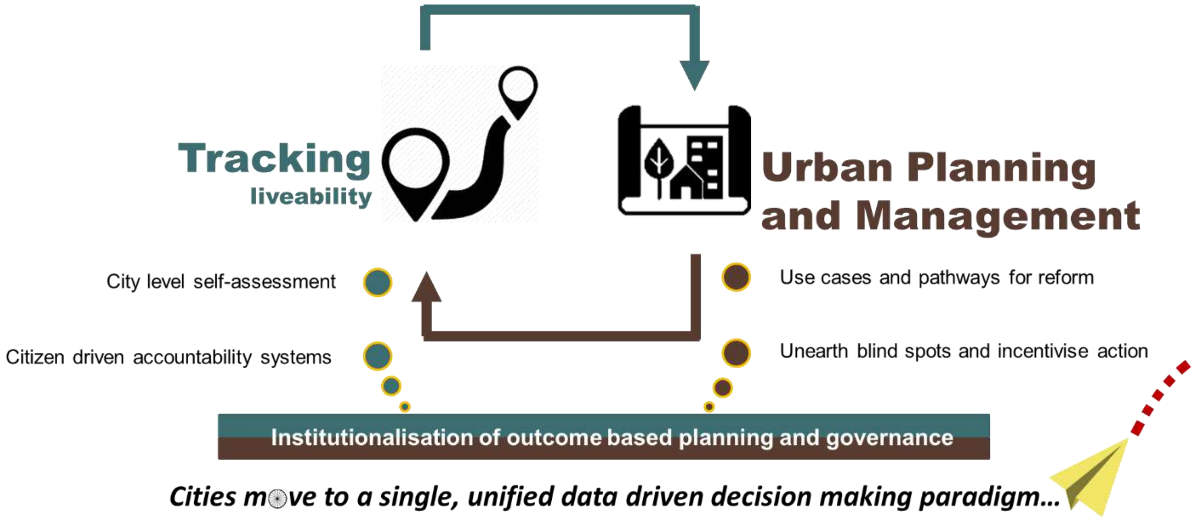
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

DELHI

GEOGRAPHICAL PROFILE

State/Union Territory	Delhi	**Total Geographical Area (Km^2)**	2293.71	**City Category**	Megapolis

DEMOGRAPHIC PROFILE

Total Population	11292358
Total Number of Households	4924559

SOCIAL PROFILE

Education	**Total Number of Schools**	6952
	Total Enrolment (Class 1 to 5)	2288144
Health	**Total Number of In-patient Beds**	30031
	Total Health Workforce	3485
Safety and Security	**Total Strength of Police Force**	84596
	Total Number of CCTV Cameras	221810
Heritage Sites	**Total Number of Heritage Sites**	391

ECONOMIC PROFILE

Total Population in Working Age Group	8194739
Total Number of Industries	35320
Total Number of Commercial Enterprises	145919
Total Number of Hotels	78
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	1339332.89
Total VAT Collection in FY 2016-17 (INR Lakhs)	1889114.89

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	4157.52
	Total Number of Water Connections	2516154
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	3007680
	Total number of households in the city with access to community toilets in the city	641
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	9800
	Total number of households covered through door-to-door collection of solid waste	2065850
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	3380.5
	Daily average quantum of waste water treated by STPs in the city (MLD)	2052.11
Electricity	**Total number of authorized electrical connections in the city**	3509320
	Total electricity supplied to the city (kWh)	8333123361
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	151441026
Roads and Transport	**Total Length of Road Network in the City (Km)**	11537.36
	Total length of arterial and sub-arterial road network in the city (Km)	2126.46
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	2892

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases

Pillars of Comprehensive Development	Category	Indicators
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport

Pillars of Comprehensive Development	Category	Indicators
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

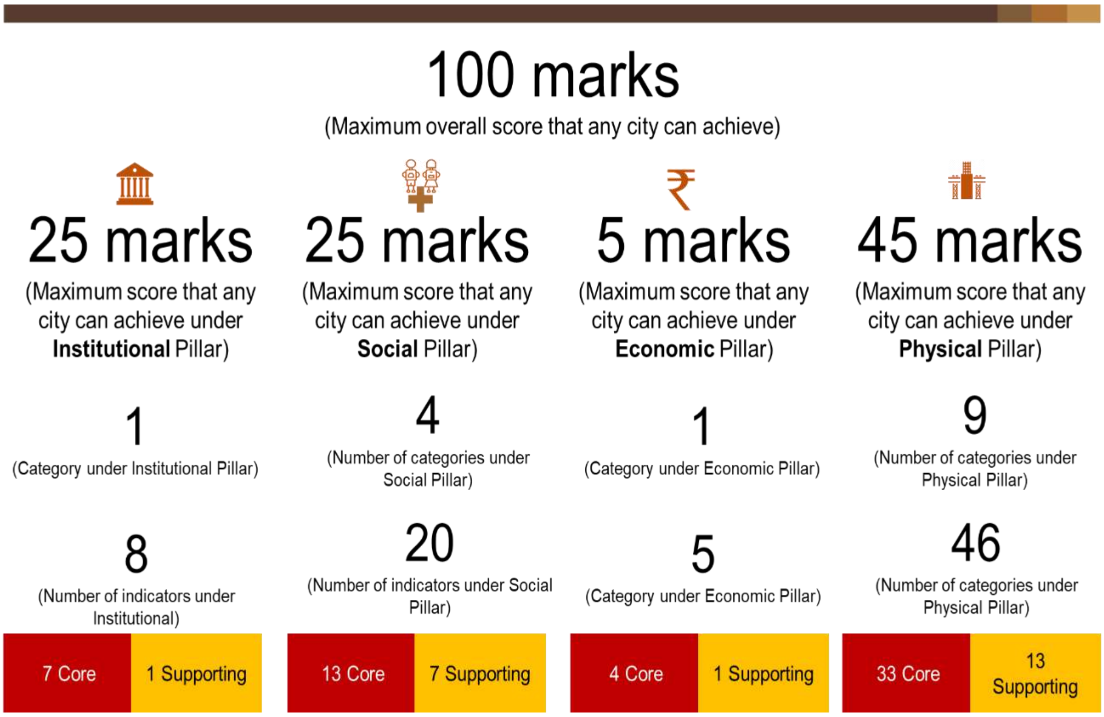
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks
(Maximum score that any city can achieve under **Institutional** Pillar)
1
(Category under Institutional Pillar)
8
(Number of indicators under Institutional)
7 Core | 1 Supporting

25 marks
(Maximum score that any city can achieve under **Social** Pillar)
4
(Number of categories under Social Pillar)
20
(Number of indicators under Social Pillar)
13 Core | 7 Supporting

5 marks
(Maximum score that any city can achieve under **Economic** Pillar)
1
(Category under Economic Pillar)
5
(Category under Economic Pillar)
4 Core | 1 Supporting

45 marks
(Maximum score that any city can achieve under **Physical** Pillar)
9
(Number of categories under Physical Pillar)
46
(Number of categories under Physical Pillar)
33 Core | 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark -\ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

EAST DELHI

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Data shared by ULB's nodal officer
Urban Local Body	For Park and Recreation Related Questions	Data shared by ULB's nodal officer
Urban Local Body	For Water Supply and Drainage related questions	Delhi Jal Board
Urban Local Body	For Heritage sites related data	Data shared by ULB's nodal officer
Urban Local Body	For Ecological sites related data	Data shared by ULB's nodal officer
Urban Local Body	For Housing related data	Data shared by ULB's nodal officer
Urban Local Body	For Building plan related data	Data shared by ULB's nodal officer
Urban Local Body	For Roads related data	Data shared by ULB's nodal officer
Urban Local Body	For Solid waste management related data	Data shared by ULB's nodal officer
Urban Local Body	For IT services related data	Data shared by ULB's nodal officer
Urban Local Body	For Vendor committee related data	Data shared by ULB's nodal officer
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Data shared by ULB's nodal officer
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Delhi Pollution Control Board
Development Authority	Building Infrastructure	Delhi Development Authority
	Construction planning	Delhi Development Authority
	Green Building	Delhi Development Authority

Designated data owners	Subcategories	Data owners at city level
	Rain water harvesting	Delhi Development Authority
	Universal Design Principle	Delhi Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	BSES Rajdhani Power Ltd / BSES Yamuna Power Ltd /Tata Power Distribution Delhi Ltd / Inhouse power distribution in NDMC area by NDMC.
State Disaster management authority		Delhi Disaster Management Authority
State Education Department		Department of Education, Delhi
State Health Department	Health care professionals	Department of Health and Family Welfare
	Citizen Services	Department of Health and Family Welfare
	Disease Prevalence	Department of Health and Family Welfare
	Health Infrastructure	Department of Health and Family Welfare

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, North Delhi, South Delhi, East Delhi and NDMC have submitted 15,10,12, and 1 documents respectively. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city –

NORTH DELHI

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	0
DISCOM/Electricity Department	0
Traffic and Police Department	0
Development Authority	0
Pollution Control Board	0
State Renewable Energy Department	0
Town and Country Planning	1
State Health Department	1
Transport Authority	0
Disaster Management	0
Urban Local Body	13
Total	15*

* The count of documents is based on first round of submission.

SOUTH DELHI

Data Owners	Number of Documents
Sales and Commercial Taxes	0

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5-Physical Audit

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**71.9**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	0.6875
	1.1e water supply	0.583333333
	1.1f sewerage/drainage	0.416666667
	1.1g fogging	0.5
	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	0.673076923
	1.1k Grievance redressal	0.875
	1.1l electricity	1
	1.1m Building plan	0.611111111
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**42.86**
Description	Services integrated through an integrated or a singular operations command centre	9
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**1994.39**
Description		
Sub Indicators	1.3a Building plan	0.008256556
	1.3b Birth/Death Certificate	0.100976004
	1.3c water supply	0.000262676
	1.3d solid waste management	0.012633678

	1.3e property tax	0.023896247
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	0.004843492
	1.3i information	155.1572325
	1.3j electricity	4.243080568
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.6**
Description		
Sub Indicators	1.4a water supply	2.5
	1.4b solid waste	0.125
	1.4c street lights	0
	1.4d sewerage	1
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**90.48**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	266992.48
Denominator	Total demand raised for the year	295074.81
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**68.38**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	196680
Denominator	Total O&M cost for providing water supply services during the year	287613.67
Unit	Percentage	

Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**6.22**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	219515.91
Denominator	Total expenditure (revenue and capital accounts) in the same year	3529322.32
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**93.47**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	272
Denominator	Total number of wards	291
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**66.5**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	260
Denominator	Total number of historic buildings/sites identified	391
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**0.54**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	11
Denominator	Total number of ecologically important sites identified in the city	30
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data

		Unavailable
Unit	Percentage	Data Unavailable
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	100
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	167.22337
Denominator	Total budget of the ULB (capital and revenue)	1339332.89
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**309**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	309
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**171.36**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	3417535
Denominator	Total population in the age group of 6-14 years	1994312
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**8945.48**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	1631298
Denominator	Total female population in the age group of 6-14 years	18236
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**35.34**
Formula:	*Numerator / Denominator*	

Numerator	Total number of students in primary grades (public and private)	2288144
Denominator	Total number of teachers available for primary grades (public and private schools)	64739
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**18.71**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	1301
Denominator	Total number of schools	6952
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**126.63**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	126.6337133
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**98.51**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	1.38544E+11
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**26.59**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	30031
Denominator	Total population of the city	11292358
Unit	Number per 10,000 population	

Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**3.4**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	3845
Denominator	Total population of the city	11292358
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**Non-Computable**
Description	Total response time for health-related distress calls received in the city	Data Unavailable
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**8.32**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	939603
Denominator	Total population of the city	11292358
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.11**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	12598
Denominator	Total population of the city	11292358
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**1922.54**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	221810
Denominator	Total length of road network in the city	11537.366

Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**2167.08**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	244714
Denominator	Total population of the city	11292358
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**8.36**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	20459
Denominator	Total crimes recorded in the same year	244714
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**14.03**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	1584
Denominator	Total population of the city	11292358
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**4**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	72668
Denominator	Total VAT/GST collection during preceding year	18164.46
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**48.14**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	519
Denominator	Number of construction permits during preceding year	10.78
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	1297364
Denominator	Total labour force in the city	7894193
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	917
Denominator	Total number of vendors in the city	NA
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	Data Unavailable
Denominator	Total number of slum and EWS households in the city	16092.35
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**0**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**13.41**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	151441026
Denominator	Total population of the city	11292358
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.63**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	7082144.72
Denominator	Total population of the city	11292358
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data

		Unavailable
Denominator	Total area of the city (total area of all land uses)	2293711985
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	11292358
Denominator	Area allocated for residential land use (in hectares)	977909000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**62.19**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	3062523
Denominator	Total number of households in the city	4924559
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**54.96**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	1928588
Denominator	Total number of electricity connections in the city	3509320
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**91994**
Description	Total number of sustained electrical interruptions in a year	91994
Unit	Number	

Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	626042
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	96318
Denominator	Total energy consumption from all sources	8333123361
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1031315.833
Denominator	Total quantum of water and waste water handled during the period	0
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.1**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	220497197
Denominator	Total number of street light installations	626641
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0.11**
Formula:	*Numerator / Denominator*	

Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	61734
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	240000
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.39**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	8333123361
Denominator	Total population of the city	11292358
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	3952
Denominator	Total area of the city (sq.km)	2293.711985
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.91**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	10297
Denominator	Total population of the city	11292358
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	0.33
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	11537.366
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**51.53**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	101
Denominator	Total number of major transport interchanges in the city	196
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0.94**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	185
Denominator	Total number of major interchanges in the city	196
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**66.89**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	990
Denominator	Total number of signalised intersections in the city	1480
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**5.84**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	13262

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total available on-street parking spaces in the city	227228
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**12.53**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	2892
Denominator	Total length of road network in the city	23074.732
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	0
Denominator	Total number of junctions/ intersections on major roads in the city	52
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**7.44**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	490
Denominator	Total number of public right-of-way areas in the city	6586
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**40.35**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	1986899
Denominator	Total number of households in the city	4924559
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**368.17**
Formula:	*Numerator / Denominator*	

Numerator	Total quantity of water supplied into the distribution system	4157.52
Denominator	Total population of the city	11292358
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	155787
Denominator	Total number of samples tested for water quality	186162
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**0**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0
Denominator	Quantum of water put into the distribution system (mld)	4157.52
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**83.86**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	2110062
Denominator	Total number of water connections in the city	2516154
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**4.39**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	13
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	296
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

	and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**124.28**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	3011576
Denominator	Total number of properties in the city	2423135
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**120.49**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	2919543
Denominator	Total number of properties in the city	2423135
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**60.7**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	2052.11
Denominator	Total waste water generated in the city per day	3380.5
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**158.69**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	1821.978
Denominator	Total waste water received at treatment plants per day	1148.11
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**366.88**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	42327.9
Denominator	Total length of road network in the city	11537.366
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**41.33**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	2095850
Denominator	Total number of households and establishments in the city	5070478
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**96.08**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	9800
Denominator	Total quantum of MSW generated in the city	10200
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**111.27**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	327132.915
Denominator	Average MSW generated in the city (tons per month)	294000
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**23.36**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	23.36
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**73.55**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	73.55
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**263**

Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	263
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Data Unavailable
Denominator	Total number of noise samples	105120
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**92.6**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	8112
Denominator	Total number of samples tested	8760
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

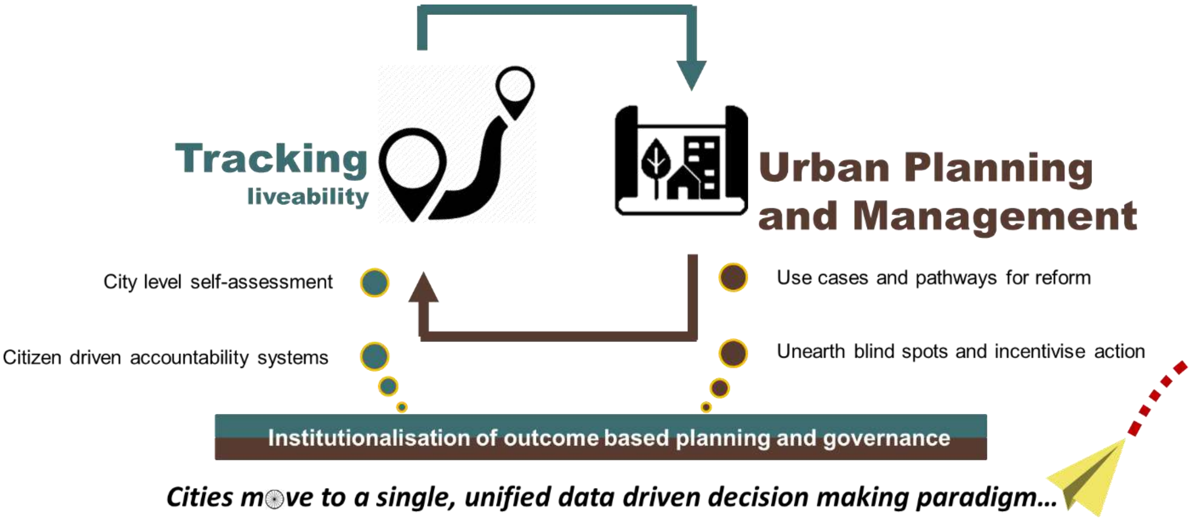
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

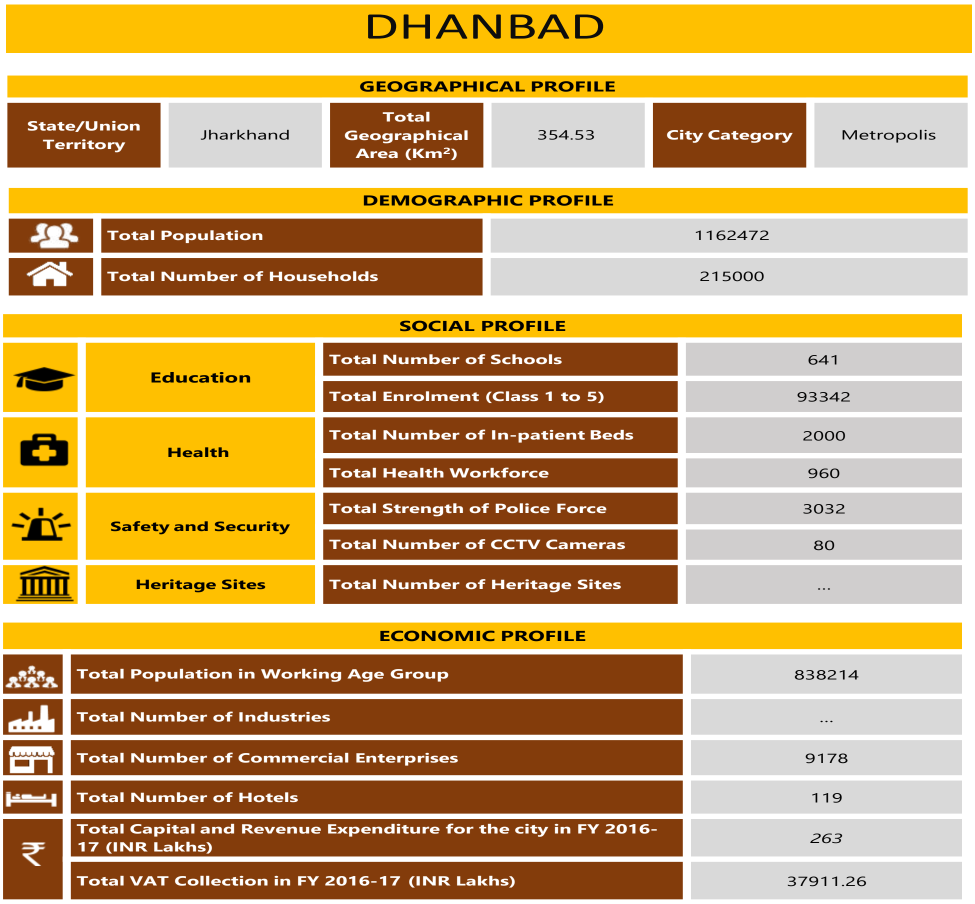


Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



DHANBAD

GEOGRAPHICAL PROFILE

State/Union Territory	Jharkhand	Total Geographical Area (Km²)	354.53	City Category	Metropolis

DEMOGRAPHIC PROFILE

Total Population	1162472
Total Number of Households	215000

SOCIAL PROFILE

Education	Total Number of Schools	641
	Total Enrolment (Class 1 to 5)	93342
Health	Total Number of In-patient Beds	2000
	Total Health Workforce	960
Safety and Security	Total Strength of Police Force	3032
	Total Number of CCTV Cameras	80
Heritage Sites	Total Number of Heritage Sites	...

ECONOMIC PROFILE

Total Population in Working Age Group	838214
Total Number of Industries	...
Total Number of Commercial Enterprises	9178
Total Number of Hotels	119
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	*263*
Total VAT Collection in FY 2016-17 (INR Lakhs)	37911.26

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	119
	Total Number of Water Connection	131385
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	204000
	Total number of households in the city with access to community toilets in the city	11304
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	502
	Total number of households covered through door-to-door collection of solid waste	197000
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	...
	Daily average quantum of waste water treated by STPs in the city (MLD)	0.6
Electricity	**Total number of authorized electrical connections in the city**	212567
	Total electricity supplied to the city (kWh)	1776244000
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	412531
Roads and Transport	**Total Length of Road Network in the City (Km)**	322
	Total length of arterial and sub-arterial road network in the city (Km)	150
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	12

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education

Pillars of Comprehensive Development	Category	Indicators
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places

Pillars of Comprehensive Development	Category	Indicators
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization

Pillars of Comprehensive Development	Category	Indicators
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution

Pillars of Comprehensive Development	Category	Indicators
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks (Maximum score that any city can achieve under **Institutional** Pillar)	25 marks (Maximum score that any city can achieve under **Social** Pillar)	5 marks (Maximum score that any city can achieve under **Economic** Pillar)	45 marks (Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring. The list of benchmarks is presented in Annexure 1.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Urban Local Body
Urban Local Body	For Park and Recreation Related Questions	Urban Local Body
Urban Local Body	For Water Supply and Drainage related questions	Urban Local Body
Urban Local Body	For Heritage sites related data	Urban Local Body
Urban Local Body	For Ecological sites related data	Urban Local Body

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Housing related data	Urban Local Body
Urban Local Body	For Building plan related data	Building plan department
Urban Local Body	For Roads related data	ULB, Transport Authority
Urban Local Body	For Solid waste management related data	Urban Local Body
Urban Local Body	For IT services related data	Urban Local Body
Urban Local Body	For Vendor committee related data	Urban Local Body
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Urban Local Body
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Regional Pollution Control Board, Dhanbad
Development Authority	Building Infrastructure	Urban Local Body
	Construction planning	Urban Local Body
	Green Building	Urban Local Body
	Rain water harvesting	Revenue Department
	Universal Design Principle	Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Jharkhand Vidut Vitran Nigam Limited
State Disaster management authority		District Disaster Management Authority
State Education Department		District Superintendent of Education, Dhanbad
State Health Department	Health care professionals	Civil Surgeon Office Dhanbad
	Citizen Services	Civil Surgeon Office Dhanbad
	Disease Prevalence	Civil Surgeon Office Dhanbad
	Health Infrastructure	Civil Surgeon Office Dhanbad
State Renewable Energy Development Agency		Electricity Board
State Sales / Commercial Taxes Department		Divisional Sales and Commercial Tax Department
Town and Country Planning Department	Land Use	Town Planning Department
Traffic and Police Department		SP Office Dhanbad
Transport Authorities	Buses	District Transport Office
	Registered Vehicles	District Transport Office
	Sub urban rail transport	

Designated data owners	Subcategories	Data owners at city level
	Mono Rail Authority	
	Tramways	
	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 10 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	0
State Education Department	2
DISCOM/Electricity Department	0
Traffic and Police Department	1
Development Authority	0
Pollution Control Board	3
State Renewable Energy Department	0
Town and Country Planning	1
State Health Department	1
Transport Authority	0
Disaster Management	0
Urban Local Body	2
Total	10*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that

data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

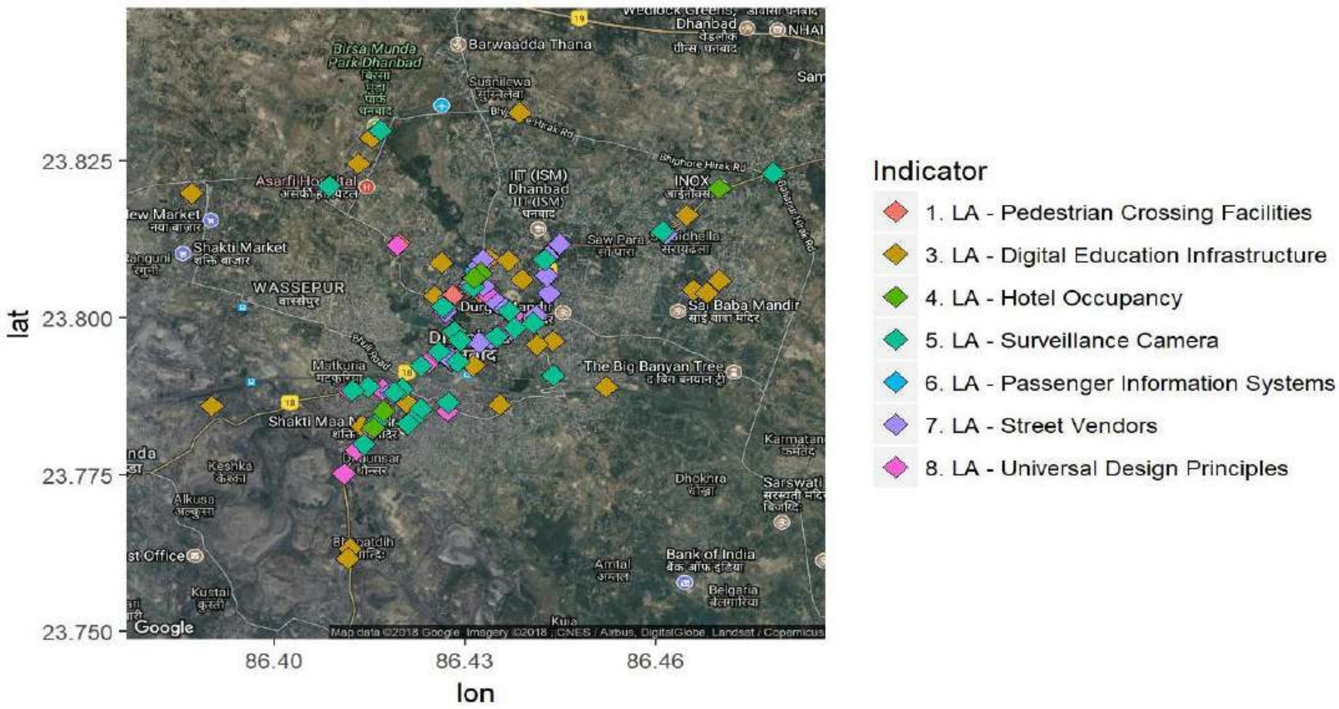
11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.



Indicator
1. LA - Pedestrian Crossing Facilities
3. LA - Digital Education Infrastructure
4. LA - Hotel Occupancy
5. LA - Surveillance Camera
6. LA - Passenger Information Systems
7. LA - Street Vendors
8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**82.15**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75
	1.1b death certificate	0.75
	1.1c trade license	1
	1.1d solid waste management	1
	1.1e water supply	0.333333333
	1.1f sewerage/drainage	0
	1.1g fogging	1
	1.1h property tax	1
	1.1i professional tax	1

	1.1j information	0.846153846
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**7.53**
Description		
Sub Indicators	1.3a Building plan	0.0000681481481481482
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.150540771
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.4	Average delay in grievance redressal	**0.07**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0.5
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**91.67**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	1100
Denominator	Total demand raised for the year	1200
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**2.36**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	47
Denominator	Total O&M cost for providing water supply services during the year	1991
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**126.36**
Formula:	*Numerator / Denominator*	

Numerator	Total capital expenditure during a year	-13862
Denominator	Total expenditure (revenue and capital accounts) in the same year	-10970
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	55
Denominator	Total number of wards	55
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	

Indicator No: 2.3	Hotel Occupancy	**47**
Description	Average Occupancy rate of Hotels	47
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**15.97**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	42
Denominator	Total budget of the ULB (capital and revenue)	263
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**14**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	14
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**59.27**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	149064
Denominator	Total population in the age group of 6-14 years	251497
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**60.1**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	71696
Denominator	Total female population in the age group of 6-14 years	119297
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**17.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	93342
Denominator	Total number of teachers available for primary grades (public and private schools)	5411
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**8.89**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	57
Denominator	Total number of schools	641
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**160.63**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	**160.63**
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**132.92**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	**132.92**

Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**17.2**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	2000
Denominator	Total population of the city	1162472
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**8.26**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	960
Denominator	Total population of the city	1162472
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**0**
Description	Total response time for health-related distress calls received in the city	0
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.32**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	3705
Denominator	Total population of the city	1162472
Unit	Percentage	

Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.23**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	2679
Denominator	Total population of the city	1162472
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**24.84**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	80
Denominator	Total length of road network in the city	322
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**461.26**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	5362
Denominator	Total population of the city	1162472
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**11.6**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	622

Denominator	Total crimes recorded in the same year	5362
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**17.2**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	200
Denominator	Total population of the city	1162472
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**15.61**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	5118.98
Denominator	Total VAT/GST collection during preceding year	327.9228
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	0
Denominator	Total Professional Tax collection during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 6.3	Increase in issuance of Construction Permits	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	50
Denominator	Number of construction permits during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	27889
Denominator	Total labour force in the city	251497
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**126.54**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	7956
Denominator	Total number of vendors in the city	6287.425
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**26.59**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	9671
Denominator	Total number of slum and EWS households in the city	363.65
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.04**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**0.04**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	412531
Denominator	Total population of the city	1162472
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.44**
Formula:	*Numerator / Denominator*	

Numerator	Total area of public and recreational places (sq.m.)	509221
Denominator	Total population of the city	1162472
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**0.37**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	1297616
Denominator	Total area of the city (total area of all land uses)	354530000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1162472
Denominator	Area allocated for residential land use (in hectares)	182050000
Unit		

Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**98.82**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	212454
Denominator	Total number of households in the city	215000
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	212567
Denominator	Total number of electricity connections in the city	212567
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**190**
Description	Total number of sustained electrical interruptions in a year	190
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	3712
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	24
Denominator	Total energy consumption from all sources	1776281560
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.24**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	1302241.667
Denominator	Total quantum of water and waste water handled during the period	3588
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	3732264
Denominator	Total number of street light installations	32000
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	0
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.4**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1776281560
Denominator	Total population of the city	1162472

Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	0
Denominator	Total area of the city (sq.km)	354.53
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	0
Denominator	Total population of the city	1162472
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	16
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**6.21**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	20
Denominator	Total length of road network in the city	322
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	0

Denominator	Total number of major transport interchanges in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	18
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	0
Denominator	Total number of major interchanges in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**64.91**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	37
Denominator	Total available on-street parking spaces in the city	57
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**1.86**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	12
Denominator	Total length of road network in the city	644

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**166.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	15
Denominator	Total number of junctions/ intersections on major roads in the city	9
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**11.01**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	127
Denominator	Total number of public right-of-way areas in the city	1153
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**60.88**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	130895
Denominator	Total number of households in the city	215000
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**102.37**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	119

Denominator	Total population of the city	1162472
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	168
Denominator	Total number of samples tested for water quality	168
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	119
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**99.63**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	130895
Denominator	Total number of water connections in the city	131385
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**771.43**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	756
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	98
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**96.11**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	216253
Denominator	Total number of properties in the city	225000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	Data Unavailable
Denominator	Total number of properties in the city	225000
Unit	Percentage	
Benchmark	100%	

Indicator No: 13.3	Collection efficiency of sewerage network	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	Data Unavailable
Denominator	Total waste water generated in the city per day	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	Data Unavailable
Denominator	Total waste water received at treatment plants per day	Data Unavailable
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	Data Unavailable
Denominator	Total length of road network in the city	322
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**91.96**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	206145
Denominator	Total number of households and establishments in the city	224178
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**92.45**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	502
Denominator	Total quantum of MSW generated in the city	543
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**0.93**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	140
Denominator	Average MSW generated in the city (tons per month)	15060
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**14.48**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	14.48
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	

Indicator No: 15.2	**Concentration of NO2 - air pollution**	**36.83**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	36.83
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**155**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	155
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	0
Denominator	Total number of noise samples	60
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	168
Unit	Percentage	
Benchmark	100%

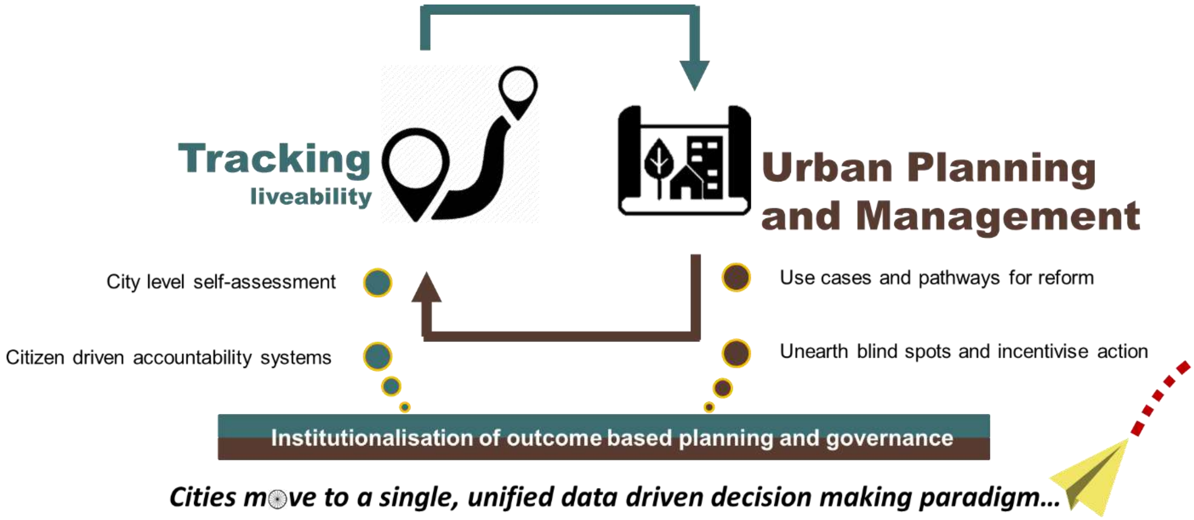
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

DHARAMSHALA

GEOGRAPHICAL PROFILE

State/Union Territory	Himachal Pradesh	**Total Geographical Area (Km^2)**	27.6	**City Category**	Small City

DEMOGRAPHIC PROFILE

Total Population	22580
Total Number of Households	10978

SOCIAL PROFILE

Education	**Total Number of Schools**	112
	Total Enrolment (Class 1 to 5)	4019
Health	**Total Number of In-patient Beds**	292
	Total Health Workforce	88
Safety and Security	**Total Strength of Police Force**	104
	Total Number of CCTV Cameras	11
Heritage Sites	**Total Number of Heritage Sites**	1

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	...
Total Number of Commercial Enterprises	650
Total Number of Hotels	236
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	985.06
Total VAT Collection in FY 2016-17 (INR Lakhs)	*2503224282*

PHYSICAL PROFILE

Water	Average Quantity of Water Supplied (MLD)	3.42
	Total Number of Water Connection	5823
Sanitation Facilities	Total number of households with access to individual toilets in the city	...
	Total number of households in the city with access to community toilets in the city	...
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	20
	Total number of households covered through door-to-door collection of solid waste	...
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	2.73
	Daily average quantum of waste water treated by STPs in the city (MLD)	2.7
Electricity	Total number of authorized electrical connections in the city	25631
	Total electricity supplied to the city (kWh)	27663300
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	303400
Roads and Transport	Total Length of Road Network in the City (Km)	136.98
	Total length of arterial and sub-arterial road network in the city (Km)	20
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in

Pillars of Comprehensive Development	Category	Indicators
		schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through

Pillars of Comprehensive Development	Category	Indicators
		meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

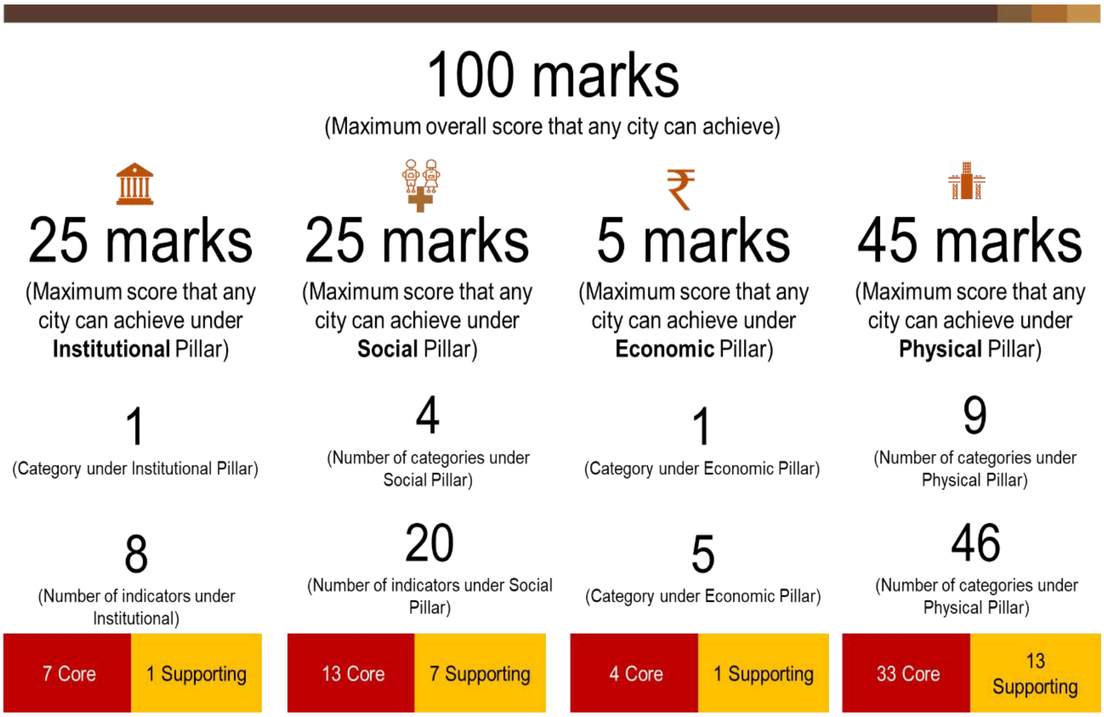
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks (Maximum score that any city can achieve under **Institutional** Pillar)	25 marks (Maximum score that any city can achieve under **Social** Pillar)	5 marks (Maximum score that any city can achieve under **Economic** Pillar)	45 marks (Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark -\ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	MC Dharamshala
Urban Local Body	For Park and Recreation Related Questions	Town and Country Planning
Urban Local Body	For Water Supply and Drainage related questions	Irrigation and Public Health Department
Urban Local Body	For Heritage sites related data	Tourism Department
Urban Local Body	For Ecological sites related data	MC Dharamshala
Urban Local Body	For Housing related data	MC Dharamshala
Urban Local Body	For Building plan related data	MC Dharamshala
Urban Local Body	For Roads related data	Public Work Department
Urban Local Body	For Solid waste management related data	MC Dharamshala
Urban Local Body	For IT services related data	MC Dharamshala
Urban Local Body	For Vendor committee related data	MC Dharamshala
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Tourism, PWD, Education, Irrigation & Public Health, RTO and electricity board.
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	State Pollution Control Board Department
Development Authority	Building Infrastructure	MC Dharamshala
	Construction planning	MC Dharamshala
	Green Building	MC Dharamshala

Designated data owners	Subcategories	Data owners at city level
	Rain water harvesting	MC Dharamshala
	Universal Design Principle	MC Dharamshala
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	State Electricity Board Department
State Disaster management authority		DC office
State Education Department		Directory of state elementary & secondary
State Health Department	Health care professionals	Zonal Hospital – Chief Medical Officer
	Citizen Services	Zonal Hospital – CMO
	Disease Prevalence	Zonal Hospital – CMO
	Health Infrastructure	Zonal Hospital - CMO
State Renewable Energy Development Agency		State Renewable Energy Development department
State Sales / Commercial Taxes Department		State Taxation Department
Town and Country Planning Department	Land Use	Town and country Planning Department
Traffic and Police Department		Police Department – SP office
Transport Authorities	Buses	Regional transportation Office
	Registered Vehicles	RTO
	Sub urban rail transport	RTO
	Mono Rail Authority	RTO
	Tramways	RTO
	Marine Transport Authority	RTO

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 31 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments.

Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	2
DISCOM/Electricity Department	0
Traffic and Police Department	5
Development Authority	0
Pollution Control Board	3
State Renewable Energy Department	0
Town and Country Planning	1
State Health Department	1
Transport Authority	9
Disaster Management	0
Urban Local Body	9
Total	31*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**23.96**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0
	1.1b death certificate	0
	1.1c trade license	0
	1.1d solid waste management	0.5
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0
	1.1j information	0.615384615
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.3	**Percentage of citizens using online services**	**33.69**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.336916234
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**NC**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	

Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**96.25**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	201.20339
Denominator	Total demand raised for the year	209.0389
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**193.89**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	98.1087
Denominator	Total O&M cost for providing water supply services during the year	50.6
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**129.48**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-6938.54561
Denominator	Total expenditure (revenue and capital accounts) in the same year	-5358.75561
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	17
Denominator	Total number of wards	17
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	985.06
Unit	Percentage	

Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**16**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	16
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**45.22**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	6518
Denominator	Total population in the age group of 6-14 years	14414
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**48.44**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	3206
Denominator	Total female population in the age group of 6-14 years	6619
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**35.88**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	4019
Denominator	Total number of teachers available for primary grades (public and private schools)	112
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**25.89**

Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	29
Denominator	Total number of schools	112
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**83.77**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	**83.77**
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**112.06**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	**112.06**
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**129.32**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	292
Denominator	Total population of the city	22579
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**38.97**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	88

Denominator	Total population of the city	22579
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**920**
Description	Total response time for health-related distress calls received in the city	920
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**39.73**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	8970
Denominator	Total population of the city	22579
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	0
Denominator	Total population of the city	22579
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**8.03**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	11
Denominator	Total length of road network in the city	136.986
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1213.52**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	274
Denominator	Total population of the city	22579
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**17.88**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	49
Denominator	Total crimes recorded in the same year	274
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**44.29**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	10
Denominator	Total population of the city	22579
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**19.71**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	412116080
Denominator	Total VAT/GST collection during preceding year	20911082.02
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**32.69**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	34
Denominator	Number of construction permits during preceding year	1.04
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	60619
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	1515.475
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**71.63**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	1439
Denominator	Total number of slum and EWS households in the city	20.09
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	

Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	**NA**
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**13.44**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	303400
Denominator	Total population of the city	22579
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**60.67**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	1369782
Denominator	Total population of the city	22579
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**2.2**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	608300
Denominator	Total area of the city (total area of all land uses)	27600000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	22579
Denominator	Area allocated for residential land use (in hectares)	6813700
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**3.93**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	431
Denominator	Total number of households in the city	10978

Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	25631
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**401**
Description	Total number of sustained electrical interruptions in a year	401
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	661
Unit	Hours	

Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	8
Denominator	Total energy consumption from all sources	34009290
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	121666.6667
Denominator	Total quantum of water and waste water handled during the period	183.6
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.3**
Formula:	*Numerator / Denominator*	

Numerator	Energy consumption on street lighting	792022
Denominator	Total number of street light installations	3470
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	11291.05
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	34009290
Denominator	Total population of the city	22579
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.74**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	136.986
Denominator	Total area of the city (sq.km)	27.6
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**32.51**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	734
Denominator	Total population of the city	22579
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	64
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	136.986
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	NA
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	

Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.5**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	1
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	NA
Denominator	Total length of road network in the city	273.972

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	NA
Denominator	Total number of junctions/ intersections on major roads in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0.41**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	1
Denominator	Total number of public right-of-way areas in the city	245
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**46.1**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	5061
Denominator	Total number of households in the city	10978
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**151.47**
Formula:	*Numerator / Denominator*	

Numerator	Total quantity of water supplied into the distribution system	3.42
Denominator	Total population of the city	22579
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	NA
Denominator	Total number of samples tested for water quality	131
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0
Denominator	Quantum of water put into the distribution system (mld)	3.42
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**55.26**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	3218
Denominator	Total number of water connections in the city	5823
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**5.8**
Formula:	*Numerator / Denominator*	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	8
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	138
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**5.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	657
Denominator	Total number of properties in the city	10978
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**25.96**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	2850
Denominator	Total number of properties in the city	10978
Unit	Percentage	
Benchmark	100%	

Indicator No: 13.3	**Collection efficiency of sewerage network**	**98.9**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	2.7
Denominator	Total waste water generated in the city per day	2.73
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**95.24**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	2.6
Denominator	Total waste water received at treatment plants per day	2.73
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**198.56**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	272
Denominator	Total length of road network in the city	136.986
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	0
Denominator	Total number of households and establishments in	11628

	the city	
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**80**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	20
Denominator	Total quantum of MSW generated in the city	25
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	0
Denominator	Average MSW generated in the city (tons per month)	600
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**2**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	2
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**7**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	7
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	

Indicator No: 15.3	**Concentration of PM10 - air pollution**	**35**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	35
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	12
Denominator	Total number of noise samples	12
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	12
Denominator	Total number of samples tested	12
Unit	Percentage	
Benchmark	100%

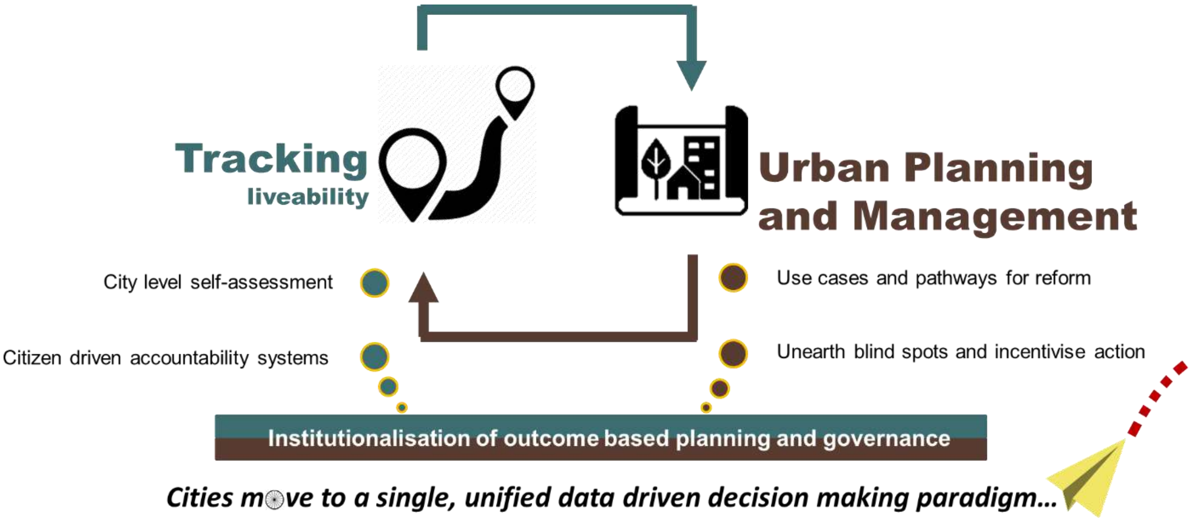
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

DINDIGUL

GEOGRAPHICAL PROFILE

State/Union Territory	Tamil Nadu	**Total Geographical Area (Km^2)**	14.01	**City Category**	Small City

DEMOGRAPHIC PROFILE

Total Population	207327
Total Number of Households	58175

SOCIAL PROFILE

Education	**Total Number of Schools**	93
	Total Enrolment (Class 1 to 5)	17749
Health	**Total Number of In-patients Beds**	1560
	Total Health Workforce	456
Safety and Security	**Total Strength of Police Force**	214
	Total Number of CCTV Cameras	98
Heritage Sites	**Total Number of Heritage Sites**	1

ECONOMIC PROFILE

Total Population in Working Age Group	146783
Total Number of Industries	133
Total Number of Commercial Enterprises	6786
Total Number of Hotels	104
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	5787.78
Total VAT Collection in FY 2016-17 (INR Lakhs)	5792.7

PHYSICAL PROFILE			
	Water	**Average Quantity of Water Supplied (MLD)**	15.5
		Total Number of Water Connections	27785
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	53113
		Total number of households in the city with access to community toilets in the city	1335
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	2.367
		Total number of households covered through door-to-door collection of solid waste	54448
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	13.65
		Daily average quantum of waste water treated by STPs in the city (MLD)	1.4
	Electricity	**Total number of authorized electrical connections in the city**	79435
		Total electricity supplied to the city (kWh)	139002590
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	0
	Roads and Transport	**Total Length of Road Network in the City (Km)**	210
		Total length of arterial and sub-arterial road network in the city (Km)	181.733
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	12

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in

Pillars of Comprehensive Development	Category	Indicators
		schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through

Pillars of Comprehensive Development	Category	Indicators
		meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

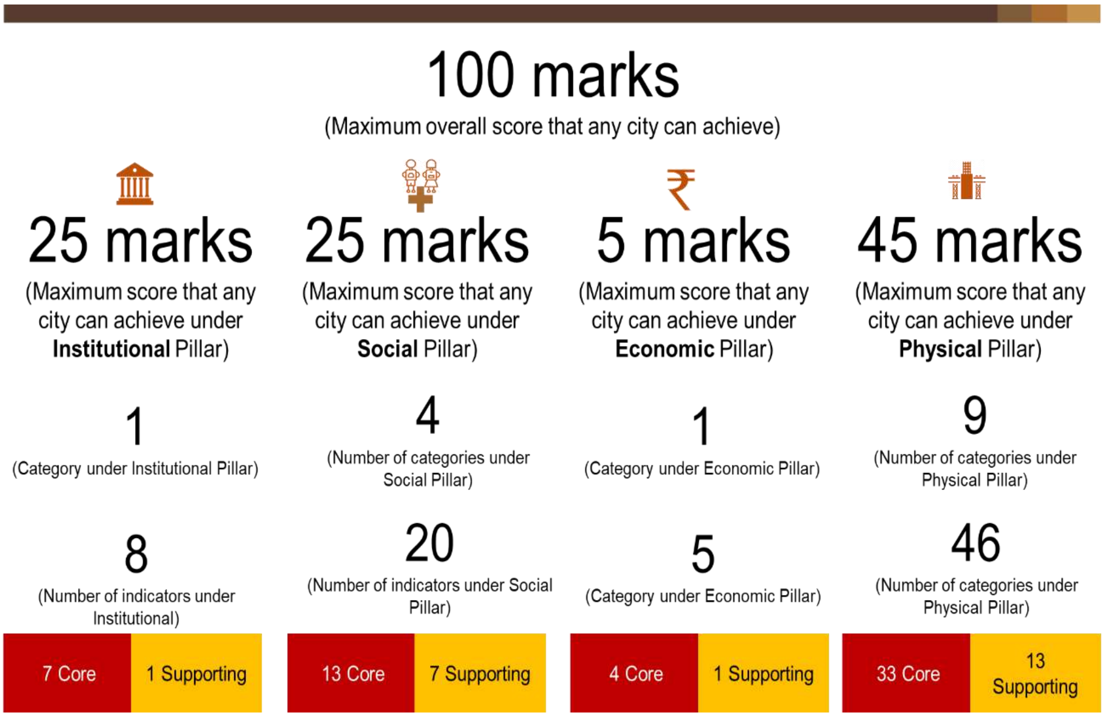
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts department, Dindigul Corporation
Urban Local Body	For Park and Recreation Related Questions	Engineering Section, Dindigul Corporation
Urban Local Body	For Water Supply and Drainage related questions	Engineering Section, Dindigul Corporation
Urban Local Body	For Heritage sites related data	Town planning, Dindigul Corporation
Urban Local Body	For Ecological sites related data	Town planning, Dindigul Corporation
Urban Local Body	For Housing related data	Town planning, Dindigul Corporation
Urban Local Body	For Building plan related data	Town planning, Dindigul Corporation
Urban Local Body	For Roads related data	Engineering Section, Dindigul Corporation
Urban Local Body	For Solid waste management related data	Health Department , ULB , Dindigul corporation
Urban Local Body	For IT services related data	IT department, Dindigul Corporation
Urban Local Body	For Vendor committee related data	Town planning, Dindigul Corporation
Urban Local Body	Any other departments involved in providing data for questions	Revenue Section , Dindigul Corporation

Designated data owners	Subcategories	Data owners at city level
	mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	
Development Authority	Building Infrastructure	Town planning, Dindigul Corporation
	Construction planning	Town planning, Dindigul Corporation
	Green Building	Town planning, Dindigul Corporation
	Rain water harvesting	Town planning, Dindigul Corporation
	Universal Design Principle	Engineering Department, Dindigul Corporation
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Tamilnadu Electricity Board , Dindigul
State Disaster management authority		Revenue and Disaster Management Department
State Education Department		District Education Department , Dindigul
State Health Department	Health care professionals	Joint Director, Health Services, Dindigul
	Citizen Services	Joint Director, Health Services, Dindigul
	Disease Prevalence	Joint Director, Health Services, Dindigul
	Health Infrastructure	Joint Director, Health Services, Dindigul
State Renewable Energy Development Agency		
State Sales / Commercial Taxes Department		District Commercial Tax Department, Dindigul
Town and Country Planning Department	Land Use	Local Planning Authority & Town Planning Department
Traffic and Police Department		Police Department, Dindigul
Transport Authorities	Buses	Tamilnadu State Transport Corporation, Dindigul
	Registered Vehicles	Regional Transport Office, Dindigul
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable

Designated data owners	Subcategories	Data owners at city level
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 180 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	6
DISCOM/Electricity Department	2
Traffic and Police Department	2
Development Authority	15
Pollution Control Board	7
State Renewable Energy Department	1
Town and Country Planning	2
State Health Department	12
Transport Authority	8
Disaster Management	1
Urban Local Body	123
Total	180*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**67.24**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	1
	1.1d solid waste management	0

Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**19.4**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	188

Denominator	Total demand raised for the year	969.19
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**31.31**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	167.4
Denominator	Total O&M cost for providing water supply services during the year	534.62
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-42.51**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-3874.3
Denominator	Total expenditure (revenue and capital accounts) in the same year	9113.98
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA
Denominator	Total number of wards	48
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	NA
Denominator	Total number of historic buildings/sites identified	1
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	NA
Denominator	Total number of ecologically important sites identified in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**29.76**
Description	Average Occupancy rate of Hotels	29.76
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	NA
Denominator	Total budget of the ULB (capital and revenue)	5787.78
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**Non-Computable**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	NA
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**102.6**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	34114

Denominator	Total population in the age group of 6-14 years	33251
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**108.91**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	17466
Denominator	Total female population in the age group of 6-14 years	16037
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**26.81**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	17749
Denominator	Total number of teachers available for primary grades (public and private schools)	662
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**25.81**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	24
Denominator	Total number of schools	93
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**72.62**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	72.61778707
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**96.57**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	30483422

Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**75.24**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	1560
Denominator	Total population of the city	207327
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**21.99**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	456
Denominator	Total population of the city	207327
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**21.52**
Description	Total response time for health-related distress calls received in the city	21.52
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**1.22**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	2524
Denominator	Total population of the city	207327
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.25**
Formula:	*Numerator / Denominator*	

Numerator	Number of cases of persons affected by vector borne diseases in a year	523
Denominator	Total population of the city	207327
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**46.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	98
Denominator	Total length of road network in the city	210
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1220.29**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	2530
Denominator	Total population of the city	207327
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**0.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	22
Denominator	Total crimes recorded in the same year	2530
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**13.51**
Formula:	*Numerator / Denominator*	

Numerator	Total number of fatalities recorded in road accidents in a year	28
Denominator	Total population of the city	207327
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**8.2**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	438.88
Denominator	Total VAT/GST collection during preceding year	53.5382
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**-8.35**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-11.61
Denominator	Total Professional Tax collection during preceding year	139.09
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-14.91**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-17
Denominator	Number of construction permits during preceding year	1.14
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of unemployed persons (seeking or available for work)	111448
Denominator	Total labour force in the city	33251
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	1299
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**5.5**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	1215
Denominator	Total number of slum and EWS households in the city	220.89
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**46.52**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	4231314559836
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0**

Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	0
Denominator	Total population of the city	207327
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**0.96**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	198649.71
Denominator	Total population of the city	207327
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	14.01
Denominator	Total area of the city (total area of all land uses)	14010000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**18250.62**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	207327
Denominator	Area allocated for residential land use (in hectares)	11.36
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**103.78**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	60375
Denominator	Total number of households in the city	58175
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	NA
Denominator	Total number of electricity connections in the city	79435
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**721**
Description	Total number of sustained electrical interruptions in a year	721
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	4958
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.02**
Formula:	*Numerator / Denominator*	

Numerator	Total installed capacity for generation of renewable energy in the city	285937
Denominator	Total energy consumption from all sources	139002746
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.03**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	2303404.25
Denominator	Total quantum of water and waste water handled during the period	507
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	1879046
Denominator	Total number of street light installations	6791
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	NA
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	NA
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.79**
Formula:	*Numerator / Denominator*	

Numerator	Total energy consumption (for all uses) in the city	139002746
Denominator	Total population of the city	207327
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.67**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	25.4
Denominator	Total area of the city (sq.km)	14.01
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.55**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	113
Denominator	Total population of the city	207327
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	Data Unavailable
Denominator	Total length of road network in the city	210
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**200**

Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	NA
Denominator	Total number of signalised intersections in the city	NA
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	NA
Denominator	Total available on-street parking spaces in the city	NA
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than**	**2.86**

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

	1.2m	
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	12
Denominator	Total length of road network in the city	420
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	NA
Denominator	Total number of junctions/ intersections on major roads in the city	10
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**2.94**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	5
Denominator	Total number of public right-of-way areas in the city	170
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**38.19**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	22217
Denominator	Total number of households in the city	58175
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**74.76**
Formula:	*Numerator / Denominator*	

Numerator	Total quantity of water supplied into the distribution system	15.5
Denominator	Total population of the city	207327
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	59
Denominator	Total number of samples tested for water quality	12
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**15.48**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	2.4
Denominator	Quantum of water put into the distribution system (mld)	15.5
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	27785
Denominator	Total number of water connections in the city	27785
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**3.96**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	4

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	101
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**139.26**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	59196
Denominator	Total number of properties in the city	42507
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**130.92**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	55651
Denominator	Total number of properties in the city	42507
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**10.26**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	1.4
Denominator	Total waste water generated in the city per day	13.65
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	1.4
Denominator	Total waste water received at treatment plants per day	1.4

Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**5.57**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	11.7
Denominator	Total length of road network in the city	210
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**90.52**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	58800
Denominator	Total number of households and establishments in the city	64961
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**2.28**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	2.366666667
Denominator	Total quantum of MSW generated in the city	104
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**1056.34**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	750
Denominator	Average MSW generated in the city (tons per month)	71
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**10.4**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	10.4
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**17.2**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	17.2
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**54**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	54
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	2
Denominator	Total number of noise samples	2
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	NA
Denominator	Total number of samples tested	NA
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

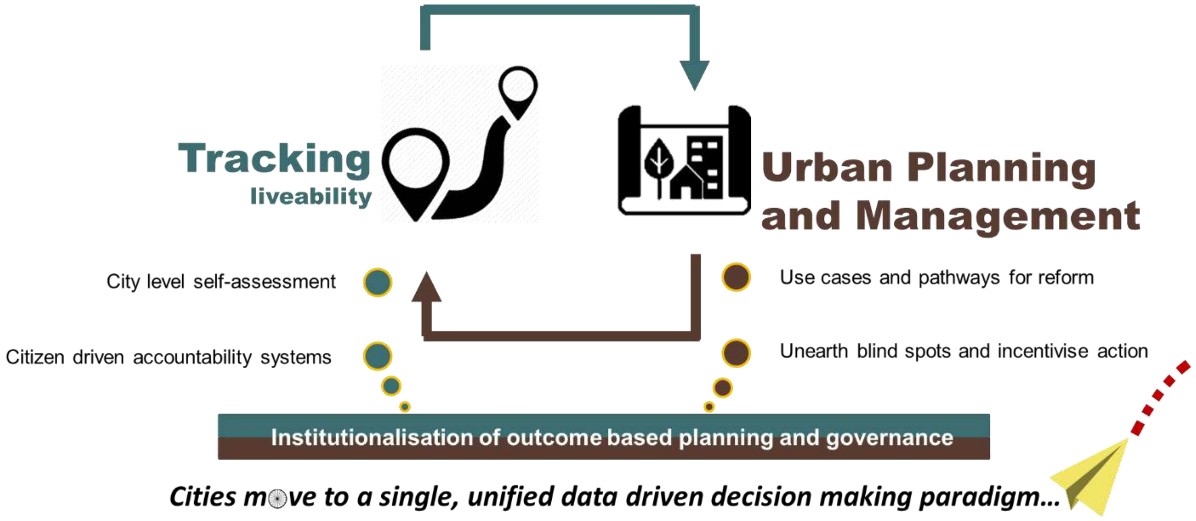
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



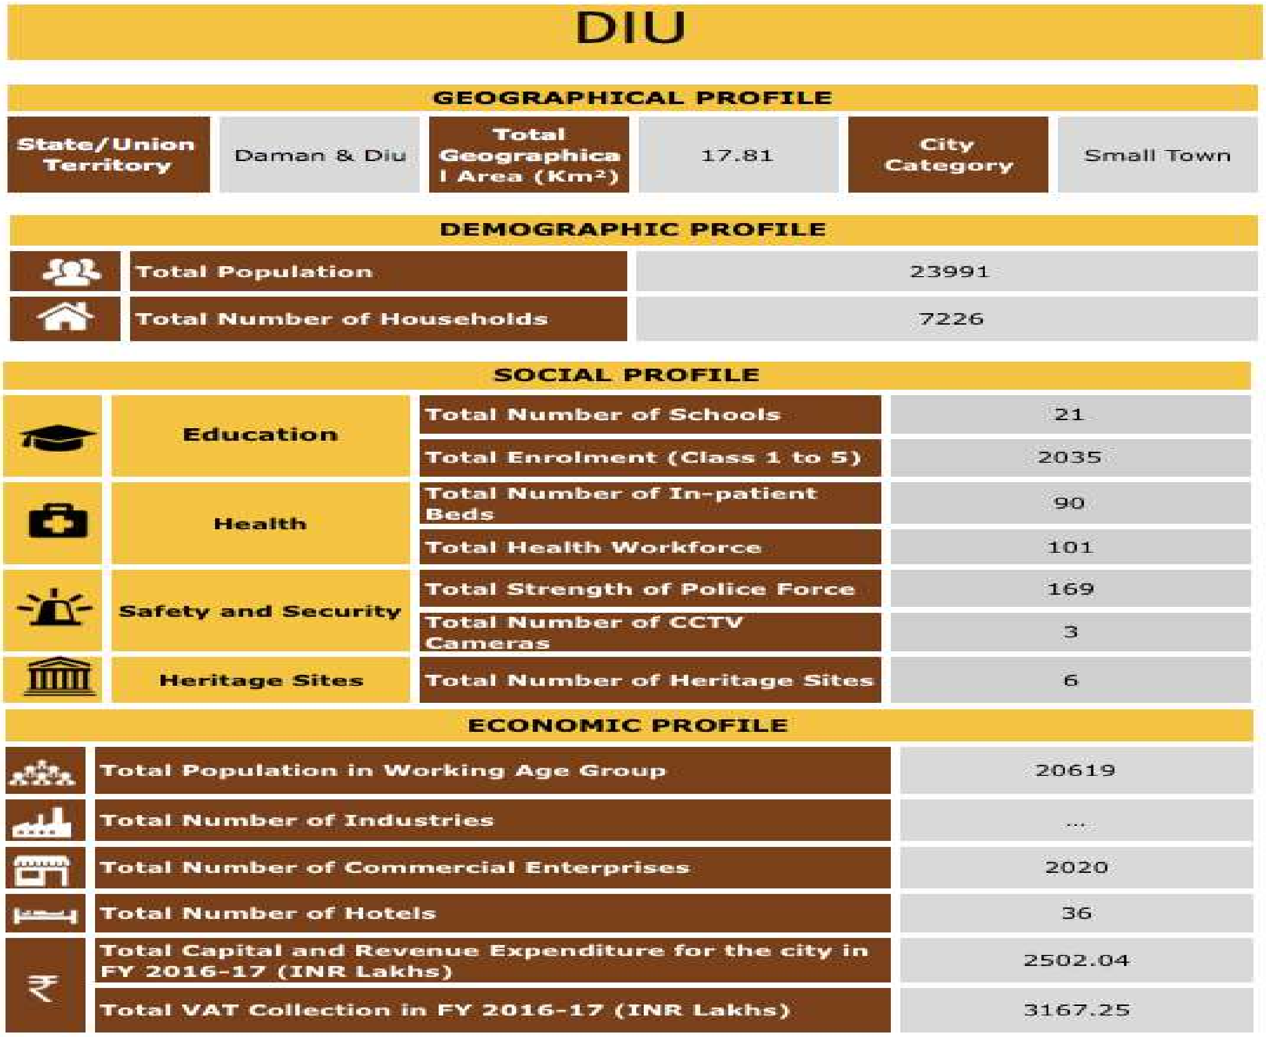
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity,

Open space and roads).



DIU

GEOGRAPHICAL PROFILE

State/Union Territory	Daman & Diu	Total Geographical Area (Km^2)	17.81	City Category	Small Town

DEMOGRAPHIC PROFILE

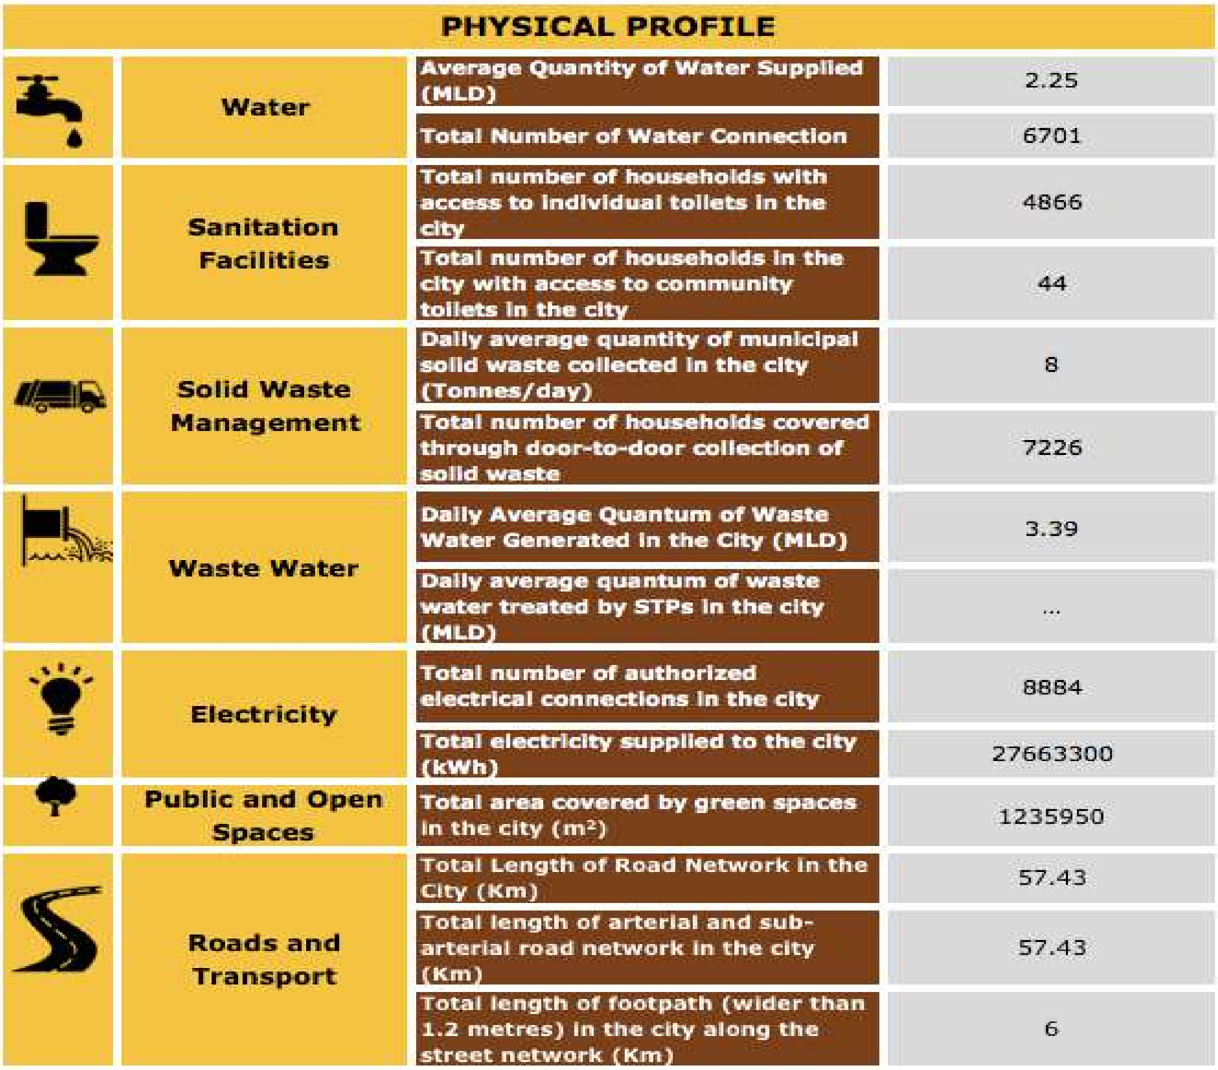
Total Population	23991
Total Number of Households	7226

SOCIAL PROFILE

Education	Total Number of Schools	21
	Total Enrolment (Class 1 to 5)	2035
Health	Total Number of In-patient Beds	90
	Total Health Workforce	101
Safety and Security	Total Strength of Police Force	169
	Total Number of CCTV Cameras	3
Heritage Sites	Total Number of Heritage Sites	6

ECONOMIC PROFILE

Total Population in Working Age Group	20619
Total Number of Industries	...
Total Number of Commercial Enterprises	2020
Total Number of Hotels	36
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	2502.04
Total VAT Collection in FY 2016-17 (INR Lakhs)	3167.25



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	2.25
	Total Number of Water Connection	6701
Sanitation Facilities	Total number of households with access to individual toilets in the city	4866
	Total number of households in the city with access to community toilets in the city	44
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	8
	Total number of households covered through door-to-door collection of solid waste	7226
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	3.39
	Daily average quantum of waste water treated by STPs in the city (MLD)	...
Electricity	Total number of authorized electrical connections in the city	8884
	Total electricity supplied to the city (kWh)	27663300
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	1235950
Roads and Transport	Total Length of Road Network in the City (Km)	57.43
	Total length of arterial and sub-arterial road network in the city (Km)	57.43
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	6

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1. Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	**Category**	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools

Pillars of Comprehensive Development	Category	Indicators
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services

Pillars of Comprehensive Development	Category	Indicators
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport

Pillars of Comprehensive Development	**Category**	Indicators
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through re-use

Pillars of Comprehensive Development	**Category**	Indicators
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2. Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3. Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4. Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicatorvalueforthecity - indicatorvaluefortheworstperformingcity}{benchmark - indicatorvaluefortheworstperformingcity}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1. Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2. Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account Department – ULB
Urban Local Body	For Park and Recreation Related Questions	Technical Department – ULB
Urban Local Body	For Water Supply and Drainage related questions	P.W.D
Urban Local Body	For Heritage sites related data	-
Urban Local Body	For Ecological sites related data	Forest
Urban Local Body	For Housing related data	Technical Department – ULB
Urban Local Body	For Building plan related data	Technical Department – ULB
Urban Local Body	For Roads related data	Technical Department – ULB
Urban Local Body	For Solid waste management related data	D.M.C. – ULB
Urban Local Body	For IT services related data	Computer Division- ULB
Urban Local Body	For Vendor committee related data	Tax Section- ULB
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	PCC
Development Authority	Building Infrastructure	Technical Department- ULB
	Construction planning	Technical Department- ULB
	Green Building	Technical Department- ULB
	Rain water harvesting	Technical Department- ULB
	Universal Design Principle	
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Electrical Department

State Disaster management authority		Department of Disaster Management
State Education Department		Asst. Director Education
State Health Department	Health care professionals	C.H.C & Hospital – Diu
	Citizen Services	C.H.C & Hospital – GAD
	Disease Prevalence	C.H.C & Hospita, NRHM AYUSH
	Health Infrastructure	GAD & Establishment CHC & Hospital
State Renewable Energy Development Agency		
State Sales / Commercial Taxes Department		VAT & TAX Department
Town and Country Planning Department	Land Use	ATPO
Traffic and Police Department		Police Department
Transport Authorities	Buses	RTO
	Registered Vehicles	RTO
	Sub urban rail transport	
	Mono Rail Authority	
	Tramways	
	Marine Transport Authority	

4.3. List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 7 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	7
DISCOM/Electricity Department	7
Traffic and Police Department	2
Development Authority	0
Pollution Control Board	2
State Renewable Energy Department	2
Town and Country Planning	0
State Health Department	16
Transport Authority	1
Disaster Management	0
Urban Local Body	24
Total	62

* The count of documents is based on first round of submission.

4.4. Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5. Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**24.7**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	0.25
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0
	1.1j information	0.461538461538462
	1.1k Grievance redressal	1.5
	1.1l electricity	1
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	

Indicator No: 1.2	Percentage of services integrated through Command Centre	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**0.91**
Description		0
Sub Indicators	1.3a Building plan	0
	1.3b Birth/Death Certificate	0
	1.3c water supply	0
	1.3d solid waste management	0
	1.3e property tax	0
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	0
	1.3h complaints/ grievance redressal	0
	1.3i information	0
	1.3j electricity	0.0816636650157587
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0

	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**34.34**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	33.97
Denominator	Total demand raised for the year	98.93
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**21.23**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	46.32
Denominator	Total O&M cost for providing water supply services during the year	218.14
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**42.25**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	1127.13
Denominator	Total expenditure (revenue and capital accounts) in the same year	2667.62
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**0**
Formula:	*Numerator / Denominator*	

Numerator	Number of Wards with notified ward committees	0
Denominator	Total number of wards	13
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites re-stored/preserved/brought under adaptive reuse	6
Denominator	Total number of historic buildings/sites identified	6
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**389.29**

Description	Average Occupancy rate of Hotels	389.28571428 5714
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	
Denominator	Total budget of the ULB (capital and revenue)	7.29
Unit	Percentage	2502.04
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**2**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	2
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**79.55**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	3318
Denominator	Total population in the age group of 6-14 years	4171
Unit	Percentage	

Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**77.12**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	1557
Denominator	Total female population in the age group of 6-14 years	2019
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**29.49**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	2035
Denominator	Total number of teachers available for primary grades (public and private schools)	69
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**66.67**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	14
Denominator	Total number of schools	21
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**93.45**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	

Numerator	Percentage	93.448309904102
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**99.51**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	189125
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**37.51**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	90
Denominator	Total population of the city	23991
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**42.1**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	101
Denominator	Total population of the city	23991
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**0**
Description	Total response time for health-related distress calls received in the city	0.00450231481481481
Unit	Minutes and seconds	

Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**8.02**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	1923
Denominator	Total population of the city	23991
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.03**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	7
Denominator	Total population of the city	23991
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**5.22**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	3
Denominator	Total length of road network in the city	57.433
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**370.97**
Formula:	Numerator / Denominator	89
Numerator	Total number of crimes recorded in a year	23991

Denominator	Total population of the city	
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**6.74**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	6
Denominator	Total crimes recorded in the same year	89
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**16.67**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	4
Denominator	Total population of the city	23991
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**30.38**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	738.01
Denominator	Total VAT/GST collection during preceding year	24.2924
Unit	Percentage	

Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**23.14**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	1.18
Denominator	Total Professional Tax collection during preceding year	5.1
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**70.15**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	47
Denominator	Number of construction permits during preceding year	0.67
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	102
Denominator	Total labour force in the city	16627
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this doc-	

	ument) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	415.675
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	NA
Denominator	Total number of slum and EWS households in the city	0.77
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**Non-Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	NA
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**51.52**

Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	1235950
Denominator	Total population of the city	23991
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**101.67**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	2439156
Denominator	Total population of the city	23991
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**23.05**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	4104700
Denominator	Total area of the city (total area of all land uses)	17810000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	23991
Denominator	Area allocated for residential land use (in hectares)	3681800
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a	

	benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	7226
Denominator	Total number of households in the city	7226
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	8884
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**81**
Description	Total number of sustained electrical interruptions in a year	81
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.77**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	2414

Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	9786
Denominator	Total energy consumption from all sources	27663300
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	3.31166666666667
Denominator	Total quantum of water and waste water handled during the period	67.5
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.27**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	526053
Denominator	Total number of street light installations	1896
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings follow-	**0**

	ing green building norms	
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	8238
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.19**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	27663300
Denominator	Total population of the city	23991
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.67**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	30
Denominator	Total area of the city (sq.km)	17.81
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**0.25**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	6
Denominator	Total population of the city	23991
Unit	Number per 1000 persons	

Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**2.61**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	1.5
Denominator	Total length of road network in the city	57.433
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	0
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport	**To be computed**
Description	Mode share of non-motorised transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0**

Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	0
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**50**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	2
Denominator	Total available on-street parking spaces in the city	4
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**5.22**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	6
Denominator	Total length of road network in the city	114.866
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**80**

Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	8
Denominator	Total number of junctions/ intersections on major roads in the city	10
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**56.13**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	183
Denominator	Total number of public right-of-way areas in the city	326
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**92.73**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	6701
Denominator	Total number of households in the city	7226
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**93.79**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	2.25
Denominator	Total population of the city	23991

Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	350
Denominator	Total number of samples tested for water quality	350
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**22.22**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0.5
Denominator	Quantum of water put into the distribution system (mld)	2.25
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	6701
Denominator	Total number of water connections in the city	6701
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	0
Denominator	Total number of new developments/redevelopments	114

	(of designated plot size), commercial and public buildings in the city	
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**62.59**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	5098
Denominator	Total number of properties in the city	8145
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**59.74**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	4866
Denominator	Total number of properties in the city	8145
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	0
Denominator	Total waste water generated in the city per day	3.39
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-**

Formula:	*Numerator / Denominator*	**Computable**
Numerator	Quantum of waste water recycled or reused per day	0
Denominator	Total waste water received at treatment plants per day	0
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	0
Denominator	Total length of road network in the city	57.433
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	9246
Denominator	Total number of households and establishments in the city	9246
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	8
Denominator	Total quantum of MSW generated in the city	8
Unit	Percentage	
Benchmark	100%	

Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**0**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	0
Denominator	Average MSW generated in the city (tons per month)	240
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	Concentration of SO2 - air pollution	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	Concentration of NO2 - air pollution	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	Concentration of PM10 - air pollution	**0**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	0
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	Level of noise pollution	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of noise samples meeting acceptable noise levels	0
Denominator	Total number of noise samples	0
Unit	Percentage	
Benchmark		
Indicator No: 15.5	Quality of water in public surface water bodies	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	0
Denominator	Total number of samples tested	0
Unit	Percentage	
Benchmark	100%

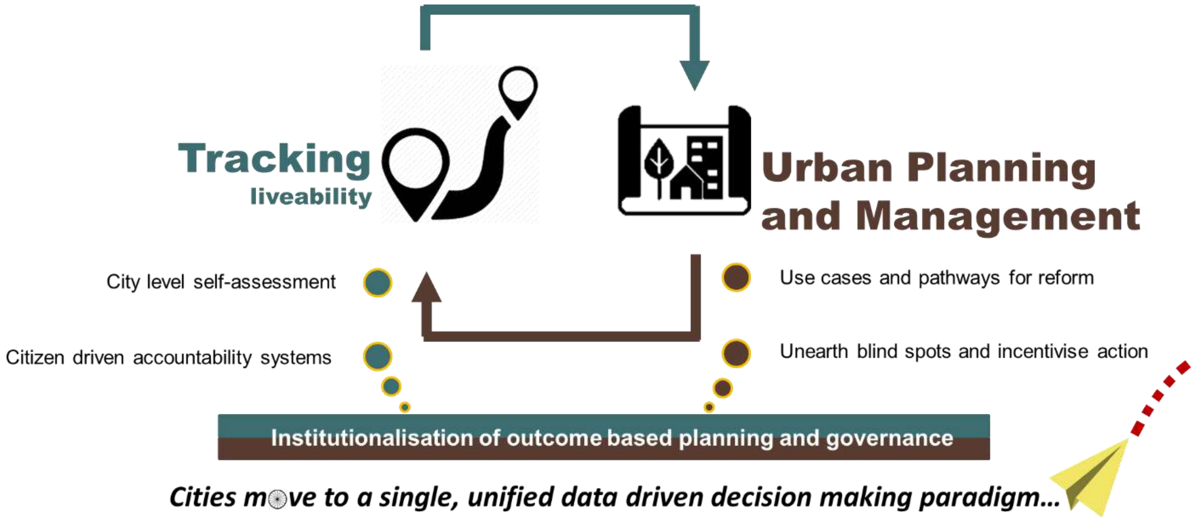
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

2.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed

Pillars of Comprehensive Development	Category	Indicators
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases

Pillars of Comprehensive Development	Category	Indicators
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year

Pillars of Comprehensive Development	Category	Indicators
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water

Pillars of Comprehensive Development	Category	Indicators
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

2.2 Scoring and Computing Category Indices of Liveability

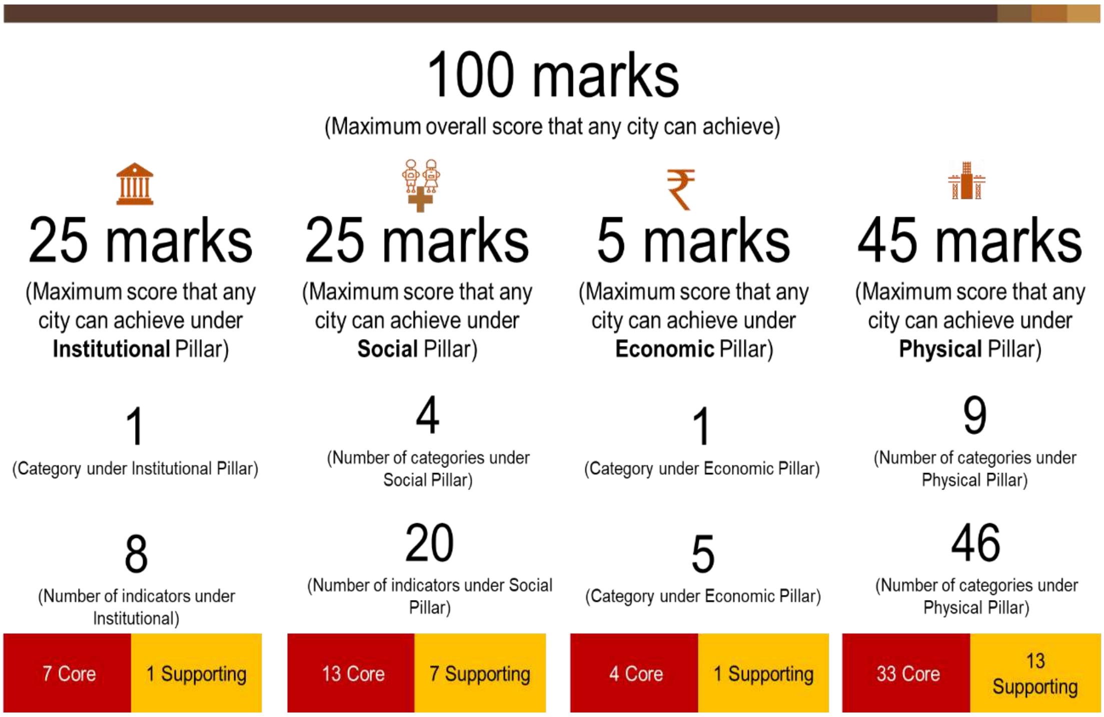
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

2.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks

awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

2.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{\text{indicator value for the city} - \text{indicator value for the worst performing city}}{\text{benchmark} - \text{indicator value for the worst performing city}}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

3. City Reconnaissance Meetings:

Municipal commissioner, Durgapur Municipal corporation was contacted and log in to smart net portal was done. However, state level workshop was necessary to make cities understand the importance and process of liveability assessment. City level assessments didn’t happen as State level workshop could not be conducted despite several meetings and follow ups with Urban development department and SUDA at state level.

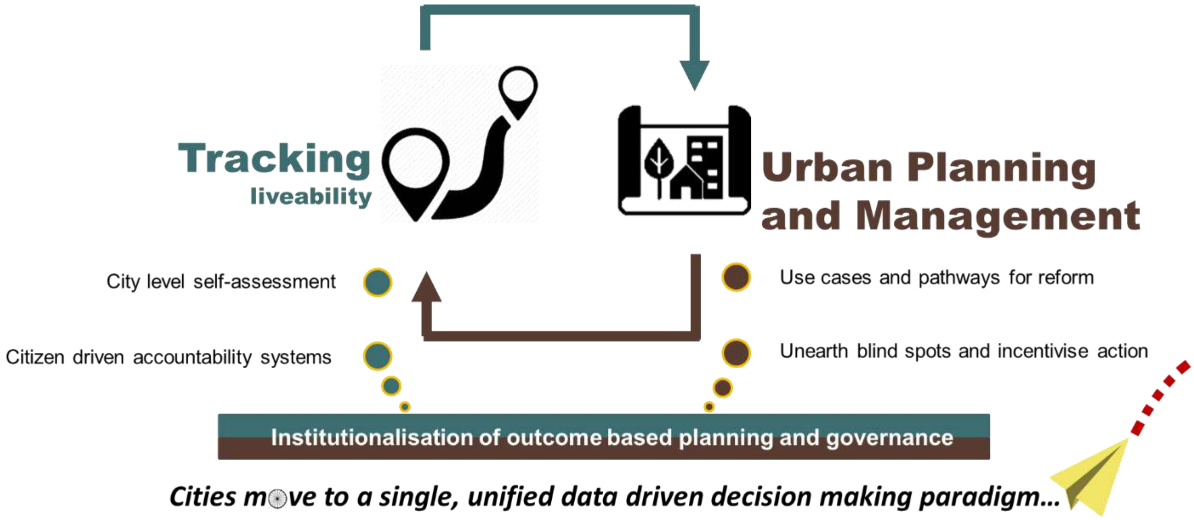
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

ERODE

GEOGRAPHICAL PROFILE

State/Union Territory	Tamil Nadu	**Total Geographical Area (Km^2)**	109.52	**City Category**	Small City

DEMOGRAPHIC PROFILE

Total Population	157101
Total Number of Households	133665

SOCIAL PROFILE

Education	**Total Number of Schools**	184
	Total Enrolment (Class 1 to 5)	34792
Health	**Total Number of In-patients Beds**	7206
	Total Health Workforce	1993
Safety and Security	**Total Strength of Police Force**	1637
	Total Number of CCTV Cameras	123
Heritage Sites	**Total Number of Heritage Sites**	3

ECONOMIC PROFILE

Total Population in Working Age Group	221010
Total Number of Industries	2461
Total Number of Commercial Enterprises	16890
Total Number of Hotels	114
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	21080.46
Total VAT Collection in FY 2016-17 (INR Lakhs)	24139.45

PHYSICAL PROFILE

	Water	**Average Quantity of Water Supplied (MLD)**	54.09
		Total Number of Water Connections	72484
	Sanitation Facilities	**Total number of households with access to individual toilets in the city**	124430
		Total number of households in the city with access to community toilets in the city	11785
	Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	238
		Total number of households covered through door-to-door collection of solid waste	138226
	Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	43.27
		Daily average quantum of waste water treated by STPs in the city (MLD)	...
	Electricity	**Total number of authorized electrical connections in the city**	478995
		Total electricity supplied to the city (kWh)	87684.005
	Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	217860.83
	Roads and Transport	**Total Length of Road Network in the City (Km)**	806.7
		Total length of arterial and sub-arterial road network in the city (Km)	806.7
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	2

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools

Pillars of Comprehensive Development	Category	Indicators
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density

Pillars of Comprehensive Development	Category	Indicators
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW

Pillars of Comprehensive Development	Category	Indicators
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

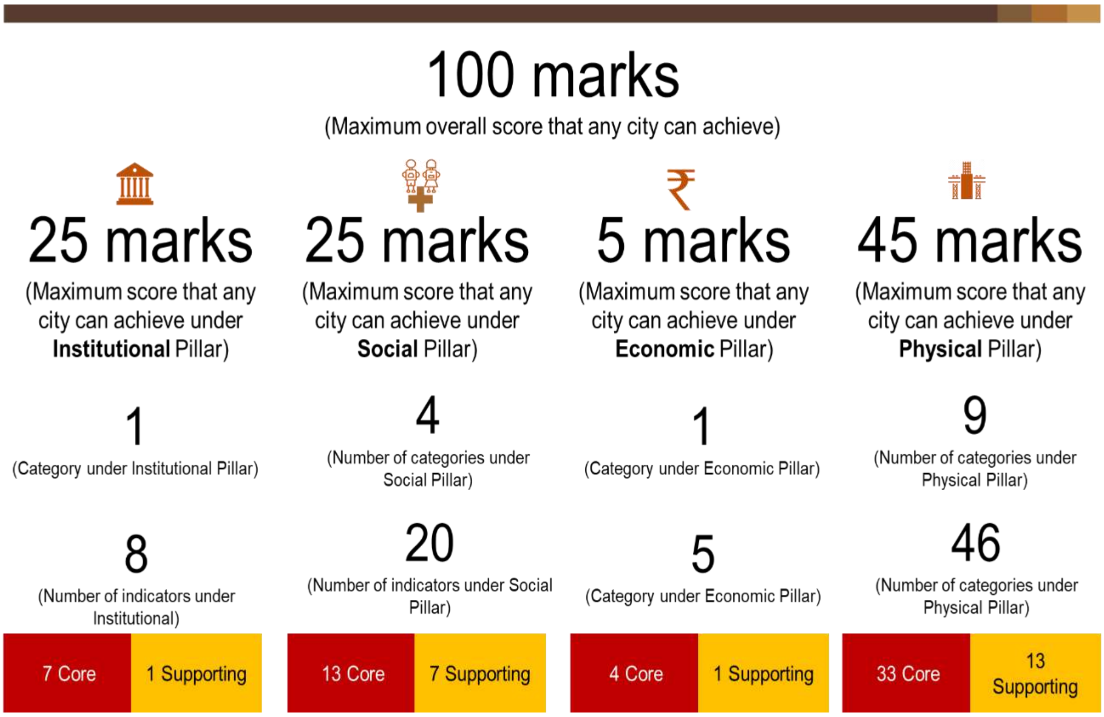
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department
Urban Local Body	For Park and Recreation Related Questions	Engineering department
Urban Local Body	For Water Supply and Drainage related questions	Engineering department
Urban Local Body	For Heritage sites related data	Not Applicable
Urban Local Body	For Ecological sites related data	Not Applicable
Urban Local Body	For Housing related data	Engineering department
Urban Local Body	For Building plan related data	Engineering department
Urban Local Body	For Roads related data	Engineering department
Urban Local Body	For Solid waste management related data	City Health Office
Urban Local Body	For IT services related data	Assistant Programmer
Urban Local Body	For Vendor committee related data	Not Applicable
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban	Not Applicable

Designated data owners	Subcategories	Data owners at city level
	Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	State Pollution Control Board
Development Authority	Building Infrastructure	Engineering department
	Construction planning	Engineering department
	Green Building	Engineering department
	Rain water harvesting	Engineering department
	Universal Design Principle	Engineering department
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Tamilnadu Electricity Board
State Disaster management authority		District Disaster management authority
State Education Department		Department of school Education
State Health Department	Health care professionals	District Health Department
	Citizen Services	District Health Department
	Disease Prevalence	District Health Department
	Health Infrastructure	District Health Department
State Renewable Energy Development Agency		Tamilnadu Energy Development Agency
State Sales / Commercial Taxes Department		Department of sales / commercial tax
Town and Country Planning Department	Land Use	local planning authority
Traffic and Police Department		Police Department
Transport Authorities	Buses	Tamilnadu State Transport Corporation
	Registered Vehicles	Regional Transport Office
	Sub urban rail transport	Not Applicable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 110 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	6
DISCOM/Electricity Department	3
Traffic and Police Department	3
Development Authority	5
Pollution Control Board	10
State Renewable Energy Department	3
Town and Country Planning	3
State Health Department	5
Transport Authority	7
Disaster Management	1
Urban Local Body	63
Total	110*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the

field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

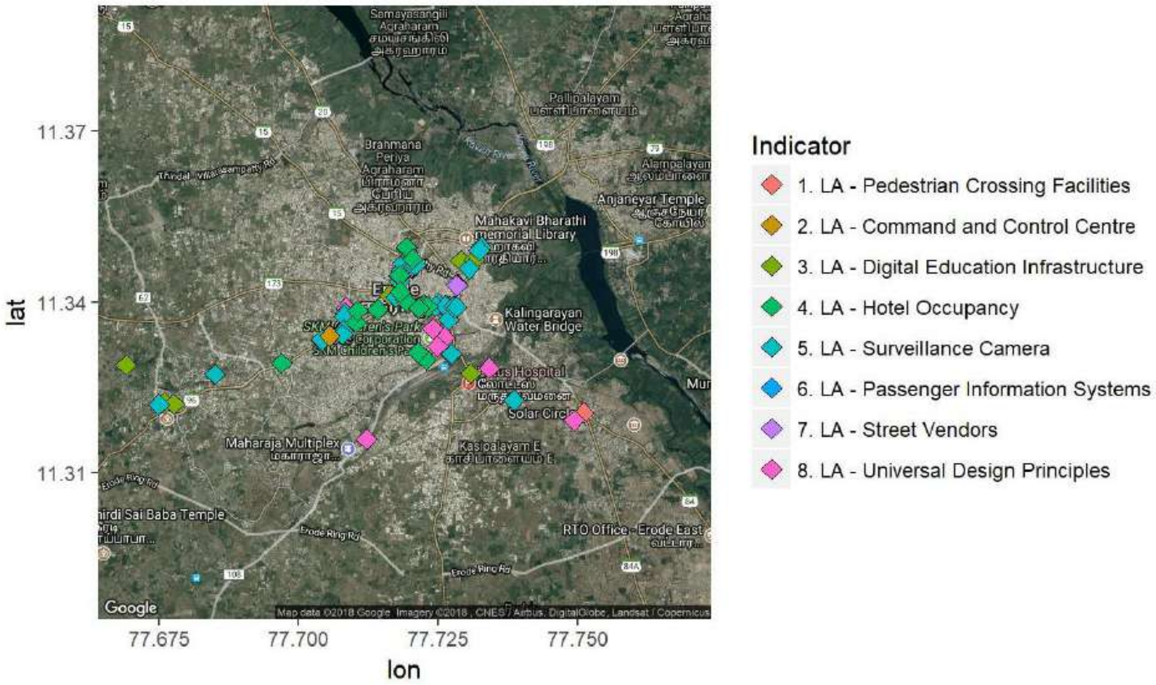
11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.



Indicator
1. LA - Pedestrian Crossing Facilities
2. LA - Command and Control Centre
3. LA - Digital Education Infrastructure
4. LA - Hotel Occupancy
5. LA - Surveillance Camera
6. LA - Passenger Information Systems
7. LA - Street Vendors
8. LA - Universal Design Principles

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**76.28**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75
	1.1b death certificate	0.5
	1.1c trade license	1
	1.1d solid waste management	1
	1.1e water supply	1
	1.1f sewerage/drainage	0.333333333
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	1
	1.1k Grievance redressal	1
	1.1l electricity	1

Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**63.94**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	2545.89

Denominator	Total demand raised for the year	3981.58
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**43.34**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	550.74
Denominator	Total O&M cost for providing water supply services during the year	1270.78
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**50.59**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	21426.18
Denominator	Total expenditure (revenue and capital accounts) in the same year	42351.72
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	NA
Denominator	Total number of wards	60
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	3
Denominator	Total number of historic buildings/sites identified	3
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**9.14**
Description	Average Occupancy rate of Hotels	9.142857143
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0.03**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	6.54
Denominator	Total budget of the ULB (capital and revenue)	21080.46
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**18**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	18
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**246.92**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	56308
Denominator	Total population in the age group of 6-14 years	22804

Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**247.85**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	27945
Denominator	Total female population in the age group of 6-14 years	11275
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**21.37**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	34792
Denominator	Total number of teachers available for primary grades (public and private schools)	1628
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**27.17**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	50
Denominator	Total number of schools	184
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**103.11**

Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**458.69**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	7206
Denominator	Total population of the city	157101
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**126.86**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	1993
Denominator	Total population of the city	157101
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**8**
Description	Total response time for health-related distress calls received in the city	8
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.26**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	408
Denominator	Total population of the city	157101
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.04**
Formula:	*Numerator / Denominator*	

Numerator	Number of cases of persons affected by vector borne diseases in a year	58
Denominator	Total population of the city	157101
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**15.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	123
Denominator	Total length of road network in the city	806.7
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**11859.89**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	18632
Denominator	Total population of the city	157101
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**1.52**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	283
Denominator	Total crimes recorded in the same year	18632
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**450.03**

Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	707
Denominator	Total population of the city	157101
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**13.9**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	2945.42
Denominator	Total VAT/GST collection during preceding year	211.9403
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**-5.84**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	-20.56
Denominator	Total Professional Tax collection during preceding year	352.15
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-34.64**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-539
Denominator	Number of construction permits during preceding year	15.56
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of unemployed persons (seeking or available for work)	103913
Denominator	Total labour force in the city	22804
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	964
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**35.68**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	12198
Denominator	Total number of slum and EWS households in the city	341.91
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	NA
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**1.39**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	217860.83
Denominator	Total population of the city	157101
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**35.12**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	5517338.77
Denominator	Total population of the city	157101
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**18.1**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	19820000
Denominator	Total area of the city (total area of all land uses)	109520000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	157101
Denominator	Area allocated for residential land use (in hectares)	19820000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a	

	benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**284.57**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	380369
Denominator	Total number of households in the city	133665
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	478995
Denominator	Total number of electricity connections in the city	478995
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**5**
Description	Total number of sustained electrical interruptions in a year	5
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.81**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	0
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	160
Denominator	Total energy consumption from all sources	101317.005
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	769889.5
Denominator	Total quantum of water and waste water handled during the period	NA
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	4888025
Denominator	Total number of street light installations	21079
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	3600
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	259394.1135
Unit	Percentage	

Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	101317.005
Denominator	Total population of the city	157101
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.07**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	11
Denominator	Total area of the city (sq.km)	109.52
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**3.74**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	588
Denominator	Total population of the city	157101
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	75
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	806.7
Unit	Percentage	
Benchmark	>=50	

Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	2
Denominator	Total number of major transport interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport[1]**	**To be computed**
Description	Mode share of non-motorised transport	0
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**38**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	76
Denominator	Total number of major interchanges in the city	2
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	5
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	0
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**0.12**
Formula:	*Numerator / Denominator*	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Total length of footpaths (wider than 1.2 m) available in the city	2
Denominator	Total length of road network in the city	1613.4
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**233.33**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	7
Denominator	Total number of junctions/ intersections on major roads in the city	3
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**1.39**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	8
Denominator	Total number of public right-of-way areas in the city	577
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	Data Unavailable
Denominator	Total number of households in the city	133665
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**344.3**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	54.09
Denominator	Total population of the city	157101

Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	13
Denominator	Total number of samples tested for water quality	13
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0
Denominator	Quantum of water put into the distribution system (mld)	54.09
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**87.75**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	63603
Denominator	Total number of water connections in the city	72484
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**5856.9**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	116318
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	1986
Unit	Percentage	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**121.34**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	155915
Denominator	Total number of properties in the city	128497
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**95.8**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	123095
Denominator	Total number of properties in the city	128497
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	NA
Denominator	Total waste water generated in the city per day	43.27
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	NA
Denominator	Total waste water received at treatment plants per day	NA
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**68.18**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and	550

	tertiary drains (of pucca construction)	
Denominator	Total length of road network in the city	806.7
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**102.66**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	154558
Denominator	Total number of households and establishments in the city	150555
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**96.75**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	238
Denominator	Total quantum of MSW generated in the city	246
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**56.93**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	4065
Denominator	Average MSW generated in the city (tons per month)	7140
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**11.7**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	11.7
Unit	µg/m3	

Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**21.4**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	21.4
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**75.2**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	75.2
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	4
Denominator	Total number of noise samples	4
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	13
Denominator	Total number of samples tested	13
Unit	Percentage	
Benchmark	100%

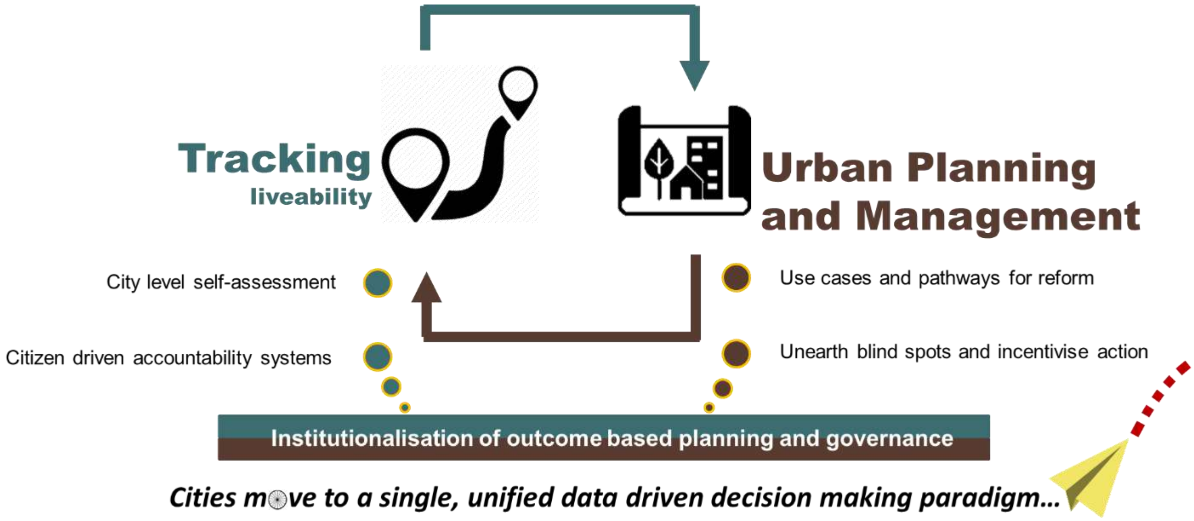
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

FARIDABAD

GEOGRAPHICAL PROFILE

State/Union Territory	HARYANA	**Total Geographical Area (Km^2)**	208	**City Category**	METROPOLIS

DEMOGRAPHIC PROFILE

Total Population	1725000
Total Number of Households	245000

SOCIAL PROFILE

Education	**Total Number of Schools**	859
	Total Enrolment (Class 1 to 5)	179905
Health	**Total Number of In-patient Beds**	3411
	Total Health Workforce	4817
Safety and Security	**Total Strength of Police Force**	2892
	Total Number of CCTV Cameras	...
Heritage Sites	**Total Number of Heritage Sites**	6

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	7954
Total Number of Commercial Enterprises	26770
Total Number of Hotels	52
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	52312.42
Total VAT Collection in FY 2016-17 (INR Lakhs)	...

PHYSICAL PROFILE

Water	**Average Quantity of Water Supplied (MLD)**	220
	Total Number of Water Connection	158060
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	24000
	Total number of households in the city with access to community toilets in the city	14500
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	650
	Total number of households covered through door-to-door collection of solid waste	50000
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	200
	Daily average quantum of waste water treated by STPs in the city (MLD)	145
Electricity	**Total number of authorized electrical connections in the city**	501517
	Total electricity supplied to the city (kWh)	1049272
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	53140000
Roads and Transport	**Total Length of Road Network in the City (Km)**	1440
	Total length of arterial and sub-arterial road network in the city (Km)	1440
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	...

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population

Pillars of Comprehensive Development	Category	Indicators
		enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting

Pillars of Comprehensive Development	Category	Indicators
		facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

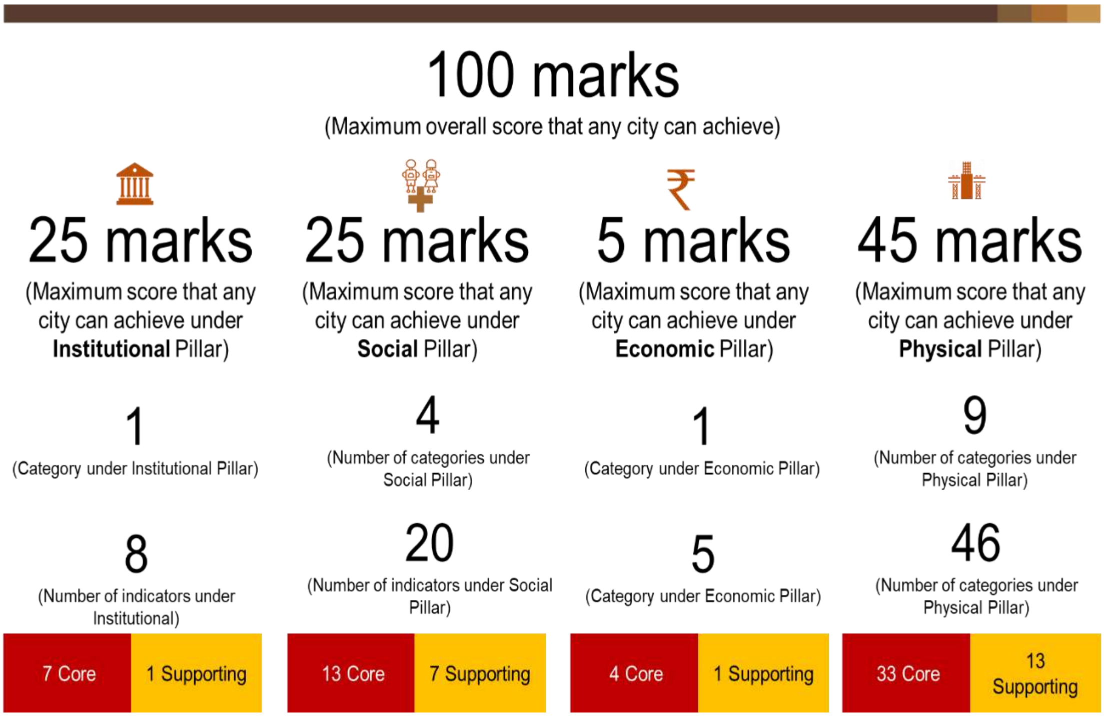
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Municipal Corporation Faridabad
Urban Local Body	For Park and Recreation Related Questions	Municipal Corporation Faridabad
Urban Local Body	For Water Supply and Drainage related questions	Municipal Corporation Faridabad
Urban Local Body	For Heritage sites related data	Municipal Corporation Faridabad
Urban Local Body	For Ecological sites related data	Municipal Corporation Faridabad
Urban Local Body	For Housing related data	Municipal Corporation Faridabad
Urban Local Body	For Building plan related data	Municipal Corporation Faridabad
Urban Local Body	For Roads related data	Municipal Corporation Faridabad
Urban Local Body	For Solid waste management related data	Municipal Corporation Faridabad
Urban Local Body	For IT services related data	Municipal Corporation Faridabad
Urban Local Body	For Vendor committee related data	Municipal Corporation Faridabad
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban	Municipal Corporation Faridabad

Designated data owners	Subcategories	Data owners at city level
	Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Haryana State Pollution Control Board - Faridabad Region
Development Authority	Building Infrastructure	Haryana Urban Development Authority
	Construction planning	Haryana Urban Development Authority
	Green Building	Haryana Urban Development Authority
	Rain water harvesting	Haryana Urban Development Authority
	Universal Design Principle	Haryana Urban Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Dakshin Haryana Bijli Vitran Nigam
State Disaster management authority		District Disaster Management Authority
State Education Department		District Education Department
State Health Department	Health care professionals	Civil Hospital Faridabad
	Citizen Services	Civil Hospital Faridabad
	Disease Prevalence	Civil Hospital Faridabad
	Health Infrastructure	Civil Hospital Faridabad
State Renewable Energy Development Agency	Renewable Energy	District Renewable Energy Agency Development Authority
State Sales / Commercial Taxes Department		Excise & Taxation Department
Town and Country Planning Department	Land Use	District Town & Country Planning Department
Traffic and Police Department		Haryana Police
Transport Authorities	Buses	Haryana Roadways
	Registered Vehicles	Faridabad Smart City Limited
	Sub urban rail transport	Data Unavailable
	Mono Rail Authority	Not Applicable
	Tramways	Not Applicable

Designated data owners	Subcategories	Data owners at city level
	Marine Transport Authority	Not Applicable

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 17 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	**0**
State Education Department	**3**
DISCOM/Electricity Department	**1**
Traffic and Police Department	**0**
Development Authority	**0**
Pollution Control Board	**0**
State Renewable Energy Department	**1**
Town and Country Planning	**0**
State Health Department	**1**
Transport Authority	**2**
Disaster Management	**1**
Urban Local Body	**8**
Total	**17***

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**68.2**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.75
	1.1b death certificate	0.75
	1.1c trade license	0.75
	1.1d solid waste management	0
	1.1e water supply	0.666666667
	1.1f sewerage/drainage	0.666666667
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	1
	1.1j information	0.615384615
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.666666667
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.3	**Percentage of citizens using online services**	**Non-Computable**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**1**
Description		
Sub Indicators	1.4a water supply	2
	1.4b solid waste	2
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	2
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**183.43**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	7230.78

Denominator	Total demand raised for the year	3942.04
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**88.86**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	2156.42
Denominator	Total O&M cost for providing water supply services during the year	2426.65
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**-22.31**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-13563.34
Denominator	Total expenditure (revenue and capital accounts) in the same year	60782.84
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	N
Denominator	Total number of wards	40
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**50**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	3
Denominator	Total number of historic buildings/sites identified	6
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	Data Unavailable
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**Non-Computable**
Description	Average Occupancy rate of Hotels	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	52312.41
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**0**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	0
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**95.57**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools	275188

	(public and private)	
Denominator	Total population in the age group of 6-14 years	287938
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**94.38**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	123290
Denominator	Total female population in the age group of 6-14 years	130628
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**33.53**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	179905
Denominator	Total number of teachers available for primary grades (public and private schools)	5365
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**82.07**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	705
Denominator	Total number of schools	859
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**139.36**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	139.3562456
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**108.02**

Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	955239792
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**24.12**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	3411
Denominator	Total population of the city	1414050
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**34.07**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	4817
Denominator	Total population of the city	1414050
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**20**
Description	Total response time for health-related distress calls received in the city	20
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**0.63**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	8840
Denominator	Total population of the city	1414050
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.02**

Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	314
Denominator	Total population of the city	1414050
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	0
Denominator	Total length of road network in the city	1440
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**1085.32**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	15347
Denominator	Total population of the city	1414050
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**19.95**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	3062
Denominator	Total crimes recorded in the same year	15347
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**33.66**
Formula:	*Numerator / Denominator*	

Numerator	Total number of fatalities recorded in road accidents in a year	476
Denominator	Total population of the city	1414050
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	NC
Denominator	Total VAT/GST collection during preceding year	NC
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	NA
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**159.61**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	407
Denominator	Number of construction permits during preceding year	2.55
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be**
Formula:	*Numerator / Denominator*	

		computed
Numerator	Number of unemployed persons (seeking or available for work)	11038
Denominator	Total labour force in the city	287938
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	7198.45
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**27.92**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	27921
Denominator	Total number of slum and EWS households in the city	999.86
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**37.58**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	53140000
Denominator	Total population of the city	1414050
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.61**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	2282426.784
Denominator	Total population of the city	1414050
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**3.17**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	6584881.2
Denominator	Total area of the city (total area of all land uses)	208000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1414050
Denominator	Area allocated for residential land use (in hectares)	145517684.5
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**169.53**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	415352
Denominator	Total number of households in the city	245000
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	501517
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**17430**
Description	Total number of sustained electrical interruptions in a year	17430
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.8**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	82965
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0.81**

Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	287981
Denominator	Total energy consumption from all sources	1049272
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	3667.833333
Denominator	Total quantum of water and waste water handled during the period	10950
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	6000
Denominator	Total number of street light installations	54000
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	0
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	

Indicator No: 10.9	**Total energy consumption per capita**	**0.81**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1049272
Denominator	Total population of the city	1414050
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.48**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	157.875
Denominator	Total area of the city (sq.km)	208
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**750.21**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	1060834
Denominator	Total population of the city	1414050
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	Data Unavailable
Denominator	Total length of road network in the city	1440
Unit	Percentage	
Benchmark	>=50	

Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**72.73**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	8
Denominator	Total number of major transport interchanges in the city	11
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.82**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	9
Denominator	Total number of major interchanges in the city	11
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0
Denominator	Total number of signalised intersections in the city	46
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	1
Denominator	Total available on-street parking spaces in the city	0

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	Data Unavailable
Denominator	Total length of road network in the city	2880
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	2
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**0.56**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	2
Denominator	Total number of public right-of-way areas in the city	355
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**59.18**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	145000
Denominator	Total number of households in the city	245000
Unit	Percentage	

Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**155.58**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	220
Denominator	Total population of the city	1414050
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied[2]**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	6
Denominator	Total number of samples tested for water quality	12
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**31.82**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	70
Denominator	Quantum of water put into the distribution system (mld)	220
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	158060
Denominator	Total number of water connections in the city	158060
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**600**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	186

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	31
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**22.21**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	57750
Denominator	Total number of properties in the city	260000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	Data Unavailable
Denominator	Total number of properties in the city	260000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**57.2**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	114.4
Denominator	Total waste water generated in the city per day	200
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**75**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	90
Denominator	Total waste water received at treatment plants per day	120

Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**60.97**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	878
Denominator	Total length of road network in the city	1440
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**20.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	55000
Denominator	Total number of households and establishments in the city	271770
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	650
Denominator	Total quantum of MSW generated in the city	650
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	19500
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**15.72**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	15.72
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**44.3**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	44.3
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**Non=Computable**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	Data Unavailable
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	0
Denominator	Total number of noise samples	24
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	5
Denominator	Total number of samples tested	5
Unit	Percentage	
Benchmark	100%

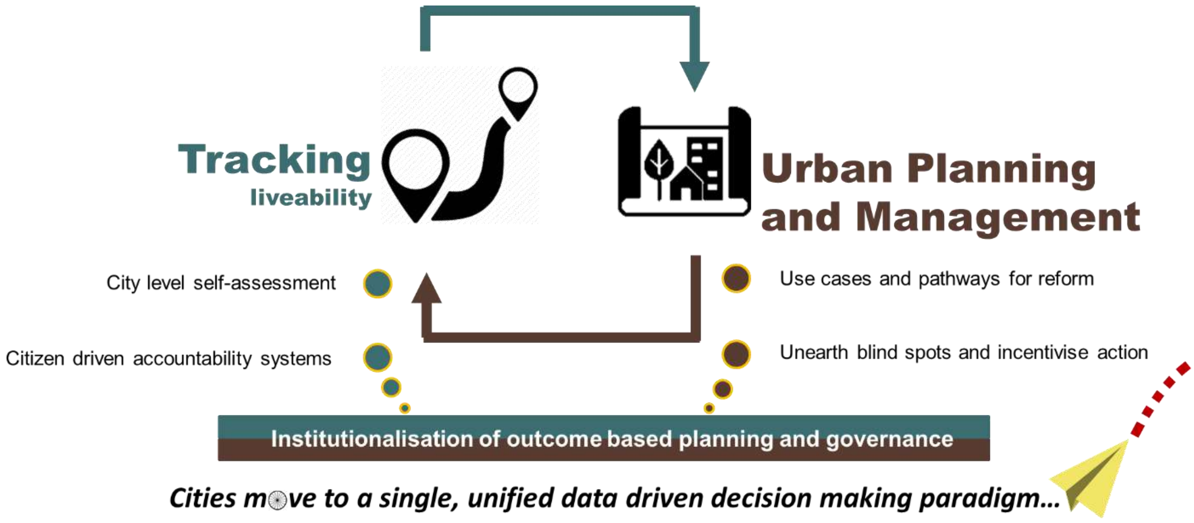
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

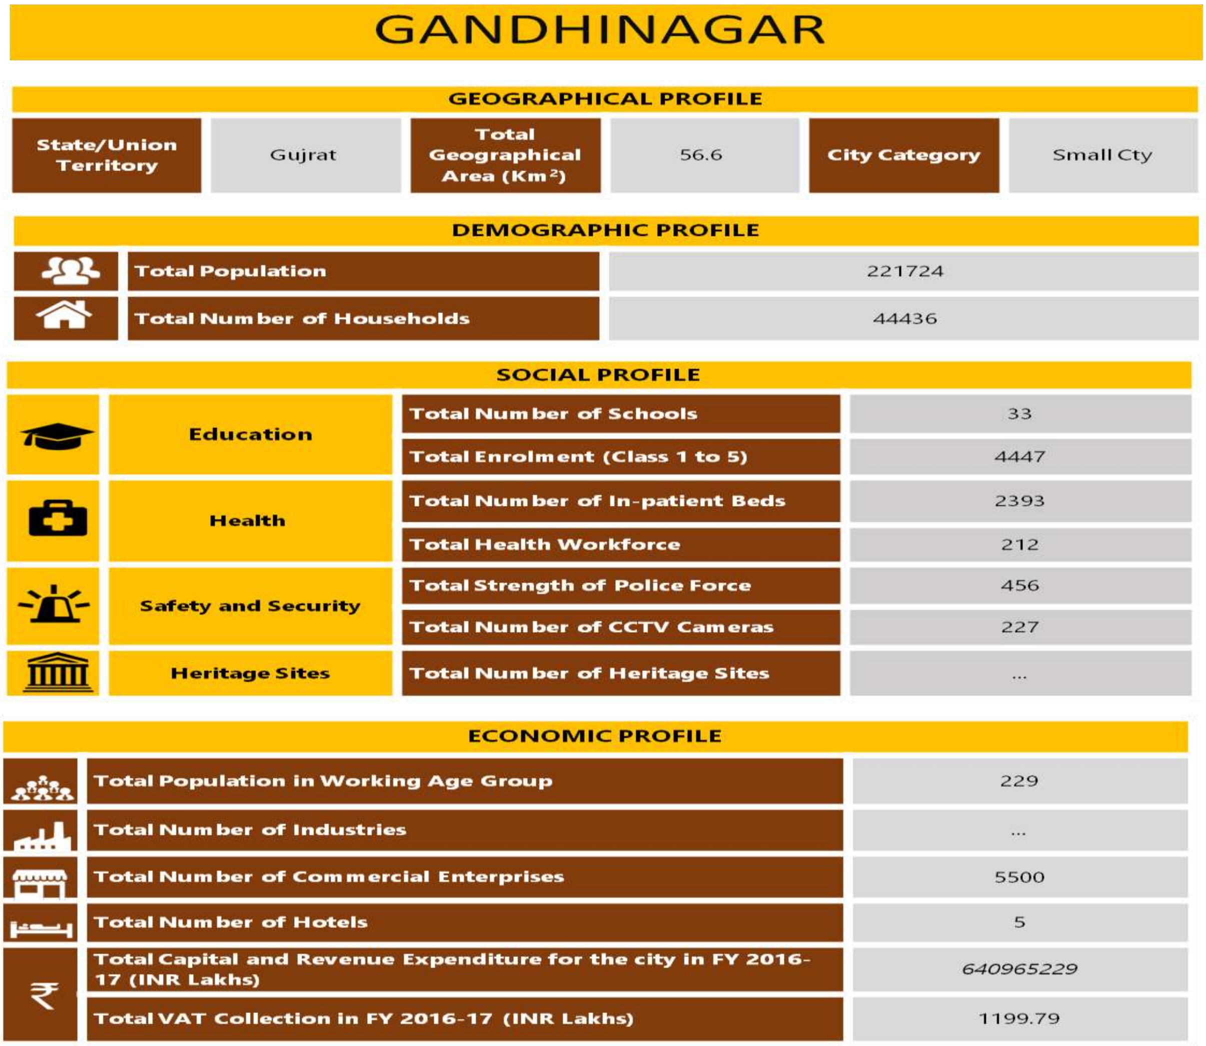
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



GANDHINAGAR

GEOGRAPHICAL PROFILE

State/Union Territory	Gujrat	**Total Geographical Area (Km²)**	56.6	**City Category**	Small Cty

DEMOGRAPHIC PROFILE

Total Population	221724
Total Number of Households	44436

SOCIAL PROFILE

Education	**Total Number of Schools**	33
	Total Enrolment (Class 1 to 5)	4447
Health	**Total Number of In-patient Beds**	2393
	Total Health Workforce	212
Safety and Security	**Total Strength of Police Force**	456
	Total Number of CCTV Cameras	227
Heritage Sites	**Total Number of Heritage Sites**	...

ECONOMIC PROFILE

Total Population in Working Age Group	229
Total Number of Industries	...
Total Number of Commercial Enterprises	5500
Total Number of Hotels	5
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	*640965229*
Total VAT Collection in FY 2016-17 (INR Lakhs)	1199.79

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	62
	Total Number of Water Connection	43464
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	42781
	Total number of households in the city with access to community toilets in the city	…
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	65
	Total number of households covered through door-to-door collection of solid waste	42000
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	49
	Daily average quantum of waste water treated by STPs in the city (MLD)	49
Electricity	**Total number of authorized electrical connections in the city**	66574
	Total electricity supplied to the city (kWh)	304310000
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	2142000
Roads and Transport	**Total Length of Road Network in the City (Km)**	515.59
	Total length of arterial and sub-arterial road network in the city (Km)	515.59
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	70

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year

Pillars of Comprehensive Development	Category	Indicators
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization

Pillars of Comprehensive Development	Category	Indicators
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

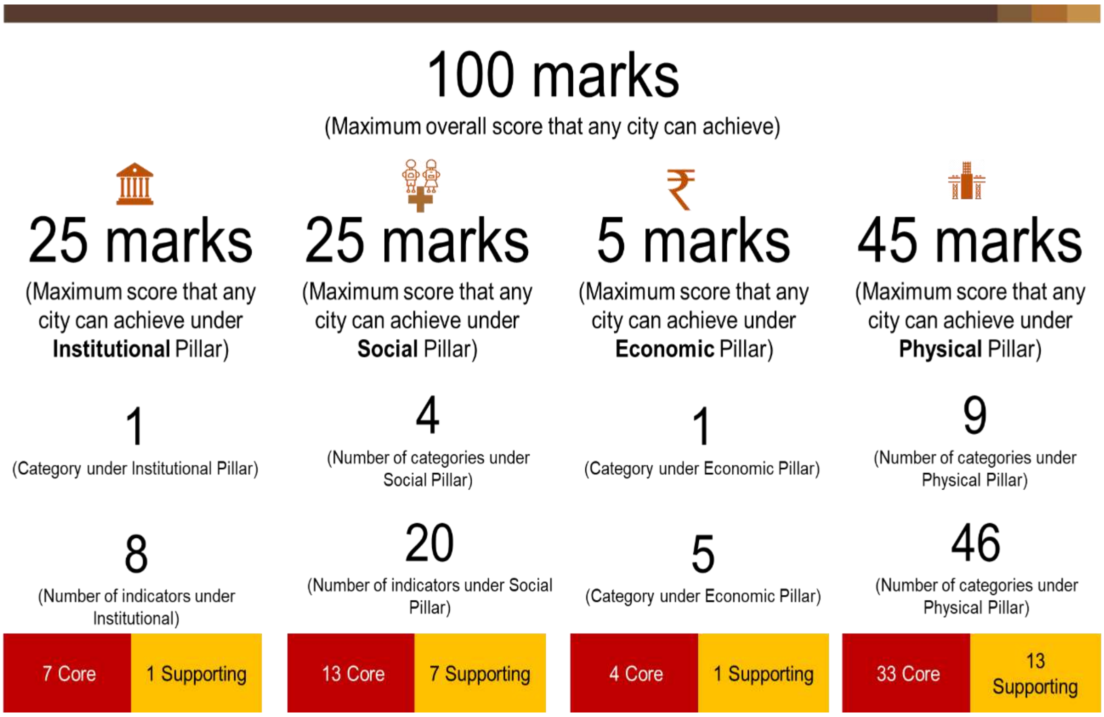
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under **Institutional** Pillar)
25 marks
(Maximum score that any city can achieve under **Social** Pillar)
5 marks
(Maximum score that any city can achieve under **Economic** Pillar)
45 marks
(Maximum score that any city can achieve under **Physical** Pillar)
1
(Category under Institutional Pillar)
4
(Number of categories under Social Pillar)
1
(Category under Economic Pillar)
9
(Number of categories under Physical Pillar)
8
(Number of indicators under Institutional)
20
(Number of indicators under Social Pillar)
5
(Category under Economic Pillar)
46
(Number of categories under Physical Pillar)
7 Core
1 Supporting
13 Core
7 Supporting
4 Core
1 Supporting
33 Core
13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Ass.Account
Urban Local Body	For Park and Recreation Related Questions	-
Urban Local Body	For Water Supply and Drainage related questions	City engineer
Urban Local Body	For Heritage sites related data	-
Urban Local Body	For Ecological sites related data	-
Urban Local Body	For Housing related data	-
Urban Local Body	For Building plan related data	Town planing
Urban Local Body	For Roads related data	City engineer
Urban Local Body	For Solid waste management related data	Solid waste department
Urban Local Body	For IT services related data	Tex department
Urban Local Body	For Vendor committee related data	-
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	-
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	-
Development Authority	Building Infrastructure	
	Construction planning	
	Green Building	
	Rain water harvesting	
	Universal Design Principle	
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Ugvcl , torrent power
State Disaster management authority		Fire department
State Education Department		Education department
State Health Department	Health care professionals	Health department
	Citizen Services	-
	Disease Prevalence	
	Health Infrastructure	

Designated data owners	Subcategories	Data owners at city level
State Renewable Energy Development Agency		
State Sales / Commercial Taxes Department		Tex department
Town and Country Planning Department	Land Use	City engineer
Traffic and Police Department		Traffic and police department
Transport Authorities	Buses	Tex department
	Registered Vehicles	-
	Sub urban rail transport	-
	Mono Rail Authority	-
	Tramways	-
	Marine Transport Authority	-

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 53 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	12
DISCOM/Electricity Department	1
Traffic and Police Department	1
Development Authority	3
Pollution Control Board	1
State Renewable Energy Department	1
Town and Country Planning	1

State Health Department	1
Transport Authority	1
Disaster Management	1
Urban Local Body	29
Total	53*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	60.45
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	1
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	0.5
	1.1j information	0.692307692
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	35.71
Description	Services integrated through an integrated or a singular operations command centre	7.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	3586.57
Description		

Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	35.86574338
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressed	0
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	3.9
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	322460284
Denominator	Total demand raised for the year	8273313454
Unit	Percentage	
Benchmark	90%	

Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	4.38
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	11614411
Denominator	Total O&M cost for providing water supply services during the year	265054521
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	286.83
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	-1145784025
Denominator	Total expenditure (revenue and capital accounts) in the same year	-399460374
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabah's*	86.49
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	32
Denominator	Total number of wards	37
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	Non-Computable
Formula:	*Numerator / Denominator*	

Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	10
Description	Average Occupancy rate of Hotels	10
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	0
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	640965229
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	8
Description	Number of cultural/sports events hosted by the city authority in the preceding year	8
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	15.29
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	7404
Denominator	Total population in the age group of 6-14 years	48433
Unit	Percentage	

Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	17.53
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	3691
Denominator	Total female population in the age group of 6-14 years	21053
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	32.94
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	4447
Denominator	Total number of teachers available for primary grades (public and private schools)	135
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	0
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	0
Denominator	Total number of schools	33
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	102.92
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	102.9165884
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	86.1
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	992802

Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	81.73
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	2393
Denominator	Total population of the city	292797
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	7.24
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	212
Denominator	Total population of the city	292797
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	0
Description	Total response time for health-related distress calls received in the city	0
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	2
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	5865
Denominator	Total population of the city	292797
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	0.09
Formula:	*Numerator / Denominator*	

Numerator	Number of cases of persons affected by vector borne diseases in a year	259
Denominator	Total population of the city	292797
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	44.03
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	227
Denominator	Total length of road network in the city	515.59
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	214.48
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	628
Denominator	Total population of the city	292797
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	13.06
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	82
Denominator	Total crimes recorded in the same year	628
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	15.03
Formula:	*Numerator / Denominator*	

Numerator	Total number of fatalities recorded in road accidents in a year	44
Denominator	Total population of the city	292797
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	-5.5
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	-69.81
Denominator	Total VAT/GST collection during preceding year	12.696
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	13.58
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	7271808
Denominator	Total Professional Tax collection during preceding year	53549154
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	NC
Denominator	Number of construction permits during preceding year	NC
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	To be computed

Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	16796
Denominator	Total labour force in the city	48433
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	0
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	3126
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	NA
Denominator	Total number of slum and EWS households in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	Non-Compuatble
Formula:	*Numerator / Denominator*	NA
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	
Unit	Percentage	

Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	7.32
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	2142000
Denominator	Total population of the city	292797
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	Data Unavailable
Denominator	Total population of the city	292797
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	NA
Denominator	Total area of the city (total area of all land uses)	56600000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	292797
Denominator	Area allocated for residential land use (in hectares)	NA

Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	128.66
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	57171
Denominator	Total number of households in the city	44436
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	NA
Denominator	Total number of electricity connections in the city	66574
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	4
Description	Total number of sustained electrical interruptions in a year	4
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	0.81
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	0.13
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will	

	be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	0
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	1832
Denominator	Total energy consumption from all sources	304310000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	0.34
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	565828
Denominator	Total quantum of water and waste water handled during the period	3330
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	NC
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	5693392
Denominator	Total number of street light installations	Data Unavailable
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	NC
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable

Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	0.78
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	304310000
Denominator	Total population of the city	292797
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	0.67
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	40634
Denominator	Total area of the city (sq.km)	56.6
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	0.45
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	131
Denominator	Total population of the city	292797
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	To be computed
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	0

Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	515.59
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	100
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	To be computed
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	8
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	8
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	0

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of signalised intersections in the city	0
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	0
Denominator	Total available on-street parking spaces in the city	0
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	6.79
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	70
Denominator	Total length of road network in the city	1031.18
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	67.92
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	72
Denominator	Total number of junctions/ intersections on major roads in the city	106
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	Data Unavailable
Denominator	Total number of public right-of-way areas in the city	120
Unit	Percentage	

Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	96.28
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	42781
Denominator	Total number of households in the city	44436
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	211.75
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	62
Denominator	Total population of the city	292797
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	0
Denominator	Total number of samples tested for water quality	1050
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	62
Unit	Percentage	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	0
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	0
Denominator	Total number of water connections in the city	43464
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	75.08
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	43547
Denominator	Total number of properties in the city	58000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	73.76
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	42781
Denominator	Total number of properties in the city	58000

Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	100
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	49
Denominator	Total waste water generated in the city per day	49
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	100
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	49
Denominator	Total waste water received at treatment plants per day	49
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	23.37
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	120.49
Denominator	Total length of road network in the city	515.59
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	96.12
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	48000
Denominator	Total number of households and establishments in the city	49936
Unit	Percentage	

Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	100
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	65
Denominator	Total quantum of MSW generated in the city	65
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	75.38
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	1470
Denominator	Average MSW generated in the city (tons per month)	1950
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	Concentration of SO2 - air pollution	13.96
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	13.955
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	Concentration of NO2 - air pollution	14.76
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	14.76
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	Concentration of PM10 - air pollution	71
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	71

Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	Level of noise pollution	To be computed
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	Results of sample collected is attached as an Annexure- 2.
Denominator	Total number of noise samples	Navratri festival - 36 No. samples were collected from different locations. Diwali festival - 4 No. of samples were collected from different locations.
Unit	Percentage	
Benchmark		
Indicator No: 15.5	Quality of water in public surface water bodies	Non-Computable
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	Results of sample collected is attached as an Annexure- 3.
Denominator	Total number of samples tested	River Sabarmati at Mahudi Jain Temple = 11 No., River Sabarmati at Chiloda Bridge = 7 No., Narmada Canal at Limbdiya = 12 No.
Unit	Percentage

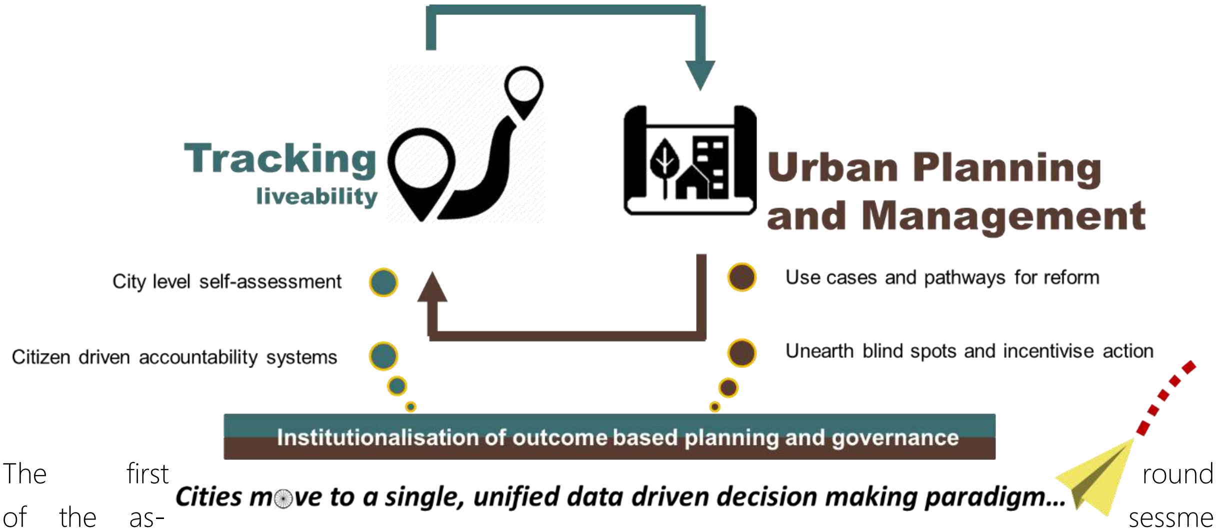
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

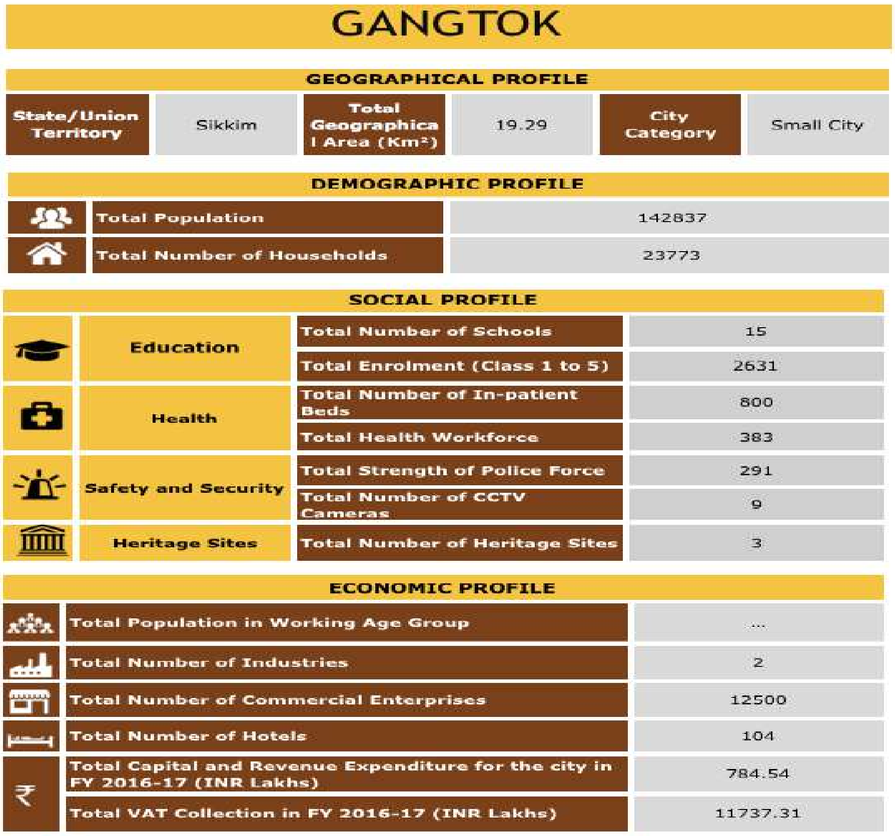
Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment

commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Elec-



GANGTOK

GEOGRAPHICAL PROFILE

State/Union Territory	Sikkim	Total Geographical Area (Km²)	19.29	City Category	Small City

DEMOGRAPHIC PROFILE

Total Population	142837
Total Number of Households	23773

SOCIAL PROFILE

Education	Total Number of Schools	15
	Total Enrolment (Class 1 to 5)	2631
Health	Total Number of In-patient Beds	800
	Total Health Workforce	383
Safety and Security	Total Strength of Police Force	291
	Total Number of CCTV Cameras	9

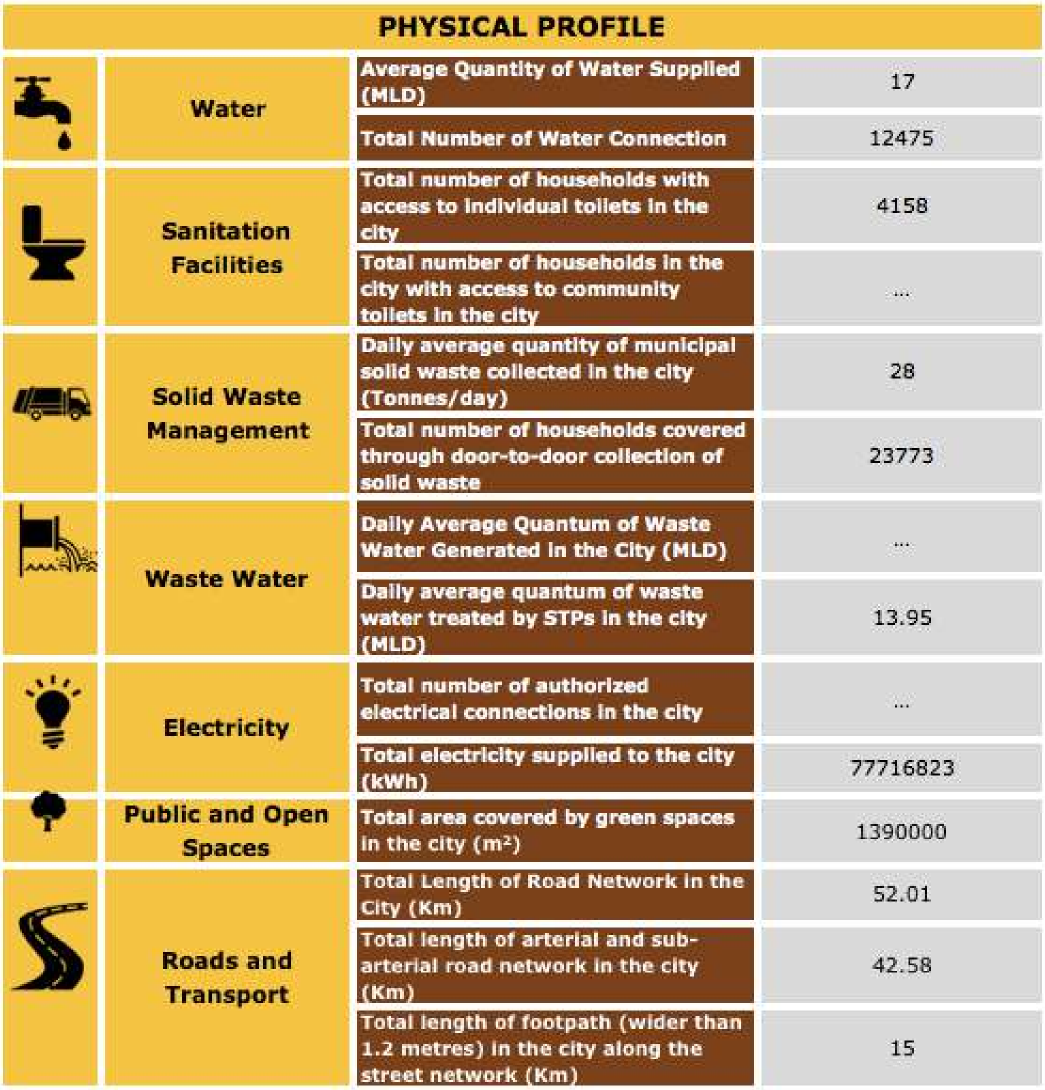
ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	2
Total Number of Commercial Enterprises	12500
Total Number of Hotels	104
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	784.54
Total VAT Collection in FY 2016-17 (INR Lakhs)	11737.31



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	17
	Total Number of Water Connection	12475
Sanitation Facilities	Total number of households with access to individual toilets in the city	4158
	Total number of households in the city with access to community toilets in the city	...
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	28
	Total number of households covered through door-to-door collection of solid waste	23773
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	...
	Daily average quantum of waste water treated by STPs in the city (MLD)	13.95
Electricity	Total number of authorized electrical connections in the city	...
	Total electricity supplied to the city (kWh)	77716823
Public and Open Spaces	Total area covered by green spaces in the city (m^2)	1390000
Roads and Transport	Total Length of Road Network in the City (Km)	52.01
	Total length of arterial and sub-arterial road network in the city (Km)	42.58
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	15

tricity, Open space and roads).

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the perfor-

mance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1. Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	**Category**	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	**Category**	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open	8.1 Per capita availability of green spaces

Pillars of Comprehensive Development	**Category**	Indicators
	Spaces	8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System

Pillars of Comprehensive Development	**Category**	Indicators
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollu-	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	**Category**	Indicators
	tion	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2. Scoring and Computing Category Indices of Liveability

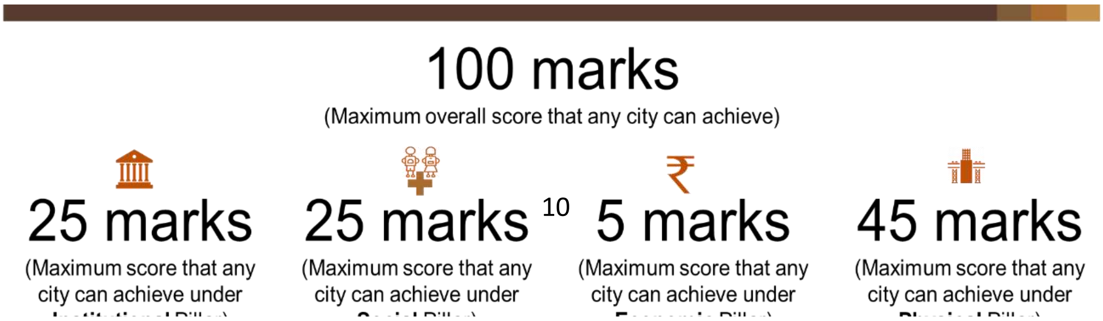
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3. Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks
(Maximum overall score that any city can achieve)
25 marks
(Maximum score that any city can achieve under
25 marks
(Maximum score that any city can achieve under
5 marks
(Maximum score that any city can achieve under
45 marks
(Maximum score that any city can achieve under

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4. Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicatorvalueforthecity - indicatorvaluefortheworstperformingcity}{benchmark - indicatorvaluefortheworstperformingcity}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by

the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1. Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2. Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Park and Recreation Related Questions	GANGTOK MUNICIPAL CORPORATION

Urban Local Body	For Water Supply and Drainage related questions	WATER SECURITY & PUBLIC HEALTH ENGINEERING DEPARTMENT
Urban Local Body	For Heritage sites related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Ecological sites related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Housing related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Building plan related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Roads related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Solid waste management related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For IT services related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	For Vendor committee related data	GANGTOK MUNICIPAL CORPORATION
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	GANGTOK MUNICIPAL CORPORATION
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	STATE POLLUTION CONTROL BOARD
Development Authority	Building Infrastructure	URBAN DEVELOPMENT AND HOUSING DEPARTMENT
	Construction planning	URBAN DEVELOPMENT AND HOUSING DEPARTMENT
	Green Building	URBAN DEVELOPMENT AND HOUSING DEPARTMENT
	Rain water harvesting	URBAN DEVELOPMENT AND HOUSING DEPARTMENT
	Universal Design Principle	URBAN DEVELOPMENT AND HOUSING DEPARTMENT

DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	ENERGY AND POWER DEPARTMENT
State Disaster management authority		LAND REVENUE DEPARTMENT
State Education Department		HUMAN RESOURCE DEVELOPMENT DEPARTMENT
State Health Department	Health care professionals	HEALTH DEPARTMENT
	Citizen Services	HEALTH DEPARTMENT
	Disease Prevalence	HEALTH DEPARTMENT
	Health Infrastructure	HEALTH DEPARTMENT
State Renewable Energy Development Agency		STATE RENEWABLE ENERGY DEVELOPMENT AGENCY
State Sales / Commercial Taxes Department		COMMERCIAL TAX AND FINANCE DEPARTMENT
Town and Country Planning Department	Land Use	URBAN DEVELOPMENT AND HOUSING DEPARTMENT
Traffic and Police Department		SIKKIM POLICE HEADQUARTER EAST SIKKIM
Transport Authorities	Buses	SIKKIM NATIONALISED TRANSPORT
	Registered Vehicles	SIKKIM NATIONALISED TRANSPORT
	Sub urban rail transport	-
	Mono Rail Authority	-
	Tramways	-
	Marine Transport Authority	-

4.3. List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 7 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	1
State Education Department	7
DISCOM/Electricity Department	7
Traffic and Police Department	2
Development Authority	0
Pollution Control Board	2
State Renewable Energy Department	2
Town and Country Planning	0
State Health Department	16
Transport Authority	1
Disaster Management	0
Urban Local Body	24
Total	62

* The count of documents is based on first round of submission.

4.4. Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators

(Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5. Physical Audit

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**27.22**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.5
	1.1c trade license	1

	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0
	1.1i professional tax	0
	1.1j information	0.538461538461538
	1.1k Grievance redressal	0.5
	1.1l electricity	0.5
	1.1m Building plan	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**7.14**
Description	Services integrated through an integrated or a singular operations command centre	1.5
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**Non-Computable**
Description		NA
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	NA

	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	NA
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**NC**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	NA
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	Data Unavailable
Denominator	Total demand raised for the year	Data Unavailable
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**301.95**
Formula:	*Numerator / Denominator*	

Numerator	Total collection of user charges in water supply in a year	288.36
Denominator	Total O&M cost for providing water supply services during the year	95.5
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**16.22**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	338.78
Denominator	Total expenditure (revenue and capital accounts) in the same year	2088.84
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	17
Denominator	Total number of wards	17
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**33.33**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	1
Denominator	Total number of historic buildings/sites identified	3

Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**Non-Computable** Data Unavailable
Description	Average Occupancy rate of Hotels	
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	
Denominator	Total budget of the ULB (capital and revenue)	Data Unavailable
Unit	Percentage	784.54
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**4**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	4

Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**35.99**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	6096
Denominator	Total population in the age group of 6-14 years	16937
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**39.28**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	3310
Denominator	Total female population in the age group of 6-14 years	8427
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**0.89**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	2631
Denominator	Total number of teachers available for primary grades (public and private schools)	2941
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**60**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for	9

	using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	
Denominator	Total number of schools	15
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**72.78**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	72.7777288238298
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**12608.62**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	1785002
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**79.77**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	800
Denominator	Total population of the city	100286
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**38.19**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	383

Denominator	Total population of the city	100286
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**Non-Computable**
Description	Total response time for health-related distress calls received in the city	Data Unavailable
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**5.17**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	5188
Denominator	Total population of the city	100286
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.32**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	322
Denominator	Total population of the city	100286
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**17.3**
Formula:	*Numerator / Denominator*	

Numerator	Total number of CCTV cameras installed	9
Denominator	Total length of road network in the city	52.01
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**326.07**
Formula:	Numerator / Denominator	327
Numerator	Total number of crimes recorded in a year	100286
Denominator	Total population of the city	
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**6.42**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	21
Denominator	Total crimes recorded in the same year	327
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**7.98**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	8
Denominator	Total population of the city	100286
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**16.52**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	1663.87
Denominator	Total VAT/GST collection during preceding year	100.7344
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	Data Unavailable
Denominator	Total Professional Tax collection during preceding year	Data Unavailable
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**-9.06**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-23
Denominator	Number of construction permits during preceding year	2.54
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	Data Unavailable
Denominator	Total labour force in the city	16937
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	Data Unavailable
Denominator	Total number of vendors in the city	423.425
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**5.87**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	520
Denominator	Total number of slum and EWS households in the city	88.61
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic ser-	**Non-**

	vices	**Computable**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**13.86**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	1390000
Denominator	Total population of the city	100286
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**1.09**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	109631
Denominator	Total population of the city	100286
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	NA
Denominator	Total area of the city (total area of all land uses)	19290000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use	

	(amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	100286
Denominator	Area allocated for residential land use (in hectares)	NA
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**43.61**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	10367
Denominator	Total number of households in the city	23773
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	NA
Denominator	Total number of electricity connections in the city	NA
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**3243**
Description	Total number of sustained electrical interruptions in a	3243

	year	
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.57**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	135615
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	Data Unavailable
Denominator	Total energy consumption from all sources	77723538
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	0
Denominator	Total quantum of water and waste water handled during the period	928.5
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**NC**

Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	Data Unavailable
Denominator	Total number of street light installations	1350
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.79**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	77723538
Denominator	Total population of the city	100286
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.39**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	13
Denominator	Total area of the city (sq.km)	19.29

Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**2.2**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	221
Denominator	Total population of the city	100286
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	1.33
Unit	Percentage	
Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	0
Denominator	Total length of road network in the city	52.01
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	1
Unit	Percentage	

Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**Non-Computable**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	NA
Denominator	Total number of major interchanges in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	Data Unavailable
Denominator	Total number of signalised intersections in the city	1
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	Data Unavailable
Denominator	Total available on-street parking spaces in the city	Data Unavailable
Unit		
Benchmark		

Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**14.42**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	15
Denominator	Total length of road network in the city	104.02
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	Data Unavailable
Denominator	Total number of junctions/ intersections on major roads in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**40**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	10
Denominator	Total number of public right-of-way areas in the city	25
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**43.25**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	10283

Denominator	Total number of households in the city	23773
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**169.52**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	17
Denominator	Total population of the city	100286
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	312
Denominator	Total number of samples tested for water quality	312
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	Blank
Denominator	Quantum of water put into the distribution system (mld)	17
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	5

Denominator	Total number of water connections in the city	12475
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**6.49** 5
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	77
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	4773
Denominator	Total number of properties in the city	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	6061
Denominator	Total number of properties in the city	Data Unavailable

Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	13.95
Denominator	Total waste water generated in the city per day	Data Unavailable
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	13.95
Denominator	Total waste water received at treatment plants per day	Data Unavailable
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**52.24**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	27.169
Denominator	Total length of road network in the city	52.01
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**65.59**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments cov-	23790

	ered through doorstep collection	
Denominator	Total number of households and establishments in the city	36273
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**56**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	28
Denominator	Total quantum of MSW generated in the city	50
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through re-use	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	Data Unavailable
Denominator	Average MSW generated in the city (tons per month)	840
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**4.48**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	4.48
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**3.67**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	3.67

Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**40.04**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	40.04
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	6
Denominator	Total number of noise samples	6
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	Data Unavailable

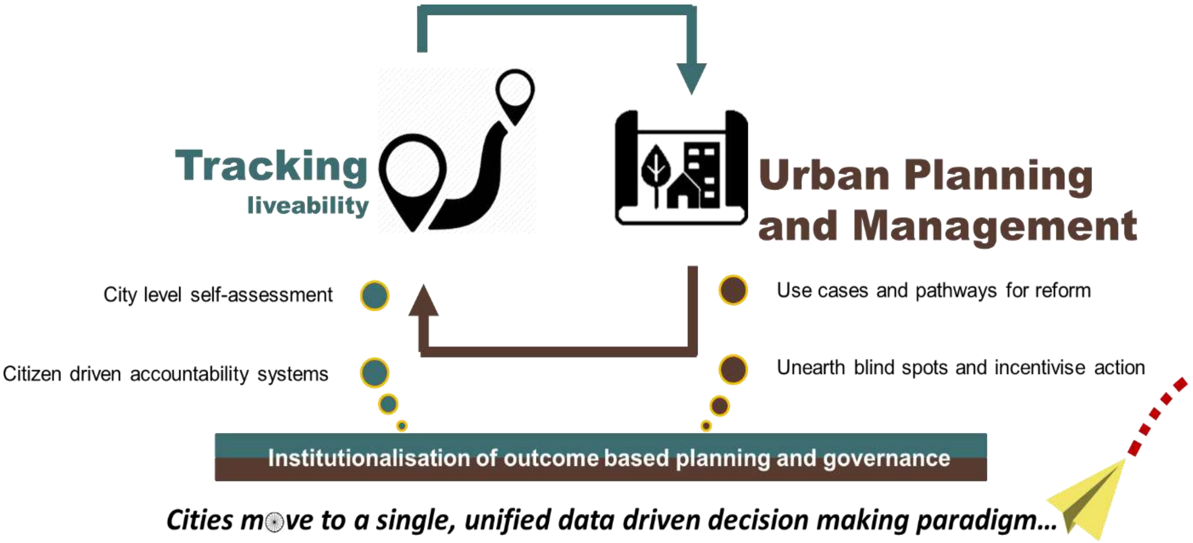
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

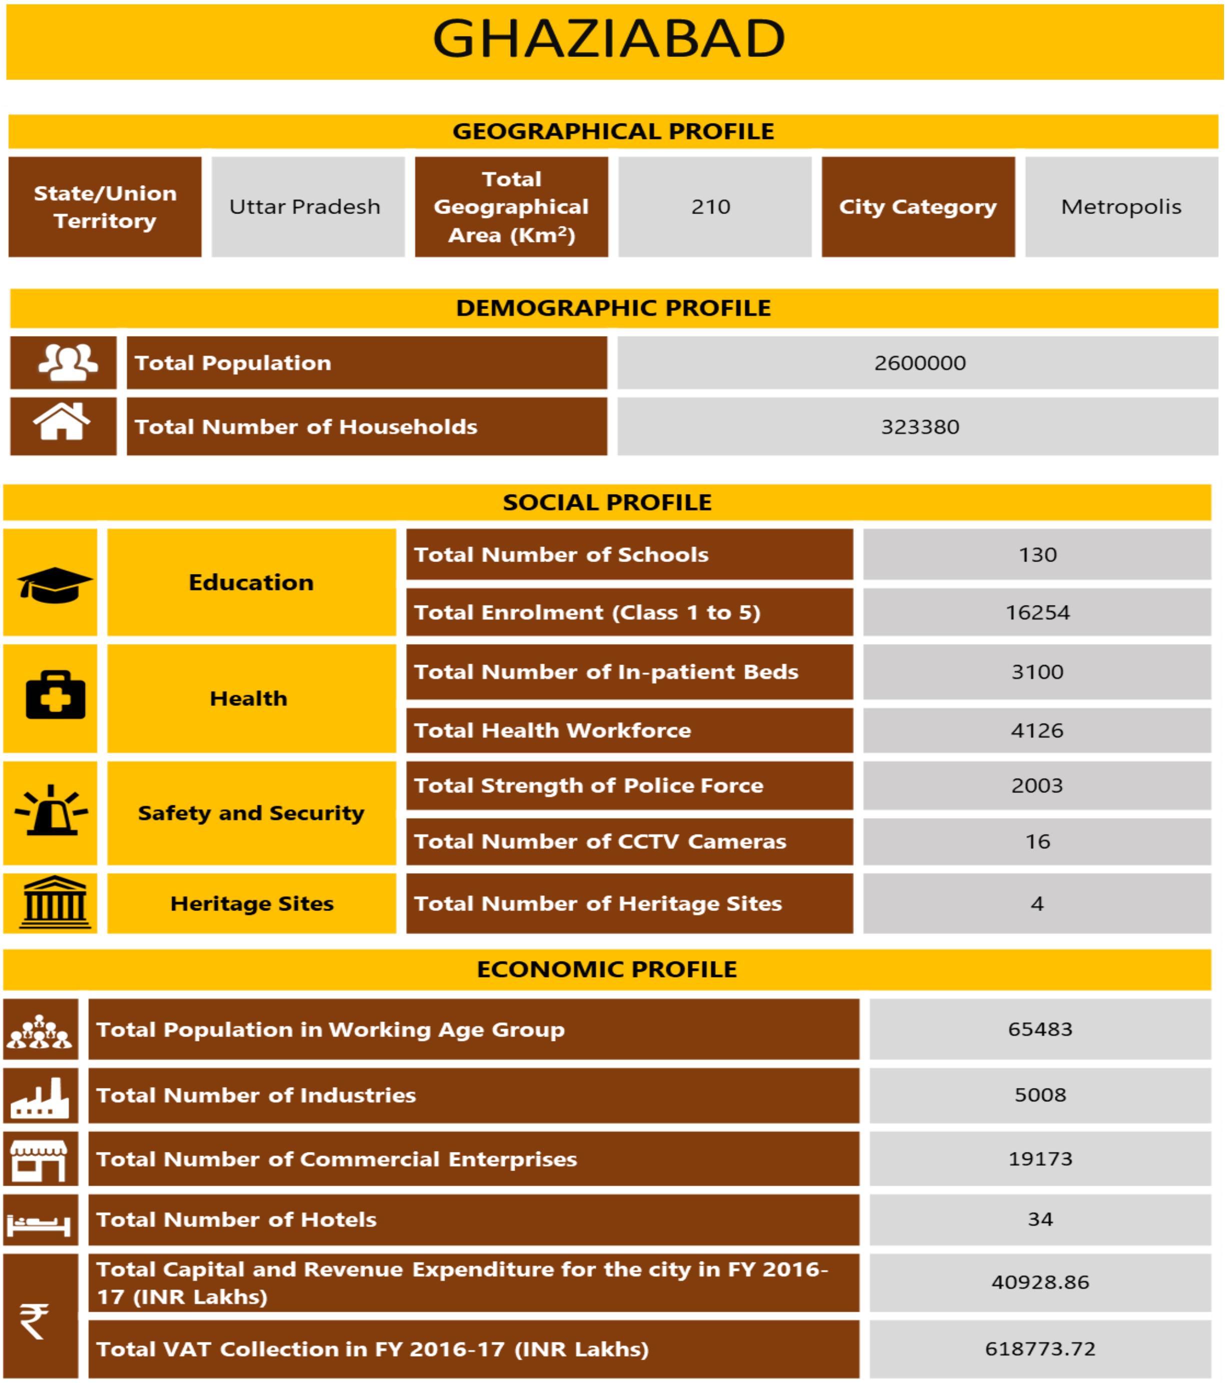


Tracking
liveability
Urban Planning and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



GHAZIABAD

GEOGRAPHICAL PROFILE

State/Union Territory	Uttar Pradesh	**Total Geographical Area (Km^2)**	210	**City Category**	Metropolis

DEMOGRAPHIC PROFILE

Total Population	2600000
Total Number of Households	323380

SOCIAL PROFILE

Education	**Total Number of Schools**	130
	Total Enrolment (Class 1 to 5)	16254
Health	**Total Number of In-patient Beds**	3100
	Total Health Workforce	4126
Safety and Security	**Total Strength of Police Force**	2003
	Total Number of CCTV Cameras	16
Heritage Sites	**Total Number of Heritage Sites**	4

ECONOMIC PROFILE

Total Population in Working Age Group	65483
Total Number of Industries	5008
Total Number of Commercial Enterprises	19173
Total Number of Hotels	34
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	40928.86
Total VAT Collection in FY 2016-17 (INR Lakhs)	618773.72

PHYSICAL PROFILE		
Water	**Average Quantity of Water Supplied (MLD)**	325
	Total Number of Water Connection	237552
Sanitation Facilities	**Total number of households with access to individual toilets in the city**	292620
	Total number of households in the city with access to community toilets in the city	1990
Solid Waste Management	**Daily average quantity of municipal solid waste collected in the city (Tonnes/day)**	850
	Total number of households covered through door-to-door collection of solid waste	265172
Waste Water	**Daily Average Quantum of Waste Water Generated in the City (MLD)**	260
	Daily average quantum of waste water treated by STPs in the city (MLD)	227
Electricity	**Total number of authorized electrical connections in the city**	463641
	Total electricity supplied to the city (kWh)	3844000000
Public and Open Spaces	**Total area covered by green spaces in the city (m^2)**	...
Roads and Transport	**Total Length of Road Network in the City (Km)**	3258.97
	Total length of arterial and sub-arterial road network in the city (Km)	3076.7
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	2466

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies

Pillars of Comprehensive Development	Category	Indicators
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita

Pillars of Comprehensive Development	Category	Indicators
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	Category	Indicators
	Pollution	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

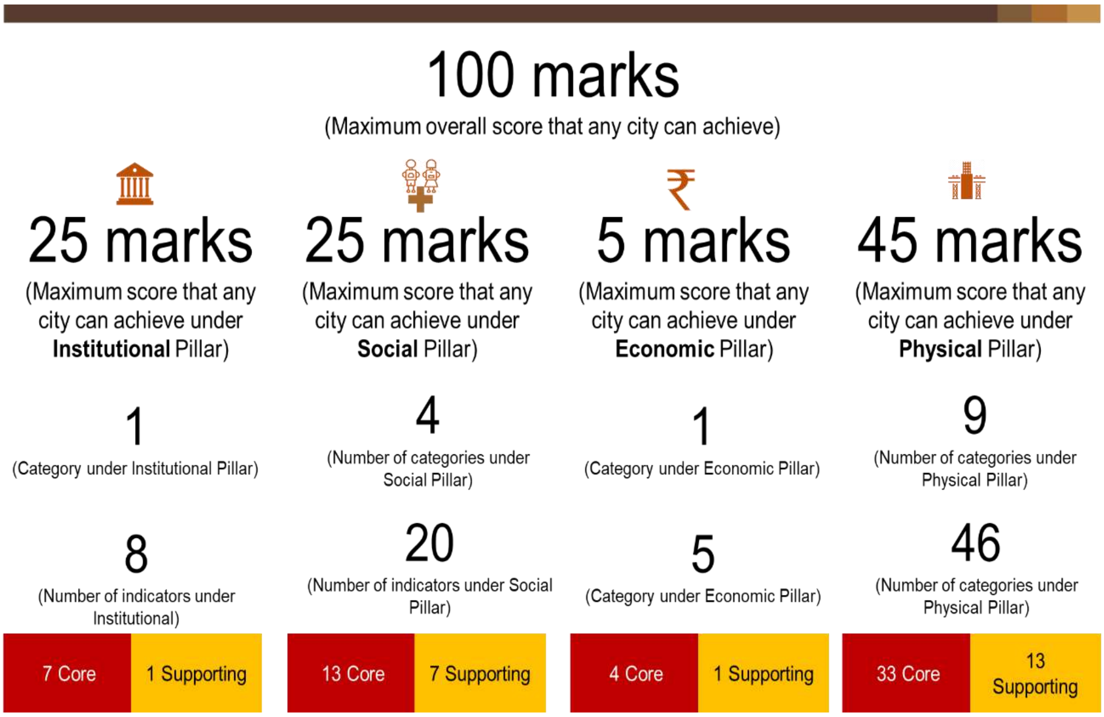
The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1	4	1	9
(Category under Institutional Pillar)	(Number of categories under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
8	20	5	46
(Number of indicators under Institutional)	(Number of indicators under Social Pillar)	(Category under Economic Pillar)	(Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different

categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Account
Urban Local Body	For Park and Recreation Related Questions	Zonal officer (Ghaziabad Nagar Nigam)/ GDA website
Urban Local Body	For Water Supply and Drainage related questions	Jal-Kal
Urban Local Body	For Heritage sites related data	Sankhyaki
Urban Local Body	For Ecological sites related data	N/A
Urban Local Body	For Housing related data	Planning Department (Ghaziabad Development Authority) District Urban Development Authority
Urban Local Body	For Building plan related data	National Capital Planning
Urban Local Body	For Roads related data	
Urban Local Body	For Solid waste management related data	Swach Bharat Mission
Urban Local Body	For IT services related data	Information technology Cell
Urban Local Body	For Vendor committee related data	District Urban Development Authority
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	Nirman, prakash, zonal head
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Pollution control board
Development Authority	Building Infrastructure	Zonal officer Ghaziabad Development Authority
	Construction planning	Town Planning Ghaziabad Development Authority

Designated data owners	Subcategories	Data owners at city level
	Green Building	Town Planning Ghaziabad Development Authority
	Rain water harvesting	Town Planning Ghaziabad Development Authority
	Universal Design Principle	Town Planning Ghaziabad Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Purvanchal Vidhut Vitran Nigam
State Disaster management authority		District disaster management authority
State Education Department		Basic Shiksha Adhikari
State Health Department	Health care professionals	Additional Medical Officer
	Citizen Services	Additional Medical Officer
	Disease Prevalence	Additional Medical Officer
	Health Infrastructure	Additional Medical Officer
State Renewable Energy Development Agency	Renewable Energy	Uttar Pradesh New & Renewable Energy Development Agency
State Sales / Commercial Taxes Department		
Town and Country Planning Department	Land Use	National Capital Region Planning
Traffic and Police Department		Office of Superintendent of police
Transport Authorities	Buses	Uttar Pradesh State Road Transport corporation
	Registered Vehicles	Regional Transport office
	Sub urban rail transport	Delhi Metro Authority
	Mono Rail Authority	NA
	Tramways	NA
	Marine Transport Authority	NA

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 54 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	**3**
State Education Department	**5**
DISCOM/Electricity Department	**0**
Traffic and Police Department	**1**
Development Authority	**0**
Pollution Control Board	**4**
State Renewable Energy Department	**1**
Town and Country Planning	**0**
State Health Department	**1**
Transport Authority	**2**
Disaster Management	**0**
Urban Local Body	**37**
Total	**54***

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	**Indicator title**
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**62.33**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	0
	1.1d solid waste management	0
	1.1e water supply	1
	1.1f sewerage/drainage	1
	1.1g fogging	0
	1.1h property tax	1
	1.1i professional tax	0
	1.1j information	0.769230769
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.333333333
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	**Percentage of citizens using online services**	**5.83**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	NA
	1.3c water supply	NA
	1.3d solid waste management	NA
	1.3e property tax	0.073218205
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	0.00629912
	1.3i information	0.008969195

Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**3.07**
Description		

Sub Indicators	1.4a water supply	0
	1.4b solid waste	1.5
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	20
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**89.24**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	8180
Denominator	Total demand raised for the year	9166
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**52.06**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	1675
Denominator	Total O&M cost for providing water supply services during the year	3217.64
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**50.7**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	49315.49
Denominator	Total expenditure (revenue and capital accounts) in the same year	97269.44
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	100
Denominator	Total number of wards	100
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	4
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**38.01**
Description	Average Occupancy rate of Hotels	38.01
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	40928.86
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**Non-Computable**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	Data Unavailable
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**6.34**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	20040
Denominator	Total population in the age group of 6-14 years	316138
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**6.92**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	9896
Denominator	Total female population in the age group of 6-14 years	142936
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**71.92**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	16254
Denominator	Total number of teachers available for primary grades (public and private schools)	226
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	Data Unavailable
Denominator	Total number of schools	130
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**#VALUE!**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	#VALUE!

Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**Non-Computable**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	1382728
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**18.8**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	3100
Denominator	Total population of the city	1648643
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**25.03**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	4126
Denominator	Total population of the city	1648643
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**3000**
Description	Total response time for health-related distress calls received in the city	3000
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**2.35**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	38790

Denominator	Total population of the city	1648643
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.04**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	693
Denominator	Total population of the city	1648643
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**0.49**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	16
Denominator	Total length of road network in the city	3258.97
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**407.97**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	6726
Denominator	Total population of the city	1648643
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**16.37**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1101

Denominator	Total crimes recorded in the same year	6726
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**20.5**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	338
Denominator	Total population of the city	1648643
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**8.63**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	49167.1
Denominator	Total VAT/GST collection during preceding year	5696.0662
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	0
Denominator	Total Professional Tax collection during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**-44.02**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	-372
Denominator	Number of construction permits during preceding year	8.45

Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	26217
Denominator	Total labour force in the city	316138
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	NA
Denominator	Total number of vendors in the city	23262
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**73.47**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	67687
Denominator	Total number of slum and EWS households in the city	921.29
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	

Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	**Per capita availability of green spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	Data Unavailable
Denominator	Total population of the city	1648643
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**2.93**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	4830672
Denominator	Total population of the city	1648643
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**0.2**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	415400
Denominator	Total area of the city (total area of all land uses)	210000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	1648643
Denominator	Area allocated for residential land use (in hectares)	4910000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a	

	benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**125.15**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	404702
Denominator	Total number of households in the city	323380
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**2.5**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	11579
Denominator	Total number of electricity connections in the city	463641
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**19124**
Description	Total number of sustained electrical interruptions in a year	19124
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.77**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	197629
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total installed capacity for generation of renewable energy in the city	4000
Denominator	Total energy consumption from all sources	3844703125
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.29**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	3443141
Denominator	Total quantum of water and waste water handled during the period	16560
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	49560
Denominator	Total number of street light installations	50214
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	**Total energy consumption per capita**	**0.18**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	3844703125
Denominator	Total population of the city	1648643
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be	

	treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	Data Unavailable
Denominator	Total area of the city (sq.km)	210
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	Data Unavailable
Denominator	Total population of the city	1648643
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**2.41**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	78.54
Denominator	Total length of road network in the city	3258.97
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**11.11**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	1
Denominator	Total number of major transport interchanges in the city	9

Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	Data Unavailable
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.56**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	5
Denominator	Total number of major interchanges in the city	9
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**13.79**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	4
Denominator	Total number of signalised intersections in the city	29
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**71.15**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	37
Denominator	Total available on-street parking spaces in the city	52
Unit		
Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**37.83**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	2466
Denominator	Total length of road network in the city	6517.94
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian**	**102.5**

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

	crossing facilities	
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	41
Denominator	Total number of junctions/ intersections on major roads in the city	40
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**21.82**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	422
Denominator	Total number of public right-of-way areas in the city	1934
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**70.41**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	227676
Denominator	Total number of households in the city	323380
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**197.13**
Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	325
Denominator	Total population of the city	1648643
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	4901
Denominator	Total number of samples tested for water quality	5214

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**23.54**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	76.5
Denominator	Quantum of water put into the distribution system (mld)	325
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	Data Unavailable
Denominator	Total number of water connections in the city	237552
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	56
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**90.65**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	294610
Denominator	Total number of properties in the city	325000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**90.04**

Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	292620
Denominator	Total number of properties in the city	325000
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**87.31**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	227
Denominator	Total waste water generated in the city per day	260
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**101.32**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	230
Denominator	Total waste water received at treatment plants per day	227
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**61.15**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	1993
Denominator	Total length of road network in the city	3258.97
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**83.01**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	284345
Denominator	Total number of households and establishments in the city	342553
Unit	Percentage	
Benchmark	100% door to door collection	

Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	850
Denominator	Total quantum of MSW generated in the city	850
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**11.76**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	3000
Denominator	Average MSW generated in the city (tons per month)	25500
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**21.64**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	21.64
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**33.44**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	33.44
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**275.85**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	275.85
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of noise samples meeting acceptable noise levels	96
Denominator	Total number of noise samples	96
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	36
Denominator	Total number of samples tested	36
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

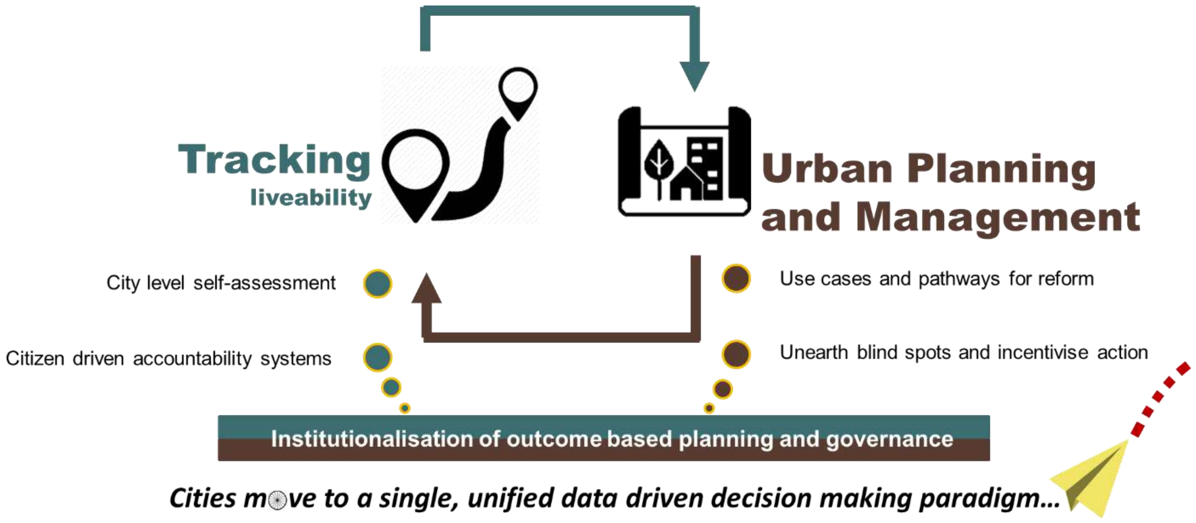
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



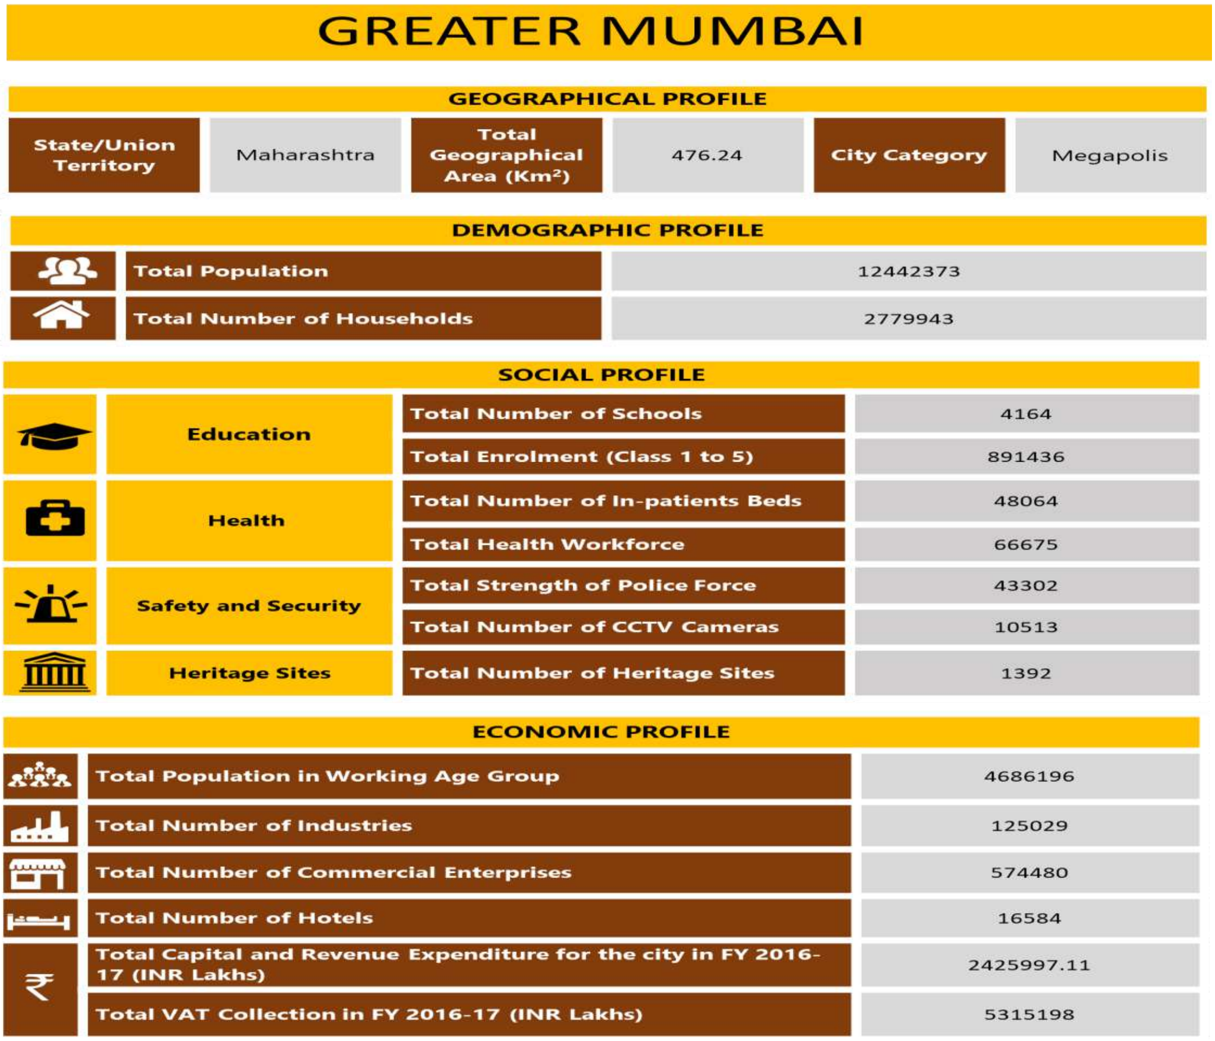
Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart

cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



GREATER MUMBAI

GEOGRAPHICAL PROFILE

State/Union Territory	Maharashtra	Total Geographical Area (Km^2)	476.24	City Category	Megapolis

DEMOGRAPHIC PROFILE

Total Population	12442373
Total Number of Households	2779943

SOCIAL PROFILE

Education	Total Number of Schools	4164
	Total Enrolment (Class 1 to 5)	891436
Health	Total Number of In-patients Beds	48064
	Total Health Workforce	66675
Safety and Security	Total Strength of Police Force	43302
	Total Number of CCTV Cameras	10513
Heritage Sites	Total Number of Heritage Sites	1392

ECONOMIC PROFILE

Total Population in Working Age Group	4686196
Total Number of Industries	125029
Total Number of Commercial Enterprises	574480
Total Number of Hotels	16584
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	2425997.11
Total VAT Collection in FY 2016-17 (INR Lakhs)	5315198

PHYSICAL PROFILE			
	Water	Average Quantity of Water Supplied (MLD)	3615
		Total Number of Water Connections	510559
	Sanitation Facilities	Total number of households with access to individual toilets in the city	1541000
		Total number of households in the city with access to community toilets in the city	1071417
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	7970.7
		Total number of households covered through door-to-door collection of solid waste	3484278
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	2290
		Daily average quantum of waste water treated by STPs in the city (MLD)	1769
	Electricity	Total number of authorized electrical connections in the city	4315021
		Total electricity supplied to the city (kWh)	17830049797
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	128416000
	Roads and Transport	Total Length of Road Network in the City (Km)	2260.062
		Total length of arterial and sub-arterial road network in the city (Km)	1941
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	2300

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and	6.1 Increase in VAT/GST collection

Pillars of Comprehensive Development	Category	Indicators
	Employment	6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian

Pillars of Comprehensive Development	Category	Indicators
		crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

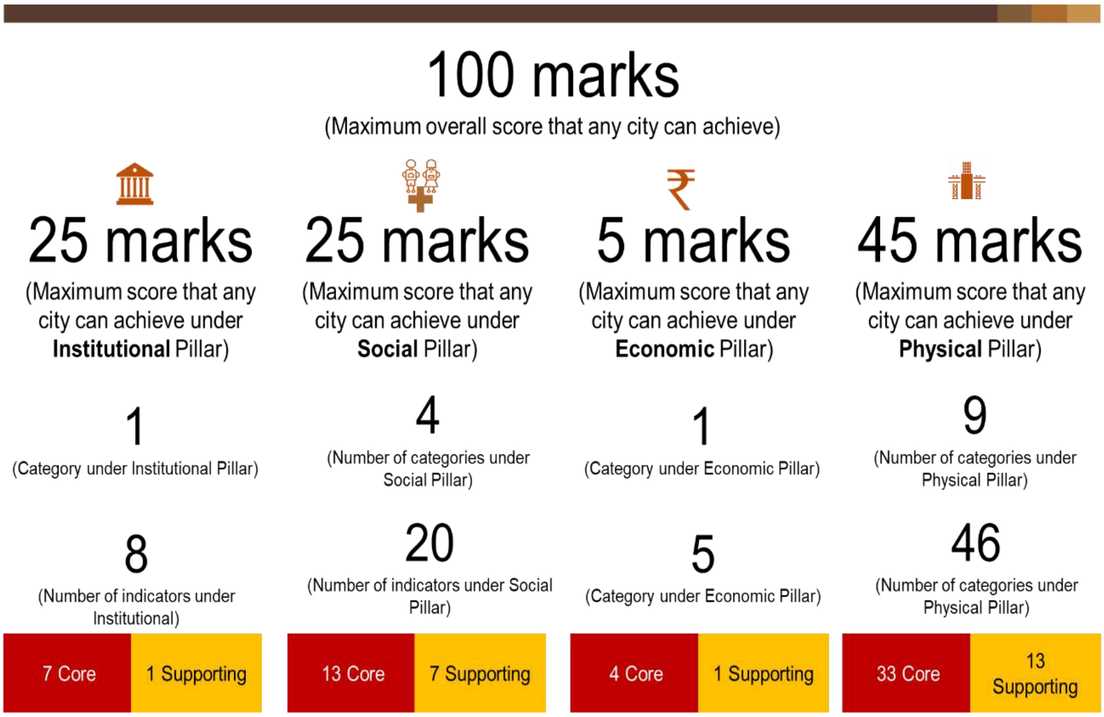
Table 2 Details on Population Range

Category	Population range

Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.



100 marks

(Maximum overall score that any city can achieve)

25 marks (Maximum score that any city can achieve under **Institutional** Pillar)	25 marks (Maximum score that any city can achieve under **Social** Pillar)	5 marks (Maximum score that any city can achieve under **Economic** Pillar)	45 marks (Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{\text{indicator value for the city} - \text{indicator value for the worst performing city}}{\text{benchmark} - \text{indicator value for the worst performing city}}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the

questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department, MCGM
Urban Local Body	For Park and Recreation Related Questions	Garden Department, MCGM Development and Planning Department, MCGM
Urban Local Body	For Water Supply and Drainage related questions	Hydraulic Department, MCGM
Urban Local Body	For Heritage sites related data	Development and Planning, MCGM Archaeological Survey of India
Urban Local Body	For Ecological sites related data	Environment and Forest Department
Urban Local Body	For Housing related data	Development and Planning, MCGM
Urban Local Body	For Building plan related data	Development and Planning, MCGM
Urban Local Body	For Roads related data	Department of Roads and Traffic, MCGM
Urban Local Body	For Solid waste management related data	Solid waste management Department, MCGM
Urban Local Body	For IT services related data	IT Department, MCGM
Urban Local Body	For Vendor committee related data	Licence and Establishment, MCGM
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Maharashtra Pollution Control Board Environment Department, MCGM
Development Authority	Building Infrastructure	Development and Planning, MCGM
	Construction planning	Development and Planning, MCGM
	Green Building	Development and Planning, MCGM

Designated data owners	Subcategories	Data owners at city level
	Rain water harvesting	Development and Planning, MCGM
	Universal Design Principle	Development and Planning, MCGM
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Bombay Electricity Supply and Transport, MCGM Maharashtra State Electricity Development Corporation
State Disaster management authority		District Disaster management Office
State Education Department		State Education Department Education Department, MCMG
State Health Department	Health care professionals	Health Department, MCMG
	Citizen Services	State Health Department
	Disease Prevalence	State Health Department
	Health Infrastructure	State Health Department
State Renewable Energy Development Agency		Maharashtra Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Sales and commercial Taxes department
Town and Country Planning Department	Land Use	Development and Planning, MCMG
Traffic and Police Department		State Police Department
Transport Authorities	Buses	Road and Transport Office
	Registered Vehicles	Bombay Electricity Supply and Transport
	Sub urban rail transport	Western Railways, central Railways and Harbour Railways
	Mono Rail Authority	MMRDA
	Tramways	NA
	Marine Transport Authority	Mumbai Maritime Board

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 97 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping

of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	12
State Education Department	1
DISCOM/Electricity Department	14
Traffic and Police Department	2
Development Authority	0
Pollution Control Board	2
State Renewable Energy Department	3
Town and Country Planning	0
State Health Department	0
Transport Authority	4
Disaster Management	0
Urban Local Body	59
Total	97*

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1 | Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

8. LA - Universal Design Principles

5 Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**80.28**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.5
	1.1b death certificate	0.25
	1.1c trade license	1
	1.1d solid waste management	0.5
	1.1e water supply	1
	1.1f sewerage/drainage	1
	1.1g fogging	1
	1.1h property tax	0.666666667
	1.1i professional tax	0.75
	1.1j information	0.769230769

	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**52.38**
Description	Services integrated through an integrated or a singular operations command centre	11
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**14.99**
Description		
Sub Indicators	1.3a Building plan	0.018514428
	1.3b Birth/Death Certificate	NA
	1.3c water supply	0.320993934
	1.3d solid waste management	0.001209174
	1.3e property tax	0.043731913
	1.3f professional tax (RC)	0.458945112
	1.3g professional tax (EC)	0.03337704
	1.3h complaints/ grievance redressal	0.000622416
	1.3i information	0.001209174
	1.3j electricity	0.470789366
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0

	1.4e professional tax	0
	1.4f parks and recreational spaces	0
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**118.1**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	582600
Denominator	Total demand raised for the year	493320
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**506.44**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	146078.19
Denominator	Total O&M cost for providing water supply services during the year	28844.26
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**18.35**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	1382088.92
Denominator	Total expenditure (revenue and capital accounts) in the same year	7531457.35
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**70.83**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	17
Denominator	Total number of wards	24
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**0.14**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	2
Denominator	Total number of historic buildings/sites identified	1392
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**100**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	1
Denominator	Total number of ecologically important sites identified in the city	1
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**77**
Description	Average Occupancy rate of Hotels	77
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**1.7**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	41180.11
Denominator	Total budget of the ULB (capital and revenue)	2425997.11
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**2735**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	2735
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**73.62**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	1404629
Denominator	Total population in the age group of 6-14 years	1907833
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**73.88**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	665670
Denominator	Total female population in the age group of 6-14 years	900991
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**22.58**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	891436
Denominator	Total number of teachers available for primary grades (public and private schools)	39484
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**36.19**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	1507
Denominator	Total number of schools	4164
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**166.07**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	166.0727145
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Indicator No: 3.6	Percentage of students completing secondary education	**79.65**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	27837032020
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**38.63**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	48064
Denominator	Total population of the city	12442373
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	**53.59**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	66675
Denominator	Total population of the city	12442373
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**20**
Description	Total response time for health-related distress calls received in the city	20
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.05**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	6325
Denominator	Total population of the city	12442373
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.09**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	11458

Denominator	Total population of the city	12442373
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**465.16**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	10513
Denominator	Total length of road network in the city	2260.062
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**320.45**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	39872
Denominator	Total population of the city	12442373
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**17.38**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	6931
Denominator	Total crimes recorded in the same year	39872
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**13.45**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	1674
Denominator	Total population of the city	12442373
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**16.06**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	735428
Denominator	Total VAT/GST collection during preceding year	45797.7
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**9.28**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	8314
Denominator	Total Professional Tax collection during preceding year	89580
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	Increase in issuance of Construction Permits	**18.2**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	107
Denominator	Number of construction permits during preceding year	5.88
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	368149
Denominator	Total labour force in the city	1907833
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal	**11.64**

	spaces	
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	11573
Denominator	Total number of vendors in the city	99435
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**93.9**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	1256724
Denominator	Total number of slum and EWS households in the city	13384.35
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	0
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**10.32**
Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	128416000
Denominator	Total population of the city	12442373
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**7.65**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	95204222.64

Denominator	Total population of the city	12442373
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**56.4**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	268620000
Denominator	Total area of the city (total area of all land uses)	476240000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.06**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	12442373
Denominator	Area allocated for residential land use (in hectares)	219090000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**127.63**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	3547976
Denominator	Total number of households in the city	2779943
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**7.57**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and	326645

	commercial) with smart meters	
Denominator	Total number of electricity connections in the city	4315021
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**6775**
Description	Total number of sustained electrical interruptions in a year	6775
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0.6**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	163840
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	6411.91
Denominator	Total energy consumption from all sources	17830176522
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	563692.39
Denominator	Total quantum of water and waste water handled during the period	161520
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	87879253
Denominator	Total number of street light installations	177517
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in	

	the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**0.21**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	2497358
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	5196080.64
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	17830176522
Denominator	Total population of the city	12442373
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	Geographical coverage of public transport	**0.64**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	6606.97
Denominator	Total area of the city (sq.km)	476.24
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	Availability of public transport	**1.27**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	15842
Denominator	Total population of the city	12442373
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	Mode share of public transport	**To be computed**
Description	Mode share of public transport	67
Unit	Percentage	

Benchmark		
Indicator No: 11.4	Percentage of road network with dedicated bicycle tracks	**1.06**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	24
Denominator	Total length of road network in the city	2260.062
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	Percentage of interchanges with bicycle parking facilities	**16.07**
Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	58
Denominator	Total number of major transport interchanges in the city	361
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	Mode share of non-motorised transport[1]	**To be computed**
Description	Mode share of non-motorised transport	46
Unit	Percentage	
Benchmark		
Indicator No: 11.7	Availability of Passenger Information System	**0.35**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	119
Denominator	Total number of major interchanges in the city	344
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	Extent of signal synchronisation	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	618
Denominator	Total number of signalised intersections in the city	618
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	Availability of paid parking spaces	**7.27**
Formula:	*Numerator / Denominator*	

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Numerator	Total available on-street paid parking spaces in the city	10906
Denominator	Total available on-street parking spaces in the city	149958
Unit		
Benchmark		
Indicator No: 11.10	Percentage coverage of footpaths – wider than 1.2m	**50.88**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	2300
Denominator	Total length of road network in the city	4520.124
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	Percentage of traffic intersections with pedestrian crossing facilities	**690.8**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	1727
Denominator	Total number of junctions/ intersections on major roads in the city	250
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	Extent to which universal accessibility is incorporated in public rights-of-way	**270.7**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	18148
Denominator	Total number of public right-of-way areas in the city	6704
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	Household level coverage of direct water supply connections	**67.2**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	1868260
Denominator	Total number of households in the city	2779943
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	Per capita supply of water	**290.54**
Formula:	*Numerator / Denominator*	

Numerator	Total quantity of water supplied into the distribution system	3615
Denominator	Total population of the city	12442373
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	Quality of water supplied[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	35595
Denominator	Total number of samples tested for water quality	36121
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	Level of non-revenue water – NRW	**24.32**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	879
Denominator	Quantum of water put into the distribution system (mld)	3615
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	Percentage of water connections covered through meters	**77.9**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	397708
Denominator	Total number of water connections in the city	510559
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	Percentage of plots with rainwater harvesting facility	**11.23**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	1373
Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	12225
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Category 13: Waste Water Management

Indicator No: 13.1	Coverage of toilets	**964.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	3316797
Denominator	Total number of properties in the city	344047
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	Coverage of sewerage network and/or septage	**87.24**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	300133
Denominator	Total number of properties in the city	344047
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	Collection efficiency of sewerage network	**77.25**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	1769
Denominator	Total waste water generated in the city per day	2290
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	Extent of reuse and recycling of waste water	**93.54**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	1654.7
Denominator	Total waste water received at treatment plants per day	1769
Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	Coverage of storm water drains	**122.6**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	2770.93
Denominator	Total length of road network in the city	2260.062
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	Household level coverage of municipal solid waste collection	**113.04**

Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	3791723
Denominator	Total number of households and establishments in the city	3354423
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	Efficiency of collection of municipal solid waste	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	7970.7
Denominator	Total quantum of MSW generated in the city	7970.7
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	Extent of municipal solid waste recovered through reuse	**1.77**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	4226.77
Denominator	Average MSW generated in the city (tons per month)	239121
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**15**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	15
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**39**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	39
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**97**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	97
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	

Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	1740
Denominator	Total number of noise samples	7116
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**61.11**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	88
Denominator	Total number of samples tested	144
Unit	Percentage	
Benchmark	100%

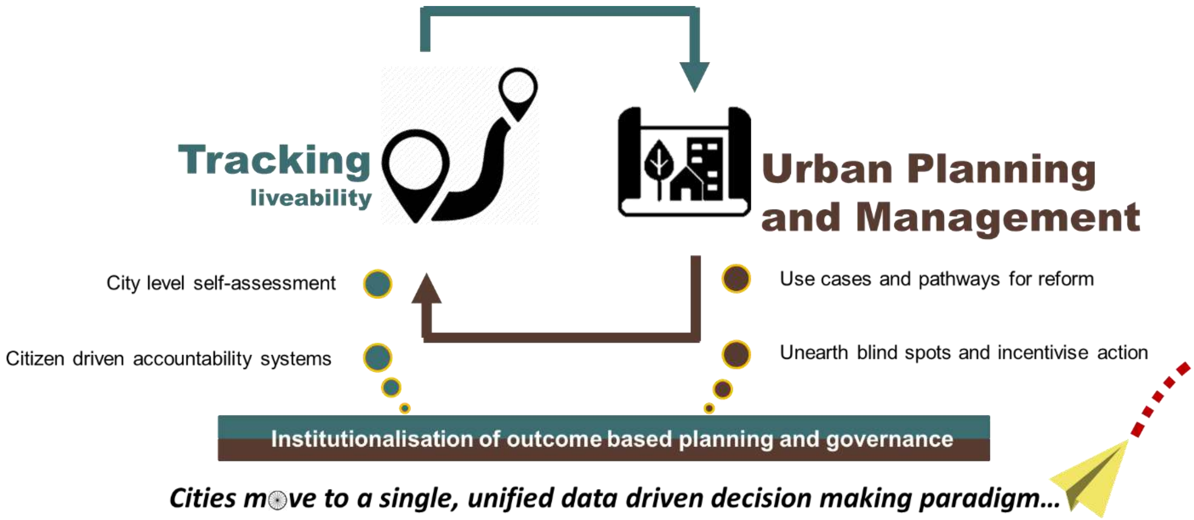
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities



Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance

Cities move to a single, unified data driven decision making paradigm…

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).

GURGAON

GEOGRAPHICAL PROFILE

State/Union Territory	Haryana	**Total Geographical Area (Km^2)**	232	**City Category**	Large City

DEMOGRAPHIC PROFILE

Total Population	876000
Total Number of Households	380000

SOCIAL PROFILE

Education	**Total Number of Schools**	1067
	Total Enrolment (Class 1 to 5)	178809
Health	**Total Number of In-patient Beds**	5744
	Total Health Workforce	870
Safety and Security	**Total Strength of Police Force**	4777
	Total Number of CCTV Cameras	56911
Heritage Sites	**Total Number of Heritage Sites**	12

ECONOMIC PROFILE

Total Population in Working Age Group	...
Total Number of Industries	3957
Total Number of Commercial Enterprises	49779
Total Number of Hotels	5474
Total Capital and Revenue Expenditure for the city in FY 2016-17 (INR Lakhs)	34533.18
Total VAT Collection in FY 2016-17 (INR Lakhs)	569842

PHYSICAL PROFILE

	Water	Average Quantity of Water Supplied (MLD)	181.6
		Total Number of Water Connection	268241
	Sanitation Facilities	Total number of households with access to individual toilets in the city	30826
		Total number of households in the city with access to community toilets in the city	3187
	Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	784
		Total number of households covered through door-to-door collection of solid waste	312589
	Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	40
		Daily average quantum of waste water treated by STPs in the city (MLD)	40
	Electricity	Total number of authorized electrical connections in the city	259086
		Total electricity supplied to the city (kWh)	4129224000
	Public and Open Spaces	Total area covered by green spaces in the city (m^2)	10.04
	Roads and Transport	Total Length of Road Network in the City (Km)	3400
		Total length of arterial and sub-arterial road network in the city (Km)	28.04
		Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	500

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the performance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1 Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	Category	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	**2. Identity and Culture**	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population

Pillars of Comprehensive Development	Category	Indicators
		enrolled in schools
		3.3 Primary education student-teacher ratio
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	**6. Economy and Employment**	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	**7. Housing and Inclusiveness**	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open Spaces	8.1 Per capita availability of green spaces
		8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services

Pillars of Comprehensive Development	Category	Indicators
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting

Pillars of Comprehensive Development	Category	Indicators
		facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollution	15.1 Concentration of SO2- air pollution
		15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2 Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3 Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	25 marks	5 marks	45 marks
(Maximum score that any city can achieve under **Institutional** Pillar)	(Maximum score that any city can achieve under **Social** Pillar)	(Maximum score that any city can achieve under **Economic** Pillar)	(Maximum score that any city can achieve under **Physical** Pillar)
1 (Category under Institutional Pillar)	4 (Number of categories under Social Pillar)	1 (Category under Economic Pillar)	9 (Number of categories under Physical Pillar)
8 (Number of indicators under Institutional)	20 (Number of indicators under Social Pillar)	5 (Category under Economic Pillar)	46 (Number of categories under Physical Pillar)
7 Core 1 Supporting	13 Core 7 Supporting	4 Core 1 Supporting	33 Core 13 Supporting

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to “maximum within the comparison group” or “absolute benchmarks”. For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4 Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicator\ value\ for\ the\ city - indicator\ value\ for\ the\ worst\ performing\ city}{benchmark - \ indicator\ value\ for\ the\ worst\ performing\ city}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1 Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2 Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Municipal Corporation Gurgaon
Urban Local Body	For Park and Recreation Related Questions	Municipal Corporation Gurgaon
Urban Local Body	For Water Supply and Drainage related questions	Municipal Corporation Gurgaon
Urban Local Body	For Heritage sites related data	Municipal Corporation Gurgaon
Urban Local Body	For Ecological sites related data	Municipal Corporation Gurgaon
Urban Local Body	For Housing related data	Municipal Corporation Gurgaon
Urban Local Body	For Building plan related data	Municipal Corporation Gurgaon
Urban Local Body	For Roads related data	Municipal Corporation Gurgaon
Urban Local Body	For Solid waste management related data	Municipal Corporation Gurgaon
Urban Local Body	For IT services related data	Municipal Corporation Gurgaon
Urban Local Body	For Vendor committee related data	Municipal Corporation Gurgaon
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban	Municipal Corporation Gurgaon

Designated data owners	Subcategories	Data owners at city level
	Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Haryana State Pollution Control Board
Development Authority	Building Infrastructure	Haryana Urban Development Authority
	Construction planning	Haryana Urban Development Authority
	Green Building	Haryana Urban Development Authority
	Rain water harvesting	Haryana Urban Development Authority
	Universal Design Principle	Haryana Urban Development Authority
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Dakshin Haryana Bijli Vitran Nigam
State Disaster management authority		District Disaster Management Authority
State Education Department		District Education Department
State Health Department	Health care professionals	Civil Hospital Gurgaon
	Citizen Services	Civil Hospital Gurgaon
	Disease Prevalence	Civil Hospital Gurgaon
	Health Infrastructure	Civil Hospital Gurgaon
State Renewable Energy Development Agency	Renewable Energy	District Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Excise & Taxation Department
Town and Country Planning Department	Land Use	District Town and Country Planning Department
Traffic and Police Department		Haryana Police
Transport Authorities	Buses	Haryana Roadways
	Registered Vehicles	Transport Authority
	Sub urban rail transport	
	Mono Rail Authority	
	Tramways	

Designated data owners	Subcategories	Data owners at city level
	Marine Transport Authority	

4.3 List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 7 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	**0**
State Education Department	**0**
DISCOM/Electricity Department	**1**
Traffic and Police Department	**1**
Development Authority	**0**
Pollution Control Board	**1**
State Renewable Energy Department	**1**
Town and Country Planning	**0**
State Health Department	**0**
Transport Authority	**0**
Disaster Management	**0**
Urban Local Body	**3**
Total	**7***

* The count of documents is based on first round of submission.

4.4 Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

1.2 | Percentage of services integrated through Command Centre

2.3 | Hotel occupancy

3.4 | Percentage of schools with access to digital education

5.1| Number of streets, public places, junctions covered through surveillance systems

6.5 | Percentage of vendors registered and provided formal spaces

11.7 | Availability of Passenger Information System

11.11 | Percentage of traffic intersections with pedestrian crossing facilities

11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5 Physical Audit

The following map presents the indicators audited at city level.

5. Indicator Values

In this chapter, indicator values for **74 indicators** excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	**Percentage of citizen services available online**	**58.86**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	1
	1.1b death certificate	1
	1.1c trade license	0.5
	1.1d solid waste management	0.5
	1.1e water supply	0
	1.1f sewerage/drainage	0
	1.1g fogging	0
	1.1h property tax	0.666666667
	1.1i professional tax	0.25
	1.1j information	0.846153846
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.888888889
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	**Percentage of services integrated through Command Centre**	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	

Indicator No. 1.3	**Percentage of citizens using online services**	**0.19**
Description		
Sub Indicators	1.3a Building plan	3.28046E-05
	1.3b Birth/Death Certificate	5.63064E-05
	1.3c water supply	0.000170408
	1.3d solid waste management	3.38402E-06
	1.3e property tax	0.001657842
	1.3f professional tax (RC)	NA
	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.009489127
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	**Average delay in grievance redressal**	**1**
Description		
Sub Indicators	1.4a water supply	0
	1.4b solid waste	5
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	NA
	1.4f parks and recreational spaces	NA
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	**Tax collected as percentage of tax billed**	**29.43**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	4510356254

Denominator	Total demand raised for the year	15325500000
Unit	Percentage	
Benchmark	90%	
Indicator No: 1.6	**Extent of cost recovery (O&M) in water supply services**	**67**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	326.36
Denominator	Total O&M cost for providing water supply services during the year	487.1
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	**Capital spending as percentage of total expenditure**	**9.61**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	10076.67
Denominator	Total expenditure (revenue and capital accounts) in the same year	104828.01
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	**Percentage of population covered under Ward Committees/ Area *Sabhas***	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	35
Denominator	Total number of wards	35
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	**Restoration and reuse of historic buildings**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of historic buildings/sites restored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	12
Unit	Percentage	

Benchmark	100%	
Indicator No: 2.2	**Percentage of ecologically important areas covered through projects for restoration**	**30.43**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	7
Denominator	Total number of ecologically important sites identified in the city	23
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	**Hotel Occupancy**	**79.57**
Description	Average Occupancy rate of Hotels	79.57142857
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	**Percentage of budget allocated towards cultural/sports activities**	**1.55**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	536.17
Denominator	Total budget of the ULB (capital and revenue)	34533.18
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	**Number of cultural/sports events hosted by city**	**31**
Description	Number of cultural/sports events hosted by the city authority in the preceding year	31
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	**Percentage of school-aged population enrolled in schools**	**180.2**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	279486
Denominator	Total population in the age group of 6-14 years	155094

Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	**Percentage of female school-aged population enrolled in schools**	**181.13**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	125527
Denominator	Total female population in the age group of 6-14 years	69304
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	**Primary education student-teacher ratio**	**109.97**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	178809
Denominator	Total number of teachers available for primary grades (public and private schools)	1626
Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	**Percentage of schools with access to digital education**	**43.39**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	463
Denominator	Total number of schools	1067
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	**Percentage of students completing primary education**	**154.36**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	154.3593643
Numerator	Percentage	
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	**Percentage of students completing secondary education**	**109.7**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	1057514394
Numerator	Percentage	

Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	**Number of in-patient hospital beds per 10,000 population**	**64.79**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospitals	5744
Denominator	Total population of the city	886519
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	**Healthcare professionals per 10,000 population**	**9.81**
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	870
Denominator	Total population of the city	886519
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	**Average response time in case of health emergencies**	**15**
Description	Total response time for health-related distress calls received in the city	15
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	**Period prevalence of water borne diseases**	**5.57**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	49381
Denominator	Total population of the city	886519
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	**Period prevalence of vector borne diseases**	**0.01**
Formula:	*Numerator / Denominator*	

Numerator	Number of cases of persons affected by vector borne diseases in a year	113
Denominator	Total population of the city	886519
Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	**Total number of CCTV cameras installed in the city**	**1673.85**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	56911
Denominator	Total length of road network in the city	3400
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	**Number of recorded crimes per lakh population**	**2170.51**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	19242
Denominator	Total population of the city	886519
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	**Extent of crimes recorded against women, children and elderly per year**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	0
Denominator	Total crimes recorded in the same year	19242
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.4	**Transport-related fatality per lakh population**	**Non-Computable**
Formula:	*Numerator / Denominator*	

Numerator	Total number of fatalities recorded in road accidents in a year	#VALUE!
Denominator	Total population of the city	886519
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	**Increase in VAT/GST collection**	**9.71**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	50426
Denominator	Total VAT/GST collection during preceding year	5194.16
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	**Increase in collection of Professional Tax**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	29256254
Denominator	Total Professional Tax collection during preceding year	NA
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.3	**Increase in issuance of Construction Permits**	**16.14**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	173
Denominator	Number of construction permits during preceding year	10.72
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	**Unemployment Rate**	**To be computed**
Formula:	*Numerator / Denominator*	

Numerator	Number of unemployed persons (seeking or available for work)	28683
Denominator	Total labour force in the city	155094
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	**Percentage of vendors registered and provided formal spaces**	**26.42**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	3744
Denominator	Total number of vendors in the city	14172
Unit	Percentage	
Benchmark	100%	

Physical Pillar

Category 7: Housing and Inclusiveness

Indicator No: 7.1	**Percentage of Slum/EWS households covered through formal/ housing**	**138.51**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	26375
Denominator	Total number of slum and EWS households in the city	190.42
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	**Percentage of slum areas covered through basic services**	**Non-Compuatble**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	Data Unavailable
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0**

Formula:	*Numerator / Denominator*	
Numerator	Total area of green space (sq.m.)	10.046
Denominator	Total population of the city	886519
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**3.82**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	3382440.056
Denominator	Total population of the city	886519
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	**Share of mixed land use area in overall city land use**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	Data Unavailable
Denominator	Total area of the city (total area of all land uses)	232000000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	**Net Density**	**0.01**
Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	886519
Denominator	Area allocated for residential land use (in hectares)	152114611
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	**Percentage of city population with authorized electrical service**	**26.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at household level	102089
Denominator	Total number of households in the city	380000
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	**Percentage of electrical connections covered through smart meters**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	0
Denominator	Total number of electricity connections in the city	259086
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	**Average number of electrical interruptions per year**	**1304**
Description	Total number of sustained electrical interruptions in a year	1304
Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	**Average length of electrical interruptions per year**	**0.79**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	54676
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	**Percentage of total energy derived from renewable sources**	**0**
Formula:	*Numerator / Denominator*	

Numerator	Total installed capacity for generation of renewable energy in the city	21272.13
Denominator	Total energy consumption from all sources	4129224000
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	**Energy consumption per unit - water supply and sewerage**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	75500
Denominator	Total quantum of water and waste water handled during the period	6648
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	**Energy consumption per unit – street lighting**	**0.35**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	7200
Denominator	Total number of street light installations	53820
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	**Percentage of new and redeveloped buildings following green building norms**	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	Data Unavailable
Unit	Percentage	
Benchmark	80%	

Indicator No: 10.9	**Total energy consumption per capita**	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	4129224000
Denominator	Total population of the city	886519
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 11: Transport and Mobility

Indicator No: 11.1	**Geographical coverage of public transport**	**0.51**
Formula:	*Numerator / Denominator*	
Numerator	Total length of public transport network (km)	186.4
Denominator	Total area of the city (sq.km)	232
Unit	Transport length (kms) per square km	
Benchmark	>=1	
Indicator No: 11.2	**Availability of public transport**	**0.31**
Formula:	*Numerator / Denominator*	
Numerator	Average number of public transport vehicles available per day	278
Denominator	Total population of the city	886519
Unit	Number per 1000 persons	
Benchmark	>=0.6	
Indicator No: 11.3	**Mode share of public transport**	**To be computed**
Description	Mode share of public transport	10
Unit	Percentage	
Benchmark		
Indicator No: 11.4	**Percentage of road network with dedicated bicycle tracks**	**0.59**
Formula:	*Numerator / Denominator*	
Numerator	Total length of bicycle network	20
Denominator	Total length of road network in the city	3400
Unit	Percentage	
Benchmark	>=50	
Indicator No: 11.5	**Percentage of interchanges with bicycle parking facilities**	**100**

Formula:	*Numerator / Denominator*	
Numerator	Total number of major transport interchanges with bicycle parking facility (within 250m radius)	18
Denominator	Total number of major transport interchanges in the city	18
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.6	**Mode share of non-motorised transport**[1]	**To be computed**
Description	Mode share of non-motorised transport	30
Unit	Percentage	
Benchmark		
Indicator No: 11.7	**Availability of Passenger Information System**	**0.61**
Formula:	Numerator / Denominator	
Numerator	Total number of major interchanges with PIS	11
Denominator	Total number of major interchanges in the city	18
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.8	**Extent of signal synchronisation**	**178.57**
Formula:	*Numerator / Denominator*	
Numerator	Total number of signalised intersections that are synchronised	50
Denominator	Total number of signalised intersections in the city	28
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.9	**Availability of paid parking spaces**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Total available on-street paid parking spaces in the city	Data Unavailable
Denominator	Total available on-street parking spaces in the city	151
Unit		

---

[1] The data for this indicator will be computed based on the primary data which is currently being collected

Benchmark		
Indicator No: 11.10	**Percentage coverage of footpaths – wider than 1.2m**	**7.35**
Formula:	*Numerator / Denominator*	
Numerator	Total length of footpaths (wider than 1.2 m) available in the city	500
Denominator	Total length of road network in the city	6800
Unit	Percentage	
Benchmark	>=75	
Indicator No: 11.11	**Percentage of traffic intersections with pedestrian crossing facilities**	**127.54**
Formula:	*Numerator / Denominator*	
Numerator	Total number of intersections with pedestrian crossing facilities on major roads	264
Denominator	Total number of junctions/ intersections on major roads in the city	207
Unit	Percentage	
Benchmark	100%	
Indicator No: 11.12	**Extent to which universal accessibility is incorporated in public rights-of-way**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of public right-of-way areas designed as per universal design principles	Data Unavailable
Denominator	Total number of public right-of-way areas in the city	393
Unit	Percentage	
Benchmark	100%	

Category 12: Assured Water Supply

Indicator No: 12.1	**Household level coverage of direct water supply connections**	**8.05**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households with direct water supply connection	30597
Denominator	Total number of households in the city	380000
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.2	**Per capita supply of water**	**204.85**

Formula:	*Numerator / Denominator*	
Numerator	Total quantity of water supplied into the distribution system	181.6
Denominator	Total population of the city	886519
Unit	Litres per capita per day (lpcd)	
Benchmark	135 lpcd	
Indicator No: 12.3	**Quality of water supplied**[2]	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of samples meeting or exceeding specified potable water standards	45
Denominator	Total number of samples tested for water quality	50
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.4	**Level of non-revenue water – NRW**	**0.18**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of water put into distribution system (mld) - Quantum of water sold (mld)	0.33
Denominator	Quantum of water put into the distribution system (mld)	181.6
Unit	Percentage	
Benchmark	Less than 15%	
Indicator No: 12.5	**Percentage of water connections covered through meters**	**10.44**
Formula:	*Numerator / Denominator*	
Numerator	Number of metered water connections	28000
Denominator	Total number of water connections in the city	268241
Unit	Percentage	
Benchmark	100%	
Indicator No: 12.6	**Percentage of plots with rainwater harvesting facility**	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	Number of new developments/redevelopments (of designated plot size), commercial and public buildings with RWH facility	Data Unavailable

---

[2] The data for this indicator will be computed based on the primary data which is currently being collected

Denominator	Total number of new developments/redevelopments (of designated plot size), commercial and public buildings in the city	Data Unavailable
Unit	Percentage	
Benchmark	100% of all new developments/ redevelopments with minimum plot size of 300 sq. m., and all commercial and public buildings should have rainwater harvesting facilities	

Category 13: Waste Water Management

Indicator No: 13.1	**Coverage of toilets**	**10.85**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with access to individual and/or community toilets	41062
Denominator	Total number of properties in the city	378504
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.2	**Coverage of sewerage network and/or septage**	**8.14**
Formula:	*Numerator / Denominator*	
Numerator	Total number of properties with connection to waste water management systems	30826
Denominator	Total number of properties in the city	378504
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.3	**Collection efficiency of sewerage network**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total waste water collected per day	40
Denominator	Total waste water generated in the city per day	40
Unit	Percentage	
Benchmark	100%	
Indicator No: 13.4	**Extent of reuse and recycling of waste water**	**139.25**
Formula:	*Numerator / Denominator*	
Numerator	Quantum of waste water recycled or reused per day	55.7
Denominator	Total waste water received at treatment plants per day	40

Unit	Percentage	
Benchmark	20% or more	
Indicator No: 13.5	**Coverage of storm water drains**	**19.12**
Formula:	*Numerator / Denominator*	
Numerator	Total length of covered primary, secondary and tertiary drains (of pucca construction)	650
Denominator	Total length of road network in the city	3400
Unit	Percentage	
Benchmark	100%	

Category 14: Solid waste management

Indicator No: 14.1	**Household level coverage of municipal solid waste collection**	**80.21**
Formula:	*Numerator / Denominator*	
Numerator	Total number of households and establishments covered through doorstep collection	344709
Denominator	Total number of households and establishments in the city	429779
Unit	Percentage	
Benchmark	100% door to door collection	
Indicator No: 14.2	**Efficiency of collection of municipal solid waste**	**100**
Formula:	*Numerator / Denominator*	
Numerator	Total quantum of MSW collected by the ULB or private operator	784
Denominator	Total quantum of MSW generated in the city	784
Unit	Percentage	
Benchmark	100%	
Indicator No: 14.3	**Extent of municipal solid waste recovered through reuse**	**34.02**
Formula:	*Numerator / Denominator*	
Numerator	Average quantum of MSW that is processed or recycled (tons per month)	8001.55
Denominator	Average MSW generated in the city (tons per month)	23520
Unit	Percentage	
Benchmark	80% or more	

Category 15: Reduced Pollution

Indicator No: 15.1	**Concentration of SO2 - air pollution**	**8.34**
Description	Annual mean concentration OR Mean concentration over 24 hours of SO2	8.34
Unit	µg/m3	
Benchmark	Annual mean concentration of 50 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.2	**Concentration of NO2 - air pollution**	**18.3**
Description	Annual mean concentration OR Mean concentration over 24 hours of NO2	18.3
Unit	µg/m3	
Benchmark	Annual mean concentration of 40 µg/m3 OR Mean concentration over 24 hours of 80 µg/m3	
Indicator No: 15.3	**Concentration of PM10 - air pollution**	**134.32**
Description	Annual mean concentration OR Mean concentration over 24 hours of PM10	134.32
Unit	µg/m3	
Benchmark	Annual mean concentration of 60 µg/m3 OR Mean concentration over 24 hours of 100 µg/m3	
Indicator No: 15.4	**Level of noise pollution**	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of noise samples meeting acceptable noise levels	20
Denominator	Total number of noise samples	20
Unit	Percentage	
Benchmark		
Indicator No: 15.5	**Quality of water in public surface water bodies**	**69.23**
Formula:	*Numerator / Denominator*	
Numerator	Number of tested samples meeting prescribed standards	18
Denominator	Total number of samples tested	26
Unit	Percentage	
Benchmark	100%	

LIVEABILITY ASSESSMENT

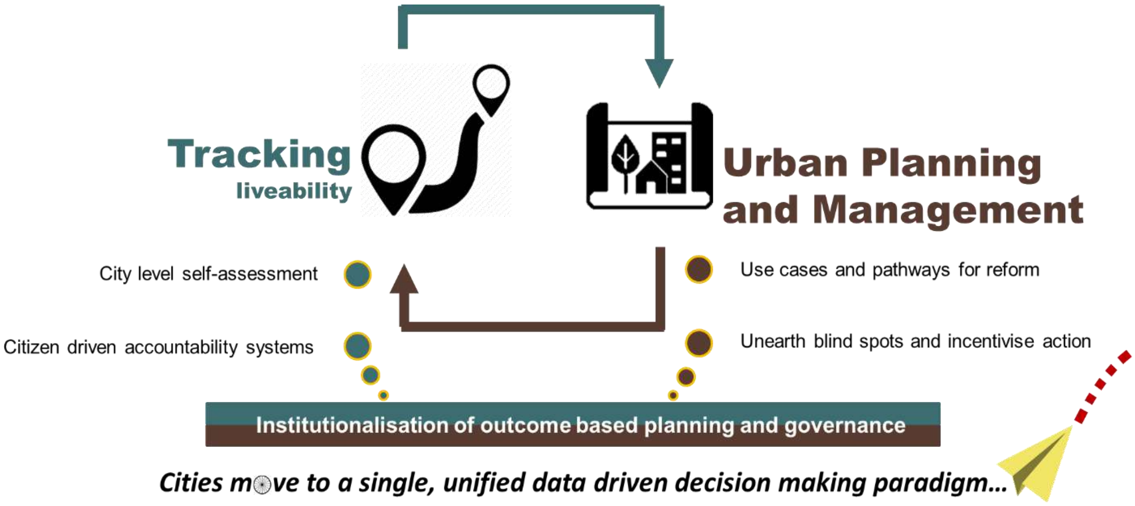
1. Introduction

The Ministry of Housing and Urban Affairs (MoHUA) is implementing several flagship urban missions such as the Smart Cities Mission (SCM), Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Heritage City Development and Augmentation Yojana (HRIDAY), Housing for All (HFA). Theses mission along with other transformative initiatives of the Government including National Water Mission, Power for All, National Health Mission are aimed at making Indian cities more 'liveable.' The overarching goal of these initiatives is to move from an input-based approach to a 'citizen centric-outcome based' assessment of urban liveability.

To develop a common minimum framework for cities to assess their existing status and chart their pathway towards providing a better quality of life to their citizens, the MoHUA developed a set of 'Liveability Standards' relevant to cities to generate a Liveability Index and ranking of cities. These standards were launched in June, 2017. The MoHUA has planned to conduct an 'Annual Assessment of Liveability Standards in Cities – an ambitious national project that will involve yearly submission of data by cities across the various indicators, compilation and analysis, development of indices and ranking of cities. The Liveability Index is envisioned as a 360° tool for tracking, planning and transforming Indian cities. The Liveability Index is aimed at the following objectives:

- Providing strong evidence-based approach for future interventions and investments to deliver liveability outcomes
- Catalysing actions to improve the overall quality of the city's liveability and achieve broader development outcomes including the Sustainable Development Goals
- Assessing the implementation of government policies and schemes governing characteristics of cities that can contribute to creating liveable communities

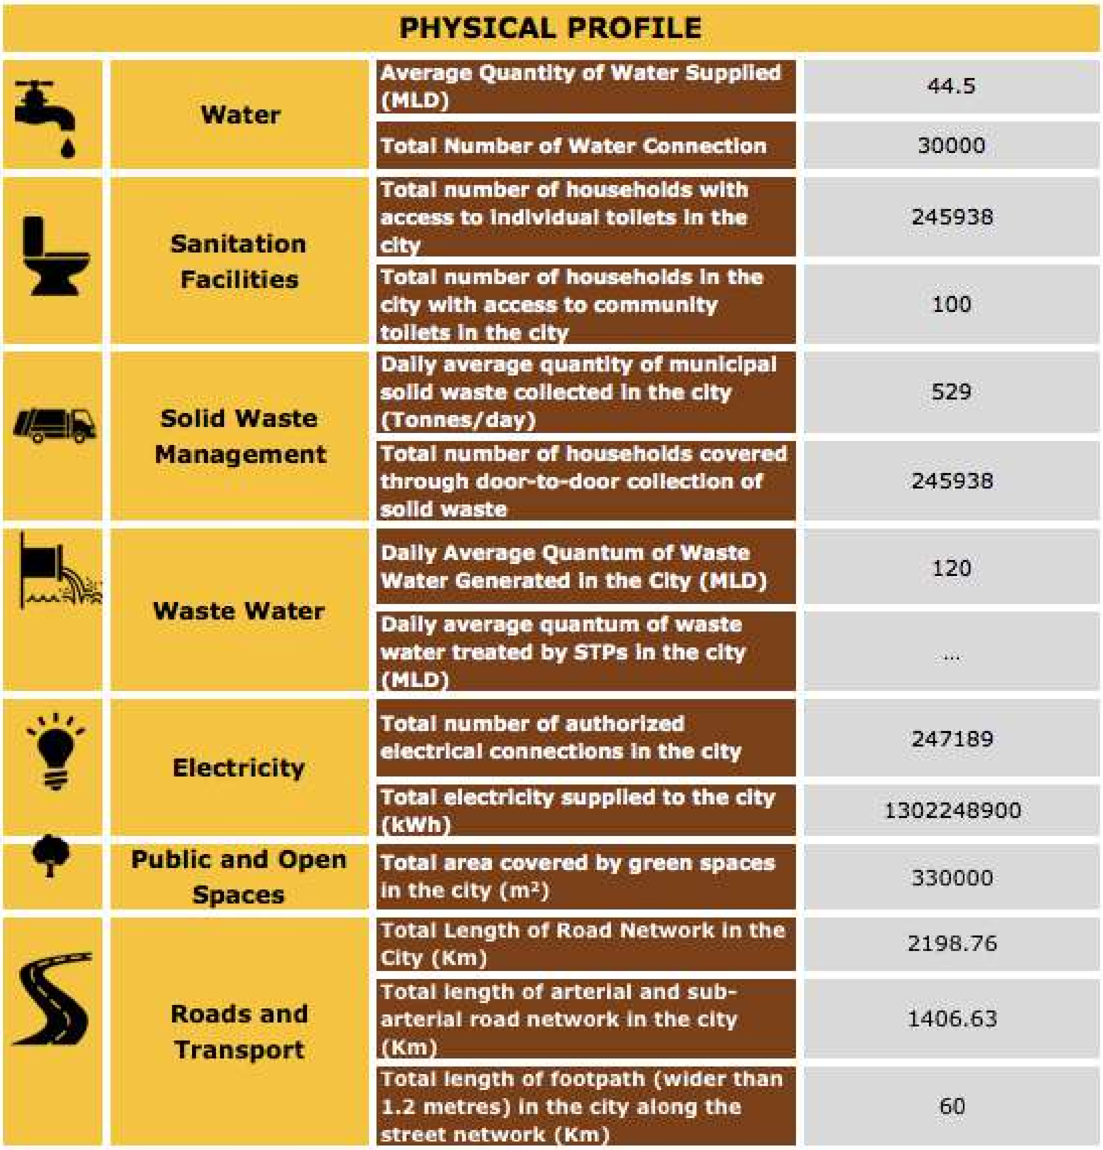


Tracking
liveability
Urban Planning
and Management
City level self-assessment
Citizen driven accountability systems
Use cases and pathways for reform
Unearth blind spots and incentivise action
Institutionalisation of outcome based planning and governance
Cities move to a single, unified data driven decision making paradigm...

The first round of the assessment commenced in January 2018 covering 116 major cities including smart cities, capital cities and cities with population of above one million each. Implementation of the liveability assessment commenced in January 2018 with a national level orientation workshop for the urban local bodies. The workshop aimed at orienting the states and urban local bodies on the overall framework, indicators, data sources, methodology and key milestones and timelines involved in the liveability assessment. Subsequently, a series of State/ Union Territory level orientation workshops were carried out in 33 states/UTs for a detailed discussion on the framework. Online data collection commenced from 9th March through an online data collection platform that supported both online and offline data submission modes. On the date of closure of the online data entry portal i.e., 16th April, 2018 112 cities submitted their data. Subsequently, comprehensive checks on the submitted data was undertaken that involved checking for outliers, logical inconsistencies etc. post which round-1 of data reconciliation was conducted. This draft report is based on round-1 of reconciled data as on 28th April, 2018.

2. City Profile

This chapter presents the city profile -Geographic and Demographic, Social (Education Health, Safety and Security, Heritage), Economic profile, and Physical (Water, sanitation and Waste Management, Electricity, Open space and roads).



PHYSICAL PROFILE		
Water	Average Quantity of Water Supplied (MLD)	44.5
	Total Number of Water Connection	30000
Sanitation Facilities	Total number of households with access to individual toilets in the city	245938
	Total number of households in the city with access to community toilets in the city	100
Solid Waste Management	Daily average quantity of municipal solid waste collected in the city (Tonnes/day)	529
	Total number of households covered through door-to-door collection of solid waste	245938
Waste Water	Daily Average Quantum of Waste Water Generated in the City (MLD)	120
	Daily average quantum of waste water treated by STPs in the city (MLD)	...
Electricity	Total number of authorized electrical connections in the city	247189
	Total electricity supplied to the city (kWh)	1302248900
Public and Open Spaces	Total area covered by green spaces in the city (m²)	330000
Roads and Transport	Total Length of Road Network in the City (Km)	2198.76
	Total length of arterial and sub-arterial road network in the city (Km)	1406.63
	Total length of footpath (wider than 1.2 metres) in the city along the street network (Km)	60

3. Liveability Framework and Indicators

The Liveability Framework comprises a total of 79 indicators (57 Core Indicators and 22 Supporting Indicators). A core indicator carries 70% weightage and a supporting indicator carries 30% weightage. These indicators are grouped under 15 thematic categories which in turn are part of four pillars of comprehensive development of cities i.e., institutional, social, economic and physical. Based on the perfor-

mance of cities against the various core and supporting indicators, various 'Category Sub-Indexes' and a composite 'City Liveability Index' will be developed for each city.

3.1. Scoring and Computing Category Indices of Liveability

The set of 79 indicators, associated categories and pillars are presented in the table below:

Table 1 List of Pillars, Categories and Indicators

Pillars of Comprehensive Development	**Category**	Indicators
Institutional	1. Governance	1.1 Percentage of citizen services available online
		1.2 Percentage of services integrated through Command Centre
		1.3 Percentage of citizens using online services
		1.4 Average delay in grievance redressal
		1.5 Tax collected as percentage of tax billed
		1.6 Extent of cost recovery (O&M) in water supply services
		1.7 Capital spending as percentage of total expenditure
		1.8 Percentage of population covered under Ward Committees/Area *Sabhas*
Social	2. Identity and Culture	2.1 Restoration and reuse of historic buildings
		2.2 Percentage of ecologically important areas covered through projects for restoration
		2.3 Hotel occupancy
		2.4 Percentage of budget allocated towards cultural/sports activities
		2.5 Number of cultural/sports events hosted by city
	3. Education	3.1 Percentage of school-aged population enrolled in schools
		3.2 Percentage of female school-aged population enrolled in schools
		3.3 Primary education student-teacher ratio

Pillars of Comprehensive Development	**Category**	Indicators
		3.4 Percentage of schools with access to digital education
		3.5 Percentage of students completing primary education
		3.6 Percentage of students completing secondary education
	4. Health	4.1 Number of in-patient hospital beds per 10,000 population
		4.2 Healthcare professionals per 10,000 population
		4.3 Average response time in case of health emergencies
		4.4 Period prevalence of water borne diseases
		4.5 Period prevalence of vector borne diseases
	5. Safety and Security	5.1 Number of CCTV Cameras
		5.2 Number of recorded crimes per lakh population
		5.3 Extent of crimes recorded against women, children and elderly per year
		5.4 Transport-related fatality per lakh population
Economic	6. Economy and Employment	6.1 Increase in VAT/GST collection
		6.2 Increase in collection of Professional Tax
		6.3 Increase in issuance of Construction permits
		6.4 Unemployment rate
		6.5 Percentage of vendors registered and provided formal spaces
Physical	7. Housing and Inclusiveness	7.1 Percentage of Slum/EWS households covered through formal/affordable housing
		7.2 Percentage of slum areas covered through basic services
	8. Public Open	8.1 Per capita availability of green spaces

Pillars of Comprehensive Development	**Category**	Indicators
	Spaces	8.2 Per capita availability of public and recreational places
	9. Mixed Land Use and Compactness	9.1 Share of mixed land use area in overall city land use
		9.2 Net Density
	10. Power Supply	10.1 Percentage of city population with authorized electrical services
		10.2 Percentage of electrical connections covered through smart meters
		10.3 Average number of electrical interruptions per year
		10.4 Average length of electrical interruptions per year
		10.5 Percentage of total energy derived from renewable sources
		10.6 Energy consumption per unit - water supply and sewerage
		10.7 Energy consumption per unit - street lighting
		10.8 Percentage of new and redeveloped buildings following green building norms
		10.9 Total energy consumption per capita
	11. Transportation and Mobility	11.1 Geographical coverage of public transport
		11.2 Availability of public transport
		11.3 Mode share of public transport
		11.4 Percentage of road network with dedicated bicycle tracks
		11.5 Percentage of interchanges with bicycle parking facilities
		11.6 Mode share of non-motorized transport
		11.7 Availability of Passenger Information System

Pillars of Comprehensive Development	**Category**	Indicators
		11.8 Extent of signal synchronization
		11.9 Availability of paid parking spaces
		11.10 Percentage coverage of footpaths – wider than 1.2 m
		11.11 Percentage of traffic intersections with pedestrian crossing facilities
		11.12 Extent to which universal accessibility is incorporated in public rights-of-way
	12. Assured Water Supply	12.1 Household level coverage of direct water supply connections
		12.2 Per capita supply of water
		12.3 Quality of water supplied
		12.4 Level of non-revenue water – NRW
		12.5 Percentage of water connections covered through meters
		12.6 Percentage of plots with rainwater harvesting facility
	13. Waste Water Management	13.1 Coverage of toilets
		13.2 Coverage of sewerage network and/or septage
		13.3 Collection efficiency of sewerage network
		13.4 Extent of reuse and recycling of waste water
		13.5 Coverage of storm water drains
	14. Solid Waste Management	14.1 Household level coverage of municipal solid waste collection
		14.2 Efficiency of collection of municipal solid waste
		14.3 Extent of municipal solid waste recovered through reuse
	15. Reduced Pollu-	15.1 Concentration of SO2- air pollution

Pillars of Comprehensive Development	**Category**	Indicators
	tion	15.2 Concentration of NO2- air pollution
		15.3 Concentration of PM10 - air pollution
		15.4 Level of noise pollution
		15.5 Quality of water in public surface water bodies

3.2. Scoring and Computing Category Indices of Liveability

The performance achieved by cities against 79 indicators, will be assessed against given benchmarks. Where no international/national norms are available, city with the best performance in its group (population range) will be treated as a benchmark. The groups are given in the table below.

Table 2 Details on Population Range

Category	Population range
Category 1	Population ≥ 4 million
Category 2	1 million ≤ Population < 4 million
Category 3	0.5 million ≤ Population < 1 million
Category 4	Population < 0.5 million

3.3. Scoring Approach and Methodology

A city can earn a maximum score of 100 points for 79 indicators across four pillars. The pillar weights are as follows: Institutional (25 points), Social (25 points), Economy and Employment (5 points) and Physical (45 points). Based on the number and nature of indicators i.e., core vs. secondary, indicator wise maximum marks were computed.

100 marks

(Maximum overall score that any city can achieve)

25 marks	**25 marks**	**5 marks**	**45 marks**
(Maximum score that any city can achieve under	(Maximum score that any city can achieve under	(Maximum score that any city can achieve under	(Maximum score that any city can achieve under

Dimensional Index Methodology (DIM) has been used to compute scores for each indicator with reference to "maximum within the comparison group" or "absolute benchmarks". For indicators where benchmarks are available, cities getting the benchmark score (or above) are given the maximum mark, and the marks awarded to other cities are calculated proportionately. For indicators where benchmarks are not available, the best performing cities in each population group are given the maximum mark, and the marks awarded to other cities (within the population group) are calculated proportionately. For indicators where benchmarks do not exist, the city data has been tested for outliers before scoring.

3.4. Scoring Normalisation:

To construct aggregate scores across cities as well as to make the scores across indicators comparable, indicator values were normalised using a min-max approach. The following formula was used to normalise the indicator values-

$$\frac{indicatorvalueforthecity - indicatorvaluefortheworstperformingcity}{benchmark - indicatorvaluefortheworstperformingcity}$$

This approach would restrict the normalised indicator value between 0 and 1. Cities that met or exceeded the benchmark received a normalised indicator value of 1. Worst performing cities are given a normalised indicator value of 0. After normalisation, the normalised value is weighted according to the category and the indicator being core or supporting.

To illustrate, consider the indicator 12.3 Quality of Water Supplied in the Category 12 for Assured Water Supply. If in City A 50% of the water samples collected qualify the potable water standards specified by the CPHEEO, and only 10% of the samples from worst performing city qualify the standards. Then, the normalised value for the indicator for city A would be 0.44 [(0.5-0.1)/(1-0.1)].

The weight for indicator 12.3 is 1.03, so the final weighted score for City A would come out to 0.45 [1.03*0.44].

4. Data Collection and Verification

4.1. Submission of Data by the cities

The Liveability Assessment is based on secondary data submitted by the urban local bodies and other concerned government agencies (collectively called as data owners). The 79 indicators were broken down into a set of easy to understand and relatable 553 questions mapped to data owners. Submission of the data was enabled through an online data entry portal on the smartnet platform of the Ministry. The portal also allowed the ULBs to download the liveability assessment questionnaire and upload filled in questionnaire. To familiarise and assist cities in identifying, mapping and collation of data points, a city level nodal person was available during the entire period of data submission process.

4.2. Mapping of Data Owners for the City

For the assessment of liveability indices broadly 12 data owners such as Central/state Pollution control board, Development authority, DISCOM/Electricity Board, State Disaster Management Authority, State Education Department, State Health department, State Renewable energy and development agency, State sales and commercial taxes department, town and country planning department, Traffic and police department, Transport authority, and Urban local body were identified to respond to the questions on the portal. However, during state workshop and subsequent city level discussions, more data owners were mapped to respond to different categories and sub categories. The following table provides the details of city level data owners mapped under the 12 data owner.

Table 3:Details of Data Owners

Designated data owners	Subcategories	Data owners at city level
Urban Local Body	For Accounts Related Questions	Accounts Department, Guwahati Municipal Corporation
Urban Local Body	For Park and Recreation Related Questions	Guwahati Municipal Corporation
Urban Local Body	For Water Supply and Drainage related questions	Water Division, Guwahati Municipal Corporation
Urban Local Body	For Heritage sites related data	Department of Culture, Guwahati
Urban Local Body	For Ecological sites related data	Department of Environment and Forest, Guwahati

Urban Local Body	For Housing related data	Guwahati Metropolitan Development authority, Guwahati
Urban Local Body	For Building plan related data	Guwahati Metropolitan Development authority, Guwahati
Urban Local Body	For Roads related data	Guwahati Municipal Corporation
Urban Local Body	For Solid waste management related data	Solid waste management Department, Guwahati Municipal Corporation
Urban Local Body	For IT services related data	Directorate of Information and Technology IT section, Guwahati Municipal Corporation
Urban Local Body	For Vendor committee related data	Guwahati Municipal Corporation
Urban Local Body	Any other departments involved in providing data for questions mentioned under Urban Local Body	
Central / state Pollution control Board	Water Quality, Air Quality, Noise Quality	Assam Pollution Control Board
Development Authority	Building Infrastructure	Guwahati Metropolitan Development authority, Guwahati
	Construction planning	Guwahati Metropolitan Development authority, Guwahati
	Green Building	Guwahati Metropolitan Development authority, Guwahati
	Rain water harvesting	Guwahati Metropolitan Development authority, Guwahati
	Universal Design Principle	Guwahati Metropolitan Development authority, Guwahati
DISCOM/Electricity Board	Electrical Connection/ Grievance Redressal/ Power supply	Assam Power Distribution

State Disaster management authority		District Disaster management Office
State Education Department		Office of Inspector of School, Guwahati
State Health Department	Health care professionals	State Health Department
	Citizen Services	State Health Department
	Disease Prevalence	State Health Department
	Health Infrastructure	State Health Department
State Renewable Energy Development Agency		Assam Renewable Energy Development Agency
State Sales / Commercial Taxes Department		Sales and commercial Taxes department
Town and Country Planning Department	Land Use	Guwahati Metropolitan Development authority, Guwahati
Traffic and Police Department		Office of Commissioner of Police, Guwahati Department of Home Affaires
Transport Authorities	Buses	District Transport Office
	Registered Vehicles	District Transport Office
	Sub urban rail transport	NA
	Mono Rail Authority	NA

	Tramways	NA
	Marine Transport Authority	State transport authority

4.3. List of secondary documents available as supportive

City has provided supporting documents/evidences against the responses given by city on the online portal. In support of their responses on the portal, city submitted 39 number of documents. Documents submitted includes reports, official orders, copy of data maintained in official register, signed copy of questionnaire, and signed letters/submissions from concern departments. Verification includes mapping of documents against responses given by city, checking the type/category of documents, and validation of data provided.

The following table presents the data owner wise number of documents:

Table 4: Data owner wise number of secondary documents submitted by city

Data Owners	Number of Documents
Sales and Commercial Taxes	3
State Education Department	1
DISCOM/Electricity Department	11
Traffic and Police Department	1
Development Authority	6
Pollution Control Board	6
State Renewable Energy Department	4
Town and Country Planning	0
State Health Department	1
Transport Authority	5

Disaster Management	1
Urban Local Body	0
Total	39

* The count of documents is based on first round of submission.

4.4. Data Verification

A three-stage data quality check comprising verification of data against secondary documents furnished by data owners, logical inconsistency checks including outliers, and physical audit for select indicators (Refer the exhibit below) is being undertaken. The objective of the data quality check is to ensure that data from the source documents are accurate and verifiable. Sources of data included reports, administrative data, survey results and other statistical records, log books among other.

Physical audit of eight indicators – one indicator from the Institutional pillar, one from the Social pillar, one from the Economy pillar and five from the Physical pillar is also being carried out by the field team to ascertain the degree of reliability of data reported by the cities. The list of these eight indicators is presented below:

- 1.2 | Percentage of services integrated through Command Centre
- 2.3 | Hotel occupancy
- 3.4 | Percentage of schools with access to digital education
- **5.1**| Number of streets, public places, junctions covered through surveillance systems
- 6.5 | Percentage of vendors registered and provided formal spaces
- 11.7 | Availability of Passenger Information System
- 11.11 | Percentage of traffic intersections with pedestrian crossing facilities
- 11.12 | Extent to which universal accessibility is incorporated in public rights-of-way

For a set of five indicators namely, unemployment rate, mode share of public transport, mode share of non-motorised transport, quality of water supplied and level of noise pollution, existing datasets were found to be not available consistently across all cities and/or were inadequate. To help cities that do not have data on these five indicators, dipstick assessments are being carried to fill data gaps.

6.4 | Unemployment Rate

11.3 | Mode share of public transport

11.5 | Mode share of Non Motorized Transport

12.3 | Quality of Water Supplied

15.4 | Level of Noise Pollution

4.5. Physical Audit

The following map presents the indicators audited at city level.

6. LA - Passenger Information Systems

5. Indicator Values

In this chapter, indicator values for 74 indicators excluding the five indicators for which primary data collection is currently underway is presented. The five indicators include:

Indicator number	Indicator title
Indicator No. 6.4	Unemployment rate
Indicator No. 11.3	Mode share of public transport
Indicator No. 11.5	Mode share of non-motorised transport
Indicator No. 12.3	Quality of drinking water
Indicator No. 15.4	Noise pollution

For each indicator, the corresponding definition, unit of expression i.e., number, percentage etc. indicator value based on the data provided for the numerator /denominator, subtrahend/minuend etc., and the corresponding benchmark values has been presented. The indicators are organized, pillar and category wise for easy reference.

Table 5: Details of Indicator Values

Pillar: Institutional

Category 1: Governance

Indicator No: 1.1	Percentage of citizen services available online	**41.12**
Description	Average citizen services available online	
Sub Indicators	1.1a birth certificate	0.25
	1.1b death certificate	0.25
	1.1c trade license	1
	1.1d solid waste management	0
	1.1e water supply	0
	1.1f sewerage/drainage	0

	1.1g fogging	0
	1.1h property tax	0.666666666666667
	1.1i professional tax	0
	1.1j information	0.846153846153846
	1.1k Grievance redressal	1
	1.1l electricity	1
	1.1m Building plan	0.333333333333333
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.2	Percentage of services integrated through Command Centre	**0**
Description	Services integrated through an integrated or a singular operations command centre	0
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.3	Percentage of citizens using online services	**11.55**
Description		
Sub Indicators	1.3a Building plan	NA
	1.3b Birth/Death Certificate	0.00038578082038045
	1.3c water supply	0
	1.3d solid waste management	0
	1.3e property tax	0.0918635170603675
	1.3f professional tax (RC)	NA

	1.3g professional tax (EC)	NA
	1.3h complaints/ grievance redressal	NA
	1.3i information	NA
	1.3j electricity	0.485458495321394
Unit	Percentage	
Benchmark	100%	
Indicator No. 1.4	Average delay in grievance redressal	**0.5**
Description		
Sub Indicators	1.4a water supply	2
	1.4b solid waste	0
	1.4c street lights	0
	1.4d sewerage	0
	1.4e professional tax	0
	1.4f parks and recreational spaces	1.5
	1.4g building plan	0
Unit	Days	
Benchmark	0	
Indicator No: 1.5	Tax collected as percentage of tax billed	**107.11**
Formula:	*Numerator / Denominator*	
Numerator	Total tax collected in a year	5792.86
Denominator	Total demand raised for the year	5408.08
Unit	Percentage	
Benchmark	90%	

Indicator No: 1.6	Extent of cost recovery (O&M) in water supply services	**51.41**
Formula:	*Numerator / Denominator*	
Numerator	Total collection of user charges in water supply in a year	620
Denominator	Total O&M cost for providing water supply services during the year	1206
Unit	Percentage	
Benchmark	100%	
Indicator No: 1.7	Capital spending as percentage of total expenditure	**11.51**
Formula:	*Numerator / Denominator*	
Numerator	Total capital expenditure during a year	3501.01
Denominator	Total expenditure (revenue and capital accounts) in the same year	30426.42
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	
Indicator No: 1.8	Percentage of population covered under Ward Committees/ Area *Sabhas*	**100**
Formula:	*Numerator / Denominator*	
Numerator	Number of Wards with notified ward committees	31
Denominator	Total number of wards	31
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification)	

Pillar: Social

Category 2: Identity and Culture

Indicator No: 2.1	Restoration and reuse of historic buildings	**Non-Computable**
Formula:	*Numerator / Denominator*	

Numerator	Number of historic buildings/sites re-stored/preserved/brought under adaptive reuse	0
Denominator	Total number of historic buildings/sites identified	0
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.2	Percentage of ecologically important areas covered through projects for restoration	**0**
Formula:	*Numerator / Denominator*	
Numerator	Ecologically important sites covered through projects for restoration	0
Denominator	Total number of ecologically important sites identified in the city	27
Unit	Percentage	
Benchmark	100%	
Indicator No: 2.3	Hotel Occupancy	**66.8**
Description	Average Occupancy rate of Hotels	66.8
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.4	Percentage of budget allocated towards cultural/sports activities	**0**
Formula:	*Numerator / Denominator*	
Numerator	Budget allocated for cultural/sports activities	0
Denominator	Total budget of the ULB (capital and revenue)	13430.53
Unit	Percentage	
Benchmark	City with the highest performance (amongst cities in the same city-size classification) will be treated as the benchmark	
Indicator No: 2.5	Number of cultural/sports events hosted by city	**0**

Description	Number of cultural/sports events hosted by the city authority in the preceding year	0
Unit		
Benchmark		

Category 3: School Education

Indicator No: 3.1	Percentage of school-aged population enrolled in schools	**103.62**
Formula:	*Numerator / Denominator*	
Numerator	Total enrolment in primary and secondary schools (public and private)	155624
Denominator	Total population in the age group of 6-14 years	150188
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.2	Percentage of female school-aged population enrolled in schools	**106.59**
Formula:	*Numerator / Denominator*	
Numerator	Total female enrolment in primary and secondary schools (public and private	77532
Denominator	Total female population in the age group of 6-14 years	72741
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.3	Primary education student-teacher ratio	**47.88**
Formula:	*Numerator / Denominator*	
Numerator	Total number of students in primary grades (public and private)	100395
Denominator	Total number of teachers available for primary grades (public and private schools)	2097

Unit	Ratio	
Benchmark	1 teacher for every 30 students	
Indicator No: 3.4	Percentage of schools with access to digital education	**18.4**
Formula:	*Numerator / Denominator*	
Numerator	Number of schools (public and private) with facilities for using digital educational content (availability of necessary infrastructure and connection to digital resources such as NKN)	226
Denominator	Total number of schools	1228
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.5	Percentage of students completing primary education	**65.94**
Formula:	*Product of ratios of students passing successive grades (between grades 1 to 5) in 2016-17*	
Numerator	Percentage	65.9427864211996
Unit	Percentage	
Benchmark	100%	
Indicator No: 3.6	Percentage of students completing secondary education	**81.18**
Formula:	*Product of ratios of students passing successive grades (between grades 6 to 8) in 2016-17*	
Numerator	Percentage	332967244
Unit	Percentage	
Benchmark	100%	

Category 4: Health

Indicator No: 4.1	Number of in-patient hospital beds per 10,000 population	**51.96**
Formula:	*Numerator / Denominator*	
Numerator	Number of in-patient hospital beds in public and private hospi-	5000

	tals	
Denominator	Total population of the city	962334
Unit	Number per 10,000 population	
Benchmark	25 beds per 10000 population	
Indicator No: 4.2	Healthcare professionals per 10,000 population	962334
Formula:	*Numerator / Denominator*	
Numerator	Total number of qualified healthcare professionals	2215
Denominator	Total population of the city	962334
Unit	Number per 10,000 population	
Benchmark	23 beds per 10000 population	
Indicator No: 4.3	Average response time in case of health emergencies	**23**
Description	Total response time for health-related distress calls received in the city	23
Unit	Minutes and seconds	
Benchmark	8 minutes	
Indicator No: 4.4	Period prevalence of water borne diseases	**0.42**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by water borne diseases in a year	4004
Denominator	Total population of the city	962334
Unit	Percentage	
Benchmark	City with the lowest prevalence of water-borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 4.5	Period prevalence of vector borne diseases	**0.44**
Formula:	*Numerator / Denominator*	
Numerator	Number of cases of persons affected by vector borne diseases in a year	4231
Denominator	Total population of the city	962334

Unit	Percentage	
Benchmark	City with the lowest prevalence of vector borne diseases (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 5: Safety and Security

Indicator No: 5.1	Total number of CCTV cameras installed in the city	**169.28**
Formula:	*Numerator / Denominator*	
Numerator	Total number of CCTV cameras installed	3722
Denominator	Total length of road network in the city	2198.76
Unit	Percentage	
Benchmark	100%	
Indicator No: 5.2	Number of recorded crimes per lakh population	**1666.57**
Formula:	Numerator / Denominator	
Numerator	Total number of crimes recorded in a year	16038
Denominator	Total population of the city	962334
Unit	Crimes per lakh	
Benchmark	City with the lowest crime rate (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 5.3	Extent of crimes recorded against women, children and elderly per year	**10.87**
Formula:	*Numerator / Denominator*	
Numerator	Number of crimes recorded against vulnerable groups (women, children and elderly) in a year	1744
Denominator	Total crimes recorded in the same year	16038
Unit	Percentage	
Benchmark	City with the lowest proportion of crimes against vulnerable groups (amongst cities in the same city-size classifi-	

	cation) will be treated as a benchmark	
Indicator No: 5.4	Transport-related fatality per lakh population	**28.99**
Formula:	*Numerator / Denominator*	
Numerator	Total number of fatalities recorded in road accidents in a year	279
Denominator	Total population of the city	962334
Unit	Fatality per lakh	
Benchmark	<=2 persons per lakh	

Economic Pillar

Category 6: Economy and Employment

Indicator No: 6.1	Increase in VAT/GST collection	**23.43**
Formula:	*Numerator / Denominator*	
Numerator	(Total VAT/GST collection during the year – Total VAT/GST collection during preceding year)	107762.02
Denominator	Total VAT/GST collection during preceding year	4598.5858
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.2	Increase in collection of Professional Tax	**Non-Computable**
Formula:	*Numerator / Denominator*	
Numerator	(Total Professional Tax collection during the year – Total collection during preceding year)	0
Denominator	Total Professional Tax collection during preceding year	0
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	

Indicator No: 6.3	Increase in issuance of Construction Permits	**61.63**
Formula:	*Numerator / Denominator*	
Numerator	(Number of permits issued during the year – Number of permits during preceding year)	967
Denominator	Number of construction permits during preceding year	15.69
Unit	Percentage	
Benchmark	City with the highest increase in collection (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 6.4	Unemployment Rate	**To be computed**
Formula:	*Numerator / Denominator*	
Numerator	Number of unemployed persons (seeking or available for work)	0
Denominator	Total labour force in the city	150188
Unit	Per 1000 persons	
Benchmark	City with the lowest unemployment rate (amongst cities in the same city-size classification as given in this document) will be treated as a benchmark	
Indicator No: 6.5	Percentage of vendors registered and provided formal spaces	**0**
Formula:	*Numerator / Denominator*	
Numerator	Number of street vendors registered and provided formal spaces	0
Denominator	Total number of vendors in the city	7183
Unit	Percentage	
Benchmark	100%	

Category 7: Housing and Inclusiveness

Indicator No: 7.1	Percentage of Slum/EWS households covered through formal/ housing	**7.35**
Formula:	*Numerator / Denominator*	
Numerator	Total number of slum and EWS households covered through formal/affordable housing	3685
Denominator	Total number of slum and EWS households in the city	501.48
Unit	Percentage	
Benchmark	100%	
Indicator No: 7.2	Percentage of slum areas covered through basic services	**0.03**
Formula:	*Numerator / Denominator*	
Description	Product of ratios of slum households with access to each of water supply, toilets and solid waste management	1825882560
Unit	Percentage	
Benchmark	100%	

Category 8: Public Open Spaces

Indicator No: 8.1	Per capita availability of green spaces	**0.34**
Formula:	*Numerator / Denominator*	

Numerator	Total area of green space (sq.m.)	330000
Denominator	Total population of the city	962334
Unit	Square metres (sq.m.)	
Benchmark	10-12 sq.m. per capita	
Indicator No: 8.2	Per capita availability of public and recreational places	**4.81**
Formula:	*Numerator / Denominator*	
Numerator	Total area of public and recreational places (sq.m.)	4630000
Denominator	Total population of the city	962334
Unit	Square metres (sq.m.)	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 9: Mixed Land-use and Compactness

Indicator No: 9.1	Share of mixed land use area in overall city land use	**5.14**
Formula:	*Numerator / Denominator*	
Numerator	Total area under mixed land use	11140000
Denominator	Total area of the city (total area of all land uses)	216790000
Unit	Percentage	
Benchmark	City with the highest percentage of mixed use (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 9.2	Net Density	**0.01**

Formula:	*Numerator / Denominator*	
Numerator	Total population of the city	962334
Denominator	Area allocated for residential land use (in hectares)	86460000
Unit		
Benchmark	City with the highest net density (amongst cities in the same city-size classification) will be treated as a benchmark	

Category 10: Power Supply

Indicator No: 10.1	Percentage of city population with authorized electrical service	**84.38**
Formula:	*Numerator / Denominator*	
Numerator	Number of authorized electrical connections at house-hold level	207526
Denominator	Total number of households in the city	245938
Unit	Percentage	
Benchmark	City with the highest per capita availability (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.2	Percentage of electrical connections covered through smart meters	**5.39**
Formula:	*Numerator / Denominator*	
Numerator	Number of electrical connections (residential and commercial) with smart meters	13314
Denominator	Total number of electricity connections in the city	247189
Unit	Percentage	
Benchmark	100%	
Indicator No: 10.3	Average number of electrical interruptions per year	**23280**
Description	Total number of sustained electrical interruptions in a year	23280

Unit	Number	
Benchmark	City with the lowest number of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.4	Average length of electrical interruptions per year	**0**
Description	Sum of duration of all sustained electrical interruptions in a year (in hours)	2332262
Unit	Hours	
Benchmark	City with the lowest average length of outages (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.5	Percentage of total energy derived from renewable sources	**0**
Formula:	*Numerator / Denominator*	
Numerator	Total installed capacity for generation of renewable energy in the city	24074
Denominator	Total energy consumption from all sources	1302278422.625
Unit	Percentage	
Benchmark	10%	
Indicator No: 10.6	Energy consumption per unit - water supply and sewerage	**0.34**
Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on water supply and sewerage services	25000
Denominator	Total quantum of water and waste water handled during the period	1335
Unit	kWh per million litres	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.7	Energy consumption per unit – street lighting	**0.33**

Formula:	*Numerator / Denominator*	
Numerator	Energy consumption on street lighting	4100000
Denominator	Total number of street light installations	9500
Unit	kWh per light installation	
Benchmark	City with the lowest per unit consumption (amongst cities in the same city-size classification) will be treated as a benchmark	
Indicator No: 10.8	Percentage of new and redeveloped buildings following green building norms	**NC**
Formula:	*Numerator / Denominator*	
Numerator	Built up area of new/redeveloped buildings completed that have received green ratings	Data Unavailable
Denominator	Total built up area of all new/redeveloped buildings completed during the same year	174287.49
Unit	Percentage	
Benchmark	80%	
Indicator No: 10.9	Total energy consumption per capita	**0.58**
Formula:	*Numerator / Denominator*	
Numerator	Total energy consumption (for all uses) in the city	1302278422.625
Denominator	Total population of the city	962334
Unit	kWh per capita	
Benchmark	City with the lowest per capita consumption (amongst cities in the same city-size classification) will be treated as a benchmark
